VACCINATION

650000

An Account of its Origin and its Value for the Prevention of Smallpox.

The Medical Department under the direction of Dr. Alvah H. Doty, will issue each month an article on the subject of Hygiene or matters pertaining to preservation of health and protection against disease. In order that the various subjects which are to appear may be more fully understood, those of the greatest importance will receive first consideration. It is suggested that the articles referred to be kept for reference, besides in this way a hand-book covering practically the entire subject of Hygiene may be secured.

Article 12.

Reference is constantly being made in the public and other current literature to the use of vaccination, antitoxin and serum in connection with the prevention and treatment of disease, while the terms are more or less familiar to all, the means by which the results are obtained, the theory regarding their use and the results expected from their use, is not so well known in the public mind.

Vaccination for the prevention of smallpox is the most effective measure of the above group best known and most commonly employed, and will therefore be dealt with in this article. Similar preventive measures will subsequently be considered.

Many years before vaccination was thought of as a means of modifying smallpox or rendering it mild, and known as "Inoculation", was extensively practiced in the East, particularly in Constantinople, this was in active operation about 1700 and a century later was introduced into England. Inoculation consisted in obtaining the fluid or lymph from the little vesicles which form during the early stage of the eruption of this disease and introducing it under the skin of those who desired or were forced

to receive this form of protection. While smallpox was produced in the one inoculated it was usually of a very mild type, but protected against the danger of contracting the disease in the regular way with the possibility of causing great disfigurement or a fatal result. It was found, however, that although inoculation extended protection in the way described, a person thus treated became a medium of infection and transmitted smallpox to others, often in its severest form, and in England its further use was prohibited by an Act of Parliament in the early part of the last century.

Inoculation may appear to us an exceedingly drastic method of protection, but it must be remembered that at the period it was employed the public were almost helpless in preventing the ravages of smallpox and were willing to take advantage of almost any measures which provided even partial defense against it. There is probably no subject the statistics of which are more voluminous and more convincing than those which relate to the destruction following in the wake of this disease before vaccination was discovered, for one-tenth to one-half of all deaths which occurred were caused by smallpox, and one-third of the number of babies born died from it within a year, and many who recovered were either made blind or otherwise disfigured. In 1734 two-thirds of the entire population of Greenland died from this cause, therefore it is not strange that the public mind was constantly disturbed regarding the danger from this source.

During the latter part of the 18th century Dr. Edward Jenner, a young English physician who had given this subject careful and exhaustive study had learned of the tradition existing among employees of dairies that those whose hands became infected while milking cows having a disease known as "Cowpox", which caused an eruption about the udder or teats, were protected against smallpox. It seems strange that this alleged immunity had not before received earnest attention, but the indifference of the public to traditions and the reticence on the part of dairy owners to furnish information which might unfavorably affect their business may partly account for this; however, it did not escape the careful observation of Jenner, who for almost thirty years investigated this subject, and then, having demonstrated satisfactorily to himself the protective power of the method afterwards known as "vac-

cination", he presented to the world a minute and extensive description of his work and his conclusions relative to this protective measure.

Jenner did not try to conceal his discovery, but freely discussed it and invited aid, but for a long time met with nothing but indifference and discouragement. Even Dr. John Hunter, one of the greatest physicians of his time and under whose care Jenner studied as a favorite pupil, was at first but little impressed with the importance of vaccination, although he frequently referred to it in his lectures. Still undaunted, Jenner continued his investigation, and on May 14th, 1796, was allowed to vaccinate a boy eight years of age with lymph or fluid taken from a vesicle on the hand of a dairy maid who had contracted the so called "cowpox." In July of the same year this boy was inoculated with smallpox in the manner already described and, as Jenner predicted, the latter disease did not occur. Jenner afterwards vaccinated others with similar successful results. The account of his discovery soon became known throughout the world and vaccination spread with great rapidity, being introduced into the United States about 1800.

Jenner believed that the protective power of vaccination depended upon the fact that the disease known as "cowpox" was really smallpox in the cow, but the infection in passing through the system of this animal became greatly modified or changed in character, although it became a protection against smallpox when introduced into the human being. This belief is still maintained, although the practical disappearance of "cowpox" has made it impossible for the scientists of the present time to continue the investigation begun by Jenner.

It is reasonable to assume that the hands of the milker through cracks or minute openings in the skin became infected by contact with the vesicles on the udder or teats of the cow, and that this infection, upon entering the system, provided protection against smallpox, the original cause of the disease in the cow. Jenner very properly argued that the same result would be secured, but in a much more satisfactory, effective and practical manner, if the contents of these vesicles were obtained in a more scientific way in order that the lymph could be conveniently and at any time introduced under the skin of those who were to receive the benefit of this protection. This was done by opening the vesicles on the teats or udder of the cow and removing their contents on various articles or points possibly of ivory, glass, or quills, etc., from which it could be easily transferred to a scarified or exposed surface of the skin. This was the origin of vaccination. The lymph or virus as it is called is interchangeable between the cow and the human being, i.e. the lymph taken from the vesicles on the cow will successfully vaccinate a human being, and that removed from the human vesicles can be used for vaccinating the cow,

or the virus may be transferred directly from one person to another. In this way the supply of vaccine matter may be perpetuated. A fresh supply has often been obtained by inoculating cows with the lymph taken from the smallpox vesicle. At the present day the supply is maintained by vaccinating young calves with the lymph or virus taken from other calves or from children. At the proper stage the lymph or fluid in the vesicles on the cleanly shaven abdomen of the calf is removed, taken to the laboratory where it is examined to detect the presence of contaminating organisms and where it is also carefully tested. It is then mixed with glycerine or some other agent and placed in small vials and hermetically sealed and ready for use.

When a vaccination is successful, or "takes", a very characteristic vesicle appears within a few days after the operation at the point of introduction of the virus, this passes through various stages, becomes dried and the scab afterwards drops off at varying periods, leaving a characteristic depression or scar, which to those who are practically familiar with its appearance indicates the success of the vaccination.

Until about twenty years ago vaccination was performed largely by what is known as "arm to arm" vaccination. This consisted in taking lymph from the vaccine vesicle on the arm (or other part of the body) of a recently vaccinated healthy child and immediately transferring it to the scarified arms of the children or adults brought together for this purpose.

Another method of vaccination consisted in collecting the scabs from the arms of children known or believed to be in good healthy condition, mixing it with glycerine or some other fluid and using it for vaccination. While these methods were very successful it was feared that they constituted a possible medium of transmitting diseases from one person to another, although the danger from this source is greatly exaggerated; however, to prevent any possible danger in this way these methods of vaccination have been practically abandoned and the virus is now obtained from calves in the manner already described.

Those who are practically familiar with vaccination recognize that it does not confer immunity or protection in every case, still this in no way affects the inestimable value of this form of protection, for as a rule it can be depended upon. If not always to prevent the disease at least to render it mild. In some instances the primary or first vaccination will protect throughout life, in other cases it may not insure immunity for more than two or three years; however, it is believed by those who are competent to judge that if a person is successfully vaccinated in infancy and again about ten or twelve years of age immunity is generally conferred throughout life. This course has been strictly followed in Germany,

and there is probably no country where fewer cases of smallpox occur, however, it is generally believed that vaccination should be performed every seven to ten years, there is scientific evidence to support this view, and it should be regarded as an extra precaution, particularly in the presence of an outbreak of smallpox.

There are some who do not approve of vaccination, chiefly among those who have had little or no personal experience with this means of protection, some of whom it is alleged not only deliberately distort statistics relative to this subject to suit their purpose, but present all sorts of theories other than vaccination to account for the decline of smallpox. While it is not the object of this article to discuss this point it may be said that in the ranks of anti-vaccinationists there are found few if any of the leading practical sanitarians of the day, who from long personal experience know the value of vaccination as a protection against smallpox.

Vaccination is often objected to on the ground that danger may follow its use. Unpleasant conditions rarely occur, when they do it is usually the result of carelessness or uncleanness, these conditions also present themselves in instances where simple wounds are not properly protected.

For various reasons vaccination, although a simple operation, should be performed by physicians and not laymen, except in instances where emergencies exist; besides, those vaccinated should be kept under professional observation until the arm heals and the scab falls off, this not only for the welfare of the person vaccinated, but also to determine if the vaccination proves successful.

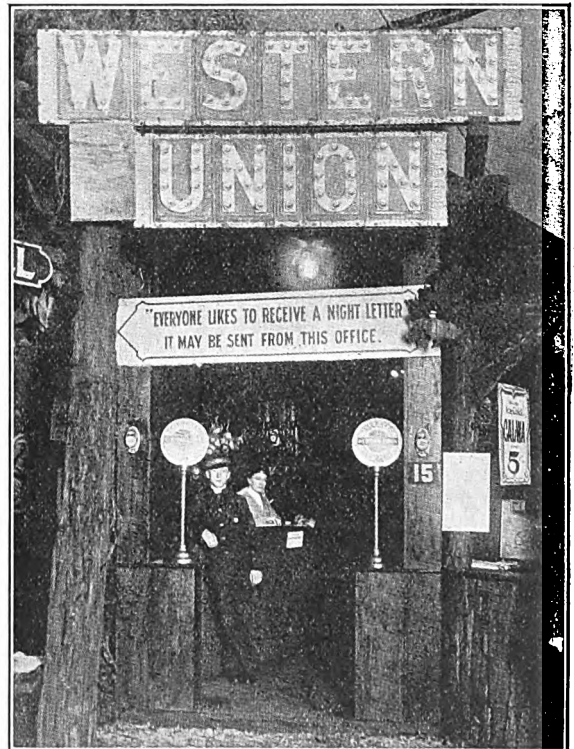

In order to secure successful vaccination it is exceedingly important that great care be taken in the production of the lymph or virus. Vaccine matter is now prepared largely by state and municipal laboratories and free vaccination is generally performed. This insures without expense the best virus and most effective means of performing the operation. Health authorities throughout the country should be equipped to offer free vaccination in order that it may be properly and fully carried out, and it should be without expense to the individual, for it is a general protective measure.

A very simple, practical and sanitary method of vaccination which is at present employed consists in the scarification of the skin with the point of a needle, in order that too much blood may not be drawn, the lymph being transferred from the vial to the skin by wooden tooth picks, both the needle and picks having been purchased in unopened packages and therefore new and clean. These are used but once and then thrown away.

The character or appearance of a successful vaccination depends upon whether or not it is a primary or a first vaccination, or a secondary or re-vaccina-

tion. A primary vaccination may easily be detected by a white pearly ring which surrounds the vesicle in its early stage, this does not appear in the re-vaccination, the latter having no special characteristics which as a rule would be recognized by a layman. It is to properly determine the success of this operation that the observation of a physician is necessary, for while a re-vaccination may be quite sore and painful, and associated with considerable inflammation, it does not necessarily follow that it is successful or confers immunity, this being decided largely by the appearance of the scar. Many persons vaccinate themselves or members of their family, or, after having been vaccinated by a physician, do not see him again in order that the result of the operation may be determined, and therefore cannot be quite sure that protection is conferred, and may be susceptible to smallpox. Therefore it is necessary that the result of every vaccination should be examined by a physician.

The outside of the left arm is usually chosen for vaccination, for as a rule it is used less than the right one and therefore subjected to less movement. For appearance sake some are vaccinated on the leg although this is less desirable. The local symptoms are apt to be more severe and locomotion is not infrequently interfered with.

California Land Show Office.

Western Union booth and branch office at California Land Show, held at San Francisco recently.

Western Division Changes.

The following changes in the Seventh District have been reported:

Oxford, Ohio, H. L. Bader, appointed Manager.
 Rushville, Ind., E. Bowen, Transferred. V. O. Elkins, appointed, Manager.
 Vincennes, Ind., J. R. Clark, Resigned. E. W. Titus, appointed Manager.
 Hicksville, Ohio, M. G. Wort, appointed Manager.
 North Vernon, Ind., C. B. Delaney, Resigned. John T. Curtis, appointed Manager.
 Olney, Illinois, W. E. Raling, Manager, Resigned. F. J. Decker, appointed.
 West Carrollton, Ohio, L. J. Ludlow, appointed Manager.
 Fairfield, Ills., F. J. Decker, Manager, Transferred. McLaren Fox, appointed Manager.
 Bridgeport, Ills., E. Bowen, appointed Manager.
 Columbus, Ohio, S. M. Dunlap, Resigned. L. R. Scholl, appointed Manager.
 Gallipolis, Ohio, J. C. Francis, Manager, Resigned. R. M. Pollock, appointed Manager.

Week End Letter Service Chili and Peru.

Effective September 1st the Week End Letter Service now in effect with Argentine Republic was extended to Chili and Peru at the same rates and under the same regulations governing that service to Argentine shown on pages 858 and 859 of the Tariff Book.

Deferred Cable Service.

The following countries have been added to list of places shown on page 861 of Tariff Book to which Deferred Cable Service is in operation:

Chili, So. America.	Formosa via London.
Peru, So. America.	Japan via London.

Offices should note especially that senders of Deferred Cables must in every case write before the address and pay for as one word the letters LCF, LCO or LCD, as in the nature of a declaration that the communication is in the French language or the language of country of origin or destination as the case may be.

Trans-Atlantic Wireless Service.

The attention of offices is drawn to the fact that in future trans-Atlantic wireless messages should be prefixed "MARCONI" instead of "RADIO" and the instructions on page 862 of the Tariff Book should be corrected accordingly.

Wireless messages to and from Steamers will continue to be prefixed "RADIO".

Wireless Messages to and from Steamers.

(See also page T 31).

Effective January 1, 1914, South Wellfleet, Mass. will be discontinued as a wireless station for steamships in the Boston service and the Boston station will be used instead. The third column on page 867 of the Tariff Book should be corrected accordingly.

The high power station at South Wellfleet will be continued as formerly at rates shown in fourth column, page 867 of the Tariff Book.

Pursuant to the International Radiotelegraphic Convention, which by proclamation of the President of the United States became effective on September 1st, the provisions of the Cable Rules relating to the repetitions, acknowledgment of receipt and prepaid replies as printed on page 815 of the Tariff Book are applicable to the wireless service to and from ships at sea,—and notations to that effect should be made on page 866 of the Tariff Book, canceling the reference printed thereon in regard to the inadmissibility of prepaid replies.

It should also be noted that the preamble "EXPRESS", when the same appears immediately before the address in such messages, conveys the information that any published special delivery or other terminal charges have been prepaid by the sender. Similarly the preamble "PR" signifies that delivery is to be by registered mail from the terminal telegraph office and that all post-office charges have been prepaid.

The attention of offices is drawn to the fact that by agreement between the administrations operating coastal wireless stations, reports of non-delivery and other similar service correspondence need not necessarily be exchanged through the coastal station via which the original message was routed, but may be exchanged through any other coastal station which may be in nearer range at the time that the occasion for such service correspondence arises.

Effective November 1st the wireless rate on messages to and from coastwise ships at sea exchanged through Astoria, East San Pedro, Eureka, Friday Harbor, Marshfield, San Francisco, San Luis Obispo and Seattle coastal stations was reduced 5c. per word, making the wireless rate on messages to coastwise vessels only exchanged through any of the stations named 5c. less than the word rates published opposite such stations at the top of columns on pages 868 and 869 of the Tariff Book.

Through misunderstanding the notice published in the October Journal extended the above reduction to the Cape Blanco, North Head, Point Arguello, San

Diego, Tatoosh Island and Victoria stations. The wireless rates to and from coastwise vessels exchanged through those stations are reduced, but only to the following figures:

Cape Blanco	10c.
North Head	} 08c.
Point Arguello	
San Diego	
Victoria	
Tatoosh Island	09c.

Wireless rates via all Pacific Coastal stations to Government vessels are 2c. per word higher in each case than rates quoted above.

Effective November 1st the following changes were made in the land-line word rates on ships' messages.

Between offices in Washington and coastal stations in Oregon, rate increased from 3 to 4c. per word.

Between offices in Oregon and coastal stations in Washington, rate reduced from 5 to 4c. per word.

Between offices in Oregon and coastal stations in the same state, rate reduced from 5 to 3c. per word.

Between offices in California and coastal stations in Oregon, rate reduced from 6 to 5c. per word.

Between offices in California and coastal stations in the same state, rate reduced from 4 to 3c. per word.

The wireless connection via Sayville, N. Y. has been discontinued and the rates via Sayville given in first and second columns on page 867 of the Tariff Book are therefore canceled.

Effective July 1st, the wireless rate to and from steamers on the Great Lakes was reduced from 10 to 5 cents per word with the usual 10 word minimum. This will make following corrections necessary on page 869 of the Tariff Book:

"For Coastwise vessels" from Buffalo, N. Y., Cleveland and Ashtabula, Ohio, Detroit, Mich., 5, instead of 10c.; Benton Harbor, Ludington, Grand Haven, Frankfort and Mackinac Isl., Mich., Chicago, Ill., Milwaukee and Manitowoc, Wis., Calumet, Mich., and Saulte Ste Marie, Ont., 5, instead of 10c.; Manistique, Mich., 7, instead of 12c.; Duluth, Minn., 5, instead of 10c. per word.

The rate for wireless transmission Duluth to Grand Marais, Minn., has been increased from 5 to 10 cents per word, restoring the 15 cent wireless rate shown in Tariff Book for Lake Steamers via Grand Marais.

Effective at once the wireless word rates shown on pages 867, 868 and 869 of the Tariff Book will be

further reduced to the following figures:

Siasconsett, Mass. For Coastwise vessels ..	.15
Key West, Fla. For Trans-Ocean vessels18
" " " " Coastwise vessels14
Eureka, Cal. For Trans-Ocean vessels	.14
Tatoosh I., Wash., " " " "	.15
No. Head, Wash... " " " "	.14
Cape Blanco, Ore.. " " " "	.16
Pt. Arguello, Cal.. " " " "	.14
San Diego, Cal.... " " " "	.14

J. C. WILLEVER,

United States Manager.

Rule 100.

The attention of managers is directed to the importance of strict compliance with Rule 100, in connection with subpoenas calling for the production of messages in court. Several instances have recently come to light where messages which should have been presented in open court were instead turned over to court attendants.

Insufficient Addresses.

Insufficient addresses endanger the prompt delivery of messages, with possible serious consequences to our patrons, and burden the company with needless expense in service messages and clerical labor.

The attention of all managers is again directed to Note, Rule 2:

"The importance of the address cannot be overestimated. When the address given seems insufficient, a better one should be requested."

Senders should in every case be asked to give the addressee's street address or, if that is not available, such information as can be concisely inserted in the address and will aid in insuring prompt delivery of the message.

Rule 75.

Rule 75 is amended as follows:

"The amount entered on Form 4-A or Form 4 as 'Paid Other Lines' shall represent:

- Actual disbursements in payment of 'other line' tolls (including special delivery charges) on messages delivered and payments of extra words on forwarded messages, supported by properly receipted vouchers.
- 'Other line' tolls on forwarded messages supported by copies of messages. See Rule 8."

Day Letters and Night Letters.

Paragraphs 16 and 18 in pages vi and vii of Tariff Book have been revised as follows:

16. Those of the "one" and "three" star stations for which Day Letters may be accepted at Day Letter

rates over "other" line, are indicated in the Tariff Book by the letter L. following the names of the places. Unless so designated the rate for Day Letters will be Day Letter rate for "this" line, plus regular full day rate for "other" line. See, for example, Arlington, Ariz., and Banner, Ariz.

18. Those of the "one" and "three" star stations for which Night Letters may be accepted at night letter rates over "other" line, are indicated in the Tariff Book by letters L. or N. L. following the names of the places. Unless so designated, the rate for Night Letters will be Night Letter rate for "this" line, plus regular full day rate for "other" line. See, for example, Kemple, Ariz., and Rice, Ariz.

It should also be noted that the letter "L", following the name of a one or three star station, indicates that both Day Letter and Night Letter rates apply on the "other" line, while the letters "N.L." indicate that Night Letter rates, but *not* Day Letter rates, apply on the "other" line.

B. BROOKS,
Vice-President.

TREASURER'S OFFICE.

Revised Instructions Regarding Bankruptcies, Receiverships, Assignments, Etc.

Bankruptcies.

When a debtor to the Company avails of the National Bankruptcy laws and a Referee has been appointed, the Manager shall send to the Superintendent the name and address of the Referee and an itemized statement of the amount due from the Bankrupt provided the amount is enough to warrant filing a claim. If the papers are in proper form the Superintendent will forward to the Treasurer with recommendation and the Treasurer will file claim and send a credit slip authorizing the office to take credit for the amount. As the Treasurer takes the accounts on his books all dividends should be sent to him, and when by error dividends are sent to the local offices by Referees or others, they should be forwarded to the Treasurer.

Receiverships.

These are usually cases of insolvency where Receivers are appointed by State or Local Courts and should be distinguished from certain Bankruptcy cases in which temporary Receivers are appointed, pending the selection of Referees. The procedure will be as above described with the names and addresses of Receivers substituted for those of Referees. In Receiverships, itemized statements should be sent in duplicate.

Assignments.

In these, Assignees are appointed to represent the debtors and creditors. The procedure will be as first above outlined, with the substitution of Assignees for Referees. Itemized statements should be sent in duplicate.

Trusteeships.

These are where Trustees are appointed by agreement between debtors and creditors to save the expense of Bankruptcy or Receivership proceedings. The procedure shall be as first above outlined with the substitution of Trustees for Referees. Itemized statements should be sent in duplicate.

Propositions.

Propositions are sometimes made for settlement of such accounts as those above described on a compromise basis. Such propositions if favorably considered, should be promptly forwarded to the Superintendent and by him to the Treasurer with recommendation.

Small Claims.

It is usually not worth while to send in a claim for less than \$2.00 as the dividends are seldom enough to pay postage, etc. Claims for less than \$2.00 should therefore be handled in the manner provided for Uncollected Accounts unless the Manager has reason to believe that the dividends will more than pay the charges. In many cases even when the debts are larger than \$2.00 the assets are not enough to pay postage. In these cases the Superintendent may direct the Manager to handle the accounts as other uncollectible accounts are handled.

A. R. BREWER,
Treasurer.

Approved,

B. BROOKS, *Vice-President.*

Complimentary Stamp Franks With Monetary Values.

Commencing March 1st, 1914, the Complimentary Stamp Franks issued by this Company will have printed thereon the value in cents, and the value of stamps affixed to each message should equal or exceed the tolls.

In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

E. Y. GALLAHER,
Comptroller.

Complimentary Franks and Half Rate Franks.

AMENDED NOTICE to Western Union Offices in Nebraska, New Hampshire, Ohio, South Dakota, Wisconsin, New York, Texas, Indiana, Montana and Missouri.

Under the laws of the States of Nebraska, New Hampshire, Ohio, South Dakota, and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells Fargo & Company.

Under the law of the State of Indiana it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks.

Under the law of the State of Montana it will not be legal to and you will not accept intra-state messages under Complimentary Franks; nor intra-state messages under Half Rate Franks.

Under the law of the State of Missouri it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of Officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Complimentary Franks.

CONTRACT DEPARTMENT, Aug. 16, 1913.

Following Complimentary Franks issued in 1913 should be taken up if presented and returned to this office for cancellation:—

Numbered C688; C966; D601; D602; D603; D604; D605; D606; D607; D608; D609; D610; D611; D612; D613; E55; E56; E57; E58 and E59.

G. W. E. ATKINS,
Vice-President.

Telegraph and Telephone Life Ins. Assn.

This Association was founded in 1867, at the Western Union Telegraph Company's main office, New York, with a membership of 125. Since then there has been disbursed to the beneficiaries (Principally widows and orphans) of its deceased members nearly One Million, Eight hundred thousand dollars, and the charter members still surviving have each paid but 569 assessments, an average of \$12.30 yearly for \$1,000.00 insurance.

The sole object for which it was founded was to provide reliable life insurance in moderate amounts at a charge within the means of all engaged in the service.

The insurance is now offered in two grades, Full Grade \$1,000.00 and Half Grade \$500.00, benefit; with the small initiation fee of \$2.00 for each grade, from which \$1.00 is allowed towards the cost of medical examination, and there is no further charge thereafter for new certificates or other incidental expenses.

The assessment calls are based on age at entry as per following schedule and are not subject to change.

Age	Full Grade	Half Grade
18 to 30.	\$1.00	\$0.50
30 to 35.	\$1.25	\$0.63
35 to 40.	\$1.50	\$0.75
40 to 45.	\$2.00	\$1.00

The number of calls issued in any one year depends on the number of death claims filed, and averages about fifteen.

All engaged in telegraph or telephone service in good health, between ages of 18 and 45 are eligible for membership and no person or more than 45 can be admitted.

Membership once acquired cannot be affected by change of occupation or residence and certificates are incontestible for any cause whatever after one years membership.

The Association has been endorsed by the employing Companies; and is under the supervision of, and subject to periodical examination by the Insurance Department of the State of New York, who certified at a recent examination that:

"The affairs of the Association are in a most prosperous condition, claims are paid promptly and in full and the expenses of management are confined to office and other incidental expenses attending collection of assessments."

Reserve fund \$344,000, securely and profitably invested, yielding a generous income which is used to lower the mortality cost.

No more advantageous insurance can be had elsewhere, and as every one needs insurance, why delay.

Send for application forms to M. J. O'Leary, Secretary, P. O. Box 510, New York City.

TARIFF BUREAU

WESTERN UNION TELEGRAPH CO.,
NEW YORK, JANUARY 20, 1914.

Places marked in the Tariff Book as "Summer" or "Winter" offices are not to be considered as open until notice to that effect is published in the JOURNAL.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the Tariff Book of July 1913, "Changes" are printed in "Italics"; "New offices" in "Roman" type.

When the status of an office as shown in the Tariff Book is changed, it is entered in the Journal, in italics, in correct and latest form. See, for example, *Howards, Ala.*; or the change is indicated in a briefer way: See *Blountstown, Fla.* (The Journal entry is "**** *Blountstown*. Add †," which indicates that the foot note on Tariff Book page showing Blountstown applies to Blountstown).

Changes published for the first time in each issue will be indicated by the prefix "+."

See Special Notices at end of this circular.

WASHINGTON.

- Sq.
1069 Millwood.

WIRELESS.

Note 5, and the paragraph following, on page 842 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and the town of Bluefields, in Nicaragua, may be reached by wireless service from Colon (Rep. of Panama) at rate of 21c. per word in addition to the cable rate to Colon.

Note 6. Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 21c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 3, page 866 of Tariff Book should be corrected to read as follows:

"In accepting Wireless Companies' franks for messages via Siasconsett, Mass., the amount covered by the wireless frank is 23c. per word. Via Hatteras, N. C., Grand Island, La. and Cape Ray, N. F., 10c. per word. Fort Morgan, Ala., 14c. per word. Friday Harbor, Wash., 20c. per word for Trans-ocean vessels and 10c. per word for Coastwise vessels. Grand Marais, Minn. and Manistique, Mich., .05c. per word, FOR VESSELS TO WHICH THOSE RATES APPLY.

Foot note on page 868 of Tariff Book should be corrected to read as follows: † The wireless rate for coastwise vessels of the Booth, Lampert & Holt, Quebec, Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. to New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 824 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

Effective January 1, 1914, rates to Philippine Islands via Commercial Pacific Cable will be revised as follows:

Luzon:

Manila—no change.

Other offices—no change.

Panay:
Iloilo—no change.
Other offices—Increased by 9c. per word.

Negros:
Bacalod—no change.
Other offices—Increased by 9c. per word.

Cebu:
Cebu—no change.
Other offices—Increased by 9c. per word.
All other islands and offices—Increased by 9c. per word.

The foregoing corrects rates shown in page 826 of the Tariff Book.

Rate to Dutch East Indies, including Java and all other Islands, is now 98c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column all rates 20c. less.

ATLANTIC CABLES.

The following changes and additions beyond London are now in force.

Word rate beyond London.

AFRICA.

Belgian Congo:
Katanga District via Broken Hill76
Other offices via Libreville.. 1.16
Other offices via Noqui 1.41

Pages 831 to 835 of the Tariff Book should be corrected in accordance with the foregoing.

BULGARIA.

Telegrams in Code language again admitted in Bulgaria.

CRETE.

Private telegrams in Code and Cypher again admitted.

GREECE.

The Greek Administration advises that Islands of Chio, Ikarie, Imbros, Metelin, Phara, Samothrace and Thasos now reached at rate same as to Greek Islands, Messages subject to delay.

Also that Greek telegraph offices opened at Serres, Drama, Cavalla, Demirissar, Nevrokopion, Petritsion and Doirani in Macedonia at rate same as to Greece. Messages at senders risk for the present.

Code and Cypher again admitted in telegrams to Greece.

ROUMANIA

Private telegrams in Cypher are not admitted to Roumania.

TURKEY

Normal rates now apply to places in Turkey. Restrictions reported as to use of

four languages only in messages to Turkey, removed.

Telegrams in Code language are again admitted in Turkey.

Office at Scutari, Albania, reopened. Rate same as to Turkey in Europe.

Telegraph communication with Turkey via Bulgaria resumed.

CUBA.

Telegraph offices have been opened at the following places in Cuba:

TOWN	PROVINCE
Mata,	Santa Clara.
Quinta.	Santa Clara.
San Felipe.	Havana.

PORTO RICO.

An alternate route for traffic to Santo Domingo has been established via wireless beyond Ponce, P. R. to the following points and at the following rates per word added to the rate to Ponce:

La Romana 28c.
Santo Domingo City 36c.
San Pedro Macoris 36c.

Messages must be routed "Via Ponce" for which routing indication no charge will be made.

BRAZIL.

Effective Oct. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book as \$1.11 from La. and Tex. and \$1.15 from other states and Provinces) was reduced to \$1.05 from La. and Tex. and \$1.09 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.41 from La. and Tex. and \$1.45 from other states and provinces) was reduced to \$1.29 from La. and Tex. and \$1.33 from other states and provinces.

Wireless communication has been established with following places in Brazil at following rates per word added to rate to Manaos:

Porto Velho\$0.75
Cruzeiro do Sul)
Rio Branco)
Senna Madureira) 1.16
Tarauaca)
Xapury)

Messages accepted only at senders risk, and must be marked "Wireless Manaos", which indication is to be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Columbia "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book or JOURNAL, which, together, furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line delivery, or telephone charges, which should be provided for when messages are accepted.

Counter clerks must exercise great care in accepting messages addressed to passengers en route on trains. A full and sufficient address should be obtained in every case, and when possible should give the following information:

- (a) The name of the addressee;
- (b) The name of the Railroad and the train number;
- (c) The car and berth number, if known, in the case of passengers traveling on sleeping cars;
- (d) The name of the points between which the addressee is traveling;
- (e) The time the train is due at the place where delivery is to be made;
- (f) The name of the place to which the message is to be checked and to which the message is to be delivered to the addressee or turned over to the conductor of the train.

Below are examples of complete train message addresses:

- (1) John Jones,
N. Y. C. Train three enroute
New York to Chicago.
Due Cleveland 10.35 P. M.
Cleveland, Ohio.
- (2) John Jones,
N. Y. C. Train fifteen, lower
10, car 5, enroute New York
to Chicago.
Due Cleveland 3.25 A. M.
Cleveland, Ohio.

Hereafter for all messages which may be received "collect" from offices on "other" lines or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

It should be noted that the foregoing does not mention nor does it apply to "collect" messages from two star (delivery) stations.

Messages received from offices in Mexico destined to places in the United States not reached by telegraph, and which it is necessary to mail to destination from the nearest Western Union office, should in all cases be forwarded by registered mail.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 819 to 844, both inclusive, are CABLE messages and should be reported in accordance with Rule No. 71, page 788 of Tariff Book. The tolls received for the cable messages should not be entered in the Check Reports (Form 7).

NEW YORK

Assets . . \$700,000

Surplus . . \$31,000

Dividends 5%

A Co-operative Saving Institution of Telephone and Telegraph Employees

Incorporated January 20th, 1885.

Operated under the Banking Law of New York State.

ACCUMULATION OF SAVINGS may be commenced at any time, in person or by mail, by making a deposit of \$1.00 to \$1,000.00. NOW is the time to begin.

You may accumulate by monthly payments, by irregular deposits, or in large sums for income.

Joint Accounts, and Vacation or Christmas Clubs accepted. No Age Limit.

DIVIDENDS are credited upon all saving accumulations and compounded and are paid in cash on income accounts on the first day of January and July annually.

WITHDRAWALS. Any member, saving irregularly, may withdraw any portion of his savings at any time, and incomes or regular stipulated savings may be withdrawn upon sixty day's notice.

INVESTMENTS. Our entire accumulations are invested in loans secured by first mortgages of dwelling house property in New York City and its environs.

Next to government bonds, selected mortgages are the very best security for investment. Our 28 year experience guarantees these securities.

DUNDUPLEX—The Real Labor Saver.

The Dunduplex will pay splendid dividends on your investment, as it is the only machine in the world that affords a choice of two distinct movements—either of which will almost double your present efficiency without taxing your energy.

All repeater chiefs now recognize the necessity of two weights as the only means of securing perfect signals, but two weights on other types of transmitters, means added burden to the arm, therefore making the labor twice as hard. The Dunduplex carries the weight without adding an ounce to the arm. This is only one of its big features.

THOS. J. DUNN & CO., No. 1 Broadway, NEW YORK

The Man Behind the Gun

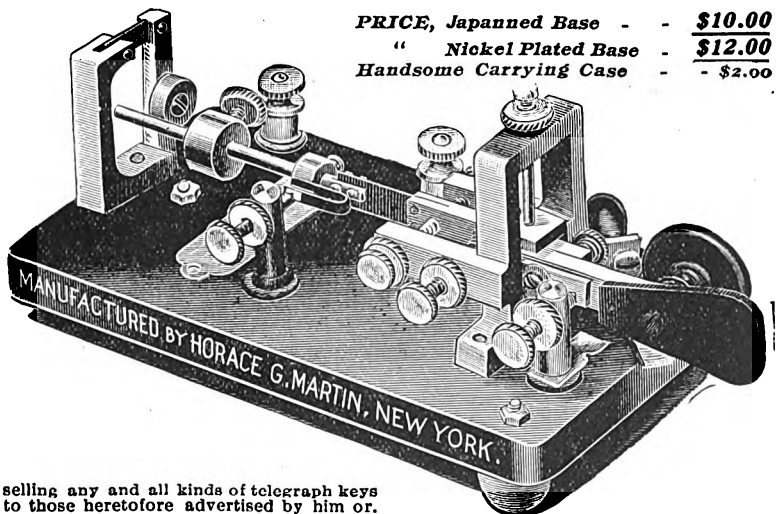

May be all right, but if the gun is no good, the man will do little damage. Just so in the case of the transmitting instrument. If the instrument is a cheap imitation of the original standard article, the man will soon revert to the old-fashioned key as the choice between two evils. If the man is well informed at the start, however, he will purchase a Martin Vibroplex, which has back of it the accumulated experience of H. G. Martin, the originator of the device. It is not logical to buy an instrument which is recommended as being "just as good."

Patents Controlling our Sending Machines again Upheld by the United States Court.

NOTICE AND WARNING TO INFRINGERS.

Max Levey (Atoz Electric Novelty Co.) and all his agents, associates, confederates and employees have been perpetually enjoined by the United States District Court in Chicago from making, using or selling any and all kinds of telegraph keys or transmitters, or parts thereof, similar to those heretofore advertised by him or, such as in any manner infringe upon U. S. letters patent No. 812,183, particularly claim 11 thereof. All parties are warned that they will be prosecuted both for damages and for contempt of Court if they violate said injunction.

All who are now using sending machines purchased from said Max Levey (Atoz Electric Novelty Co.), or his agents, are daily liable to punishment for contempt if they continue such use. If they desire to escape such liability, they may do so on terms of which we will advise them, provided they communicate with us promptly.

NOTICE To Users of the Wires

On December 1st, 1909, the Western Union and Postal Telegraph Companies put into effect new rules governing the transmission of domestic messages sent in code language.

Those who have been in the habit of using mutilated words will have to exercise great caution if they desire their messages forwarded promptly and at the same time avoid complications in the settlement of their accounts with the telegraph companies.

As the Western Union and Postal Telegraph Companies have given their stamp of approval on Official Vocabulary words, those who use these words can feel absolutely safe.

The largest and most comprehensive Code in which Official Vocabulary words alone appear, employed by the most prominent corporations and firms throughout the world, is

A Wireless Message.

The newspapers within the past few weeks have teemed with the dramatic incidents accompanying the saving of life at sea, which would have been inevitably lost were it not for the wireless message flashed across the intervening distance separating the imperilled vessel from the succoring ship. To accomplish such wireless results, apparatus of the best quality is required.

To the amateur, to the skilled user or to the experimenter, we offer a line of wireless instruments **second to none**, a few of which we illustrate on this page but all described in our manual.

Send for Our New Manual of Wireless Telegraphy B1

It contains 104 pages and tells how to erect and maintain wireless telegraph stations. Shows a number of diagrams. Has the Morse and Continental Telegraph Codes. Illustrates the best instruments to use; tells what they are for and how to use them. A guide that can be depended on and one which every one interested in wireless telegraphy should have.

Two Books Every Wireless Operator Should have.

THE VARIOUS FORMS OF BACTERIA OR GERMS, THEIR INJURIOUS ACTION WITHIN THE BODY, AND A DESCRIPTION OF THE ANTITOXIN OR SERUM TREATMENT.

The Medical Department under the direction of Dr. Alvah H. Doty, will issue each month an article on the subject of Hygiene or matters pertaining to the preservation of health and protection against disease. In order that the various subjects which are to appear may be more fully understood, those of the greatest importance will receive first consideration. It is suggested that the articles referred to be kept for reference, besides in this way a hand-book covering practically the entire subject of Hygiene may be secured.

Article 13.

As early as the seventeenth century various investigators had observed, with the aid of the weak and imperfect magnifying glasses of the period, that both solids and fluids contained very small living bodies, which were seen to move about in the field of vision. As these glasses gained power through more skillful grinding smaller objects were revealed, until the microscope of to-day is able to detect the most minute living organisms, some of which, although not more than 1/50,000 of an inch in size, are brought clearly into view and easily studied. These little bodies are known as microorganisms, or by the more common and well known name of "bacteria."

Although some of the larger of these bodies were early recognized by investigators, they remained for a long time chiefly a matter of curiosity before an effort was made to study or classify them; this however, gradually took place, and bacteriology, which treats of the subject, now plays an exceedingly important part in the prevention and cure of disease.

Even long ago it was suggested that these minute living bodies were in some way connected with the

transmission of disease, although but little satisfactory or definite knowledge was secured in this direction until about 1880, when Pasteur and Koch, respectively a French and German bacteriologist, working independently of each other, presented to the world conclusive evidence of the germ origin of disease. Since that period bacteriology has made rapid strides and laboratories throughout the world are carrying on most important and exhaustive investigations regarding the subject.

Bacteria are now not only classified, but each one discovered has been carefully studied as to its special habits and characteristics, the conditions under which it thrives best, and the agents which are destructive to it; in this way means have been found to render them far less dangerous.

Bacteria are divided into three groups, according to their shape. Those which are round are known as "cocci", those which are long or rod shaped as "bacilli", and the curved or spiral ones are called "spirilla." These groups do not change from one shape to another, although the individuals of the different groups have certain peculiarities by which they may be identified from others of the same group, and bacteriologists must be familiar with this condition in order that they may be able to positively identify them as the cause of certain diseases.

As an illustration, it may be said that the round bacteria, or "cocci," are found in pneumonia, and meningitis. The long or rod shaped bacteria, or "bacilli" are found in typhoid fever and tuberculosis; the curved or twisted bacteria, known as "spirilla," are found in cholera. While it is often difficult to promptly separate the germs of each group from each other, continued improvement in the power of the microscope and the more effective means of staining the germs in order that they may be more easily detected has gone far to remove the difficulties connected with this work. This is very important, as the identification of numerous diseases now depends almost entirely upon bacteriological examination. It is by this means we hope to go far towards the elimination of some of the infectious diseases, i.e., by their early detection, isolation of the patient, disinfection, etc.

Very important advances have been made in connection with the subject of bacteria relative to the results which follow the introduction of these germs

into the system, the manner in which they cause disease, and what becomes of them.

When we consider the enormous number of bacteria which may enter the system at any one time and the rapidity with which they multiply, for in some instances they double in number every twenty minutes or half hour, it is a surprise that we ever escape serious results after infection has occurred. However, we have more recently obtained definite knowledge relating to this subject which shows how we are protected against this danger by the powerful antagonism which exists in certain constituents of the blood, and even the tissues of the body, to the action of these germs. While this protection is not by any means always sufficient to overcome the injury produced by the invasion of bacteria, the fact that recovery so often occurs is due largely to the resistance just referred to.

In the blood are found little round microscopic bodies known as leucocytes, the function of which for a long time was in doubt, we now know that in addition to whatever else they may do they are germ destroyers and with the aid of the microscope we can see bacteria drawn within the leucocytes and destroyed.

It is not the mere presence of the bacteria within the body which is responsible for the danger which often follows their invasion, this is more directly due to the fact that the bacteria give off a poisonous product known as "toxin," which may be regarded as the dangerous factor in connection with this condition. The presence of this poison stimulates the blood of the one affected to produce an antagonist known as "antitoxin," to overcome or neutralize the toxin, therefore both the blood itself and the leucocytes which it contains are agents of protection.

It was believed by the investigators who early studied this subject that if an antitoxin of this character could be prepared in large quantities outside of the human body and promptly introduced into it in a considerable amount when infectious diseases occur, to aid the antitoxin already formed in the blood of the person affected, it would go far to render the disease mild; or if injected in a person who had been simply exposed it would probably render them immune, or prevent the appearance of the disease.

In the investigation of this subject it was shown that some animals, particularly the horse, are not very susceptible to the action of certain infectious germs which are commonly dangerous to the human being. This formed the basis of most exhaustive experimental work along these lines, and proved if certain germs affecting the human being are injected into the circulation of the horse it at once stimulates the production of antitoxin in comparatively large quantities. If afterwards the fluid part of the blood or serum containing the antitoxin is withdrawn from the horse under treatment, by opening a vein, and

then freed from possible contamination, it may be bottled, sealed and made ready for use in the human being under the name of the antitoxin or serum treatment.

Experimental work has largely defined the amount of antitoxin necessary to combat the germs which may have entered the system or to prevent the disease in those who have not already become infected; furthermore, it has been shown that if the use of the antitoxin is delayed until the disease has progressed for some time, it is of little or no value.

As each form of bacteria probably produces its own peculiar toxin or poison, it naturally follows that a special antitoxin is preferable for each disease; for instance, to secure a diphtheria antitoxin, horses are injected with the diphtheria bacilli or their products.

Antitoxins have not been prepared for all infectious diseases, for the germs of some of them have not yet been discovered, besides successful results in this direction cannot always be obtained even in diseases where the specific organism has been identified. Theoretically it may not seem difficult to obtain by the means already referred to an efficient antitoxin in instances where the germ of the disease has been found, yet there are many practical difficulties which renders this often difficult, if not impossible.

The diphtheria antitoxin is probably the most successful and the one most commonly employed. It is used both to immunize persons who have been exposed, and in this way to prevent the occurrence of the disease, and also render it mild or less dangerous in instances where a person has become infected. There is no doubt as to its value, and while successful results have also been secured with other forms of antitoxin or serum, this treatment is yet in its early stage, and there are many questions connected with the subject which are yet to be settled.

The above information is presented not only as a short account of the different forms of bacteria and their action upon the human system and the protection the body affords in dealing with these organisms and the theory of the serum or antitoxin treatment, but also to warn against the indiscriminate use of these agents in the hands of unscrupulous or incompetent persons who often suggest this form of treatment to mask the use of worthless and dangerous products. This occurs particularly in connection with tuberculosis. **There is no serum, antitoxin or vaccine yet produced which is of any practical value in the treatment of this disease, and any agent advertised for this purpose should be carefully avoided; besides, any form of antitoxin treatment should be accepted only upon the recommendation of a reputable physician who is competent to decide when this remedy should be used and where a safe and proper supply can be obtained.**

While this article has dealt with what are known as "pathogenic" organisms, i.e., those which produce infectious diseases, the greater number of germs with which we constantly come in contact are not of this order, but are as a rule harmless, and in some instances necessary to our well being.

In conclusion it must be said that we can go far to aid in our individual protection against danger of infection by maintaining good health, for in this way the blood and the tissue of the body are far better enabled to deal with invading bacteria.

Wireless For Safety At Sea.

From the beginning of the conference of the Revision Committee of the International Commission on Safety at Sea, it was certain that in the conventions arrived at and adopted the use of wireless telegraphy would be one of the outstanding features. The conference has practically completed its sittings at London, and the President, Lord Mersey, in making the closing speech, referring in a general way to all the subjects which had been discussed and on which agreements had been reached by the delegates, spoke particularly of the use of wireless telegraphy.

The convention adopted by the conference provides that all merchant vessels when engaged in international or colonial voyages, whether steamers or sailing vessels, and whether carrying passengers or not, must be equipped with wireless telegraphy, if they have on board 50 persons or more, except where that number is increased owing to causes beyond the master's control. The contracting states, however, have the discretion to make suitable exceptions in certain cases, the most important of which are vessels which on their voyages do not go more than 150 miles from the nearest land. A continuous watch for wireless purposes must be kept on all vessels fitted with wireless telegraphy as soon as the Government to which the vessel belongs is satisfied that such a watch is useful for purposes of saving life at sea.

Wireless apparatus must have a range of at least 100 miles and an emergency apparatus placed in a safe place, unless the main installation is in the highest part of the ship in conditions of the greatest safety.

The master of a ship in distress is to have the right to call for assistance among vessels which have answered his appeal from those vessels which he thinks are best able to render him assistance. The other vessels may then proceed on their voyage.

It is true that the beneficent purposes of wireless as an agency of rescue for ships at sea has been impressed vividly upon the popular mind through the thrilling stories which have always accompanied its demonstrations for the last few years. However, the making mandatory upon the part of the states interested in the conference is a fine recognition of

the spirit of co-operation that exists to-day not only among the people of a community, but among the nations of the earth.—*Electrical Review*.

R. L. Hardman.

Any reader of the Journal who knows the whereabouts of R. L. Hardman, will confer a kindness by asking him to communicate with his father, J. H. Hardman, Bedford, Pa.

Government Messages.

The published Government rates shall be applied only to official business of the Government, and all telegrams for which Government rate is claimed, should be endorsed "Official Business" by the sender on sent paid business and by the addressee on received collect business.

The United States Attorney General has ruled that "for personal telegrams where the rates are not payable out of public moneys, the regular public rates should apply, and settlement to the Telegraph Company should be made on this basis. To do otherwise would be in conflict with the regulations of the Interstate Commerce Commission, prohibiting preferential or discriminatory practices."

Money Transfer Messages.

The following will be inserted as Rule 25-A in the Tariff Book, and should be particularly noted by those offices which are not supplied with the Rules for Money Transfer Service:

Messages necessary in the transaction of the company's money transfer service, filed by regular transfer agents, or filed by banks authorized to act for the company and addressed to other banks or to transfer agents and relating only to the payment of Western Union money transfers, shall be checked and sent "free." No entry of these messages shall be made in Free Message Report, Form 38, or in Check Report, Form 7.

Insufficient Addresses.

Insufficient addresses endanger the prompt delivery of messages, with possible serious consequences to our patrons, and burden the company with needless expense in service messages and clerical labor.

The attention of all managers is again directed to Note, Rule 2:

"The importance of the address cannot be overestimated. When the address given seems insufficient, a better one should be requested."

Senders should in every case be asked to give the

addressee's street address or, if that is not available, such information as can be concisely inserted in the address and will aid in insuring prompt delivery of the message.

Rule 75.

Rule 75 is amended as follows:

"The amount entered on Form 4-A or Form 4 as 'Paid Other Lines' shall represent:

- (a) Actual disbursements in payment of 'other line' tolls (including special delivery charges) on messages delivered *and payments of extra words on forwarded messages*, supported by properly receipted vouchers.
- (b) 'Other line' tolls on forwarded messages supported by copies of messages. See Rule 8."

Rule 100.

The attention of managers is directed to the importance of strict compliance with Rule 100, in connection with subpoenas calling for the production of messages in court. Several instances have recently come to light where messages which should have been presented in open court were instead turned over to court attendants.

B. BROOKS,
Vice-President.

Week End Letter Service Chili and Peru.

Effective September 1st the Week End Letter Service now in effect with Argentine Republic was extended to Chili and Peru (Except Wireless Stations) at the same rates and under the same regulations governing that service to Argentine shown on pages 858 and 859 of the Tariff Book.

Deferred Cable Service.

The following have been added to list of places shown on page 861 of Tariff Book to which Deferred Cable Service is in operation:

Borneo (Dutch), via London.	Formosa via London.
Chili, So. America.	Japan via London.
Cyprus.	Nauru Island.
Peru, So. America.	Tripoli.

(Except Wireless Stations).

It should be noted that Deferred Cable Service is not in force to Amazon River Stations in Brazil.

Offices should note especially that senders of Deferred Cables must in every case write before the address and pay for as one word the letters LCF, LCO or LCD, as in the nature of a declaration that the communication is in the French language or the language of country of origin or destination as the case may be.

Trans-Atlantic Wireless Service.

The attention of offices is drawn to the fact that in future trans-Atlantic wireless messages should be prefixed "MARCONI" instead of "RADIO" and the instructions on page 862 of the Tariff Book should be corrected accordingly.

Wireless messages to and from Steamers will continue to be prefixed "RADIO".

Wireless Messages to and from Steamers.

(See also page T 36).

Pursuant to the International Radiotelegraphic Convention, which by proclamation of the President of the United States became effective on September 1st, the provisions of the Cable Rules relating to the repetitions, acknowledgment of receipt and prepaid replies as printed on page 815 of the Tariff Book are applicable to the wireless service to and from ships at sea,—and notations to that effect should be made on page 866 of the Tariff Book, canceling the reference printed thereon in regard to the inadmissibility of prepaid replies.

It should also be noted that the preamble "EXPRESS", when the same appears immediately before the address in such message, conveys the information that any published special delivery or other terminal charges have been prepaid by the sender. Similarly the preamble "PR" signifies that delivery is to be by registered mail from the terminal telegraph office and that all post-office charges have been prepaid.

The attention of offices is drawn to the fact that by agreement between the administrations operating coastal wireless stations, reports of non-delivery and other similar service correspondence need not necessarily be exchanged through the coastal station via which the original message was routed, but may be exchanged through any other coastal station which may be in nearer range at the time that the occasion for such service correspondence arises.

Effective July 1st, the wireless rate to and from steamers on the Great Lakes was reduced from 10 to 5 cents per word with the usual 10 word minimum. This will make following corrections necessary on page 869 of the Tariff Book.

"For Coastwise vessels" from Buffalo, N. Y., Cleveland and Ashtabula, Ohio, Detroit, Mich., 5, instead of 10c.; Benton Harbor, Ludington, Grand Haven, Frankfort and Mackinac Isl., Mich., Chicago, Ill., Milwaukee and Manitowoc, Wis., Calumet, Mich., and Sault Ste Marie, Ont., 5, instead of 10c.; Manistique, Mich., 5, instead of 12c.; Duluth, Minn., 5, instead of 10c. per word.

The rate for wireless transmission Duluth to Grand Marais, Minn., has been increased from 5 to 10 cents per word, restoring the 15 cent wireless rate shown in Tariff Book for Lake Steamers via Grand Marais.

Manistique, Mich., is now a Western Union check direct office and wireless rate for coastwise vessels (Great Lakes) shown on page 869 of Tariff Book is now 5, instead of 12 cents per word.

Effective at once the wireless word rates shown on pages 867, 868 and 869 of the Tariff Book will be further reduced to the following figures:

Siasconsett, Mass. For Coastwise vessels ..	.15
Key West, Fla. For Trans-Ocean vessels18
“ “ “ “ Coastwise vessels14
Eureka, Cal. For Trans-Ocean vessels	.14
Tatoosh I., Wash., “ “ “ “	.15
No. Head, Wash. “ “ “ “	.14
Cape Blanco, Ore., “ “ “ “	.16
Pt. Arguello, Cal. “ “ “ “	.14
San Diego, Cal. ... “ “ “ “	.14

Effective November 1st the wireless rate on messages to and from coastwise ships at sea exchanged through Astoria, East San Pedro, Eureka, Friday Harbor, Marshfield, San Francisco, San Luis Obispo and Seattle coastal stations was reduced 5c. per word, making the wireless rate on messages to coastwise vessels only exchanged through any of the stations named 5c. less than the word rates published opposite such stations at the top of columns on pages 868 and 869 of the Tariff Book.

Through misunderstanding the notice published in the October Journal extended the above reduction to the Cape Blanco, North Head, Point Arguello, San Diego, Tatoosh Island and Victoria stations. The wireless rates to and from coastwise vessels exchanged through those stations are reduced, but only to the following figures:

Cape Blanco	10c.
Victoria	} 08c.
North Head	
Point Arguello	
San Diego	
Tatoosh Island	09c.

Wireless rates via all Pacific Coastal stations to Government vessels are 2c. per word higher in each case than rates quoted above.

Effective November 1st the following changes were made in the land-line word rates on ships' messages.

Between offices in Washington and coastal stations in Oregon, rate increased from 3 to 4c. per word.

Between offices in Oregon and coastal stations in Washington, rate reduced from 5 to 4c. per word.

Between offices in Oregon and coastal stations in the same state, rate reduced from 5 to 3c. per word.

Between offices in California and coastal stations in Oregon, rate reduced from 6 to 5c. per word.

Between offices in California and coastal stations in the same state, rate reduced from 4 to 3c. per word.

The wireless connection via Sayville, N. Y., has been discontinued and the rates via Sayville given in first and second columns on page 867 of the Tariff Book are therefore canceled.

Effective January 1, 1914, South Wellfleet, Mass. will be discontinued as a wireless station for steamships in the Boston service and the Boston station will be used instead. The third column on page 867 of the Tariff Book should be corrected accordingly.

The high power station at South Wellfleet will be continued as formerly at rates shown in fourth column, page 867 of the Tariff Book.

J. C. WILLEVER,

United States Manager.

Revised Accounting Forms.

A new form of report, Form 2441-A, has been issued for use by Managers in accounting for messages of the following classes in their Monthly Reports, Form 4, and similar forms:—

Refunds on “Half Rate Frank” messages,
Uncollected Messages,
Guaranteed Messages,
U. S. Government—Weather Messages,
U. S. Government—Other Messages,
Identification Card Messages,
Forwarded Collect Messages,

The use of Form 2441-A will considerably reduce clerical labor required heretofore. Complete instructions are printed on the reverse side of the Form.

Form 2441-A will be supplied on future requisitions and on any unfilled requisitions for the following Forms which are hereby cancelled:—

Statement of Refunds on “Half Rate Frank” messages, Form 33 or 33-A.

Statement of Uncollected Messages, Form 34 or 34-A.

Statement of Guaranteed Messages, Form 35 or 35-A.

Complimentary Stamp Franks With Monetary Values.

Commencing March 1st, 1914, the Complimentary Stamp Franks issued by this Company will have

printed thereon the value in cents, and the value of stamps affixed to each message should equal or exceed the tolls.

In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

E. Y. GALLAHER,
Comptroller.

Money Transfer Drafts.

There is sometimes objection, on the part of payees, to the practice of placing the name of the depositor upon the draft issued in payment of a money transfer. This practice should, therefore, be discontinued, the space provided for the name on the transfer draft being left blank, unless for any reason the payee should request that the name be added.

Money Transfer Rule XII-I.

The second paragraph of Money Transfer Rule XII-I, relating to Special Foreign Transfers, should be corrected to read as follows:

"The word 'Special' shall be inserted directly after the name of the paying station in every message directing the payment of \$100. or over and shall be included in the check, but not charged for."

Example:

Tragent,

New York.

Pay William Henry Justice 45 Regent St. London
Special from Frederick Hunter.
(Count all words.)
Ck. 16 Free.

HENRY G. BATES,
General Transfer Agent.

TREASURER'S OFFICE.

Revised Instructions Regarding Bankruptcies, Receiverships, Assignments, Etc.

Bankruptcies.

When a debtor to the Company avails of the National Bankruptcy laws and a Referee has been appointed, the Manager shall send to the Superintendent the name and address of the Referee and an itemized statement of the amount due from the Bankrupt provided the amount is enough to warrant filing a claim. If the papers are in proper form the

Superintendent will forward to the Treasurer with recommendation and the Treasurer will file claim and send a credit slip authorizing the office to take credit for the amount. As the Treasurer takes the accounts on his books all dividends should be sent to him, and when by error dividends are sent to the local offices by Referees or others, they should be forwarded to the Treasurer.

Receiverships.

These are usually cases of insolvency where Receivers are appointed by State or Local Courts and should be distinguished from certain Bankruptcy cases in which temporary Receivers are appointed, pending the selection of Referees. The procedure will be as above described with the names and addresses of Receivers substituted for those of Referees. In Receiverships, itemized statements should be sent in duplicate.

Assignments.

In these, Assignees are appointed to represent the debtors and creditors. The procedure will be as first above outlined, with the substitution of Assignees for Referees. Itemized statements should be sent in duplicate.

Trusteeships.

These are where Trustees are appointed by agreement between debtors and creditors to save the expense of Bankruptcy or Receivership proceedings. The procedure shall be as first above outlined with the substitution of Trustees for Referees. Itemized statements should be sent in duplicate.

Propositions.

Propositions are sometimes made for settlement of such accounts as those above described on a compromise basis. Such propositions if favorably considered, should be promptly forwarded to the Superintendent and by him to the Treasurer with recommendation.

Small Claims.

It is usually not worth while to send in a claim for less than \$2.00 as the dividends are seldom enough to pay postage, etc. Claims for less than \$2.00 should therefore be handled in the manner provided for Uncollected Accounts unless the Manager has reason to believe that the dividends will more than pay the charges. In many cases even when the debts are larger than \$2.00 the assets are not enough to pay postage. In these cases the Superintendent may direct the Manager to handle the accounts as other uncollectible accounts are handled.

A. R. BREWER,
Treasurer.

Approved,

B. BROOKS, *Vice-President.*

Complimentary Franks and Half Rate Franks.

AMENDED NOTICE to Western Union Offices in Nebraska, New Hampshire, Ohio, South Dakota, Wisconsin, New York, Texas, Indiana, Montana and Missouri.

Under the laws of the States of Nebraska, New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells Fargo & Company.

Under the law of the State of Indiana it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks.

Under the law of the State of Montana it will not be legal to and you will not accept intra-state messages under Complimentary Franks; nor intra-state messages under Half Rate Franks.

Under the law of the State of Missouri it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Complimentary Franks.

CONTRACT DEPARTMENT, Aug. 16, 1913.

Following Complimentary Franks issued in 1913 should be taken up if presented and returned to this office for cancellation:—

Numbered C688; C966; D601; D602; D603; D604; D605; D606; D607; D608; D609; D610; D611; D612; D613; E55; E56; E57; E58 and E59.

G. W. E. ATKINS,

Vice-President.

Telegraph and Telephone Life Ins. Assn.

This Association was founded in 1867, at the Western Union Telegraph Company's main office, New York, with a membership of 125. Since then there has been disbursed to the beneficiaries (Principally widows and orphans) of its deceased members nearly One Million, Eight hundred thousand dollars, and the charter members still surviving have each paid but 569 assessments, an average of \$12.30 yearly for \$1,000.00 insurance.

The sole object for which it was founded was to provide reliable life insurance in moderate amounts at a charge within the means of all engaged in the service.

The insurance is now offered in two grades, Full Grade \$1,000.00 and Half Grade \$500.00, benefit; with the small initiation fee of \$2.00 for each grade, from which \$1.00 is allowed towards the cost of medical examination, and there is no further charge thereafter for new certificates or other incidental expenses.

The assessment calls are based on age at entry as per following schedule and are not subject to change.

Age	Full Grade	Half Grade
18 to 30.	\$1.00	\$0.50
30 to 35.	\$1.25	\$0.63
35 to 40.	\$1.50	\$0.75
40 to 45.	\$2.00	\$1.00

The number of calls issued in any one year depends on the number of death claims filed, and averages about fifteen.

All engaged in telegraph or telephone service in good health, between ages of 18 and 45 are eligible for membership and no person of more than 45 can be admitted.

Membership once acquired cannot be affected by change of occupation or residence and certificates are incontestible for any cause whatever after one years membership.

The Association has been endorsed by the employing companies; and is under the supervision of, and subject to periodical examination by the Insurance Department of the State of New York, who certified at a recent examination that:

"The affairs of the Association are in a most prosperous condition, claims are paid promptly and in full and the expenses of management are confined to office and other incidental expenses attending collection of assessments."

Reserve fund \$344,000, securely and profitably invested, yielding a generous income which is used to lower the mortality cost.

No more advantageous insurance can be had elsewhere, and as every one needs insurance, why delay.

Send for application forms to M. J. O'Leary, Secretary, P. O. Box 510, New York City.

TARIFF BUREAU

WESTERN UNION TELEGRAPH CO.,
NEW YORK, FEBRUARY 20, 1914.

Places marked in the Tariff Book as "Summer" or "Winter" offices are not to be considered as open until notice to that effect is published in the JOURNAL.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the Tariff Book of July 1913, "Changes" are printed in "Italics"; "New offices" in "Roman" type.

When the status of an office as shown in the Tariff Book is changed, it is entered in the Journal, in italics, in correct and latest form. See, for example, *Howards, Ala.*; or the change is indicated in a briefer way: See *Blountstown, Fla.* (The Journal entry is "**** *Blountstown*. Add † and (L).") which indicates that the foot note on Tariff Book page showing Blountstown applies to Blountstown and that Night Letter and Day Letter rates apply over "Other" line beyond Marianna).

Changes published for the first time in each issue will be indicated by the prefix "+."

See Special Notices at end of this circular.

TO OFFICES HAVING SHEET "O" No. 3:

A revised edition of Sheet "O" is now in the hands of the printer and will shortly be distributed to the offices interested.

WIRELESS.

Note 5, and the paragraph following, on page 842 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and the town of Bluefields, in Nicaragua, may be reached by wireless service from Colon (Rep. of Panama) at rate of 21c.

Places printed in Roman type are New Offices.
 Places printed in *Italics* are changes in the Tariff Book.
 The sign (+) indicates changes published for the first time in this issue.

per word in addition to the cable rate to Colon.

Note 6. Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 21c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 3, page 806 of Tariff Book should be corrected to read as follows:

"In accepting Wireless Companies' franks for messages via Siasconsett, Mass., the amount covered by the wireless frank is 23c. per word. Via Hatteras, N. C., Grand Island, La. and Cape Ray, N. F. 10c. per word. Fort Morgan, Ala., 14c. per word. Friday Harbor, Wash., 20c. per word for Trans-ocean vessels and 10c. per word for Coastwise vessels. Grand Marais, Minn., 05c. per word, FOR VESSELS TO WHICH THOSE RATES APPLY.

Foot note on page 868 of Tariff Book should be corrected to read as follows: ‡ The wireless rate for coastwise vessels of the Booth, Lamport & Holt, Quebec, Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. to New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 824 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

DUTCH EAST INDIES.

Rate to Dutch East Indies, including Java and all other Islands, is now 98c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column all rates 20c. less.

HAWAIIAN ISLANDS.

Foot note on page 825 of the Tariff Book is hereby canceled and following substituted therefor:

Note: Other islands (Hawaii, Maui, Kauai and Molokai) 15c. per word more than rate to Honolulu.

Following is a list of offices in these islands:

Eleele	Kohala
Iialawa	Koloa
Hamakuapoko	Lahaina
Hana	Laupahoehoe
Hanalei	Lihue
Hilo	Mahukona
Holualoa	Makawao
Honokaa	Makaweli
Kaanapali	Makena
Kahului	Nawiliwili
Kailua	Paia
Kalauao	Port Allen
Kalaupapa	Pukoo
Kamalo	Puuheue
Kapaa	Spreckelsville
Kaunakakai	Volcano House
Kawaihae	Waikapu
Kealahou	Wailuku
Kealia	Wiamea, Hawaii
Kekaha	Waimea, Kauai
Kilauea	Waiohinu

Applicants for registration in Hawaiian Territory of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

PHILIPPINE ISLANDS.

Effective January 1, 1914, rates to Philippine Islands via Commercial Pacific Cable will be revised as follows:

Luzon:

Manila—no change.
Other offices—no change.

Panay:

Iloilo—no change.
Other offices—Increased by 9c. per word.

Negros:

Bacolod—no change.
Other offices—Increased by 9c. per word.

Cebu:

Cebu—no change.
Other offices—Increased by 9c. per word.

All other islands and offices—Increased by 9c. per word.

The foregoing corrects rates shown in page 826 of the Tariff Book.

ATLANTIC CABLES.

The following changes and additions beyond London are now in force.

Word rate beyond London.

AFRICA.

Belgian Congo:

Katanga District via Broken Hill	.76
Other offices via Libreville..	1.16

Other offices	1.47
Cebu (Cebu Island)	}..... 1.51
Bacolod (Negros I.)	
Iloilo (Panay I.)	
All other offices	1.69

Poulo Condore Island. See French Indo China.

Penang. See Straits Settlements.

Siam Via Eastern or Indo:

All offices via Moulemein	.80
All offices via Saigon	.86

Singapore. See Straits Settlements.

Straits Settlements Via Eastern or Indo:

Malacca	.69
Malay States (except Kelantan)	.69
Penang	.69
Singapore	.69
Kelantan	.92

Pages 831 to 835 of the Tariff Book should be corrected in accordance with the foregoing.

BULGARIA.

Telegrams in Code language again admitted in Bulgaria.

CRETE.

Private telegrams in Code and Cypher again admitted.

DUTCH EAST INDIES.

Wireless communication has been established from Sitoebondo, Java to Amboina, (Amboina Island) and Keopang, (Timor Island.) Rate same as to other Dutch East Indies. Messages accepted only at senders risk.

GREECE.

The Greek Administration advises that Islands of Chio, Ikarie, Imbros, Metelin, Phara, Samothrace and Thasos now reached at rate same as to Greek Islands, Messages subject to delay.

Also that Greek telegraph offices opened at Serres, Drama, Cavalla, Demirissar, Nevrokopion, Petritsion and Doirani in Macedonia at rate same as to Greece. Messages at senders risk for the present.

Code and Cypher again admitted in telegrams to Greece.

ROUMANIA

Private telegrams in Cypher are not admitted to Roumania.

TURKEY

Normal rates now apply to places in Turkey. Restrictions reported as to use of four languages only in messages to Turkey, removed.

Telegrams in Code language are again admitted in Turkey.

Office at Scutari, Albania, reopened. Rate same as to Turkey in Europe.

Telegraph communication with Turkey via Bulgaria resumed.

WEST INDIES.

CUBA.

Telegraph offices have been opened at the following places in Cuba:

Town	PROVINCE
Mata,	Santa Clara.
Quinta.	Santa Clara.
San Felipe.	Havana.

GUADALOUPE, ETC.

Effective February 1st the rates to Guadalupe, Martinique, Marie Galante and Les Saintes were reduced 5c. per word less than rates shown on page 838 of the Tariff Book.

PORTO RICO.

An alternate route for traffic to Santo Domingo has been established via wireless beyond Ponce, P. R. to the follow-

ing points and at the following rates per word added to the rate to Ponce:

La Romana	28c.
Santo Domingo City	36c.
San Pedro Macoris	36c.

Messages must be routed "Via Ponce" for which routing indication no charge will be made.

SOUTH AMERICA.

BRAZIL.

Effective Oct. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book as \$1.11 from La. and Tex. and \$1.15 from other states and Provinces) was reduced to \$1.05 from La. and Tex. and \$1.09 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.41 from La. and Tex. and \$1.45 from other states and provinces) was reduced to \$1.29 from La. and Tex. and \$1.33 from other states and provinces.

Wireless communication has been established with following places in Brazil at following rates per word added to rate to Manaos:

Porto Velho	\$0.75
Cruzeiro do Sul	
Rio Branco	
Senna Madureira	1.16
Tarauaca	
Xapury	

Messages accepted only at senders risk, and must be marked "Wireless Manaos", which indication is to be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Columbia "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book or JOURNAL, which, together, furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line delivery, or telephone charges, which should be provided for when messages are accepted.

Counter clerks must exercise great care in accepting messages addressed to passengers en route on trains. A full

and sufficient address should be obtained in every case, and when possible should give the following information:

- (a) The name of the addressee;
- (b) The name of the Railroad and the train number;
- (c) The car and berth number, if known, in the case of passengers traveling on sleeping cars;
- (d) The name of the points between which the addressee is traveling;
- (e) The time the train is due at the place where delivery is to be made;
- (f) The name of the place to which the message is to be checked and to which the message is to be delivered to the addressee or turned over to the conductor of the train.

Below are examples of complete train message addresses:

- (1) John Jones,
N. Y. C. Train three enroute
New York to Chicago.
Due Cleveland 10.35 P. M.
Cleveland, Ohio.
- (2) John Jones,
N. Y. C. Train fifteen, lower
10, car 5, enroute New York
to Chicago.
Due Cleveland 3.25 A. M.
Cleveland, Ohio.

Hereafter for all messages which may be received "collect" from offices on "other" lines or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

It should be noted that the foregoing does not mention nor does it apply to "collect" messages from two star (delivery) stations.

Messages received from offices in Mexico destined to places in the United States not reached by telegraph, and which it is necessary to mail to destination from the nearest Western Union office, should in all cases be forwarded by registered mail.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 819 to 844, both inclusive, are CABLE messages and should be reported in accordance with Rule No. 71, page 788 of Tariff Book. The tolls received for the cable messages should not be entered in the Check Reports (Form 7).

MONEY TRANSFER SERVICE.

The following changes and additions supplement the list of Money Transfer offices:

DUNDUPLEX—The Real Labor Saver.

The Dunduplex will pay splendid dividends on your investment, as it is the only machine in the world that affords a choice of two distinct movements—either of which will almost double your present efficiency without taxing your energy.

All repeater chiefs now recognize the necessity of two weights as the only means of securing perfect signals, but two weights on other types of transmitters, means added burden to the arm, therefore making the labor twice as hard. The Dunduplex carries the weight without adding an ounce to the arm. This is only one of its big features.

WARNING TO INFRINGERS OF THE MARTIN "VIBROPLEX"

STILL ANOTHER VICTORY IN THE FEDERAL COURTS UPHOLDING OUR PATENTS

The United States Court, Cincinnati, has granted an injunction restraining James M. Dickson (Mt. Auburn Specialty Co.), and all his agents, associates, confederates and employees, from making and selling all kinds of telegraph keys or transmitters or parts thereof, similar to those heretofore advertised by him, or such as in any manner infringe upon United States Patents No. 182,183 and No. 842,154. This is in addition to the injunctions recently obtained by us in United States Court of Chicago, restraining similar infringement by Max Levey (Atoz Electric Novelty Co.), also injunction in United States Court at St. Louis restraining Oliver M. Thomas (O. M. Thomas Electric Co.) from similar infringements, of which the users of sending machines have already been notified. All parties are hereby warned that they will be prosecuted both for damages and for contempt of Court if they violate either of said injunctions.

All who are now using Sending Machines purchased either from said James M. Dickson (Mt. Auburn Specialty Company), from said Oliver M. Thomas (O. M. Thomas Electric Co.), from said Max Levey (Atoz Electric Novelty Co.), or from the agents of either, are daily liable to prosecution for contempt if they continue such use. Those who desire to escape such liability may do so on terms of which we will advise them, provided they communicate with us promptly.

The Man Behind the Gun

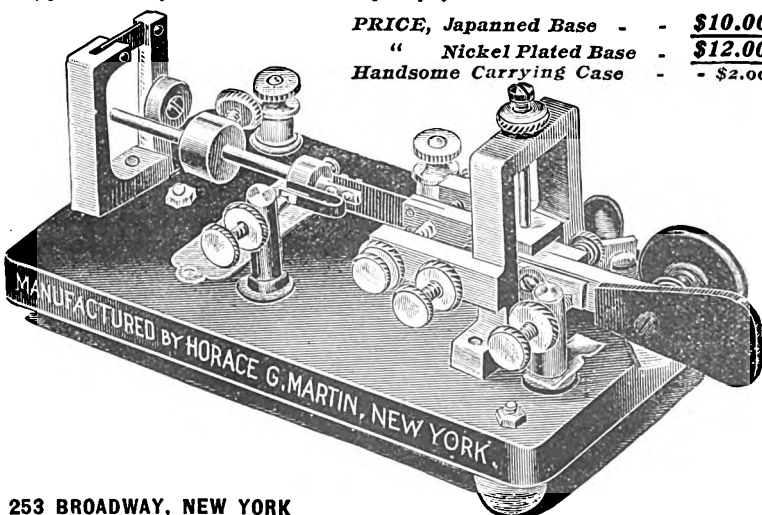

May be all right, but if the gun is no good, the man will do little damage. Just so in the case of the transmitting instrument. If the instrument is a cheap imitation of the original standard article, the man will soon revert to the old-fashioned key as the choice between two evils. If the man is well informed at the start, however, he will purchase a Martin Vibroplex, which has back of it the accumulated experience of H. G. Martin, the originator of the device. It is not logical to buy an instrument which is recommended as being "just as good."

Don't waste time and money on imitations. Get the genuine and see that H. G. Martin's name is on your machine.

NOTICE To Users of the Wires

On December 1st, 1909, the Western Union and Postal Telegraph Companies put into effect new rules governing the transmission of domestic messages sent in code language.

Those who have been in the habit of using mutilated words will have to exercise great caution if they desire their messages forwarded promptly and at the same time avoid complications in the settlement of their accounts with the telegraph companies.

As the Western Union and Postal Telegraph Companies have given their stamp of approval on Official Vocabulary words, those who use these words can feel absolutely safe.

The largest and most comprehensive Code in which Official Vocabulary words alone appear, employed by the most prominent corporations and firms throughout the world, is

The Western Union Telegraphic Code

Price: \$16 per copy in cloth, and \$18 in flexible leather covers.

Pocket Edition (unabridged) \$10 per copy.

BUY THE

International Cable Directory of the World

which is issued in conjunction with the WESTERN UNION TELEGRAPHIC CODE.

A Wireless Message.

The newspapers within the past few weeks have teemed with the dramatic incidents accompanying the saving of life at sea, which would have been inevitably lost were it not for the wireless message flashed across the intervening distance separating the imperilled vessel from the succoring ship. To accomplish such wireless results, apparatus of the best quality is required.

To the amateur, to the skilled user or to the experimenter, we offer a line of wireless instruments **second to none**, a few of which we illustrate on this page but all described in our manual.

Send for Our New Manual of Wireless Telegraphy B1

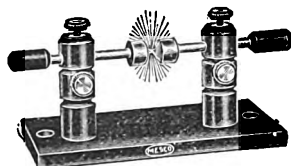

It contains 104 pages and tells how to erect and maintain wireless telegraph stations. Shows a number of diagrams. Has the Morse and Continental Telegraph Codes. Illustrates the best instruments to use; tells what they are for and how to use them. A guide that can be depended on and one which every one interested in wireless telegraphy should have.

INFECTIOUS DISEASES.

The Duty of the Public in the Control and Prevention of Outbreaks of Infectious Diseases.

The Medical Department under the direction of Dr. Alvah H. Doty, will issue each month an article on the subject of Hygiene or matters pertaining to the preservation of health and protection against disease. In order that the various subjects which are to appear may be more fully understood, those of the greatest importance will receive first consideration. It is suggested that the articles referred to be kept for reference, besides in this way a hand-book covering practically the entire subject of Hygiene may be secured.

Article 14.

It is the hope and belief of those who are familiar with matters pertaining to the public health that infectious diseases, or at least some of them, may be exterminated. While this may seem hardly possible there is no special reason why it cannot be successfully accomplished if proper means are employed and the co-operation of the public is secured, the latter being a most valuable aid in obtaining this result.

History presents abundant evidence of the ravages caused by outbreaks of infectious diseases which are unrestricted in their course. On the other hand we have unlimited proof that where proper sanitary regulations are strictly enforced such outbreaks are of comparatively short duration and are soon brought under control. To illustrate this we need only compare the very fatal results which in the past have followed the appearance of infectious diseases where but little protection was afforded with the success which follows the employment of modern health regulations. For instance, during the 14th Century Plague appeared in Western Europe and remained there continuously active for a number of years. It is estimated that during this period over 10,000,000

persons or about one fourth of the entire population were destroyed. The inhabitants were helpless to prevent this devastation because the sanitary measures were of but little value or worthless, for at that time dependence was placed largely upon incantations, the burning of magic powders, etc., for protection against these dangers.

In striking contrast to this may be cited the fact that within the past few years an outbreak of this same disease, Plague, appeared among the Chinese population of San Francisco. It was early detected and modern sanitary regulations were promptly enforced and as a result not more than 150 cases occurred during the comparatively short period that the disease was present, and with but little interference with the business or comfort of the inhabitants of the city, although there is no doubt that the character of the disease was the same in both instances and that the differences in the results were due chiefly to the means employed to prevent its extension. These same conditions have occurred in connection with outbreaks of Cholera as well as other infectious diseases.

It is a common belief that the far East is the home of certain infectious diseases, particularly Plague and Cholera, and that for this reason it is impossible to prevent their propagation. There is no truth in this beyond the fact that the natives are extremely ignorant and unclean, and over crowding exists to an extreme degree; besides, largely as a result of religious fanaticism, these people obstruct every form of modern sanitation which is undertaken for their welfare. For these reasons the East constitutes a menace to the health of every country, for the diseases which they are constantly propagating reach almost every part of the globe. There is no doubt that, if the same sanitary measures which are employed here were enforced in the East, both Plague and Cholera would disappear from the earth.

The wonderful change which has taken place in the prevention of infectious diseases through modern sanitary methods occur principally in connection with what are known as quarantinable diseases, i. e., Plague, Cholera, Typhus Fever, Smallpox and Yellow Fever. As these are extremely infectious and, with the exception of Smallpox, which has been modified by vaccination,—involve great danger to life, the law requires that they shall be promptly isolated in hospitals or other buildings set apart for this purpose and kept under the close observation of health au-

thorities. Therefore it may be said that successful results in dealing with outbreaks of infectious diseases depend chiefly upon the prompt detection and isolation of the cases.

Not many years ago Yellow Fever was almost continuously prevalent in South America, the West Indies, and also in the southern part of the United States. It would be difficult to estimate the loss of life and the interference with commerce caused by this disease, largely because the means by which it is transmitted was unknown. In 1898 it was discovered that the medium of infection is a variety of the mosquito known as the "Anopheles". Action was then taken by the United States Government to exterminate this insect in Cuba, with the most successful result, for there have been few if any cases of this disease there for a number of years. These same results have also been accomplished in other countries and there is good reason to believe that Yellow Fever will be exterminated.

Outbreaks of the diseases just referred to occur only at long intervals simply because the cases are brought promptly and directly under the observation and care of the health authorities, otherwise they could not be successfully dealt with.

There is another group of infectious diseases which may be found almost everywhere and at any time. These are Scarlet Fever, Measles and Diphtheria and are constantly with us because proper care is not taken to prevent their extension, largely for the reason that public health laws permit them to be cared for at home, although the propriety and safety of this has been seriously questioned, for many cases are treated only with domestic remedies and but little or no care is taken to prevent their transmission; besides, it is a common belief among mothers that children are quite sure to have measles and scarlet fever, and that it is preferable that they get through with them in early life. There could be no more dangerous or fallacious reasoning. Children should in every reasonable way be protected against these diseases, for they are far more dangerous than it is generally supposed. While a large number of cases, particularly of diphtheria and scarlet fever, prove quickly fatal, others later succumb to complicating diseases, some have permanent loss of hearing or sight and some who have scarlet fever become mentally defective.

Those who are constantly dealing with health matters recognize that the extermination of this group of diseases, or at least a great decrease in the number of cases, is impossible without better co-operation on the part of the public; this means that every household should have a better understanding as to the danger of these diseases, not only so far as the patient is concerned, but should know the importance of isolation as a means of protection to others. The most dangerous media of infection are the mild or unrecognized cases, many of which are only slightly ill, and the character of the disease

can as a rule be detected only by a physician; however, these cases freely transmit infection. Another exceedingly dangerous factor in the transmission of infectious diseases is the belief on the part of the family that they are able to detect these various diseases and treat them without medical aid. Many children have died of diphtheria who might have been saved if what was apparently a simple sore throat had been promptly and properly cared for. It may be truthfully said that, so far as the protection to others is concerned, the isolation and preventive measures usually carried out by the family without the aid of a physician represent the lowest ebb of sanitation, and as a rule are of little or no practical value.

Generally there is a greatly increased number of cases of measles, diphtheria and scarlet fever occurring soon after the beginning of the school year. This was formerly believed to be due to the transmission of these diseases through the medium of the clothing of well children in whose homes infectious diseases had occurred. To-day we know that this is not the true explanation, for infection is only rarely transmitted by clothing, baggage, etc., *but rather by contact with those who are infected.*

Recently the departments of health in the large cities have established what are termed school corps. These are composed of medical officers who daily visit the public schools to examine the children. Many cases of infectious diseases are found among them without any special evidence of a deviation from health and these undoubtedly account for the increase in the number of cases after the opening of the school. This method of inspection and the removal from school of those who are infected has gone far to diminish the number of cases of these diseases.

Health officials are constantly employing every reasonable and practical means to exterminate infectious diseases, but to be successful in this there must be more extended co-operation on the part of the public, particularly in the home. At present children with symptoms which even to the layman are suspicious of infectious diseases are commonly treated with domestic remedies and but little or no care is given to their isolation, which is so necessary for the protection of others. What may apparently be regarded as an ordinary sore throat often proves to be diphtheria or scarlet fever and, even if mild, may transmit these diseases to others in the most malignant form. A cold in the head may be the beginning of measles, or an eruption which the mother is quite sure is chickenpox may prove to be smallpox.

The course which should be followed by the family under these conditions, both for the safety of the patient and to prevent the transmission of disease to others, is to send at once for the family physician and let him determine the diagnosis of the case and preventive measures and treatment which should be carried out.

This is not only the safe and proper course to pursue, but it is also economical, for it insures more prompt recovery of the patient and less danger of the transmission of the disease to others.

It is true that there are instances where the services of a physician cannot be obtained, although at the present day this is very unusual. If this should occur it must be remembered that the most important thing to do, so far as the prevention of infection is concerned, is the careful isolation of the patient in an apartment where communication is entirely cut off from everyone except the person who is in charge of the case.

Co-operation on the part of the public in this important matter is not only certain to diminish the number of cases of infectious diseases, with a corresponding lessening of mortality, but will extend most important and valuable aid in exterminating this constant menace to health and life.

Morse Electric Club Dinner.

The annual dinner of the Morse Electric Club was held at the Knickerbocker Hotel, New York, on the evening of February 21st, and was one of the most successful and enjoyable affairs the club has ever held. The success of the dinner prompted the suggestion that Morse Clubs be organized at other centers throughout the country. There was an unusually large attendance, over two hundred persons being seated at the tables.

At the guest table, seated at the right of Toastmaster Brooks, in the order named, were Messrs Newcomb Carlton, Vice-President of the Western Union Telegraph Company; H. F. Thurber, Vice-President New York Telephone Company; S. M. English, General Manager of the Gulf Division and A. R. Brewer, Treasurer of the Western Union Telegraph Company. On the left of the Toastmaster were Messrs. H. A. Bishop, Director and member of the Executive Committee of the Western Union Telegraph Company; A. S. Hibbard, of the American Telephone and Telegraph Company; G. W. E. Atkins, Vice-President Western Union Telegraph Company; E. P. Griffith, Superintendent of Telegraph Erie Railroad and E. J. Nally, Vice-President of the Marconi Wireless Telegraph Company.

During the dinner an excellent vocal and instrumental programme was rendered.

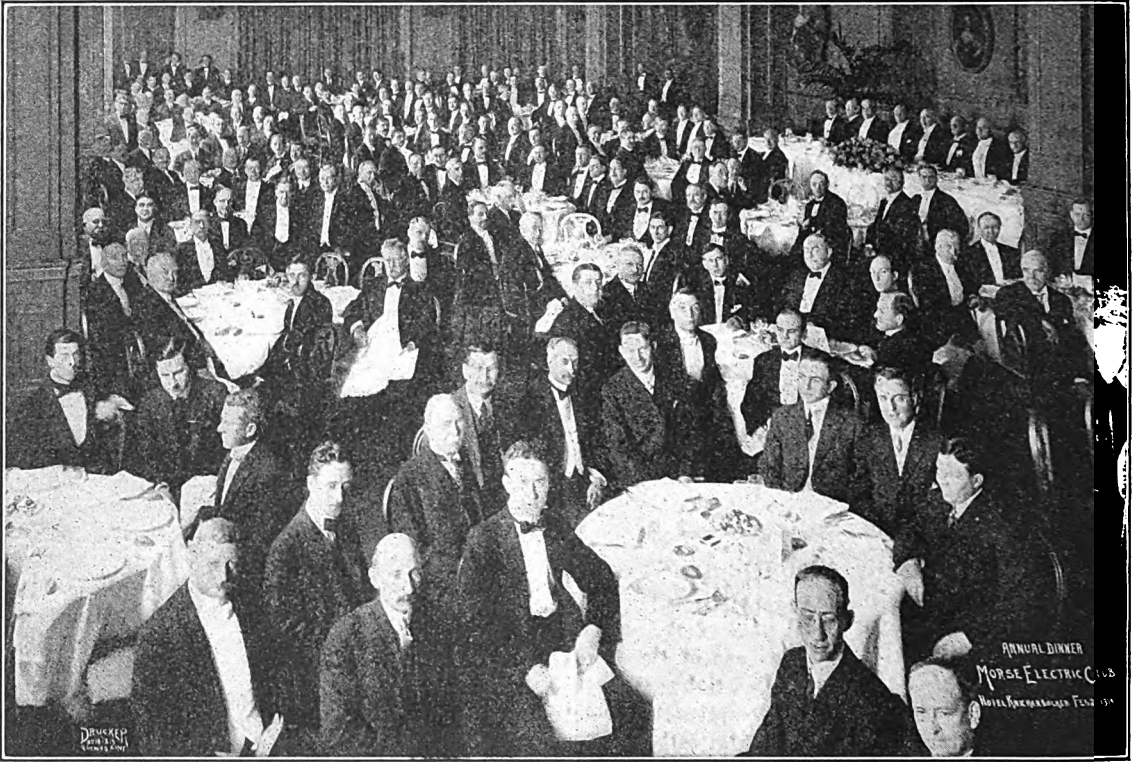

At the conclusion of the dinner Toastmaster Brooks introduced the guest of honor, Mr. Newcomb Carlton, who spoke as follows:

"I am reminded that the honor of being the guest at such a dinner as this puts one in a slippery place. According to a well known couplet, in the first five minutes a man is a guest, the second a burden and the third a pest. I shall endeavor, as nearly as I can, to come within the confines of the first period. I am deeply sensible of your kind greeting and the distinguished honor which your organization is according

me to-night, though I feel a sense of sadness in that I stand for the moment receiving the tribute which belongs to our President, the impress of whose great mind and character will be felt in this organization so long as any member present shall survive. We have celebrated various periods in the matrimonial relationship of ourselves and of the telephone at these banquets. I was not present at the one commemorating the marriage, nor was I present at the one commemorating the birth of the first child, that vigorous offspring, when we welcomed the night letter. Births have been frequent in our family since that date and we know the results. To-night there is, as I say, an air of sadness in our meeting in that our parent is leaving us, not because of any violation of the rules and regulations which govern the conduct of a properly constituted husband, but because for some reason or other, which no man can accurately define, it has been deemed desirable that we should go on our way independent of one another. It is customary I believe, when the parent decides to leave the family, to leave something behind in the way of a monthly allowance or some other compensation, but we have no such consolation in this disruption. Mother keeps the children and father goes his way. But I will warn our neighbors across the street that, if they are not reasonable in their treatment of us, we will hang the swaddling clothes of the infants on the lines in our front yard and, if that is not sufficient, we will open the windows so that they can hear them cry.

"In my judgment there has never been a case equal to the telephone company's interest in the Western Union. We may hold varying opinions as to the wisdom of control, but I submit to you gentlemen that there never has been a case of corporate self-abnegation equal to that which the telephone company has displayed towards the telegraph company. Show me an instance where they have benefited unduly or unfairly by this relationship. Show me a train of circumstances which has not redounded to the benefit of the public, and to you and to me. It is a most astonishing piece of imaginative and constructive business philosophy, this idea which generated in that marvelous mind of Mr. Vail's. It seems—although I do not wish to be understood as going so far as to object to the momentary trend of public opinion—it seems to me a pity that we should be deprived of their support and their co-operation. I believe that we will have their co-operation insofar as it can properly be given and that, if we ourselves show a reasonably co-operative spirit, they will go more than half way to meet us in our desire to please he public. * * *

"We are fortunate to-night in having with us one who was at one time the popular Postal progressive and is now the radical radio reformer, who was ever esteemed as a competitor and highly regarded as a friend. It is a fine tribute to this organization that a man who has smitten you hip and thigh should sit at your table and receive your cordial and hearty

Annual Dinner of the Morse Electric Club.

welcome. I refer to Mr. Nally. Mr. Nally suggests an interesting phase which it has fallen to my lot to observe, the meeting of two great forces. Within our organization we have one which combines the principles of the attraction of gravity with the qualities of inertia and dynamic power, and all in a superlative degree. This combination of virtue and vice has recently met Mr. Nally, who possesses most of the qualities himself, and I have been called upon to arbitrate the question as between Mr. Nally and Mr. Willever. I submit to you, gentlemen, that I require your sympathy and your support. I am perfectly sure that I shall offend them both, and if I offend, I shall offend because I shall attempt to strike a middle ground, a ground which neither of these two patriots is particularly disposed to occupy. I have been requested to urge your co-operation and sympathy with our cable letters. The progress that our cable system has made since Mr. Willever has been the United States Manager, to say nothing of the able co-operation of those abroad, is well known, but they have a far reaching and grasping quality which appears to have no end short of procuring all the business. If there is any man here who questions the right of the Western Union to do all of the cable business between the United States and Europe, I suggest that he meet Mr. Willever for, say, a half hour's time just outside the door.

"In a closing word I want to ask the co-operation of the men present, the sympathy, loyal support and

generous treatment to whoever shall succeed to the leadership of the Western Union Company. His task will be no easy one. He will be eclipsed by the man who has gone before him, and his only possible road to success is through the co-operation and hearty sympathy of the men present and of your associates. I bespeak for him, whoever he may be, that co-operation."

Following Mr. Carlton's address, Mr. E. J. Nally, Mr. A. S. Hibbard, Mr. H. F. Thurber and Mr. E. P. Griffith also had something interesting and pleasant to say, and Mr. Hibbard captured the audience by topping off his remarks with one of his characteristic songs.

Rule 75.

Rule 75 is amended as follows:

"The amount entered on Form 4-A or Form 4 as 'Paid Other Lines' shall represent:

- (a) Actual disbursements in payment of 'other line' tolls (including special delivery charges) on messages delivered and payments of extra words on forwarded messages, supported by properly receipted vouchers.
- (b) 'Other line' tolls on forwarded messages supported by copies of messages. See Rule 8."

Method of Computing Commissions on Mexican Business at Commission Offices.

At offices where commissions are authorized in lieu of other compensation, the commissions on messages to or from Mexico should be computed as follows:—

On Class A & C Traffic

where the rate is \$1.75 and .12, commissions should be computed on the proportion of .50-3;

where the rate is \$1.60 and .12, as to and from offices in the State of Louisiana, commissions should be computed on the basis of .30 and 2;

where the rate is \$1.60 and .12, as to and from offices in the State of Texas, commission should be computed on the basis of .25 and 2.

On Class B Traffic

the rate on which is .70 and 5, to and from all offices in the United States, commissions should be computed on the basis of .50 and 3.

B. BROOKS
Vice-President.

Reduced Rates to San Domingo.

The establishment of a new route to San Domingo via Wireless from Ponce, P. R., permits of the acceptance of messages for San Domingo at a reduction of 52 cents per word in the tariff. The dependability of this route having been established, it will be considered our normal route via which all messages to San Domingo will transit in future unless otherwise marked by the senders. Page 838 of the Tariff Book should be corrected so as to show the following tariffs:

From W. U. and G. N. W. offices in the U. S. east of the Miss. River, including St. Louis, Mo., and Minneapolis, Minn., to San Domingo — 80 cents per word.

From W. U. offices in the U. S. west of the Miss. River, except St. Louis, Mo., and Minneapolis, Minn., and from W. U. offices in B. C. and from G. N. W. offices in Manitoba, to San Domingo—85 cents per word.

From W. U. and G. N. W. offices in N. B., N. S., Ontario and Quebec, to San Domingo — 85 cents per word.

Messages marked "Via Hayti" will continue to be accepted at the rates heretofore quoted, or 52 cents higher than the rate via Ponce and Wireless.

Week End Letter Service Chili and Peru.

Effective September 1st the Week End Letter Service now in effect with Argentine Republic was extended to Chili and Peru (Except Wireless Sta-

tions) at the same rates and under the same regulations governing that service to Argentine shown on pages 858 and 859 of the Tariff Book.

Deferred Cable Service.

The following have been added to list of places shown on page 861 of Tariff Book to which Deferred Cable Service is in operation:

Borneo (Dutch),	via London.	Formosa via London.
Chili, So. America.		Japan via London.
Cyprus.		Nauru Island.
Peru, So. America.		Tripoli.

(Except Wireless Stations).

It should be noted that Deferred Cable Service is now in force to Amazon River Stations in Brazil.

Offices should note especially that senders of Deferred Cables must in every case write before the address and pay for as one word the letters LCF, LCO or LCD, as is in the nature of a declaration that the communication is in the French language or the language of country of origin or destination as the case may be.

Trans-Atlantic Wireless Service.

Instructions on Page 862 of the Tariff Book to the effect that the amount prepaid for replies to Marconigrams must be expressed in terms of full cable rates should, effective April 1st, be changed to read:

"The same provision for prepaid replies to trans-Atlantic wireless messages may be made as for prepaid replies to cablegrams but in the case of wireless trans-Atlantic messages the amount for the prepaid reply must be expressed in terms of the full wireless rate instead of the full cable rate."

Upon receipt of a Marconigram to which a reply has been prepaid the delivery clerk will from April 1st write under the message, before delivery, the words:

"Reply to the value of paid for" and will arrive at the amount expressed as prepaid by calculating the tolls at full Marconi rates on the number of words in the RP indication.

The attention of offices is drawn to the fact that in future trans-Atlantic wireless messages should be prefixed "MARCONI" instead of "RADIO" and the instructions on page 862 of the Tariff Book should be corrected accordingly.

Wireless messages to and from Steamers will continue to be prefixed "RADIO".

Wireless Messages to and from Steamers.

(See also page T 39).

Pursuant to the International Radiotelegraphic Convention, which by proclamation of the President

of the United States became effective on September 1st, the provisions of the Cable Rules relating to repetitions, acknowledgments of receipt and prepaid replies as printed on page 815 of the Tariff Book are applicable to the wireless service to and from ships at sea,—and notations to that effect should be made on page 866 of the Tariff Book, canceling the reference printed thereon in regard to the inadmissibility of prepaid replies.

The amounts prepaid for replies to messages addressed to ships-at-sea should be expressed in dollars and cents instead of in words at full rates, and a minimum of ten words must be charged for in every case. In these important respects the practice differs from the method of expressing and dealing with RP charges in cablegrams and trans-ocean wireless messages, but in all other respects the general instructions in reference to such charges printed on pages 815 and 816 of the Tariff Book should be carefully followed, except that of course form 7 instead of form 67 should be used in reporting the messages. In no case should RP charges be refunded save on the authority of the United States Manager. The foregoing of course applies equally to messages received from ships-at-sea, the RP indication in which will be understood as referring to amounts prepaid and not to the number of words paid for.

It should also be noted that the preamble "EX-PRESS", when the same appears immediately before the address in such message, conveys the information that any published special delivery or other terminal charges have been prepaid by the sender. Similarly the preamble "PR" signifies that delivery is to be by registered mail from the terminal telegraph office and that all post-office charges have been prepaid.

The attention of offices is drawn to the fact that by agreement between the administrations operating coastal wireless stations, reports of non-delivery and other similar service correspondence need not necessarily be exchanged through the coastal station via which the original message was routed, but may be exchanged through any other coastal station which may be in nearer range at the time that the occasion for such service correspondence arises.

Effective July 1st, the wireless rate to and from steamers on the Great Lakes was reduced from 10 to 5 cents per word with the usual 10 word minimum. This will make following corrections necessary on page 869 of the Tariff Book.

"For Coastwise vessels" from Buffalo, N. Y., Cleveland and Ashtabula, Ohio, Detroit, Mich., 5, instead of 10.; Benton Harbor, Ludington, Grand Haven, Frankfort and Mackinac, Isl., Mich., Chicago, Ill., Milwaukee and Manitowac, Wis., Calumet, Mich., and Sault Ste. Marie, Ont., 5, instead of 10.; Manistique, Mich., 5, instead of 12c.; Duluth, Minn., 5, instead of 10c. per word.

The rate for wireless transmission Duluth to Grand Marais, Minn., has been increased from 5 to 10 cents per word, restoring the 15 cent wireless rate shown in Tariff Book, for Lake Steamers via Grand Marais.

Manistique, Mich., is now a Western Union Check direct office and wireless rate for coastwise vessels (Great Lakes) shown on page 869 of Tariff Book is now 5, instead of 12 cents per word.

Effective at once the wireless word rates shown on pages 867, 868 and 869 of the Tariff Book will be further reduced to the following figures:

Siasconsett, Mass. For Coastwise vessels ..	.15
Key West, Fla. For Trans-Ocean vessels18
“ “ “ “ Coastwise vessels14
Eureka, Cal. For Trans-Ocean vessels	.14
Tatoosh I., Wash., “ “ “ “	.15
No. Head, Wash., “ “ “ “	.14
Cape Blanco, Ore., “ “ “ “	.16
Pt. Arguello, Cal., “ “ “ “	.14
San Diego, Cal. ... “ “ “ “	.14

Effective November 1st the wireless rate on messages to and from coastwise ships at sea exchanged through Astoria, East San Pedro, Eureka, Friday Harbor, Marshfield, San Francisco, San Luis Obispo and Seattle coastal stations was reduced 5c. per words, making the wireless rate on messages to coastwise vessels only exchanged through any of the stations named 5c. less than the word rates published opposite such stations at the top of columns on pages 863 and 869 of the Tariff Book.

Through misunderstanding the notice published in the October Journal extended the above reduction to the Cape Blanco, North Head, Point Arguello, San Diego, Tatoosh Island and Victoria stations. The wireless rates to and from coastwise vessels exchanged through those stations are reduced, but only to the following figures:

Cape Blanco	10c.
Victoria	} 08c.
North Head	
Point Arguello	
San Diego	
Tatoosh Island	09c.

Wireless rates via all Pacific Coastal stations to Government vessels are 2c. per word higher in each case than rates quoted above.

Effective November 1st the following changes were made in the land-line word rates on ships' messages.

Between offices in Washington and coastal stations in Oregon, rate increased from 3 to 4c. per word.

Between offices in Oregon and coastal stations in Washington, rate reduced from 5 to 4c. per word.

Between offices in Oregon and coastal stations in the same state, rate reduced from 5 to 3c. per word.

Between offices in California and coastal stations in Oregon, rate reduced from 6 to 5c. per word.

Between offices in California and coastal stations in the same state, rate reduced from 4 to 3c. per word.

The New London wireless station has been closed, and messages to ships at sea which would ordinarily be routed via that station should for the present be routed via a substituted station established at Newport. Messages routed via the Newport station will take the same wireless rate as the New London station, or 6c. per word, and the same land line rates as are published for messages routed via the Point Judith station.

The wireless connection via Fort Morgan, Ala. given in third column, page 868 of Tariff Book, should be erased.

The wireless connection via Sayville, N. Y., has been discontinued and the rates via Sayville given in first and second columns on page 867 of the Tariff Book are therefore canceled.

Effective January 1, 1914, South Wellfleet, Mass., will be discontinued as a wireless station for steamships in the Boston service and the Boston station will be used instead. The third column on page 867 of the Tariff Book should be corrected accordingly.

The high power station at South Wellfleet will be continued as formerly at rates shown in fourth column, page 867 of the Tariff Book.

J. C. WILLEVER,
United States Manager.

Accepting and Rating D. H. Messages.

1. Receiving Clerks shall be careful to write correct frank numbers immediately after the check in messages and shall be certain, before checking a message "D. H.", that it is, (a) properly covered by a D. H. Frank Card or D. H. Stamps, or, (b) properly approved in writing under Tariff Book Rule 24 for employe's messages, or, (c) correctly checked "D. H. Answer to D. H." in reply to a received D. H. Message.

2. The D. H. Franks are of two general classes, viz., Business Frank Cards and Complimentary Frank Stamps and Cards, as follows:

- (a) The Business Frank Cards are generally issued to officers and agents of railroads and are restricted to messages relating to business of the respective carriers with which they are connected.

The term D. H. is used in connection with these franks and the messages are also sometimes referred to by employes as "Free", but it should be distinctly understood that these terms are used merely for convenience in checking or accounting as the messages transmitted thereunder are actually charged by the Auditor against the accounts of the respective carriers and thereafter paid for in cash or its equivalent.

- (b) Complimentary Frank Stamps are issued to officers or to officers and members of their families, of common carriers and cover messages of a family or social character. The Stamps are numbered and bear the designating letters, A, B and C. Each stamp has the monetary value printed thereon and stamps should be attached to each message sufficient to cover the total tolls. In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.
- (c) Personal Complimentary frank cards are issued to officers or officers and members of their families, of common carriers and cover messages of a personal social character and are not good for personal business messages. They bear the designating letter "F."

3. "Dead Head Answer" messages need not be accompanied by copies of messages to which they are answers, provided receivers are satisfied that messages so tendered are answers to received D. H. messages.

4. Dead Head Franks should not be confused with Identification Cards, Half-Rate Franks, Government Rate Cards or Collect Cards. Messages filed under any of these four kinds of Cards shall not be checked "D. H.".

5. Receiving Clerks shall note in the upper right hand corner of message blank, above the space provided for "check," the amount of "This Line" tolls thereon computed at day message rates, unless the frank is specially endorsed good for night messages, day or night letters, in which case tolls at the respective rates shall be noted. Connecting line tolls if paid, shall be noted immediately after the word "Paid" in the check.

6. Messages to points on the lines of the International Ocean Telegraph Company, shall be rated at through rates from point or origin to point of destination, if the sender holds Western Union Frank en-

dorsed good for message to I. O. T. points, or both Western Union and I. O. T. franks.

7. Messages to points on the lines of the Great North Western Telegraph Company of Canada accepted from holders of both Western Union and G. N. W. franks, shall be rated at *one-half* of the amount of the through tolls which, in the case of messages checked D. H. over both lines, represents the Western Union proportion of the tolls. This amount (only one-half) shall be noted on the message.

8. Messages to I. O. T. and G. N. W. points accepted from parties holding Western Union franks only, or I. O. T. or G. N. W. franks only, shall be rated in accordance with Tariff Book Rules 133, 134, 138 and 139.

9. The same care should be used in rating Dead Head messages as is used in rating paid messages.

10. Half size pictures of the various franks and cards were distributed with the October 1913 Journal of the Telegraph and should be in the possession of every office, for reference.

Revised Rule 79.

Dead Head Message Reports.

A monthly report of Dead Head messages shall be prepared on Form 38-A. One entry shall be made monthly for each Railroad, Express or other transportation company separately, showing name of company (or name of sender, if not a business message) number of sent D. H. messages and total tolls. Messages sent D. H. in answer to received D. H. messages shall be entered on one line as "Answers".

The original sent D. H. messages shall show the place of origin, the reason why D. H. and the tolls. The original sent D. H. messages, and copies of messages received D. H. from G. N. W. points, and the Form 38-A shall be forwarded with the monthly report.

Commencing March 1st, 1914, the Complimentary Stamp Franks issued by this Company will have printed thereon the value in cents, and the value of stamps affixed to each message should equal or exceed the tolls.

In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

Revised Accounting Forms.

A new form of report, Form 2441-A, has been issued for use by Managers in accounting for mes-

sages of the following classes in their Monthly Reports, Form 4, and similar forms:—

Refunds on "Half Rate Frank" messages,
Uncollected Messages,
Guaranteed Messages,
U. S. Government—Weather Messages,
U. S. Government—Other Messages,
Identification Card Messages,
Forwarded Collect Messages,

The use of Form 2441-A will considerably reduce clerical labor required heretofore. Complete instructions are printed on the reverse side of the Form.

Form 2441-A will be supplied on future requisitions and on any unfilled requisitions for the following Forms which are hereby cancelled:—

Statement of Refunds on "Half Rate Frank" messages, Form 33 or 33-A.

Statement of Uncollected Messages, Form 34 or 34-A.

Statement of Guaranteed Messages, Form 35 or 35-A.

E. Y. GALLAHER,
Comptroller.

Money Transfer Drafts.

There is sometimes objection, on the part of payees, to the practice of placing the name of the depositor upon the draft issued in payment of a money transfer. This practice should, therefore, be discontinued, the space provided for the name on the transfer draft being left blank, unless for any reason the payee should request that the name be added.

Money Transfer Rule XII-I.

The second paragraph of Money Transfer Rule XII-1, relating to Special Foreign Transfers, should be corrected to read as follows:

"The word 'Special' shall be inserted directly after the name of the paying station in every message directing the payment of \$100. or over and shall be included in the check, but not charged for."

Example:

Tragent,

New York.

Pay William Henry Justice 45 Regent St. London
Special from Frederick Hunter.

(Count all words.)

Ck. 16 Free

HENRY G. BATES,
General Transfer Agent.

Western Division Changes.

Mr. R. H. Underwood, formerly Manager at West Baden, Ind., has been appointed Manager of the French Lick Springs, Ind., office vice Z. M. Apple, resigned to engage in other business.

Mr. Underwood is succeeded at West Baden by Mr. F. D. Walker.

TREASURER'S OFFICE.

Revised Instructions Regarding Bankruptcies,
Receiverships, Assignments, Etc.**Bankruptcies.**

When a debtor to the Company avails of the National Bankruptcy laws and a Referee has been appointed, the Manager shall send to the Superintendent the name and address of the Referee and an itemized statement of the amount due from the Bankrupt provided the amount is enough to warrant filing a claim. If the papers are in proper form the Superintendent will forward to the Treasurer with recommendation and the Treasurer will file claim and send a credit slip authorizing the office to take credit for the amount. As the Treasurer takes the accounts on his books all dividends should be sent to him, and when by error dividends are sent to the local offices by Referees or others, they should be forwarded to the Treasurer.

Receiverships.

These are usually cases of insolvency where Receivers are appointed by State or Local Courts and should be distinguished from certain Bankruptcy cases in which temporary Receivers are appointed, pending the selection of Referees. The procedure will be as above described with the names and addresses of Receivers substituted for those of Referees. In Receiverships, itemized statements should be sent in duplicate.

Assignments.

In these, Assignees are appointed to represent the debtors and creditors. The procedure will be as first above outlined, with the substitution of Assignees for Referees. Itemized statements should be sent in duplicate.

Trusteeships.

These are where Trustees are appointed by agreement between debtors and creditors to save the expense of Bankruptcy or Receivership proceedings. The procedure shall be as first above outlined with the substitution of Trustees for Referees. Itemized statements should be sent in duplicate.

Propositions.

Propositions are sometimes made for settlement of such accounts as those above described on a compromise basis. Such propositions if favorably considered, should be promptly forwarded to the Superintendent and by him to the Treasurer with recommendation.

Small Claims.

It is usually not worth while to send in a claim for less than \$2.00 as the dividends are seldom enough to pay postage, etc. Claims for less than \$2.00 should

therefore be handled in the manner provided for Uncollected Accounts unless the Manager has reason to believe that the dividends will more than pay the charges. In many cases even when the debts are larger than \$2.00 the assets are not enough to pay postage. In these cases the Superintendent may direct the Manager to handle the accounts as other uncollectible accounts are handled.

A. R. BREWER,
Treasurer.

Approved,

B. BROOKS, *Vice-President.*

Complimentary Franks and Half
Rate Franks.

CONTRACT DEPARTMENT, March 11th, 1914.

AMENDED NOTICE to Western Union Offices in
Nebraska, New Hampshire,
Ohio, South Dakota, Wisconsin,
New York, Texas, Indiana,
Montana and Missouri.

Under the laws of the States of Nebraska, New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the law of the State of Indiana it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks.

Under the law of the State of Montana it will not be legal to and you will not accept intra-state messages under Complimentary Franks; nor intra-state messages under Half Rate Franks.

Under the law of the State of Missouri it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Pennsylvania it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks

issued to members of families of Officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks.

Holders of Half Rate Franks under written agreements with this company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells Fargo & Company.

G. W. E. ATKINS.
Vice-President.

Employees' Benefit Fund.

Pursuant to the provisions of Section 4, Paragraph 4 of the Plan for Employees' Pensions, Disability Benefits and Insurance, the Employees' Benefit Fund Committee submits to the employees of the Western Union Telegraph Company, the following report of receipts and disbursements of the Fund for the year ended December 31, 1913:

Amount of Fund January 1, 1913	\$1,000,000

For Pensions	\$116,446
“ Accidents Disability Benefits and Expenses	16,150
“ Sickness Disability Benefits	91,967
“ Life Insurance Benefits.. ..	51,826
Total Disbursements	276,389
	<u>\$723,611</u>
Credits to Fund:	
Interest at 4 per cent on monthly balances of Fund	35,334
Appropriation of Company's earnings to restore Fund.. ..	241,055
	<u>276,389</u>

Amount of Fund, December 31, 1913....	\$1,000,000
Employees' Benefit Fund Committee	
F. T. ALBERT,	
<i>Secretary.</i>	

Examined and passed.
E. Y. GALLAHER,
Comptroller.

Annual Meeting of the Telegraph and Telephone Life Insurance Association.

The Forty-seventh Annual Meeting of the Telegraph and Telephone Life Insurance Association was held at 195 Broadway, New York on March 11.

President Belvidere Brooks in the chair.

There was a large attendance including proxy representation of 2,175.

The President's report stated that in accordance with an order of Supreme Court of New York the name of the Association was changed as above on July 10, 1913.

That during the 12 years of his incumbency in the office of President the sum of \$834,000, was paid to the beneficiaries of deceased members. The Reserve Funds had increased from \$193,213 to \$343,965, or to a high ratio of 7.03 per cent of contingent mortality liabilities.

The future of the Association was therefore full of bright hope and promise and in retiring from the Presidency he tendered his thanks to the Officers, members of Executive and Auditing Committees, and the Agents for their efficient services during the past twelve years and bespoke from them the same cordial support to his successor—Mr. William H. Baker—as had been accorded to him.

The reports of the Secretary and Treasurer showed that the Association has 4,481 members in Full Grade and 823 in Half Grade, carrying insurance amounting to \$4,892,500. with assets of \$359,186. over all liabilities.

The Officers elected for the ensuing year were:

William H. Baker	President
C. P. Bruch	Vice-President
S. S. Garwood	Vice-President
A. R. Brewer	Treasurer
M. J. O'Leary	Secretary

Members of the Executive Committee to serve three years.

S. H. Marriott	T. E. Fleming
----------------	---------------

Advisory Board:

B. E. Sunny	Chicago
H. J. Pettingill	St. Louis
W. T. Gentry	Atlanta
A. L. Salt	New York
H. C. Worthen	Atlanta
G. H. Usher	Atlanta
C. H. Gaunt	San Francisco
J. G. Blake	San Francisco
H. D. Reynolds	Buffalo

Auditing Committee:

C. E. Bagley	R. J. Murphy	W. J. Dealy
--------------	--------------	-------------

The visiting delegates were entertained at a dinner at the Fifth Avenue Restaurant, at which a number of interesting addresses on the benefits of the organization and the advantages of membership were made, after which the evening closed with an excellent vaudeville performance.

For application blanks and full information address, M. J. O'Leary, Secretary, 195 Broadway, New York.

TARIFF BUREAU

WESTERN UNION TELEGRAPH CO.,
NEW YORK, MARCH 20, 1914.

Places marked in the Tariff Book as "Summer" or "Winter" offices are not to be considered as open until notice to that effect is published in the JOURNAL.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the Tariff Book of July 1913, "Changes" are printed in "Italics"; "New offices" in "Roman" type.

When the status of an office as shown in the Tariff Book is changed, it is entered in the Journal, in italics, in correct and latest form. See, for example, *Howards, Ala.*; or the change is indicated in a briefer way: See *Blountstown, Fla.* (The Journal entry is "**** *Blountstown*. Add † and (L.)" which indicates that the foot note on Tariff Book page showing Blountstown applies to Blountstown and that Night Letter and Day Letter rates apply over "Other" line beyond Marianna).

Changes published for the first time in each issue will be indicated by the prefix "+."

See Special Notices at end of this circular.

 * White River. (N.L.) 3.25-22 Vancouver, B. C.

WIRELESS.

Note 5, and the paragraph following, on page 842 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and the town of Bluefields, in Nicaragua, may be reached by wireless service from Colon (Rep. of Panama) at rate of 21c. per word in addition to the cable rate to Colon.

Note 6. Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 21c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 3, page 866 of Tariff Book should be corrected to read as follows:

"In accepting Wireless Companies' franks for messages via Siasconsett, Mass., the amount covered by the wireless frank is 23c. per word. Via Hatteras, N. C. and Grand Island, La., 10c. per word. Friday Harbor, Wash., 20c. per word for Trans-ocean vessels and 10c. per word for Coastwise vessels. Cape Ray, N. F. and Grand Marais, Minn., 10c. per word, FOR VESSELS TO WHICH THOSE RATES APPLY.

Foot note on page 868 of Tariff Book should be corrected to read as follows: † The wireless rate for coastwise vessels of the Booth, Lamport & Holt, Quebec, Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. to New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 824 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

Effective at once rate from Arizona to Commercial Pacific cable stations should be reduced by five cents per word, making it same as from California (except San Francisco and Oakland) Idaho, Nevada, etc. Pages 825 and 826 of the Tariff Book should be corrected accordingly.

DUTCH EAST INDIES.

Rate to Dutch East Indies, including Java and all other Islands, is now 98c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column all rates 20c. less.

HAWAIIAN ISLANDS.

Foot note on page 825 of the Tariff Book is hereby canceled and following substituted therefor:

Note: Other islands (Hawaii, Maui, Kauai and Molokai) 15c. per word more than rate to Honolulu.

Following is a list of offices in these islands:

Eleele	Kohala
Halawa	Koloa
Hamakuapoko	Lahaina
Hana	Laupahoe
Hanalei	Lihue
Hilo	Mahukona
Holualoa	Makawao
Honokaa	Makaweli
Kaanapali	Makena
Kahului	Nawiliwili
Kailua	Paia
Kalauao	Port Allen
Kalaupapa	Pukoo
Kamalo	Puuhene
Kapaa	Spreckelsville
Kaunakakai	Volcano House
Kawaihae	Waikapu
Kealahou	Wailuku
Kealia	Wiamea, Hawaii
Kekaha	Waimea, Kauai
Kilauea	Waiohinu

Applicants for registration in Hawaiian Territory of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

PHILIPPINE ISLANDS.

Effective January 1, 1914, rates to Philippine Islands via Commercial Pacific Cable will be revised as follows:

Luzon:

Manila—no change.
 Other offices—no change.

Panay:

Iloilo—no change.
 Other offices—Increased by 9c. per word.

Negros:

Bacalod—no change.
 Other offices—Increased by 9c. per word.

Cebu:

Cebu—no change.
 Other offices—Increased by 9c. per word.

All other islands and offices—Increased by 9c. per word.

The foregoing corrects rates shown in page 826 of the Tariff Book.

ATLANTIC CABLES.

The following changes and additions beyond London are now in force.

Word rate beyond London.

AFRICA.

Belgian Congo:

Katanga District via Broken Hill76

Malay States (except Kelantan)	.69
Penang	.69
Singapore	.69
Kelantan	.92

Pages 831 to 835 of the Tariff Book should be corrected in accordance with the foregoing.

DUTCH EAST INDIES.

Wireless communication has been established from Sitoebondo, Java to Ambaina, (Ambaina Island) and Keopang, (Timor Island.) Rate same as to other Dutch East Indies. Messages accepted only at senders risk.

WEST INDIES.

CUBA.

Telegraph offices have been opened at the following places in Cuba:

Town	Province
Mata.	Santa Clara.
Quinta.	Santa Clara.
San Felipe.	Havana.

GUADALOUPE, ETC.

Effective February 1st the rates to Guadeloupe, Martinique, Marie Galante and Les Saintes were reduced 5c. per word less than rates shown on page 838 of the Tariff Book.

SAN DOMINGO, (Sec p. 19).

SOUTH AMERICA.

BRAZIL.

Effective Apr. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book as \$1.11 from La. and Tex. and \$1.15 from other states and provinces) will be \$1.07 from La. and Tex. and \$1.11 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.41 from La. and Tex. and \$1.45 from other states and provinces) will be \$1.33 from La. and Tex. and \$1.37 from other states and provinces.

Wireless communication has been established with following places in Brazil at following rates per word added to rate to Manaus:

Porto Velho	\$0.75
Cruzeiro do Sul	} 1.16
Rio Branco	
Senna Madureira	
Tarauaca	
Napury	

Messages accepted only at senders risk, and must be marked "Wireless Manaus", which indication is to be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

PERU.

Wireless telegraph station has been opened at Itaya in Peru. Rate same as to Iquitos shown in page 841 of Tariff Book.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Columbia "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book or JOURNAL, which, together, furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line delivery, or telephone charges, which should be provided for when messages are accepted.

Counter clerks must exercise great care in accepting messages addressed to passengers en route on trains. A full and sufficient address should be obtained

in every case, and when possible should give the following information:

- (a) The name of the addressee;
- (b) The name of the Railroad and the train number;
- (c) The car and berth number, if known, in the case of passengers traveling on sleeping cars;
- (d) The name of the points between which the addressee is traveling;
- (e) The time the train is due at the place where delivery is to be made;
- (f) The name of the place to which the message is to be checked and to which the message is to be delivered to the addressee or turned over to the conductor of the train.

Below are examples of complete train message addresses:

- (1) John Jones,
N. Y. C. Train three enroute
New York to Chicago.
Due Cleveland 10.35 P. M.
Cleveland, Ohio.
- (2) John Jones,
N. Y. C. Train fifteen, lower
10, car 5, enroute New York
to Chicago.
Due Cleveland 3.25 A. M.
Cleveland, Ohio.

Hereafter for all messages which may be received "collect" from offices on "other" lines or from telephone (three star) stations, managers will collect tolls for "this" and also for "other" lines, whether the checks of such messages show tolls for both lines or not.

It should be noted that the foregoing does not mention nor does it apply to "collect" messages from two star (delivery) stations.

Messages received from offices in Mexico destined to places in the United States not reached by telegraph, and which it is necessary to mail to destination from the nearest Western Union office, should in all cases be forwarded by registered mail.

Special attention of offices is called to the fact that messages for places named in Tariff Book on pages 819 to 844, both inclusive, are CABLE messages and should be reported in accordance with Rule No. 71, page 788 of Tariff Book. The tolls received for the cable messages should not be entered in the Check Reports (Form 7).

MONEY TRANSFER SERVICE.

The following changes and additions supplement the list of Money Transfer offices:

Telegraphy & Train Operation

by retired railway officer.

All graduates placed in R. R. Telegraph service direct. Expenses earned. Opportunities unexcelled.

PELNAR SCHOOL OF TELEGRAPHY,

MADISON, WIS.

DUNDUPLEX—The Real Labor Saver.

The Dunduplex will pay splendid dividends on your investment, as it is the only machine in the world that affords a choice of two distinct movements—either of which will almost double your present efficiency without taxing your energy.

All repeater chiefs now recognize the necessity of two weights as the only means of securing perfect signals, but two weights on other types of transmitters, means added burden to the arm, therefore making the labor twice as hard. The Dunduplex carries the weight without adding an ounce to the arm. This is only one of its big features.

THOS. J. DUNN & CO., No. 1 Broadway, NEW YORK

BENTON MANUFACTURING CO.

916 West 55th Street Chicago, Ills.

LAUGHLIN

Automatic—Non-Leakable
SELF STARTING PEN
10 Days' Free Trial

You don't have to fuss and shake a Laughlin to start the ink—it's a *Self Starter*.

You don't have to fill the Laughlin, it's a *Self Filler*.

You don't have to clean the Laughlin, it's a *Self Cleaner*.

You don't have to monkey with awkward or unsightly locks, extensions, or so-called Safety devices—There are none.

You can't forget to seal a Laughlin against leaking, it seals itself air-tight *Automatically*.

You can't lose your cap from a Laughlin—it secures itself *Automatically*.

You can't break your cap or holder on a Laughlin—They are *non-breakable*.

Holder and cap of scientific reinforced construction throughout, see illustration.

You don't have to wait until a Laughlin is ready. It is ready to write when you are, the air-tight leak-proof construction keeps pen and feed "primed", insuring a free uniform flow of ink instantly—even though not previously used for a year.

It performs these functions with no more hindrance or interruption to your thoughts or writing inspiration than your breathing. *These results—or your money back.*

These features are peculiar only to this patented construction.

\$2.50 By Insured mail, prepaid to any address

Just enclose \$2.50 with this coupon containing your name and address, we will send the pen by return mail. *Delivery guaranteed.*

Manifold Stylo pen - - \$1.00

Real Agate point Stylus - 50c.

— Fill out and mail today —

Laughlin Mfg. Co.

134 Griswold St., Detroit, Mich.

Gentlemen—Here is \$2.50. Send me the pen described in this advertisement. If pen is not satisfactory, you refund the money.

City _____ State _____

SERIAL BUILDING Loan and Savings Institution

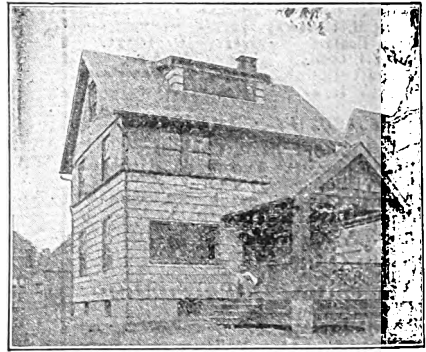

195 BROADWAY
NEW YORK

Assets . \$700,000

Surplus . \$31,000

Dividends 5%

A Co-operative
Saving Institution of
Telephone and Telegraph Employees.

Incorporated January 20th, 1885.

Operated under the Banking Law of New York State

ACCUMULATION OF SAVINGS may be commenced at any time, in person or by mail, by making a deposit of \$1.00 to \$1,000.00. **NOW** is the time to begin.

You may accumulate by monthly payments, by irregular deposits, or in large sums for income.

Joint Accounts, and Vacation or Christmas Clubs accepted. No Age Limit.

DIVIDENDS are credited upon all saving accumulations and compounded and are paid in cash on income accounts on the first day of January and July annually.

WITHDRAWALS. Any member, saving irregularly, may withdraw any portion of his savings at any time, and incomes or regular stipulated savings may be withdrawn upon sixty day's notice.

INVESTMENTS. Our entire accumulations are invested in loans secured by first mortgages of dwelling house property in New York City and its environs.

Next to government bonds, selected mortgages are the very best security for investment. Our 28 year experience guarantees these securities.

EDWIN F. HOWELL, Sec'y, Room 703, 253 Broadway, N. Y.

WARNING TO INFRINGERS OF THE MARTIN "VIBROPLEX"

STILL ANOTHER VICTORY IN THE FEDERAL COURTS UPHOLDING OUR PATENTS

The United States Court, Cincinnati, has granted an injunction restraining James M. Dickson (Mt. Auburn Specialty Co.), and all his agents, associates, confederates and employees, from making and selling all kinds of telegraph keys or transmitters or parts thereof, similar to those heretofore advertised by him, or such as in any manner infringe upon United States Patents No. 812,183 and No. 842,154. This is in addition to the injunctions recently obtained by us in United States Court of Chicago, restraining similar infringement by Max Levey (Atoz Electric Novelty Co.), also injunction in United States Court at St. Louis restraining Oliver M. Thomas (O. M. Thomas Electric Co.) from similar infringements, of which the users of sending machines have already been notified. All parties are hereby warned that they will be prosecuted both for damages and for contempt of Court if they violate either of said injunctions.

All who are now using Sending Machines purchased either from said James M. Dickson (Mt. Auburn Specialty Company), from said Oliver M. Thomas (O. M. Thomas Electric Co.), from said Max Levey (Atoz Electric Novelty Co.), or from the agents of either, are daily liable to prosecution for contempt if they continue such use. Those who desire to escape such liability may do so on terms of which we will advise them, provided they communicate with us promptly.

THE MAN BEHIND THE GUN

May be all right, but if the gun is no good, the man will do little damage. Just so in the case of the transmitting instrument. If the instrument is a cheap imitation of the original standard article, the man will soon revert to the old-fashioned key as the choice between two evils. If the man is well informed at the start, however, he will purchase a Martin Vibroplex, which has back of it the accumulated experience of H. G. Martin, the originator of the device. It is not logical to buy an instrument which is recommended as being "just as good."

Don't waste time and money on imitations. Get the genuine and see that H. G. Martin's name is on your machine.

195 BROADWAY, NEW YORK CITY.

WESTERN UNION ANNUAL REPORT.

President Vail Reviews the Financial and Traffic Operations of the Year.

To Stockholders:

A report was submitted to the stockholders at their meeting on October 8, 1913, covering the period from July 1, 1912, to June 30, 1913, and it was then stated that, owing to the fiscal year having been changed to conform with the calendar year, a report would be submitted to the stockholders at the annual meeting in April, 1914, for the year ended December 31, 1913.

Herewith follows a balance sheet, as of December 31, 1913, and an income account for the year ended that date, with a certificate attached from the same

INCOME ACCOUNT

The Year Ended December 31, 1913.

Gross Telegraph and Cable Earnings \$ 44,847,775.10
Miscellaneous Earnings 935,737.48

Total Earnings \$ 45,783,512.58

DEDUCT:

Operating Expenses, including rent of Leased Lines, Reconstruction, Repairs, Taxes, etc. 42,327,121.27

Balance \$ 3,456,391.31

ADD:

Income from Loans and Investments including Rentals from Real Estate 1,115,755.18
\$ 4,572,146.49

DEDUCT:

Interest on Bonds of the Western Union Telegraph Company 1,337,229.12

Balance transferred to Surplus Account \$ 3,234,917.37

firm of independent auditors employed in 1910.

Property Account.

The additions in the year ended December 31, 1913, amount to \$3,761,496; namely, for—

Land line and ocean cable construction and equipment	\$2,194,891
Real estate	1,575,726
	\$3,770,617
Less extinguishment of patent values	9,121
	\$3,761,496

There have been added to the land line plant 623 miles of poles and 18,458 miles of wire, consisting of an increase of 25,797 miles of copper wire and a decrease of 7,339 miles of iron wire. The Company now has 25,060 independent and joint offices. Considerable work has been performed during the past year in improving and rehabilitating offices, moving them to more desirable locations, and closing others which were not remunerative.

Of the total additions to real estate, \$1,293,855 was expended on the New York office building construction referred to in previous reports. The balance expended for real estate, amounting to \$281,871, has been spent in needed improvements for the cable service.

Other Securities Owned.

The total of these assets has decreased \$2,521,316, which is principally accounted for by the payment, during the year, of three notes, aggregating \$2,500,000. The other changes in the value of securities owned are represented by some minor purchases of the shares of allied telegraph companies and the writing down, in book value, of the shares owned in the American Telegraph and Cable Company, pursuant to the resolution of January 2, 1913, which was referred to in the last annual report.

Materials and Supplies.

Inventories were taken of all materials and supplies in the field and warehouses, as of November 30, 1913, and the amount shown in the balance sheet is the cost value thereof, less adequate reserves to provide for any depreciation in values.

Current Assets.

Included among the current assets is cash on special deposit, amounting to \$3,000,000, which represents a short term loan at 5½ per cent. The total of bills and accounts receivable has been reduced during this

BALANCE SHEET, DECEMBER 31, 1913.

ASSETS.

PROPERTY ACCOUNT:

Telegraph Lines and Equipment, including properties controlled by stock ownership or held under perpetual leases and merged in the Western Union System ..	\$131,834,591.84

	<u>9,705,791.85</u>

Total \$172,047,223.52

CERTIFICATE OF INDEPENDENT AUDITORS.

We have examined the books of The Western Union Telegraph Company for the year ending December 31, 1913, and we certify that, in our opinion, the above balance sheet sets forth the true financial position of the company at that date, and the relative income account is a correct statement of the results of the operations for the year.

March 25, 1914.

PRICE, WATERHOUSE & CO.

year by \$348,398 as compared with the corresponding amount at December 31, 1912.

The litigation between the American Speaking Telephone Company et al. and the American Bell Telephone Company, on the contract of November 10, 1879, was finally concluded in the latter part of 1913, in favor of the former company, and the Western Union Company received, as dividend, the sum of \$3,230,545 on the shares of the American Speaking Telephone Company, which it owned and held as lessee of the Gold and Stock Telegraph Company. This dividend represented deferred income, or a profit to your Company, cumulating over a period of years, and was credited to surplus reserved and not to income for the year. Surplus reserved, amounting to \$3,451,921, and stated on the liability side of the balance sheet, is made up as under:

Dividend received December 17, 1913, from American Speaking Telephone Co.	\$3,230,545
Reserve for contingencies, transferred to surplus reserved	228,425
	\$3,458,970
Less reduction in book value American Speaking Telephone Co. shares owned by Western Union Co.	7,049
	\$3,451,921

Capital Stock of Subsidiary Companies.

The capital liability, in respect to the above, has slightly decreased owing to the purchase of a few shares of leased companies.

Reserves.

The reserves for maintenance of cables and reconstruction of land lines together show a small decrease of \$60,822 at the close of the year, after charging the respective reserves with replacements of plant.

Income Account.

It has been thought advisable to re-classify the income account for the year ended December 31, 1913, so as to treat amounts paid other lines for the transmission of messages and refunds made in connection with services rendered, aggregating \$1,110,517, as deductions from total earnings, rather than as expenses, which has been the practice heretofore.

The total earnings for the year, amounting to \$45,783,512, have increased \$1,720,271, or 3.9 per cent, over the total earnings for the year ended December 31, 1912, and the total operating expenses, including rent of leased lines, reconstruction, taxes, etc., have increased \$1,738,021, or 4.2 per cent. After allowing for interest on funded debt, the balance of income account transferred to surplus was \$3,234,917, from which was deducted dividends paid and declared at the rate of 3 per cent per annum on the capital stock, leaving a net addition to surplus of \$242,671. The policy of charging operating expenses with betterments to the lines and improvements made to equipment and offices was generally continued during the past year.

General.

Many inquiries have been made as to the prospects of the Company, either under any possible purchase by or competition of the government, or as a going concern operating independently of the American Telephone and Telegraph Company.

The relations between the American Telephone and Telegraph Company and your Company have always remained the same as between two entirely independent companies. The organizations of the two companies were entirely distinct and independent and, with the exception of the President and a minority of the Directors, had no officers in common. All contracts and operating arrangements were such as two independent companies could enter into under the interpretations of the existing laws, and the commercial interests of each company were carefully guarded, so that the so-called divorce of the two companies is being accomplished with very little confusion.

As to the government purchase or operation of the telegraphs: The property of the Company cannot be taken without just compensation, that is, a full and proper equivalent for the property taken must be returned to the owners. In such a case, the shareholders should receive, as a minimum, far in excess of the present market value of the shares.

The other alternative which has been advanced, to take over the long-distance telephone lines and enter into competition with the existing telegraph lines for the purpose of destroying their business, is not only of so questionable a character as to be repudiated when its full significance is realized, but is so utterly impossible and unworkable from a practical point of view as to make it negligible. The owners of the securities of the Western Union may rest quietly, and not be scared into the sacrifice of their property. Headline prophecies should be read and regarded in the light of the results which have followed the headline prophecies of the past.

The technical department of the Company has been at work in connection with that of the Bell System in the development of what might be termed mechanical transmission, and there is now in daily use rapid transmission apparatus which nearly, if not quite, quadruples the most effective yet devised, and is giving great results on the trunk lines where there is a concentrated business between large places. There is nothing as yet and not likely to be anything which will supersede the old key transmission of a scattered business distributed to many points on a local line.

The following extracts from a statement made in January, 1914, are given as showing the substantial position of your Company:

"Immediately after the American Telephone and Telegraph Company acquired its interest, the Western Union directors had a thorough examination of the plant made, and a thorough investigation of its position from every standpoint. It was found

that though the earnings had been impaired, its outstanding capital was well represented by property, but not all of it was in as good condition as it should be.

"The probable earnings of the future were carefully gone into and it was estimated that the 3 per cent dividend could be continued and a very considerably increased amount put into maintenance, improvement, renovation and reconstruction; also that the operating organization should be strengthened, wages improved, and operating conditions bettered.

"It was thought that these improvements and renovations could be completed in from five to seven years from that time.

"This policy was adopted: Substantially all surplus over and above the 3 per cent dividend was set aside for these purposes. The amount so set aside was distributed over different quarters in different amounts, so that no three months' period should show either a deficit or any considerable surplus over dividends. This has been fully set out in the annual reports to the shareholders.

"The results of the working for the three years ending October 31, 1913, as compared with the three years ending June 30, 1910, are as follows:

Gross cable and land lines revenue..	\$125,190,000
An increase of	38,805,000 or 46%
Wages paid, not including cable maintenance, construction or reconstruction wages	48,000,000
An increase of	16,566,000 or over 50%
Construction, excluding real estate..	3,791,000
An increase of	360,000 or 10.5%
Amount set aside out of earnings for maintenance, improvement, renovation and reconstruction	*22,624,000
An increase of	8,200,00 or nearly 57%

"Of the amount expended for maintenance, renovation, reconstruction, \$2,847,000 could properly have been charged to construction, and will have to be so charged under the present accounting regulations of the Interstate Commerce Commission, which are now in effect, beginning with the current year. This will, if conditions remain unchanged, increase the divisible surplus by that amount during the continuance of the abnormal expenditures.

"It is estimated that these abnormal expenditures will be completed in 2½ to 3 years, when the property of the company will be in good going condition and can be so maintained by normal expenditures.

"The benefits of the work that has been done under this policy are beginning to be realized in the improvement of the spirit and feeling on the part of employees towards the company and in efficiency and economy of operation.

"If these benefits continue under existing

conditions, based on experience of the last three months of 1913, it is expected that at least \$1,000,000 a year will be saved in operation.

"The financial condition of Western Union was never better. It has liquid assets in cash, demand and time bills receivable, less current liabilities of some \$15,000,000, sufficient to take care of all construction demands for some years to come, if the surplus revenue is not adequate for that purpose.

"Unless conditions change very much for the worse, the shareholders of Western Union are on the eve of getting some return for their patient waiting, and this return should be continuous and increasing.

"Whatever decrease there has been in the Western Union revenue from private line leases, has come from the discontinuance of leasing lines to those who put them to questionable uses and to the fact that in case of a general interruption the Western Union was compelled, when such lines were restored, to use them for its commercial business and thus deprive the lessees of their use for a time.

"The telegraph business has been carried on entirely on the basis of immediate transmission and delivery. This naturally called for operating staff and facilities equal to the peaks of normal demands, and it naturally followed that there were considerable intervals when this operating force and these facilities were idle. New services, not requiring immediate transmission and delivery, were gradually introduced to fill in these idle intervals, with beneficial results both to the public and to the company.

"The new services, in spite of adverse criticism and charges of unfair competition from some quarters, have been revenue-producing and profitable, and of great benefit to the public, and have not, in any way, affected adversely the regular business at regular rates. These were introduced in spite of the belief on the part of many that they would largely affect the long-line telephone business.

"The results have demonstrated that there is a field for them; that with equally available facilities for both, the telephone and telegraph are not competitive, but each has its own distinctive field. If telephone and telegraph facilities are equally available, the public will use that which is best adapted for the particular purposes for which it is used. In case of unequally available facilities, it will use one or the other as an alternative."

Respectfully submitted,

THEO. N. VAIL, *President.*

* Of this amount \$2,660,000 is unexpended and carried in reserve for these purposes.

At the annual meeting of the stockholders of the company held April 8th, the number of directors was

reduced from 30 to 21 and the number of members of the executive committee from 9 to 7.

The list of the directors elected at the meeting is printed elsewhere in this issue.

At the meeting of the board of directors, held April 15th. Mr. Newcomb Carlton was elected president of the company.

The following were also elected:

Executive Committee.

Messrs.:

Wm. H. Baker,	Henry P. Davison,
Henry A. Bishop,	Thos. H. Hubbard,
Newcomb Carlton,	Robert S. Lovett,
Mortimer L. Schiff.	

Vice President:Mr. G. W. E. Atkins.

Vice President:Mr. B. Brooks.

Secretary:Mr. Wm. H. Baker.

Treasurer:Mr. A. R. Brewer.

Comptroller:Mr. E. Y. Gallaher.

The board of directors adopted the following preamble and resolutions:

WHEREAS, Mr. Theodore N. Vail has retired from the directorate of the company, and also from the presidency, and

WHEREAS, the connection of Mr. Vail with the board of directors of this company and his administration as president have been attended with signal benefits to the company, which the board of directors wishes to recognize, and its appreciation of which it desires to spread upon the records of the company, now, therefore, it is

RESOLVED, that the board of directors hereby expresses its very great regret that Mr. Vail has severed his connection with this company and retired from the administration of its affairs as president.

FURTHER RESOLVED, that the board of directors of this company hereby expresses its high appreciation of the great benefits the company has received from Mr. Vail's administration and as a member of the directorate. Among the benefits so received the board desires specially to enumerate the acquisition of the cable lines, and the inauguration of the deferred cable service which has resulted in great benefits to the public and to the company; the inauguration upon the land lines of the system of night and day letters; the extension of service by improved connections and facilities to many additional localities; the inauguration of the pension plan for the benefit of employes, the re-construction and improvement of the physical condition of the lines, and the rearrangement of the company's organization resulting in improved discipline and service and increased facilities to the public.

FURTHER RESOLVED, that the board of direc-

tors extends to Mr. Vail the thanks of the stockholders whom it represents, and the individual appreciation of its members, for the services which he has rendered this company, with the wish that he may long be spared to render to the companies with which he remains connected the benefits of his unusual administrative abilities, his ripe experience and sound judgment.

THE FLY AND ITS ELIMINATION.

A Dangerous Germ Carrier Which Should Be Exterminated.

The Medical Department under the direction of Dr. Alvah H. Doty, will issue each month an article on the subject of Hygiene or matters pertaining to the preservation of health and protection against disease. In order that the various subjects which are to appear may be more fully understood, those of the greatest importance will receive first consideration. It is suggested that the articles referred to be kept for reference, besides in this way a hand-book covering practically the entire subject of Hygiene may be secured.

Article 15.

Spring may be regarded as the most effective time to organize crusades against the fly, for at this period many of these insects, concealed during the winter in comfortable and protected places and in a dormant or inactive condition, known as the hibernating stage, are revived when the warm weather returns, seek breeding places and lay their eggs. It is largely in this manner that both flies and mosquitoes are perpetuated from one season to another.

The importance of destroying flies which appear early in the year is apparent, for a female will deposit 125 or 150 eggs at a time; besides, only 10 or 12 days elapse between the dropping of the eggs and the birth of the winged insects, and these in their turn begin to lay eggs within a few days afterwards. The number of offsprings which one female fly is responsible for is incalculable. It has been roughly estimated that within two or three months this amounts to over 250,000,000. Therefore the destruction of the winged insects, except at the very beginning of the season, is of no practical value.

Although the propagation and development of the fly has not been so successfully studied as the mosquito we have learned sufficient to know that it breeds with great rapidity wherever filth is present and disappears wherever cleanliness is enforced.

The development of the fly involves several stages. The first relates to the deposit of the eggs, which is usually followed within twenty-four hours by the appearance of the larvae or second stage of development. After about five days the larvae becomes pupae, constituting the third stage of development,

and after a further period of five days or so the pupa gives birth to the full grown fly.

The larvae are commonly known as "maggots," and when full grown are about one-quarter of an inch long and are white crawling bodies having the appearance of caterpillars. Maggots may be detected during the warm weather upon almost any manure heap, or upon dead and decomposed animals or other putrid substance. The pupae are brown in color and bean shaped, and may also be found in great number on offensive material.

In the elimination of the fly it is important that the larvae and pupae should be recognized, for it will more keenly indicate the need of the destruction or removal of breeding places.

It is much easier to exterminate or reduce the number of mosquitoes than flies, as the breeding places of the former are more easily detected, for they breed only in water, and as a rule this is confined to small collections of it, therefore by careful search these may be discovered and destroyed, and the mosquito exterminated. On the other hand the fly does not breed in water, but on any putrid or offensive matter which it may find, for it is a filthy and degraded insect.

Investigators have more recently discovered that flies very much prefer horse manure for their breeding places. This knowledge is a valuable contribution to the subject and of great aid in the reduction of these insects, for it teaches us if the stable is kept clean and the manure promptly collected and placed in a properly covered receptacle while awaiting removal, instead of being thrown about the premises, the most common breeding place of the fly is removed. Carelessness in this direction, as well as the presence of privy vaults and garbage heaps, will explain why farm houses and country homes are almost always subjected to great and continued annoyance from flies; however it is here where the most satisfactory result may be obtained, for it is only necessary for each family to abate their own nuisance to obtain relief from this insect, whereas in the city one must suffer from the carelessness and filth of others.

While everyone has good reason to know that the fly is a very annoying insect, it is only within recent years that we have obtained satisfactory and reliable proof that it is a dangerous medium of infection, and evidence is constantly accumulating to show that it is probably responsible for the transmission of many infectious diseases, for instance, cholera, typhoid fever and tuberculosis. Besides the transmission of other infectious diseases, it is undoubtedly accountable for the contamination of food and drink, which is often the cause of serious intestinal irritation. This commonly occurs during the warm weather and is particularly fatal to young children, nearly 5,000 deaths from this cause occurred in New York during 1910. There is also evidence

that parasitic worms may be introduced into the system of the human being by the fly.

There are many varieties of the fly found throughout the world, some of which are very dangerous, for instance the Tsetse fly, which is found in Africa, is responsible for the transmission of a very fatal disease known as the "sleeping sickness". This, as well as some of our domestic flies, bites. It is now believed that one of the latter is capable of transmitting the germ of infantile paralysis. Although contrary to the general belief, the common house fly, with which we are chiefly concerned, for it constitutes more than 90 per cent. of all insects of this type which invade our homes, does not bite, but transmits infection by their feet and body, and in this way contaminates our food and drink. This variety has received the name of the "typhoid fly," for it is believed to be a very frequent source of infection in this disease, particularly in the country or in sparsely settled districts where privy vaults are in common use. While it is probable that the danger of infection from this source is somewhat magnified, there is every reason to believe that it does occur.

In addition to other articles of food it is also quite certain that milk, both in the country and the city, is contaminated by the fly; this also occurs in connection with the stale fruit which is for sale at the street stands and by street vendors. The latter constitutes very unsanitary and unhealthy means of dispensing food and drink, and are particularly dangerous to children and should be prohibited by law.

Unfortunately the public has not a clear understanding as to the proper means by which flies may be eliminated or reduced in number, or the principle which is involved in this important sanitary measure. Innumerable devices known as "fly catchers" are offered for sale for the purpose of entrapping or destroying these insects and are very popular with the public, however, this method has no practical importance in the work of eliminating the fly.

It is to be regretted that other impractical methods are employed in dealing with this important sanitary measure, for instance, school children are encouraged to destroy flies with the promise that it will materially aid in the elimination or reduction of these insects, and prizes are given those who kill the greatest number of them. This is not only of no practical value, but there are serious objections to it, for it gives children as well as adults an incorrect idea of the means which should be employed in this work, i. e. the removal or destruction of breeding places rather than the destruction of winged insects, for the number thus gotten rid of is comparatively so infinitesimally small that it extends only fancied relief except at the very beginning of the season, besides, these various impractical methods do not tend to stimulate health authorities to strictly enforce regulations in the way of the removal of breeding places and securing cleanliness about the premises.

It is very important that children as well as adults should take part in the preservation of the public health, but their instructions in this direction should be in harmony with the dictates of modern sanitation. Everyone may render valuable service in the elimination of flies and mosquitoes, but aid in this way comes rather from the detection of breeding places and efforts to secure their prompt removal and destruction.

Protection within the house against the entrance of flies and the infection which they may convey cannot be successfully secured by traps or other apparatus, besides the comparatively few insects caught by these means are not always likely to be the ones which are dangerous as media of infection. Protection in this direction can be effectively secured only by the use of properly constructed and adjusted screens. Curiously enough this is but rarely attended to, for this valuable method of protection is almost always faulty in its application.

Although all the dangers of infection and contamination attributed to the fly have not yet been conclusively proven, there is sufficient and reliable evidence in this direction to stamp it as dangerous to the health and comfort of the human being, and every reasonable effort should be made to exterminate it. While the latter may be practically impossible, at least at present, these insects may by proper means be so far reduced in number that it will render invaluable aid in the preservation of the public health. However, this result cannot be obtained without the cooperation of the public, therefore everyone should do his or her share of this important work; but there is only one way to secure successful results, and that is by the destruction or removal of the breeding places of the fly, this may be summed up in one word—cleanliness—.

Correction: On page 16 of March Journal, 13th line from top, the word "Anopheles" should read "Stegomyia".

Rule 71

Effective May 1st, 1914, Rule 71 is amended as follows:

All revenue accruing from "Paid Here" full rate cablegrams, deferred rate cablegrams, cable letters, week end letters, press cablegrams, deferred press cablegrams and trans-oceanic wireless messages, including charges to cover prepaid replies, and the tolls on messages answering cablegrams carrying prepaid replies, shall be accounted for in one total as "Cable Tolls" on monthly report, Form 4 (or similar report provided). The use of Form 67 is discontinued.

Credit shall be taken under "Cable Refunds" on Form 4, for the tolls on a cablegram sent in answer to one received bearing the indication "RP", not exceeding the maximum number of words designated

in the "RP". Enclose with reports, copies of such answers to "RP" cablegrams as vouchers, with the amount of tolls endorsed thereon. These instructions partly revise Cable Rule 24.

Amounts refunded in accordance with cable rules shall be taken credit for as "Cable Refunds" on the Form 4 and the amounts shall be supported by properly approved vouchers. See Cable Rule 27 in the Tariff Book.

Managers shall use great care to see that the amounts reported are correct, in order to avoid subsequent adjustment. The Cable messages shall be filed separately in such a manner that a complete detailed report can be furnished promptly if requested.

Money Transfer Service. Mexico.

Owing to existing conditions, Money Transfer Service with Mexico has been practically suspended for several months. Orders accepted recently have been for payment in the City of Mexico only and have been limited to \$500.

As we go to press, the indications are that the service will be automatically suspended for an indefinite time. So long, however, as the situation remains in doubt, applicants for transfer to Mexico City, in cases of extreme urgency, may be told that the transfer will be attempted at depositor's risk of delay and loss, if after inquiry the Transfer Agent at El Paso, Texas, so advises. The message of inquiry and the reply thereto must be paid for by the applicant (Rule V111-3). It should also be understood that transfer will be attempted only in a case of the greatest urgency.

Every application must show by endorsement over the depositor's signature that it is accepted only at the depositor's risk of delay or loss.

Method of Computing Commissions on Mexican Business at Commission Offices.

At offices where commissions are authorized in lieu of other compensation, the commissions on messages to or from Mexico should be computed as follows:—

On Class A & C Traffic

where the rate is \$1.75 and .12, commissions should be computed on the proportion of .50-3;

where the rate is \$1.60 and .12, as to and from offices in the State of Louisiana, commissions should be computed on the basis of .30 and 2;

where the rate is \$1.60 and .12, as to and from offices in the State of Texas, commissions should be computed on the basis of .25 and 2.

On Class B Traffic

the rate on which is .70 and 5, to and from all offices in the United States, commissions should be computed on the basis of .50 and 3.

Rule 75.

Rule 75 is amended as follows:

"The amount entered on Form 4-A or Form 4 as 'Paid Other Lines' shall represent:

- (a) Actual disbursements in payment of 'other line' tolls (including special delivery charges) on messages delivered *and payments of extra words on forwarded messages*, supported by properly receipted vouchers.
- (b) 'Other line' tolls on forwarded messages supported by copies of messages. See Rule 8."

Rule 100.

The attention of managers is directed to the importance of strict compliance with Rule 100, in connection with subpoenas calling for the production of messages in court. Several instances have recently come to light where messages which should have been presented in open court were instead turned over to court attendants.

Insufficient Addresses.

Insufficient addresses endanger the prompt delivery of messages, with possible serious consequences to our patrons, and burden the company with needless expense in service messages and clerical labor.

The attention of all managers is again directed to Note, Rule 2:

"The importance of the address cannot be overestimated. When the address given seems insufficient, a better one should be requested".

Senders should in every case be asked to give the addressee's street address or, if that is not available, such information as can be concisely inserted in the address and will aid in insuring prompt delivery of the message.

B. BROOKS,
Vice-President.

Week End Letter Service Chili and Peru.

Effective September 1st the Week End Letter Service now in effect with Argentine Republic was extended to Chili and Peru (Except Wireless Sta-

tions) at the same rates and under the same regulations governing that service to Argentine shown on pages 858 and 859 of the Tariff Book.

Deferred Cable Service.

The following have been added to list of places shown on page 861 of Tariff Book to which Deferred Cable Service is in operation:

Borneo (Dutch), via London.	Formosa via London.
Chili, So. America.	Japan via London.
Cyprus.	Nauru Island.
Peru, So. America.	Tripoli.

(Except Wireless Stations).

It should be noted that Deferred Cable Service is now in force to Amazon River Stations in Brazil.

Offices should note especially that senders of Deferred Cables must in every case write before the address and pay for as one word the letters LCF, LCO or LCD, as in the nature of a declaration that the communication is in the French language or the language of country of origin or destination as the case may be.

Trans-Atlantic Wireless Service.

Instructions on Page 862 of the Tariff Book to the effect that the amount prepaid for replies to Marconigrams must be expressed in terms of full cable rates should, effective April 1st, be changed to read:

"The same provision for prepaid replies to trans-Atlantic wireless messages may be made as for prepaid replies to cablegrams but in the case of wireless trans-Atlantic messages the amount for the prepaid reply must be expressed in terms of the full wireless rate instead of the full cable rate."

Upon receipt of a Marconigram to which a reply has been prepaid the delivery clerk will from April 1st write under the message, before delivery, the words:

"Reply to the value of paid for" and will arrive at the amount expressed as prepaid by calculating the tolls at full Marconi rates on the number of words in the RP indication.

The attention of offices is drawn to the fact that in future trans-Atlantic wireless messages should be prefixed "MARCONI" instead of "RADIO" and the instructions on page 862 of the Tariff Book should be corrected accordingly.

Wireless messages to and from Steamers will continue to be prefixed "RADIO",

Wireless Messages to and from Steamers.

(See also Page T 41)

Effective May 1st, 1914, radio messages on official U. S. Government business shall be checked paid; the indication "Govt." shall be inserted immediately before the address and shall be counted and charged for. Such messages are as a rule routed via the following U. S. Government radio stations:—

Charleston, S. C.	Eureka, Calif.
Jupiter, Flo.	Point Arguëllo, Calif.
St. Augustine, Flo.	San Diego, Calif.
Pensacola, Flo.	Cape Blanco, Ore.
Key West, Flo.	North Head, Wash.
Tatoosh, Wash.	

and when official messages are so routed by senders and are addressed to U. S. Government vessels the wireless service is free, the only charge to be made being the Government rates for our service from points of origin to coastal stations as given on pages X11, X111 and X1V of the Tariff Book.

When official Government messages are sent via other stations to other than Government vessels the wireless rates quoted on pages 867, 868 and 869, in addition to the Postmaster General's rate above referred to for our service apply.

Pursuant to the International Radiotelegraphic Convention, which by proclamation of the President of the United States became effective on September 1st, the provisions of the Cable Rules relating to repetitions, acknowledgments of receipt and prepaid replies as printed on page 815 of the Tariff Book are applicable to the wireless service to and from ships at sea,—and notations to that effect should be made on page 866 of the Tariff Book, canceling the reference printed thereon in regard to the inadmissibility of prepaid replies.

The amounts prepaid for replies to messages addressed to ships-at-sea should be expressed in dollars and cents instead of in words at full rates, and a minimum of ten words must be charged for in every case. In these important respects the practice differs from the method of expressing and dealing with RP charges in cablegrams and trans-ocean wireless messages, but in all other respects the general instructions in reference to such charges printed on pages 815 and 816 of the Tariff Book should be carefully followed, except that of course form 7 instead of form 67 should be used in reporting the messages. In no case should RP charges be refunded save on the authority of the United States Manager. The foregoing of course applies equally to messages received from ships-at-sea, the RP indication in which will be understood as referring to amounts prepaid and not to the number of words paid for.

It should also be noted that the preamble "EX-PRESS", when the same appears immediately before the address in such message, conveys the in-

formation that any published special delivery or other terminal charges have been prepaid by the sender. Similarly the preamble "RP" signifies that delivery is to be by registered mail from the terminal telegraph office and that all post-office charges have been prepaid.

The attention of offices is drawn to the fact that by agreement between the administrations operating coastal wireless stations, reports of non-delivery and other similar service correspondence need not necessarily be exchanged through the coastal station via which the original message was routed, but may be exchanged through any other coastal station which may be in nearer range at the time that the occasion for such service correspondence arises.

Effective July 1st, the wireless rate to and from steamers on the Great Lakes was reduced from 10 to 5 cents per word with the usual 10 word minimum. This will make following corrections necessary on page 869 of the Tariff Book.

"For Coastwise vessels" from Buffalo, N. Y., Cleveland and Ashtabula, Ohio, Detroit, Mich., 5, instead of 10.; Benton Harbor, Ludington, Grand Haven, Frankfort and Mackinac Isl., Mich., Chicago, Ill., Milwaukee and Manitowac Wis., Calumet, Mich., and Sault Ste. Marie, Ont., 5, instead of 10.; Manistique, Mich., 5, instead of 12c.; Duluth, Minn., 5, instead of 10c. per word.

The rate for wireless transmission Duluth to Grand Marais, Minn., has been increased from 5 to 10 cents per word, restoring the 15 cent wireless rate shown in Tariff Book, for Lake Steamers via Grand Marais.

Manistique, Mich., is now a Western Union Check direct office and wireless rate for coastwise vessels (Great Lakes) shown on page 869 of Tariff Book is now 5, instead of 12 cents per word.

Effective at once the wireless word rates shown on pages 867, 868 and 869 of the Tariff Book will be further reduced to the following figures:

Siasconsett, Mass. For Coastwise vessels ..	.15
Key West, Fla. For Trans-Ocean vessels18
" " " Coastwise vessels14
Eureka, Cal. For Trans-Ocean vessels	.14
Tatoosh I., Wash., " " " "	.15
North Head, Wash., " " " "	.14
Cape Blanco, Ore., " " " "	.16
Pt. Arguello, Cal., " " " "	.14
San Diego, Cal. ... " " " "	.14

Effective November 1st the wireless rate on messages to and from coastwise ships at sea exchanged through Astoria, East San Pedro, Eureka, Friday Harbor, Marshfield, San Francisco, San Luis Obispo

and Seattle coastal stations was reduced 5c. per word, making the wireless rate on messages to **coastwise vessels only** exchanged through any of the stations named 5c. less than the word rates published opposite such stations at the top of columns on pages 868 and 869 of the Tariff Book.

Through misunderstanding the notice published in the October Journal extended the above reduction to the Cape Blanco, North Head, Point Arguello, San Diego, Tatoosh Island and Victoria stations. The wireless rates to and from **coastwise vessels** exchanged through those stations are reduced, but only to the following figures:

Cape Blanco		10c.
Victoria	}	
North Head		
Point Arguello		08c.
San Diego		09c.

Wireless rates via all Pacific Coastal stations to Government vessels are 2c. per word higher in each case than rates quoted above.

Effective November 1st the following changes were made in the land-line word rates on ships' messages.

Between offices in Washington and coastal stations in Oregon, rate increased from 3 to 4c. per word.

Between offices in Oregon and coastal stations in Washington, rate reduced from 5 to 4c. per word.

Between offices in Oregon and coastal stations in the same state, rate reduced from 5 to 3c. per word.

Between offices in California and coastal stations in Oregon, rate reduced from 6 to 5c. per word.

Between offices in California and coastal stations in the same state, rate reduced from 4 to 3c. per word.

The New London wireless station has been reopened for service at rates shown on page 869 of Tariff Book.

The wireless connection via Fort Morgan, Ala. given in third column, page 868 of Tariff Book should be erased.

The wireless connection via Sayville, N. Y., has been discontinued and the rates via Sayville given in first and second columns on page 867 of the Tariff Book are therefore canceled.

Effective January 1, 1914, South Wellfleet, Mass., will be discontinued as a wireless station for steamships in the Boston service and the Boston station will be used instead. The third column on page 867 of the Tariff Book should be corrected accordingly.

The high power station at South Wellfleet will be continued as formerly at rates shown in fourth column, page 867 of the Tariff Book.

J. C. WILLEVER,
United States Manager.

Accepting and Rating D. H. Messages.

1. Receiving Clerks shall be careful to write correct franks numbers immediately after the check in messages and shall be certain, before checking a message "D. H.", that it is, (a) properly covered by a D. H. Frank Card or D. H. Stamps, or, (b) properly approved *in writing* under Tariff Book Rule 24 for employe's messages, or (c) correctly checked "D. H. Answer to D. H." in reply to a received D. H. Message.

2. The D. H. Franks are of two general classes, viz., Business Frank Cards and Complimentary Frank Stamps and Cards, as follows:

(a) The Business Frank Cards are generally issued to officers and agents of railroads and are restricted to messages relating to business of the respective carriers with which they are connected.

The term D. H. is used in connection with these franks and the messages are also sometimes referred to by employes as "Free", but it should be distinctly understood that these terms are used merely for convenience in checking or accounting as the messages transmitted thereunder are actually charged by the Auditor against the accounts of the respective carriers and thereafter paid for in cash or its equivalent.

(b) Complimentary Frank Stamps are issued to officers or to officers and members of their families, of common carriers and cover messages of a family or social character. The Stamps are numbered and bear the designating letters, A, B and C. Each stamp has the monetary value printed thereon and stamps should be attached to each message sufficient to cover the total tolls. In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

(c) Personal Complimentary frank cards are issued to officers or officers and members of their families, of common carriers, and cover messages of a personal *social* character and are not good for personal *business* messages. They bear the designating letter "F".

3. "Dead Head Answer" messages need not be accompanied by copies of messages to which they are answers, provided receivers are satisfied that messages so tendered are answers to received D. H. messages.

4. Dead Head Franks should not be confused with Identification Cards, Half-Rate Franks, Government Rate Cards or Collect Cards. Messages filed under any of these four kinds of Cards shall *not* be checked "D. H."

5. Receiving Clerks shall note in the upper right hand corner of message blank, above the space provided for "check," the amount of "This Line" tolls thereon computed at day message rates, unless the frank is specially endorsed good for night messages, day or night letters, in which case tolls at the respective rates shall be noted. Connecting line tolls if paid, shall be noted immediately after the word "Paid" in the check.

6. Messages to points on the lines of the International Ocean Telegraph Company, shall be rated at through rates from point of origin to point of destination, if the sender holds Western Union Frank endorsed good for message to I. O. T. points, or both Western Union and I. O. T. franks.

7. Messages to points on the lines of the Great North Western Telegraph Company of Canada accepted from holders of both Western Union and G. N. W. franks, shall be rated at *one-half* of the amount of the through tolls which, in the case of messages checked D. H. over both lines, represents the Western Union proportion of the tolls. This amount (only one-half) shall be noted on the message.

8. Messages to I. O. T. and G. N. W. points accepted from parties holding Western Union franks only, or I. O. T. or G. N. W. franks only, shall be rated in accordance with Tariff Book Rules 133, 134, 138 and 139.

9. The same care should be used in rating Dead Head messages as is used in rating paid messages.

10. Half size pictures of the various franks and cards were distributed with the October 1913 Journal of the Telegraph and should be in the possession of every office for reference.

Revised Rule 79.

Dead Head Message Reports.

A monthly report of Dead Head messages shall be prepared on Form 38-A. One entry shall be made monthly for each Railroad, Express or other transportation company separately, showing name of company (or name of sender, if not a business message) number of sent D. H. messages and total tolls. Messages sent D. H. in answer to received D. H. messages shall be entered on one line as "Answers".

The original sent D. H. messages shall show the place of origin, the reason why D. H. and the tolls. The original sent D. H. messages, and copies of messages received D. H. from G. N. W. points, and the Form 38-A shall be forwarded with the monthly report.

Commencing March 1st, 1914, the Complimentary

Stamp Franks issued by this Company will have printed thereon the value in cents, and the value of stamps affixed to each message should equal or exceed the tolls.

In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the monthly Dead Head Messages Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

Revised Accounting Forms.

A new form of report, Form 2441-A, has been issued for use by Managers in accounting for messages of the following classes in their Monthly Reports, Form 4, and similar forms:—

Refunds on "Half Rate Frank" messages,
Uncollected Messages,
Guaranteed Messages,
U. S. Government—Weather Messages,
U. S. Government—Other Messages,
Identification Card Messages,
Forwarded Collect Messages,

The use of Form 2441-A will considerably reduce clerical labor required heretofore. Complete instructions are printed on the reverse side of the Form.

Form 2441-A will be supplied on future requisitions and on any unfilled requisitions for the following Forms which are hereby cancelled:—

Statement of Refunds on "Half Rate Frank" messages, Form 33 or 33-A.
Statement of Uncollected Messages, Form 34 or 34-A.
Statement of Guaranteed Messages, Form 35 or 35-A.

Complimentary Stamp Franks With Monetary Values.

Commencing March 1st, 1914, the Complimentary Stamp Franks issued by this Company will have printed thereon the value in cents, and the value of stamps affixed to each message should equal or exceed the tolls.

In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

E. Y. GALLAHER,

Comptroller

Money Transfer Rule XII-I.

The second paragraph of Money Transfer Rule XII-1, relating to special Foreign Transfers, should be corrected to read as follows:

"The word 'Special' shall be inserted directly after the name of the paying station in every message directing the payment of \$100. or over and shall be included in the check, but not charged for."

Example:

Tragent,

New York.

Pay William Henry Justice 45 Regent St. London
Special from Frederick Hunter.

(Count all words.)

Ck. 16 Free

Money Transfer Drafts.

There is sometimes objection, on the part of payees, to the practice of placing the name of the depositor upon the draft issued in payment of a money transfer. This practice should, therefore, be discontinued, the space provided for the name on the transfer draft being left blank, unless for any reason the payee should request that the name be added.

HENRY G. BATES,

General Transfer Agent

Complimentary Franks and Half Rate Franks.

CONTRACT DEPARTMENT, APRIL 15th, 1914.

AMENDED NOTICE to the Western Union offices in Nebraska, New Hampshire, Ohio, South Dakota, Wisconsin, New York, Texas, Indiana, Montana, Missouri, Pennsylvania and Illinois.

Under the laws of the States of Nebraska, New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the law of the State of Illinois, affecting municipalities adopting commission form of government, it will not be legal to and you will not accept at such places intra-state messages in that State under Complimentary Franks, nor intra-state mes-

sages under Half Rate Franks. The following places have adopted commission government to date:—

Braceville	Harrisburg
Carbondale	Jacksonville
Cairo	Kewanee
Catlin	Marseilles
Clinton	Murphysboro
Decatur	Moline
Dixon	Naperville
Elgin	Pekin
Forest Park	Rock Island
Hillsboro	Rochelle
Hamilton	Springfield
Harvey	Spring Valley
	Waukegan

Under the law of the State of Indiana it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks.

Under the law of the State of Montana it will not be legal to and you will not accept intra-state messages under Complimentary Franks; nor intra-state messages under Half Rate Franks.

Under the law of the State of Missouri it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Pennsylvania it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of Officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells Fargo & Company.

G. W. E. ATKINS.

Vice-President.

TREASURER'S OFFICE.

Revised Instructions Regarding Bankruptcies,
Receiverships, Assignments, Etc.**Bankruptcies.**

When a debtor to the Company avails of the National Bankruptcy laws and a Referee has been appointed, the Manager shall send to the Superintendent the name and address of the Referee and an itemized statement of the amount due from the bankrupt provided the amount is enough to warrant filing a claim. If the papers are in proper form the Superintendent will forward to the Treasurer with recommendation and the Treasurer will file claim and send credit slip authorizing the office to take credit for the amount. As the Treasurer takes the accounts on his books all dividends should be sent to him, and when by error dividends are sent to the local office by Referees or others, they should be forwarded to the Treasurer.

Receiverships.

These are usually cases of insolvency where Receivers are appointed by State or Local Courts and could be distinguished from certain Bankruptcy cases in which temporary Receivers are appointed, pending the selection of Referees. The procedure will be as above described with the names and addresses of Receivers substituted for those of Referees. In Receiverships, itemized statements should be sent in duplicate.

Assignments.

In these, Assignees are appointed to represent the debtors and creditors. The procedure will be as first above outlined, with the substitution of Assignees for Referees. Itemized statements should be sent in duplicate.

Trusteeships.

These are where Trustees are appointed by agreement between debtors and creditors to save the expense of Bankruptcy or Receivership proceedings. The procedure shall be as first above outlined with the substitution of Trustees for Referees. Itemized statements should be sent in duplicate.

Propositions.

Propositions are sometimes made for settlement of such accounts as those above described on a compromise basis. Such propositions if favorably considered, should be promptly forwarded to the Superintendent and by him to the Treasurer with recommendation.

Small Claims.

It is usually not worth while to send in a claim for less than \$2.00 as the dividends are seldom enough to

pay postage, etc. Claims for less than \$2.00 should therefore be handled in the manner provided for Uncollected Accounts unless the Manager has reason to believe that the dividends will more than pay the charges. In many cases even when the debts are larger than \$2.00 the assets are not enough to pay postage. In these cases the Superintendent may direct the Manager to handle the accounts as other uncollectible accounts are handled.

A. R. BREWER,

Treasurer.

Approved,

B. BROOKS, *Vice-President.*

Telegraph and Telephone Life Ins. Assn.

This Association was founded in 1867, at the Western Union Telegraph Company's main office, New York, with a membership of 125. Since then there has been disbursed to the beneficiaries (Principally widows and orphans) of its deceased members nearly One Million, Eight hundred thousand dollars, and the charter members still surviving have each paid but 569 assessments, an average of \$12.30 yearly for \$1,000.00 insurance.

The insurance is now offered in two grades, Full Grade \$1,000.00 and Half Grade \$500.00, benefit; with the small initiation fee of \$2.00 for each grade, from which \$1.00 is allowed towards the cost of medical examination, and there is no further charge thereafter for new certificates or other incidental expenses.

The assessment calls are based on age at entry as per following schedule and are not subject to change.

Age	Full Grade	Half Grade
18 to 30.	\$1.00	\$0.50
30 to 35.	\$1.25	\$0.63
35 to 40.	\$1.50	\$0.75
40 to 45.	\$2.00	\$1.00

The number of calls issued in any one year depends on the number of death claims filed, and averages about fifteen.

All engaged in telegraph or telephone service in good health, between ages of 18 and 45 are eligible for membership and no person of more than 45 can be admitted.

Membership once acquired cannot be affected by change of occupation or residence and certificates are incontestible for any cause whatever after one years membership.

Reserve fund \$344,000, securely and profitably invested, yielding a generous income which is used to lower the mortality cost.

No more advantageous insurance can be had elsewhere, and as every one needs insurance, why delay.

Send for application forms to M. J. O'Leary, Secretary, P. O. Box 510, New York City.

TARIFF BUREAU

WESTERN UNION TELEGRAPH CO.,
NEW YORK, APRIL 20, 1914.

Places marked in the Tariff Book as "Summer" or "Winter" offices are not to be considered as open until notice to that effect is published in the JOURNAL.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the Tariff Book of July 1913, "Changes" are printed in "Italics"; "New offices" in "Roman" type.

When the status of an office as shown in the Tariff Book is changed, it is entered in the Journal, in italics, in correct and latest form. See, for example, *Howards, Ala.*; or the change is indicated in a briefer way: See *Blountstown, Fla.* (The Journal entry is "**** *Blountstown*. Add † and (L.)" which indicates that the foot note on Tariff Book page showing Blountstown applies to Blountstown and that Night Letter and Day Letter rates apply over "Other" line beyond Marianna).

Changes published for the first time in each issue will be indicated by the prefix "+."

See Special Notices at end of this circular.

WIRELESS.

Note 5, and the paragraph following, on page 842 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and

the town of Bluefields, in Nicaragua, may be reached by wireless service from Colon (Rep. of Panama) at rate of 21c. per word in addition to the cable rate to Colon.

Note 6. Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 21c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 3, page 866 of Tariff Book should be corrected to read as follows:

"In accepting Wireless Companies' franks for messages via Siasconsett, Mass., the amount covered by the wireless frank is 23c. per word. Via Hatteras, N. C. and Grand Island, La., 10c. per word. Friday Harbor, Wash., 20c. per word for Trans-ocean vessels and 10c. per word for Coastwise vessels. Cape Ray, N. F. and Grand Marais, Minn., 10c. per word, FOR VESSELS TO WHICH THOSE RATES APPLY.

Foot note on page 868 of Tariff Book should be corrected to read as follows:

† The wireless rate for coastwise vessels of the Booth, Lampport & Holt, Quebec, Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. to New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 824 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

Effective at once rate from Arizona to Commercial Pacific cable stations should be reduced by five cents per word, making it same as from California (except San Francisco and Oakland) Idaho, Nevada, etc. Pages 825 and 826 of the Tariff Book should be corrected accordingly.

DUTCH EAST INDIES.

Rate to Dutch East Indies, including Java and all other Islands, is now 98c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column all rates 20c. less.

Places printed in Roman type are New Offices.
 Places printed in *Italics* are changes in the Tariff Book.
 The sign (+) indicates changes published for the first time in this issue.

HAWAIIAN ISLANDS.

Foot note on page 825 of the Tariff Book is hereby canceled and following substituted therefor:

Note: Other islands (Hawaii, Maui, Kauai and Molokai) 15c. per word more than rate to Honolulu.

Following is a list of offices in these islands:

Eleele	Kohala
Halawa	Koloa
Hamakuapoko	Lahaina
Hana	Laupahoehoe
Hanalei	Lihue
Hilo	Mahukona
Holualoa	Makawao
Honokaa	Makaweli
Kaanapali	Makena
Kahului	Nawiliwili
Kailua	Paia
Kalauao	Port Allen
Kalaupapa	Pukoo
Kamalo	Puuheue
Kapaa	Spreckelsville
Kaunakakai	Volcano House
Kawaihae	Waikapu
Kealahou	Wailuku
Kealia	Wiamea, Hawaii
Kekaha	Waimea, Kauai
Kilauea	Waiohinu

Applicants for registration in Hawaiian Territory of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

PHILIPPINE ISLANDS.

Effective January 1, 1914, rates to Philippine Islands via Commercial Pacific Cable will be revised as follows:

Luzon:	
Manila—no change.	
Other offices—no change.	
Panay:	
Iloilo—no change.	
Other offices—Increased by 9c. per word.	
Negros:	
Bacalod—no change.	
Other offices—Increased by 9c. per word.	
Cebu:	
Cebu—no change.	
Other offices—Increased by 9c. per word.	
All other islands and offices—Increased by 9c. per word.	
The foregoing corrects rates shown in page 826 of the Tariff Book.	

ATLANTIC CABLES.

The following changes and additions beyond London are now in force.

Word rate beyond London.

Singapore69
Kelantan92

Pages 831 to 835 of the Tariff Book should be corrected in accordance with the foregoing.

DUTCH EAST INDIES.

Wireless communication has been established from Sitoebondo, Java to Ambona, (Amboina Island) and Keopang, (Timor Island.) Rate same as to other Dutch East Indies. Messages accepted only at senders risk.

WEST INDIES.

CUBA.

Telegraph offices have been opened at the following places in Cuba:

TOWN	PROVINCE
Mata.	Santa Clara.
Quinta.	Santa Clara.
San Felipe.	Havana.

GUADALOUPE, ETC.

Effective February 1st the rates to Guadalupe, Martinique, Marie Galante and Les Saintes were reduced 5c. per word less than rates shown on page 888 of the Tariff Book.

SAN DOMINGO,

The establishment of a new route to San Domingo via Wireless from Ponce, P. R., permits of the acceptance of messages for San Domingo at a reduction of 52 cents per word in the tariff. The dependability of this route having been established, it will be considered our normal route via which all messages to San Domingo will transit in future unless otherwise marked by the senders. Page 838 of the Tariff Book should be corrected so as to show the following tariffs:

From W. U. and G. N. W. offices in the U. S. east of the Miss. River, including St. Louis, Mo., and Minneapolis, Minn., to San Domingo—30 cents per word.

From W. U. offices in the U. S. west of the Miss. River, except St. Louis, Mo., and Minneapolis, Minn., and from W. U. offices in B. C. and from G. N. W. offices in Manitoba, to San Domingo—85 cents per word.

From W. U. and G. N. W. offices in N. B., N. S., Ontario and Quebec, to San Domingo—85 cents per word.

Messages marked "Via Hayti" will be accepted at the rates in force via that route; viz.: 20 cents per word higher than the rate via Ponce and Wireless.

SOUTH AMERICA.

BRAZIL.

Effective Apr. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book as \$1.11 from La. and Tex. and \$1.15 from other states and provinces) will be \$1.08 from La. and Tex. and \$1.12 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.41 from La. and Tex. and \$1.45 from other states and provinces) will be \$1.32 from La. and Tex. and \$1.36 from other states and provinces.

Wireless communication has been established with following places in Brazil at following rates per word added to rate to Manaos:

	From La. and Texas.	Other States and Provinces.
--	---------------------	-----------------------------

Porto Velho ..	1.61	1.65
Cruzeiro do sul.		
Rio Branco		
Senna Madureira ..		
Tarauaca		
Xapury		

Messages accepted only at senders risk, and must be marked "Wireless Manaos", which indication is to be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

PERU.

Wireless telegraph station has been opened at Itaya in Peru. Rate same as to Iquitos shown in page 841 of Tariff Book.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Columbia "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Counter clerks must exercise great care in accepting messages addressed to passengers en route on trains. A full and sufficient address should be obtained in every case, and when possible should give the following information:

- (a) The name of the addressee;
- (b) The name of the Railroad and the train number;
- (c) The car and berth number, if known, in the case of passengers traveling on sleeping cars;
- (d) The name of the points between which the addressee is traveling;
- (e) The time the train is due at the place where delivery is to be made;
- (f) The name of the place to which the message is to be checked and to which the message is to be delivered to the addressee or turned over to the conductor of the train.

Below are examples of complete train message addresses:

- (1) John Jones,
N. Y. C. Train three enroute
New York to Chicago.
Due Cleveland 10.35 P. M.
Cleveland, Ohio.
- (2) John Jones,
N. Y. C. Train fifteen, lower
10, car 5, enroute New York
to Chicago.
Due Cleveland 3.25 A. M.
Cleveland, Ohio.

LAUGHLIN

AUTOMATIC—NON-LEAKABLE

SELF STARTING PEN

FILLING PEN

10 Days' Free Trial

You don't have to fuss and

shake a Laughlin to start

the ink—It's a Self Starter.

You don't have to fill the

Laughlin, it's a Self Filler.

You don't have to clean the

Laughlin, it's a Self Cleaner.

You don't have to monkey

with dangerous, awkward

or unsightly locks, exten-

sions, or so-called Safety

devices—There are none.

You can't forget to seal a

Laughlin against leaking,

it seals itself air-tight Auto-

matically.

You can't lose your cap

from a Laughlin—it secures

itself Automatically.

You can't break your cap

or holder on a Laughlin—

They are non-breakable.

Holder and cap of scien-

tific reinforced construction

throughout. See illustration.

You don't have to wait

until a Laughlin is ready.

It is ready to write when

you are; the air-tight leak-

proof construction keeps

pen and feed "primed",

insuring a free uniform

flow of ink instantly—even

though not previously used

for a year.

It performs these functions

with no more hindrance

or interruption to your

thoughts or writing inspir-

ation than your breathing.

These results—or your money

back.

These features are peculiar

only to this patented con-

struction.

If you have no discarded

DUNDUPLEX—The Master Key

The possession of the worlds best transmitter is none too good for any one who loves good Morse. Hence, in the choice of a key do not consider the claims of any that must acknowledge a “superior”.

The Dunduplex has no equal—it is in a class all its own. With its purchase goes the assurance that you own the world’s only two-movement key. The only key that carries two weights without tiring the arm.

Price (including handsome metal carrying case) \$12.00

THE MAN BEHIND THE GUN

May be all right, but if the gun is no good, the man will do little damage. Just so in the case of the transmitting instrument. If the instrument is a cheap imitation of the original standard article, the man will soon revert to the old-fashioned key as the choice between two evils. If the man is well informed at the start, however, he will purchase a **Martin Vibroplex**, which has back of it the accumulated experience of H. G. Martin, the originator of the device. It is not logical to buy an instrument which is recommended as being “just as good.”

Don't waste time and money on imitations. Get the genuine and see that H. G. Martin's name is on your machine.

JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY BY

THE WESTERN UNION TELEGRAPH COMPANY

NEWCOMB CARLTON WILLIAM H. BAKER, A. R. BREWER
President. Secretary. Treasurer.

195 BROADWAY, NEW YORK CITY.

ACTION OF THE WESTERN UNION EMPLOYEES ON THE RETIREMENT OF MR. VAIL.

On Mr. Vail's retirement there was a general desire of the employes of the Company throughout the country to express to him their appreciation of what had been done for them during his administration.

Concerted action on the part of so many widely scattered members of the organization was difficult, but the employes solved the problem by suggesting that the Morse Electric Club act in their behalf, and in obedience to this request the Club at a meeting held May 1st formulated the following message of the employes to Mr. Vail:

A MESSAGE

From the Employes of the Western Union Telegraph Company to Mr. Theodore N. Vail.

It is most difficult for thousands of men and women, scattered over the vast territory of a nationwide organization, and without opportunity to assemble together for the purpose, to give single voice to a sentiment which animates them in common. With this difficulty the employes of The Western Union Telegraph Company throughout the country find themselves confronted at this time when, on the retirement of Mr. Theodore N. Vail from the presidency of the company and from active participation in the guidance of its affairs, it is their impulse and desire to convey to him a direct and comprehensive expression of their grateful acknowledgment of the benefits which his administration has brought to them. Realizing that no number of individual manifestations of a feeling so universally prevalent can afford an adequate conception of its unanimity, they have chosen the Morse Electric Club, which is representative of all branches and gradations of the service, as the common vehicle for the conveyance of their message.

The employes of the Company are keenly alive to the fact that the measure of their welfare is in direct relation to the material progress of the Company. They appreciate very vividly that what has been done under Mr. Vail's administration in making the telegraph service more universally and more readily available to the public, in originating the new classes of service with their strong appeal to popular favor, in improving the physical condition of the plant, and in augmenting the effectiveness of the organization, has, by advancing the best interests of the Company, been of corresponding advantage to themselves.

But more particularly do they wish to speak of those benefits which they owe to Mr. Vail's thoughtfulness of their personal welfare,—of the progress which has been made in providing better surroundings and better facilities for the performance of their work, of the many manifestations of solicitude for their physical well-being and for their contentment, and above all, of the most generous provision which has been made to relieve them in illness, to guard them from want when in the fulness of time they must lay down the burden of active work, and, when death comes, to care for those whom they must leave behind.

To the man to whose large-hearted sympathy they owe these things, the employes of The Western Union Telegraph Company throughout the length and breadth of the land send this message of their profound and sincere gratitude, uniting in the wish that his years may be many and rich with the blessings which are the portion of him that has deserved well of his fellowman.

On behalf of the Employes
of The Western Union Telegraph Company,
THE MORSE ELECTRIC CLUB,

By B. BROOKS,
President.

W. C. Merly, Secretary.

P. J. Casey,
Gardner Irving,
J. A. Hill,
R. J. Murphy, } Committee.

This message was conveyed to Mr. Vail by Mr. Brooks with the following letter:

PERSONAL.

May 2nd, 1914.

Theo. N. Vail, Esq.,
15 Dey Street,
New York City.

Dear Mr. Vail:—

As soon as it became generally known that you were definitely relinquishing the presidency of the Western Union Telegraph Company, there became apparent a general feeling on the part of our employes and officials in the field that they wanted to find some way of manifesting their appreciation of what had been done for them under your administration. Movements to this end were originated by the operating forces at numerous points throughout the organization. The same desire to convey to you some direct expression from the men themselves was manifested everywhere. The operators in the New York operating room, being no doubt aware that the operators elsewhere felt as they did, suggested that they all might speak through the medium of the Morse Electric Club and, as this offered the common channel of expression which they were trying to find, the suggestion met with the enthusiastic approval of the employes throughout the country.

I am sending you with this letter a copy of their message. The original is being prepared in more fitting form, and I am forwarding the enclosed copy of it to you at this time in order that there may be no delay in advising you of the action taken by the employes of the company. The message speaks for itself. In communicating it to you I am acting at the request of the employes, and it is not for me to add anything to it. I can say with propriety, however,—and feel that I should say,—that I am privileged to know that it is the wholly spontaneous expression of the genuine, deep and universal feeling of the entire working organization of this company.

Sincerely yours,

(Signed) B. BROOKS.

As stated in Mr. Brooks' letter, the message is being suitably engrossed for presentation to Mr. Vail in fitting, permanent form.

Western Division Changes.

The following changes are announced in the Sixth District:

Miss Bertha Smith, formerly cashier at Fort Wayne, Indiana, has been appointed manager of the Mishawaka, Ind. office. Mr. J. E. Riley succeeds Miss Smith as Cashier at Fort Wayne.

Mr. John H. Adams has been appointed manager at Wabash, Ind., vice W. E. Chandler who has been transferred to similar position at Kokomo, Ind. to succeed M. H. Hutton, deceased.

The following changes in Managerships have been made in the Seventh District, effective May 1st:

R. C. Bliss, Manager, Cincinnati—Deceased.

L. R. Scholl, Manager, Columbus—Transferred to Cincinnati.

W. W. Browne, Manager, Dayton—Transferred to Columbus.

E. D. Keyes, Manager, Hamilton—Transferred to Dayton.

C. E. Jones, Manager, Zanesville—Transferred to Hamilton.

C. H. Towns, Manager, Ironton—Transferred to Zanesville.

G. C. Lemmon, Manager, Athens—Transferred to Ironton.

E. Bowen. Employed as Manager at Athens.

INTEMPERANCE.

Evils of Over-Indulgence in Drinking, Eating, Smoking or Excesses of any kind.

The Medical Department under the direction of Dr. Alvah H. Doty, will issue each month an article on the subject of Hygiene or matters pertaining to the preservation of health and protection against disease. In order that the various subjects which are to appear may be more fully understood, those of the greatest importance will receive first consideration. It is suggested that the articles referred to be kept for reference, besides in this way a hand-book covering practically the entire subject of Hygiene may be secured.

Article 16.

There is probably no subject concerning public or individual health which is more frequently discussed than that relating to temperance as applied to the use of alcohol. 'This term is also frequently used as a synonym for total abstinence.

Temperance correctly interpreted means, that so far as our habits are concerned, we are within the safety zone. This is really all that nature exacts from us in the care of our health, therefore it is not only inappropriate, but misleading, to restrict this subject to the consideration of alcoholic drinks, for temperance equally applies to everything we may eat or drink as well as to our method of living.

In previous articles we have learned of the very great resisting power of the human body and how, with but little trouble or effort, it deals with the regular or ordinary work thrown upon it in connection with a normal and reasonable mode of life; but if we are continuously intemperate in our eating or drinking or in our habits this equilibrium is sooner or later destroyed, and we are quite sure to suffer for it.

A large part of the public have no thought of and give no consideration to the plan upon which we are organized, and some are unmindful of the unpleasant or serious results which may follow a disregard of

personal hygiene. On the other hand, some are made constantly unhappy through the fear that what they eat or drink or the air they breathe may not be free from contamination. This is a particularly unfortunate frame of mind, for practically we cannot have food, water or air without some impurities, still if by care these are reduced to a minimum, nature is as a rule able to neutralize any ill effect in this direction, and we need not worry regarding the danger from this source.

It is not intended that we shall live unhappily by being deprived of various articles of food and drink which we like and which in moderation are not harmful, or in the enjoyment of reasonable pleasures, but it is intemperance in this direction which is to be guarded against; besides, it must be understood that while we may observe temperance or prohibition in one direction it does not justify intemperance in others. The public do not appreciate this, for some of the most ardent so called temperance advocates who look with horror upon the excessive use of alcohol, are gluttons at the table, and undoubtedly die from causes superinduced by overeating, or are seriously affected by over-indulgence in other directions.

The term Temperance is in a way a comparative one, for what may constitute an excess in eating or drinking with some persons is temperate in others, besides children, or those who are ill or otherwise in abnormal conditions, cannot with impunity do what may be regarded as proper or reasonable in healthy subjects. Nevertheless temperance in any direction, so far as it affects the masses, may be fairly well determined.

This article is not intended to discuss alcoholic drinks or the unpleasant or dangerous results which may follow their excessive use. It is true that the intemperate use of liquor is responsible for great suffering and indirectly loss of life, besides it is associated with so many unpleasant public demonstrations that it has become notoriously familiar and, largely for this reason, has overshadowed the danger of intemperance in other directions.

Without referring to the various arguments presented in connection with this subject or the good that prohibition has done in this direction, the fact remains that the use of alcoholic drinks will probably not be discontinued, although it is the hope and belief of some that this may occur. It is generally accepted, however, that it is their abuse rather than their use which is injurious, not only to the individual, but in a way to the public also; therefore it is logical and fair to assume that much may be gained, so far as the betterment of this condition is concerned, if temperance as well as prohibition is preached, for drinking is very much a matter of habit and is increased largely because the danger of over-indulgence is not considered.

There is good reason to believe that continued overeating is indirectly responsible for a greater loss of

life than that which follows the excessive use of liquor. As a rule we eat much more than we need. This is intemperance and leads to many unpleasant conditions. We take a large amount of food which has but little nutritive value and is often very difficult to digest, this constantly overtaxes the digestive organs and sooner or later renders them unable to properly perform their functions, and may afterwards lead to organic disease. One of the unpleasant effects of liquor is the abnormal appetite that it is apt to create which calls for an increased and unnecessary amount of food.

There is probably no condition which is more responsible for the unpleasant and serious conditions which occur in connection with the digestive tract than the frequent indulgence in formal or public dinners, for at these functions many courses are served consisting of rich and indigestible material which is not only uncalled for but is very difficult to digest. Reform in the menu of these entertainments by the substitution of plain and simple dishes would be of valuable aid in bringing about temperance in this direction.

Among those who have carefully investigated the subject it is the consensus of opinion that tobacco does but little harm when moderately used in healthy adults, but in excess it is injurious in many ways, having a selective action on the nervous system and sooner or later affecting the heart, besides various forms of digestive trouble are caused by it, the latter often occur even when tobacco is used in small quantities.

Both coffee and tea are delicious beverages and are used throughout the world, and while there is no reason to believe that when taken by adults in a moderate amount that any well defined unpleasant results follow, when intemperately used the nervous system, as in the case of tobacco, is often seriously involved. In late years tea drinking has been introduced into this country and, like all fads, has been overdone.

The most serious factor in connection with the tea and coffee habit is the increasing use of these beverages among children, who drink them daily and depend upon them for their stimulating effect. Children are passing through a formative stage during which time the various tissues of the body are developing and reaching their growth. Coffee, tea and tobacco notoriously affect the nervous system, particularly of young children, and there is no doubt that in persons of this age they are not only responsible for temporary ailments but lay the foundation for serious permanent affections. Parents are largely responsible for this habit among children, for it is usually contracted at home.

Even a superficial consideration of the subject of Temperance indicates that it is very general in its application, for it includes the various excesses which may be associated with our mode of life as well as the improper use of food and drink.

There are conditions which may practically be termed enforced intemperance, for unfortunately there are many persons who for various reasons are obliged to work intemperately as a means of sustenance. This applies more particularly to brain workers, who often do not obtain a sufficient amount of rest or sleep and but little or no exercise; however, even under these conditions, which really constitute a serious form of intemperance, there are ways by which unpleasant results may be prevented, for more care may be taken in the selection of simple and inexpensive but nourishing food, besides there is no form of employment which does not permit at some time of the day or night an opportunity to secure exercise in the open air. This relieves various organs which may be congested as the result of sedentary habits, and is of inestimable value in protecting against the dangers of this mode of life.

The intent of this article is to impress upon the readers the need and importance of a broader interpretation of the word Temperance and the necessity of recognizing its importance, for the methods by which it may be successfully carried out in the preservation of our health are very simple and means only that we shall observe the rules of personal hygiene, for if these are maintained we need not worry about possible dangers which may present themselves in connection with a mode of living which is temperate and orderly.

Rule 99.

Reporting Service of Summons and Other Legal Process.

The General Attorney again calls attention to the failure of managers or agents to comply with Rule 99, which directs that "immediately upon the service of any summons or other legal process in any legal proceeding affecting the company, the employee upon whom such service is made will report the fact by telegraph to the Superintendent," etc. Recently a judgment by default for a considerable sum was secured against the company because the service of a summons on one of its agents was not reported.

On account of the serious consequences which may result from non-observance of the rule, the importance of strict and unflinching compliance with its provisions is again impressed on all managers. Managers should also appropriately instruct all agents in charge of agencies reporting to their offices.

Government Messages.

Effective September 1st, 1913, paragraph 31 page IX of the Tariff Book should be changed to read as follows:

31. The rate for United States Government messages originating in the United States and destined to Western Union and Great North Western points in

Canada, is the regular United States Government rate as far as the Canadian boundary plus 25 and 1 for the provinces of Nova Scotia, New Brunswick, Quebec and Ontario, and 25 and 2 for British Columbia and Manitoba. For "other" line offices in these and other provinces the full "other" line rate shown in the Tariff Book will be added to the Government rate for "this" line.

Rule 71.

Effective May 1st, 1914, Rule 71 is amended as follows:

All revenue accruing from "Paid Here" full rate cablegrams, deferred rate cablegrams, cable letters, week end letters, press cablegrams, deferred press cablegrams and trans-oceanic wireless messages, including charges to cover prepaid replies, and the tolls on messages answering cablegrams carrying prepaid replies, shall be accounted for in one total as "Cable Tolls" on monthly report, Form 4 (or similar report provided). The use of Form 67 is discontinued.

Credit shall be taken under "Cable Refunds" on Form 4, for the tolls on a cablegram sent in answer to one received bearing the indication "RP", not exceeding the maximum number of words designated in the "RP". Enclose with reports, copies of such answers to "RP" cablegrams as vouchers, with the amount of tolls endorsed thereon. These instructions partly revise Cable Rule 24.

Amounts refunded in accordance with cable rules shall be taken credit for as "Cable Refunds" on the Form 4 and the amounts shall be supported by properly approved vouchers. See Cable Rule 27 in the Tariff Book.

Managers shall use great care to see that the amounts reported are correct, in order to avoid subsequent adjustment. The Cable messages shall be filed separately in such a manner that a complete detailed report can be furnished promptly if requested.

Money Transfer Service. Mexico.

Owing to existing conditions, Money Transfer Service with Mexico has been practically suspended for several months. Orders accepted recently have been for payment in the City of Mexico only and have been limited to \$500.

As we go to press, the indications are that the service will be automatically suspended for an indefinite time. So long, however, as the situation remains in doubt, applicants for transfer to Mexico City, in cases of extreme urgency, may be told that the transfer will be attempted at depositor's risk of delay and loss, if after inquiry the Transfer Agent at El Paso, Texas, so advises. The message of inquiry and reply thereto must be paid for by the applicant (Rule VIII-3). It should also be under-

stood that transfer will be attempted only in a case of the greatest urgency.

Every application must show by endorsement over the depositor's signature that it is accepted only at the depositor's risk of delay or loss.

Method of Computing Commissions on Mexican Business at Commission Offices.

At offices where commissions are authorized in lieu of other compensation, the commissions on messages to or from Mexico should be computed as follows:—

On Class A & C Traffic

where the rate is \$1.75 and .12, commissions should be computed on the proportion of .50-3;

where the rate is \$1.60 and .12, as to and from offices in the State of Louisiana, commissions should be computed on the basis of .30 and 2;

where the rate is \$1.60 and .12, as to and from offices in the State of Texas, commissions should be computed on the basis of .25 and 2.

On Class B Traffic

the rate on which is .70 and 5, to and from all offices in the United States, commissions should be computed on the basis of .50 and 3.

B. BROOKS,

Vice-President.

Week End Letter Service Chili and Peru.

Effective September 1st '13, the Week End Letter Service now in effect with Argentine Republic was extended to Chili and Peru (Except Wireless Stations) at the same rates and under the same regulations governing that service to Argentine shown on pages 858 and 859 of the Tariff Book.

Deferred Cable Service.

The following have been added to list of places shown on page 861 of Tariff Book to which Deferred Cable Service is in operation:

Borneo (Dutch), via	Formosa via London.
London.	Japan via London.
Chili, So. America.	Nauru Island.
Cyprus.	Peru, So. America. *
	Tripoli.

* Except Wireless Stations.

It should be noted that Deferred Cable Service is now in force to Amazon River Stations in Brazil.

Offices should note especially that senders of Deferred Cables must in every case write before the address and pay for as one word the letters LCF, LCO or LCD, as in the nature of a declaration that the communication is in the French language or the lan-

guage of country of origin or destination as the case may be.

Trans-Atlantic Wireless Service.

Instructions on Page 862 of the Tariff Book to the effect that the amount prepaid for replies to Marconigrams must be expressed in terms of full cable rates should, effective April 1st, be changed to read:

"The same provision for prepaid replies to trans-Atlantic wireless messages may be made as for prepaid replies to cablegrams but in the case of wireless trans-Atlantic messages the amount for the prepaid reply must be expressed in terms of the full wireless rate instead of the full cable rate."

Upon receipt of a Marconigram to which a reply has been prepaid the delivery clerk will from April 1st write under the message, before delivery, the words:

"Reply to the value of paid for" and will arrive at the amount expressed as prepaid by calculating the tolls at full Marconi rates on the number of words in the RP indication.

The attention of offices is drawn to the fact that in future trans-Atlantic wireless messages should be prefixed "MARCONI" instead of "RADIO" and the instructions on page 862 of the Tariff Book should be corrected accordingly.

Wireless messages to and from Steamers will continue to be prefixed "RADIO".

Wireless Messages to and from Steamers.

(See also Page T 42)

Effective May 1st, 1914, radio messages on official U. S. Government business shall be checked paid; the indication "Govt." shall be inserted immediately before the address and shall be counted and charged for. Such messages are as a rule routed via the following U. S. Government radio stations:—

Charleston, S. C.	Eureka, Calif.
Jupiter, Flo.	Point Arguello, Calif.
St. Augustine, Flo.	San Diego, Calif.
Pensacola, Flo.	Cape Blanco, Oreg.
Key West, Flo.	North Head, Wash.
	Tatoosh, Wash.

and when official messages are so routed by senders and are addressed to U. S. Government vessels the wireless service is free, the only charge to be made being the Government rates for our service from points or origin to coastal stations as given on pages XII, XIII and XIV of the Tariff Book.

When official Government messages are sent via other stations to other than Government vessels the wireless rates quoted on pages 867, 868 and 869, in addition to the Postmaster General's rate above referred to for our service apply.

Pursuant to the International Radiotelegraphic Convention, which by proclamation of the President of the United States became effective on September 1st, the provisions of the Cable Rules relating to repetitions, acknowledgments of receipt and prepaid replies as printed on page 815 of the Tariff Book are applicable to the wireless service to and from ships at sea,—and notations to that effect should be made on page 866 of the Tariff Book, canceling the reference printed thereon in regard to the inadmissibility of prepaid replies.

The amounts prepaid for replies to messages addressed to ships-at-sea should be expressed in dollars and cents instead of in words at full rates, and a minimum of ten words must be charged for in every case. In these important respects the practice differs from the method of expressing and dealing with RP charges in cablegrams and trans-ocean wireless messages, but in all other respects the general instructions in reference to such charges printed on pages 815 and 816 of the Tariff Book should be carefully followed, except that of course form 7 instead of form 67 should be used in reporting the messages. In no case should RP charges be refunded save on the authority of the United States Manager. The foregoing of course applies equally to messages received from ships-at-sea, the RP indication in which will be understood as referring to amounts prepaid and not to the number of words paid for.

It should also be noted that the preamble "EX-PRESS", when the same appears immediately before the address in such message, conveys the information that any published special delivery or other terminal charges have been prepaid by the sender. Similarly the preamble "PR" signifies that delivery is to be by registered mail from the terminal telegraph office and that all post-office charges have been prepaid.

The attention of offices is drawn to the fact that by agreement between the administrations operating coastal wireless stations, reports of non-delivery and other similar service correspondence need not necessarily be exchanged through the coastal station via which the original message was routed, but may be exchanged through any other coastal station which may be in nearer range at the time that the occasion for such service correspondence arises.

Effective July 1st, '13, the wireless rate to and from steamers on the Great Lakes was reduced from 10 to 5 cents per word with the usual 10 word minimum. This will make following corrections necessary on page 869 of the Tariff Book.

"For Coastwise vessels" from Buffalo, N. Y., Cleveland and Ashtabula, Ohio, Detroit, Mich., 5, instead of 10.; Benton Harbor, Ludington, Grand Haven, Frankfort and Mackinac Isl., Mich., Chicago, Ill., Milwaukee and Manitowoc, Wis., Calumet, Mich.,

and Sault Ste. Marie, Ont., 5, instead of 10.; Manistique, Mich., 5, instead of 12c.; Duluth, Minn., 5, instead of 10c. per word.

The rate for wireless transmission Duluth to Grand Marais, Minn., has been increased from 5 to 10 cents per word, restoring the 15 cent wireless rate shown in Tariff Book, for Lake Steamers via Grand Marais.

Manistique, Mich., is now a Western Union Check direct office and wireless rate for coastwise vessels (Great Lakes) shown on page 869 of Tariff Book is now 5, instead of 12 cents per word.

Effective at once the wireless word rates shown on pages 867, 868 and 869 of the Tariff Book will be further reduced to the following figures:

Siasconsett, Mass. For Coastwise vessels ..	.15
Key West, Fla. For Trans-Ocean vessels18
“ “ “ “ Coastwise vessels14
Eureka, Cal. For Trans-Ocean vessels	.14
Tatoosh I., Wash., “ “ “ “	.15
North Head, Wash. “ “ “ “	.14
Cape Blanco, Ore. “ “ “ “	.16
Pt. Arguello, Cal. “ “ “ “	.14
San Diego, Cal. ... “ “ “ “	.14

Effective November 1st, the wireless rate on messages to and from coastwise ships at sea exchanged through Astoria, East San Pedro, Eureka, Friday Harbor, Marshfield, San Francisco, San Luis Obispo and Seattle coastal stations was reduced 5c. per word, making the wireless rate on messages to coastwise vessels only exchanged through any of the stations named 5c. less than the word rates published opposite such stations at the top of columns on pages 868 and 869 of the Tariff Book.

Through misunderstanding the notice published in the October Journal extended the above reduction to the Cape Blanco, North Head, Point Arguello, San Diego, Tatoosh Island and Victoria stations. The wireless rates to and from coastwise vessels exchanged through those stations are reduced, but only to the following figures:

Cape Blanco	10c.
Victoria	} 08c.
North Head	
Point Arguello	
San Diego	
	09c.

Wireless rates via all Pacific Coastal stations to Government vessels are 2c. per word higher in each case than rates quoted above.

Effective November 1st the following changes were made in the land-line word rates on ships' messages.

Between offices in Washington and coastal stations in Oregon, rate increased from 3 to 4c. per word.

Between offices in Oregon and coastal stations in Washington, rate reduced from 5 to 4c. per word.

Between offices in Oregon and coastal stations in the same state, rate reduced from 5 to 3c. per word.

Between offices in California and coastal stations in Oregon, rate reduced from 6 to 5c. per word.

Between offices in California and coastal stations in the same state, rate reduced from 4 to 3c. per word.

The New London wireless station has been reopened for service at rates shown on page 869 of Tariff Book.

The wireless connection via Fort Morgan, Ala. given in third column, page 868 of Tariff Book should be erased.

The wireless connection via Sayville, N. Y., has been discontinued and the rates via Sayville given in first and second columns on page 867 of the Tariff Book are therefore canceled.

Effective January 1, 1914, South Wellfleet, Mass., will be discontinued as a wireless station for steamships in the Boston service and the Boston station will be used instead. The third column on page 867 of the Tariff Book should be corrected accordingly.

The high power station at South Wellfleet will be continued as formerly at rates shown in fourth column, page 867 of the Tariff Book.

J. C. WILLEVER,
United States Manager.

Accepting and Rating D. H. Messages.

1. Receiving Clerks shall be careful to write correct franks numbers immediately after the check in messages and shall be certain, before checking a message "D. H.", that it is, (a) properly covered by a D. H. Frank Card or D. H. Stamps, or, (b) properly approved in writing under Tariff Book Rule 24 for employe's messages, or (c) correctly checked "D. H. Answer to D. H." in reply to a received D. H. Message.

2. The D. H. Franks are of two general classes, viz., Business Frank Cards and Complimentary Frank Stamps and Cards, as follows:

- (a) The Business Frank Cards are generally issued to officers and agents of railroads and are restricted to messages relating to business of the respective carriers with which they are connected.

The term D. H. is used in connection with these franks and the messages are also sometimes referred to by employes as "Free", but it should be distinctly understood that these terms are used merely for

convenience in checking or accounting as the messages transmitted thereunder are actually charged by the Auditor against the accounts of the respective carriers and thereafter paid for in cash or its equivalent.

- (b) Complimentary Frank Stamps are issued to officers or to officers and members of their families, of common carriers and cover messages of a family or social character. The Stamps are numbered and bear the designating letters, A, B and C. Each stamp has the monetary value printed thereon and stamps should be attached to each message sufficient to cover the total tolls. In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

- (c) Personal Complimentary frank cards are issued to officers or officers and members of their families, of common carriers, and cover messages of a personal *social* character and are not good for personal *business* messages. They bear the designating letter "F".

3. "Dead Head Answer" messages need not be accompanied by copies of messages to which they are answers, provided receivers are satisfied that messages so tendered are answers to received D. H. messages.

4. Dead Head Franks should not be confused with Identification Cards, Half-Rate Franks, Government Rate Cards or Collect Cards. Messages filed under any of these four kinds of Cards shall *not* be checked "D. H".

5. Receiving Clerks shall note in the upper right hand corner of message blank, above the space provided for "check," the amount of "This Line" tolls thereon computed at day message rates, unless the frank is specially endorsed good for night messages, day or night letters, in which case tolls at the respective rates shall be noted. Connecting line tolls if paid, shall be noted immediately after the word "Paid" in the check.

6. Messages to points on the lines of the International Ocean Telegraph Company, shall be rated at through rates from point of origin to point of destination, if the sender holds Western Union Frank endorsed good for message to I. O. T. points, or both Western Union and I. O. T. franks.

7. Messages to points on the lines of the Great

North Western Telegraph Company of Canada accepted from holders of both Western Union and G. N. W. franks, shall be rated at *one-half* of the amount of the through tolls which, in the case of messages checked D. H. over both lines, represents the Western Union proportion of the tolls. This amount (only one-half) shall be noted on the message.

8. Messages to I. O. T. and G. N. W. points accepted from parties holding Western Union franks only, or I. O. T. or G. N. W. franks only, shall be rated in accordance with Tariff Book Rules 133, 134, 138 and 139.

9. The same care should be used in rating Dead Head messages as is used in rating paid messages.

10. Half size pictures of the various franks and cards were distributed with the October 1913 Journal of the Telegraph and should be in the possession of every office for reference.

Revised Rule 79.

Dead Head Message Reports.

A monthly report of Dead Head messages shall be prepared on Form 38-A. One entry shall be made monthly for each Railroad, Express or other transportation company separately, showing name of company (or name of sender, if not a business message) number of sent D. H. messages and total tolls. Messages sent D. H. in answer to received D. H. messages shall be entered on one line as "Answers".

The original sent D. H. messages shall show the place of origin, the reason why D. H. and the tolls. The original sent D. H. messages, and copies of messages received D. H. from G. N. W. points, and the Form 38-A shall be forwarded with the monthly report.

Complimentary Stamp Franks With Monetary Values.

Commencing March 1st, 1914, the Complimentary Stamp Franks issued by this Company will have printed thereon the value in cents, and the value of stamps affixed to each message should equal or exceed the tolls.

In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

E. Y. GALLAHER,

Comptroller.

Foreign Transfer Service.

Money Transfer Rule XII-3 is hereby modified as follows:

Sender's name required.

In Transfers to Great Britain, Ireland, the Channel Islands and Belgium, the name of the sender shall be given. (Examples, XIV-1 and 2).

In Transfers to other foreign countries, the name of the sender may be omitted, if desired, EXCEPT that when the payee is an ambassador, consul, bank, steamship agent, or firm accustomed to receiving a large number of remittances, the sender's name is necessary for the information of the payee, in order that the amount may be properly credited.

Charges for Money Transfers to Canada.

The correct charges for Money Transfers payable in Canada are shown in Rule III-2.

Managers are cautioned against accepting transfers for Canada at the reduced rates (Rule III-1) which are applicable to business between offices in the United States only.

Money Transfer Rule XII-I.

The second paragraph of Money Transfer Rule XII-I, relating to special Foreign Transfers, should be corrected to read as follows:

"The word 'Special' shall be inserted directly after the name of the paying station in every message directing the payment of \$100. or over and shall be included in the check, but not charged for."

Example:

Tragent,

New York.

Pay William Henry Justice 45 Regent St. London
Special from Frederick Hunter.
(Count all words.)

Ck. 16 Free

Money Transfer Drafts.

There is sometimes objection, on the part of payees, to the practice of placing the name of the depositor upon the draft issued in payment of a money transfer. This practice should, therefore, be discontinued, the space provided for the name on the transfer draft being left blank, unless for any reason the payee should request that the name be added.

HENRY G. BATES,

General Transfer Agent.

Complimentary Franks and Half Rate Franks.

CONTRACT DEPARTMENT, April 15th, 1914.

AMENDED NOTICE to the Western Union offices in
Nebraska, New Hampshire,
Ohio, South Dakota, Wisconsin.

sin, New York, Texas, Indiana, Montana, Missouri, Pennsylvania and Illinois.

Under the laws of the States of Nebraska, New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the law of the State of Illinois, affecting municipalities adopting commission form of government, it will not be legal to and you will not accept at such places intra-state messages in that State under Complimentary Franks, nor intra-state messages under Half Rate Franks. The following places have adopted commission government to date:—

Braceville	Harrisburg
Carbondale	Jacksonville
Cairo	Kewanee
Catlin	Marseilles
Clinton	Murphysboro
Decatur	Moline
Dixon	Naperville
Elgin	Pekin
Forest Park	Rock Island
Hillsboro	Rochelle
Hamilton	Springfield
Harvey	Spring Valley

Waukegan

Under the law of the State of Indiana it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company, nor intra-state messages under Half Rate Franks.

Under the law of the State of Montana it will not be legal to and you will not accept intra-state messages under Complimentary Franks; nor intra-state messages under Half Rate Franks.

Under the law of the State of Missouri it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Pennsylvania it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks

issued to members of families of Officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells Fargo & Company.

G. W. E. ATKINS,

Vice-President.

Telegraph and Telephone Life Ins. Assn.

This Association was founded in 1867, at the Western Union Telegraph Company's main office, New York, with a membership of 125. Since then there has been disbursed to the beneficiaries (Principally widows and orphans) of its deceased members nearly One Million, Eight hundred thousand dollars, and the charter members still surviving have each paid but 569 assessments, an average of \$12.30 yearly for \$1,000.00 insurance.

The insurance is now offered in two grades, Full Grade \$1,000.00 and Half Grade \$500.00, benefit; with the small initiation fee of \$2.00 for each grade, from which \$1.00 is allowed towards the cost of medical examination, and there is no further charge thereafter for new certificates or other incidental expenses.

The assessment calls are based on age at entry as per following schedule and are not subject to change.

Age	Full Grade	Half Grade
18 to 30,	\$1.00	\$0.50
30 to 35.	\$1.25	\$0.63
35 to 40.	\$1.50	\$0.75
40 to 45.	\$2.00	\$1.00

The number of calls issued in any one year depends on the number of death claims filed, and averages about fifteen.

All engaged in telegraph or telephone service in good health, between ages of 18 and 45 are eligible for membership and no person of more than 45 can be admitted.

Membership once acquired cannot be affected by change of occupation or residence and certificates are incontestible for any cause whatever after one years membership.

Reserve fund \$344,000, securely and profitably invested, yielding a generous income which is used to lower the mortality cost.

No more advantageous insurance can be had elsewhere, and as every one needs insurance, why delay.

Send for application forms to M. J. O'Leary, Secretary, P. O. Box 510, New York City.

TARIFF BUREAU

WESTERN UNION TELEGRAPH CO.,
NEW YORK, MAY 20, 1914.

Places marked in the Tariff Book as "Summer" or "Winter" offices are not to be considered as open until notice to that effect is published in the JOURNAL.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the Tariff Book of July 1913, "Changes" are printed in "Italics"; "New offices" in "Roman" type.

When the status of an office as shown in the Tariff Book is changed, it is entered in the Journal, in italics, in correct and latest form. See, for example, *Howards, Ala.*; or the change is indicated in a briefer way: See *Blountstown, Fla.* (The Journal entry is "**** *Blountstown*. Add † and (L.)" which indicates that the foot note on Tariff Book page showing Blountstown applies to Blountstown and that Night Letter and Day Letter rates apply over "Other" line beyond Marianna).

Changes published for the first time in each issue will be indicated by the prefix "+."

See Special Notices at end of this circular.

WIRELESS.

Note 5, and the paragraph following, on page 842 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and

Places printed in Roman type are New Offices.
 Places printed in Italics are changes in the Tariff Book.
 The sign (+) indicates changes published for the first time in this issue.

the town of Bluefields, in Nicaragua, may be reached by wireless service from Colon (Rep. of Panama) at rate of 21c. per word in addition to the cable rate to Colon.

Note 6. Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 21c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 3, page 866 of Tariff Book should be corrected to read as follows:

"In accepting Wireless Companies franks for messages via Siasconsett, Mass., the amount covered by the wireless frank is 23c. per word. Via Hatteras, N. C. and Grand Island, La., 10c. per word. Friday Harbor, Wash., 20c. per word for Trans-ocean vessels and 10c. per word for Coastwise vessels. Cape Ray, N. F. and Grand Marais, Minn., 10c. per word, FOR VESSELS TO WHICH THOSE RATES APPLY.

Foot note on page 868 of Tariff Book should be corrected to read as follows: ‡ The wireless rate for coastwise vessels of the Booth, Lamport & Holt, Quebec, Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. to New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 824 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

Effective at once rate from Arizona to Commercial Pacific cable stations should be reduced by five cents per word, making it same as from California (except San Francisco and Oakland) Idaho, Nevada, etc. Pages 825 and 826 of the Tariff Book should be corrected accordingly.

DUTCH EAST INDIES.

Rate to Dutch East Indies, including Java and all other Islands, is now 98c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column all rates 20c. less.

HAWAIIAN ISLANDS.

Foot note on page 825 of the Tariff Book is hereby canceled and following substituted therefor:

Note: Other islands (Hawaii, Maui, Kauai and Molokai) 15c. per word more than rate to Honolulu.

Following is a list of offices in these islands:

Eleele	Kohala
Halawa	Koloa
Hamakua	Lahaina
Hana	Laupahoehoe
Hanalei	Lihue
Hilo	Mahukona
Holualoa	Makawao
Honokaa	Makaweli
Kaanapali	Makena
Kahului	Nawiliwili
Kailua	Paia
Kalauao	Port Allen
Kalaupapa	Pukoo
Kamalo	Puuheue
Kapaa	Spreckelsville
Kaunakakai	Volcano House
Kawaihae	Waikapu
Kealahou	Wailuku
Kealia	Wiamea, Hawaii
Kekaha	Waimea, Kauai
Kilauea	Waiohinu

Applicants for registration in Hawaiian Territory of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

PHILIPPINE ISLANDS.

Effective January 1, 1914, rates to Philippine Islands via Commercial Pacific Cable will be revised as follows:

Luzon:

Manila—no change.
Other offices—no change.

Panay:

Iloilo—no change.
Other offices—Increased by 9c. per word.

Negros:

Bacolod—no change.
Other offices—Increased by 9c. per word.

Cebu:

Cebu—no change.
Other offices—Increased by 9c. per word.

All other islands and offices—Increased by 9c. per word.

The foregoing corrects rates shown in page 826 of the Tariff Book.

ATLANTIC CABLES.

The following changes and additions beyond London are now in force.

AFRICA.

Word rate beyond London.

Belgian Congo:

Pages 831 to 835 of the Tariff Book should be corrected in accordance with the foregoing.

DUTCH EAST INDIES.

Wireless communication has been established from Sitoebondo, Java to Ambaina, (Ambaina Island) and Keopang, (Timor Island.) Rate same as to other Dutch East Indies. Messages accepted only at senders risk.

WEST INDIES.

CUBA.

Telegraph offices have been opened at the following places in Cuba:

TOWN	PROVINCE
Mata,	Santa Clara.
Melena del Sur.	Havana.
Quinta.	Santa Clara.
San Felipe.	Havana.

GUADALOUPE, ETC.

Effective February 1st the rates to Guadeloupe, Martinique, Marie Galante and Les Saintes were reduced 5c. per word less than rates shown on page 838 of the Tariff Book.

SAN DOMINGO,

The establishment of a new route to San Domingo via Wireless from Ponce, P. R., permits of the acceptance of messages for San Domingo at a reduction of 52 cents per word in the tariff. The dependability of this route having been established, it will be considered our normal route via which all messages to San Domingo will transit in future unless otherwise marked by the senders. Page 838 of the Tariff Book should be corrected so as to show the following tariffs:

From W. U. and G. N. W. offices in the U. S. east of the Miss. River, including St. Louis, Mo., and Minneapolis, Minn., to San Domingo—80 cents per word.

From W. U. offices in the U. S. west of the Miss. River, except St. Louis, Mo., and Minneapolis, Minn., and from W. U. offices in B. C. and from G. N. W. offices in Manitoba, to San Domingo—85 cents per word.

From W. U. and G. N. W. offices in N. B., N. S., Ontario and Quebec, to San Domingo—85 cents per word.

Messages marked "Via Hayti" will be accepted at the rates in force via that route; viz.: 20 cents per word higher than the rate via Ponce and Wireless.

SOUTH AMERICA.

BRAZIL.

Effective Apr. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book as \$1.11 from La. and Tex. and \$1.15 from other states and provinces) will be \$1.08 from La. and Tex. and \$1.12 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.41 from La. and Tex. and \$1.45 from other states and provinces) will be \$1.32 from La. and Tex. and \$1.36 from other states and provinces.

Wireless communication has been established with following places in Brazil at following rates per word.

	From La. and Texas.	Other States and Provinces.
Porto Velho ..	1.61	1.65
Cruzeiro do sul.		
Rio Branco		
Senna Madureira		
Tarauaca		
Xapury		

Messages accepted only at senders risk, and must be marked "Wireless Manaos", which indication is to be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

PERU.

Wireless telegraph station has been opened at Itaya in Peru. Rate same as to Iquitos shown in page 841 of Tariff Book.

Effective at once rate to Itaya, Iquitos, Masisea, Orellana and Requena in Peru increased by 5c. per word. Sixth column, page 841 of Tariff Book should be corrected accordingly.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Columbia "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Counter clerks must exercise great care in accepting messages addressed to passengers en route on trains. A full and sufficient address should be obtained in every case, and when possible should give the following information:

- (a) The name of the addressee;
- (b) The name of the Railroad and the train number;
- (c) The car and berth number, if known, in the case of passengers traveling on sleeping cars;
- (d) The name of the points between which the addressee is traveling;
- (e) The time the train is due at the place where delivery is to be made;
- (f) The name of the place to which the message is to be checked and to which the message is to be delivered to the addressee or turned over to the conductor of the train.

Below are examples of complete train message addresses:

- (1) John Jones,
N. Y. C. Train three enroute
New York to Chicago.
Due Cleveland 10.35 P. M.
Cleveland, Ohio.
- (2) John Jones,
N. Y. C. Train fifteen, lower
10, car 5, enroute New York
to Chicago.
Due Cleveland 3.25 A. M.
Cleveland, Ohio.

PELNAR SCHOOL OF TELEGRAPHY,

MADISON, WIS.

WE ARE PARCEL-POST NEIGHBORS

The best bug cords 50 cents each. Old sending machines repaired; nickle-plating; safety razor blades sharpened 30 cents per dozen. We sell and repair everything electrical and mechanical. Manufacturing, experimental and die work a specialty. Tell us your wants.

BENTON MANUFACTURING CO., Not Inc.,

656 West 55th Street Chicago, Ills.

We will allow you 50 cts. for it, in exchange, for the only perfect fountain pen made.

Send it to us with \$2.00 and we will send you a pen that will be a source of never ending usefulness and comfort to you,—a pen that will do your bidding if you but guide it aright over the writing sheet.

LAUGHLIN

**AUTOMATIC—NON-LEAKABLE
SELF-STARTING PEN
10 Days' Free Trial**

You don't have to fuss and shake a Laughlin to start the ink—*It's a Self Starter.* You don't have to fill the Laughlin, *it's a Self Filler.* You don't have to clean the Laughlin, *it's a Self Cleaner.*

You don't have to monkey with dangerous, awkward or unsightly locks, extensions, or so-called Safety devices—*There are none.*

You can't forget to seal a Laughlin against leaking, it seals itself air-tight *Automatically.*

You can't lose your cap from a Laughlin—it secures itself *Automatically.*

You can't break your cap or holder on a Laughlin—*They are non-breakable.*

Holder and cap of scientific reinforced construction throughout. *See illustration.*

You don't have to wait until a Laughlin is ready. It is ready to write when you are; the air-tight leak-proof construction keeps pen and feed "primed", insuring a free uniform flow of ink instantly—even though not previously used for a year.

It performs these functions with no more hindrance or interruption to your thoughts or writing inspiration than your breathing. *These results—or your money back.*

These features are peculiar only to this patented construction.

If you have no discarded back number dropper filler to send us in exchange, this pen will be promptly forwarded upon receipt of

DUNDUPLEX—The Master Key

The possession of the worlds best transmitter is none too good for any one who loves good Morse. Hence, in the choice of a key do not consider the claims of any that must acknowledge a "superior".

The Dunduplex has no equal—it is in a class all its own. With its purchase goes the assurance that you own the world's only two-movement key. The only key that carries two weights without tiring the arm.

Price (including handsome metal carrying case) \$12.00

THE MAN BEHIND THE GUN

May be all right, but if the gun is no good, the man will do little damage. Just so in the case of the transmitting instrument. If the instrument is a cheap imitation of the original standard article, the man will soon revert to the old-fashioned key as the choice between two evils. If the man is well informed at the start, however, he will purchase a **Martin Vibroplex**, which has back of it the accumulated experience of **H. G. Martin**, the originator of the device. It is not logical to buy an instrument which is recommended as being "just as good."

Don't waste time and money on imitations. Get the genuine and see that **H. G. Martin's** name is on your machine.

CONCERNING CERTAIN FALLACIOUS THEORIES.

The Medical Department under the direction of Dr. Alvah H. Doty, will issue each month an article on the subject of Hygiene or matters pertaining to the preservation of health and protection against disease. In order that the various subjects which are to appear may be more fully understood, those of the greatest importance will receive first consideration. It is suggested that the articles referred to be kept for reference, besides in this way a hand-book covering practically the entire subject of Hygiene may be secured.

Article 17.

In routine life there are many things done in connection with our personal habits relating particularly to eating and drinking which are influenced by popular theories, and which are accepted without inquiry as to their healthfulness or possible injury to the body.

An illustration of this will be found in the various plans which are followed in the arrangements of our diet or method of eating. For instance, it is a common practice to take for breakfast a small portion of fruit, a roll and some coffee, and nothing more until noontime or later in the day. This is based on the theory that upon rising in the morning the digestive apparatus is not prepared to deal with a full meal and properly to assimilate it. There is nothing substantial to justify this belief, for if a person is in a normal condition the digestive organs should be at their highest point of activity in the morning, for the work of the preceding day has been followed by ten or twelve hours of rest, and these organs should be in a fit condition to effectively perform their work. Ill health or dissipation are about the only reasons why this should not occur. Furthermore, there is no condition which more clearly indicates good health than a desire for food upon rising in the morning, for the appetite, particularly in

a healthy condition of the system, indicates the need of food.

Our body may be likened to an engine for it must have proper and sufficient fuel to run it. In the morning the day's work begins, and good substantial food must be supplied in order that the various functions of the body may be properly performed; a cup of coffee and a roll will not meet this requirement. The fact that some may be able to accomplish their work with but little or no breakfast is no indication that this is a healthy or proper method for general use.

Breakfast should constitute the best meal of the day. At noontime business is as a rule in its most active stage and the meal at this period should be small in quantity and consist of articles which are easily digested, for if a heavy meal is taken a person is apt to become sleepy and unfit for good active work, as the large amount of blood required by the digestive tract under these conditions is withdrawn partly from the brain and materially interferes with the function of this organ. There are many who take no lunch and feel much better for it, and this is not unreasonable provided a generous breakfast has been taken, but not otherwise; however, it is probably better to take some light nourishment at noon. Later in the day the system naturally becomes reduced in activity and digestion is not so easily performed, therefore a full meal in the evening, consisting largely of meat and other articles which are more or less difficult to digest, places considerable strain upon the alimentary tract and is often associated with more or less distress. For these reasons heavy dinners cannot be regarded as conducive to health.

Among those who perform manual labor associated with more or less constant activity of the muscular system a large supply of fuel is called for, besides the circulation of the blood is more active and the digestive apparatus is better able to digest a greater amount of food. For these people a liberal noonday meal is required.

Omitting breakfast as a means of reducing weight is now a common practice, and is also an improper one, for it is a diminished amount of food properly distributed over the day that is called for and not a diminished number of meals, besides it must be remembered that while persons deprive themselves of

food for the purpose of reducing weight, it may be carried so far that the body does not receive sufficient support to properly carry on the action of the heart and other organs, and unpleasant results may follow. The great desire on the part of some people to reduce their weight has been taken advantage of by charlatans who offer for sale all sorts of remedies for this purpose, and usually guarantee that they will act promptly. The use of these nostrums is not infrequently followed by serious results, for the body cannot be tampered with by such drastic measures as are usually involved in the pernicious treatment referred to, although the consequences may not be at once apparent.

The body weight cannot be increased unless food is supplied. This takes place more readily when the diet contains a large amount of fat, and an accumulation of body weight is much more apt to occur among those of sedentary habits. The natural remedy for this is a regulation of the diet, a diminished amount of food and plenty of exercise, where this method is faithfully carried out for an extended period the result is quite sure to be successful.

Considerable discussion has taken place within the past few years regarding the value of a purely vegetable diet. The importance of this has been rather to show that we eat too much meat, than to prove that we should eat nothing but vegetables, for a mixed diet is required to maintain good health, particularly among active workers. This has already been referred to in the article on food. Very often persons who believe they are living entirely upon vegetables are taking some articles of food containing nitrogenized matter or protoids of which meat is so largely composed.

There is also a popular fallacy regarding the value of fruit as an article of diet. While fruit is exceedingly palatable, refreshing and more or less stimulating to the digestive organs, it contains as a rule but little nourishment, for it is usually composed chiefly of water and the residue is quite indigestible. The value of fruit depends principally upon its acid juices.

It is hardly necessary to refer to the frequency with which older persons as well as children are made ill by eating fruit, particularly that which is stale or unripe. This occurs more often among the poorer classes, who obtain their supply from street stands, and which is not only often unripe or decayed but is quite liable to be infected by the filth from the street and by the cleaning rags and hands of the vendor, who often takes home the supply which is left over at the end of the day. This condition is largely responsible for the intestinal trouble occurring among children of the poorer class, particularly during the summer months.

Lemon juice is often used in large quantities and for an extended period to reduce weight as well as

to remedy other conditions. While some persons may follow this practice with no apparent ill effects or even with benefit, the continued use of lemon juice in a large amount is injurious, particularly in its effect upon the teeth and the digestion.

Fresh and ripe fruit if properly used is very palatable and refreshing and of value in various ways, but it should be understood that as a rule dependance cannot be placed upon it as an important nutritive agent; furthermore each one is apt to be differently affected by fruit, and the extent to which it is to be consumed must be decided by the individual. Some can eat apples without any distress, others are unpleasantly affected by them. Under these circumstances they should be avoided. Oranges contain a large amount of indigestible material. This is recognized in countries where oranges grow and the natives extract the juice and the remainder of the orange is thrown away. Instinctively the people in these regions know that the tough fibre constituting the residue has no nutrient value and is indigestible. We learn from this that while fruit is very desirable and forms an important part of our diet it must not be used as a substitute for more nourishing articles of food, and that care must be taken that it is ripe and fresh when eaten.

It is a common belief that night air is bad for the health; this is not true, for if it were the practice of sleeping out of doors, which is now so popular and productive of so much good, would not be encouraged by those who are practically familiar with these conditions. The belief that night air is unhealthy originated long ago and chiefly in connection with the prevalence of Malaria, for it was believed that after sundown poisonous emanations from the ground, particularly in swampy districts, vitiated the air and was the cause of this disease, now we know that Malaria is transmitted from one person to another only by the mosquito.

It is very important to know this, for there are many persons who cannot find time during the day for exercise and who have been led to believe that good results in this direction cannot be obtained after sundown, whereas it is healthy and desirable that those who cannot spare the time during the day should exercise at night. This refers specially to those of sedentary habits or brain workers, for these people are very commonly affected with headaches, insomnia, and constipation, the latter usually resisting the ordinary forms of treatment.

The intestinal tract is a tube about 25 feet long and surrounded by muscular tissues, the function of which is to cause proper movement of the intestine during digestion and afterwards to expel the residue from this tube. If the muscular fibre becomes inactive, torpidity takes place and indigestion and constipation are quite sure to follow.

Exercise and proper food are the most important factors in maintaining the tone of the alimentary

tract. This should be remembered, for if the laws of personal hygiene, particularly those which relate to proper food and plenty of exercise are carefully adhered to, these unpleasant conditions are quite sure to disappear or will be greatly diminished. If this is not given proper consideration and headache cures and cathartics are resorted to the muscular power of the intestines as well as the general muscular system becomes still further impaired, and those who are affected in this way become a prey for charlatans who advertise all sorts of nostrums, which in the end can only prove harmful.

Addition to Instructions in Tariff Book.

Effective at once, the following is inserted immediately preceding paragraph 7, page IV, of the Tariff Book:

The points at which messages originating at "other" line telegraph offices should be transferred to this company are shown in the Tariff Book immediately after the names of the "other" line points.

For example:

* Brilliant 25-2 Montgomery.

This indicates that Montgomery is the proper place of transfer for messages originating at Brilliant.

When a message destined to an exclusive Western Union, International Ocean or Great North Western point is filed with another telegraph company at a point where the Western Union, the International Ocean or the Great North Western Company has an office or agency, the proper place of transfer is the point of origin.

AMENDED RULES 1 AND 8.

The attention of all managers is called to the following amended Rules 1 and 8, which become effective July 1, 1914.

It will be noted that Rule 8 deals solely with the forwarding of messages and does not relate to messages transferred to this company by other telegraph companies for transmission to destination.

Rule 1 applies to all messages filed with this company for transmission by any individual or company, including telegraph companies. Messages originating on other telegraph lines and transferred to the lines of this company at the transfer point designated in the Tariff Book of this company will show the point of origin and date as provided in Rule 1. In any other case, if the person filing a message with this company for transmission desires to indicate to the addressee that the message originally came from some other point than the point where it is filed with this company, he may incorporate such information in the text of the message in any form which he desires.

For example: Hillman, Pa., is listed as a one-star point; the transfer point indicated in the Tariff Book is Pittsburgh, Pa. A message originating at Hillman, filed with this company at New York October 23rd, will be dated New York, October 23, and will bear no other place of origin or date. If the person filing it with this company wishes to indicate that the message originally came from Hillman, he may do so in the text of the message, and the message as filed with us will be subject to the regular rule of count and charge.

Amended Rule 1.

Messages to be on Message Forms and Dated from the Place where Filed with this Company.

Each message for transmission shall be written upon the form provided by the company for that purpose, or shall be attached to such form by the sender, or by the person presenting the message as the sender's agent, so as to leave the printed heading in full view above the message.

Every message handed in for transmission at an office or agency of this company shall show as its point of origin the name of the city or town where such office or agency is located, and shall show the date when it is filed with this company.

A message telephoned by the sender to this company for transmission shall show as its point of origin the name of the city or town from which it is telephoned.

A message originating at a point on a connecting telegraph line at which there is no Western Union office and transferred to the lines of this company at the transfer point designated in the Tariff Book of this company, shall show as its point of origin and as its date the name of the city or town where, and the date when, it was originally filed with the connecting company and need not show the name of the place where or the date when it is filed with this company.

No message received by this company for transmission shall bear a point of origin or date otherwise than in accordance with the foregoing.

Note: For instructions governing the forwarding of messages see Rule 8.

Amended Rule 8.

Forwarding of Messages.

In case a person, having received a message over the lines of this company, requests the same to be forwarded to another place; or if a person leave town before the arrival of an expected message and it be received over the lines of this company and forwarded to him,—in each of these instances the message as forwarded will show, in addition to the name of the place from which it is forwarded and the date, the name of the place and state from which it was originally sent and the word "via", and the

name of the place and state from which it was originally sent and the word "via" will be counted and charged for. For example, if the following message were originally sent over lines of this company from New York to Troy, N. Y., and forwarded from Troy to Buffalo, it would be checked and dated thus:

"13 paid 3 extra
New York, N. Y.,

Via Troy, N. Y., Oct. 24

John Brown,
Buffalo, N. Y.

Meet me next Monday at ten o'clock in the forenoon.

H. Smith."

In this message the words "New York, N. Y." and "via" will be forwarded as a part of the message and charged for.

If the message to be forwarded is a back-date message, the original rate will be shown in figures, counted and charged for. For example (assuming the same message as above, but as a back-date message):

"15 paid 5 extra
New York, N. Y. 23
Via Troy, N. Y., Oct. 24

John Brown,
Buffalo, N. Y.

Meet me next Monday at ten o'clock in the forenoon.

H. Smith."

In this message the words "New York, N. Y., 23" and "via", five words, will be forwarded as a part of the message, and charged for.

When a message, which has been received over the lines of this company and which is to be forwarded, is a "received collect" message, the forwarding office will check it so that the tariff from the forwarding office to destination, and the tariff from the originating office to the forwarding office, shall appear separately and as a double check.

Illustration: Suppose the tariff from New York to Troy to be 25 and 2, and from Troy to Buffalo 35 and 2, and a ten-word message has been sent "collect" by New York to Troy, which the latter office is to forward to Buffalo; Troy should check the message (counting three extra words): "14 collect 41 and 25, three extra." The "41" represents the tolls for thirteen words from Troy to Buffalo and "25" represents the tolls for ten words from New York to Troy. If the message be a back-date message, Troy should check the message: "15 collect 43 and 25, four extra", or "16 collect 45 and 25, five extra", according to whether the figures indicating the back-date consist of one or two numerals.

All service messages relating to forwarded messages carrying a via should be addressed to the via point and not to the originating point.

Rule 36.

"Effective July 1st, 1914, the following paragraph is added to Rule 36:

"If the service message asking for a duplicate is signed by a branch office, or by an employee, the duplicated message in addition to the word "Duplicate" after the check, shall carry as a part of the address, before the destination, the word, "care" followed by the name of the branch office or employee requesting the duplicate.

It is no longer necessary to send a service message with a duplicate."

Rules 121 and 123.

Effective at once, Rules 121 and 123 are revised as follows and Form 81, Press Report, is abolished.

Rule 121—Revised.

Reporting Business.

The tolls on all press specials or queries sent or received at press rates, except such as are described in Rule 123, shall be included with other receipts and checks in the Check Report, Form 7.

A daily record shall be kept of the amount of "This Line Press Tolls" so included, and at the end of the month an entry shall be made below the *grand total*, at the foot of the check report, Column "A" of the total "Press", which deducted from the *grand total* will show the "Telegraph Tolls, This Line" which should also be noted. The total of these two items when footed, will equal the *grand total* of column A, Form 7.

Enter on the Monthly Report, Form 4R, or other form provided on line 1, the "Telegraph Tolls, This Line" and on line 19 the total "Press". See Rule 78.

Rule 123—Revised.

Unchecked Business.

Unchecked business is regular circuit matter sent from a common distributing point to four or more receiving stations, for and on account of a press association, arranged by order of Superintendents and should not be included in Form 7 nor reported in any way except when special instructions are received from the Accounting Department.

Rule 78—Revised.

Check Reports.

A Check Report, Form 7, is required from every office. The names of "check direct" offices to which messages have been sent or from which messages have been received during the month shall be entered on Form 7 in order indicated by the note in the heading of the form, and opposite each name and in

appropriate columns shall be entered the amount of tolls. The total of column "A" and "B" of Form 7 must agree with the respective amounts appearing as "Telegraph Tolls" on Form 4R lines 1 and 2, and "Press" line 19. See Rule 121 as to reporting special press receipts.

Messages to or from G. N. W. points shall be entered on a separate Form 7. (See Rule 128).

B. BROOKS,
Vice-President.

Week End Letter Service Chili and Peru.

Effective September 1st '13, the Week End Letter Service now in effect with Argentine Republic was extended to Chili and Peru (Except Wireless Stations) at the same rates and under the same regulations governing that service to Argentine shown on pages 858 and 859 of the Tariff Book.

Deferred Cable Service.

The following have been added to list of places shown on page 861 of Tariff Book to which Deferred Cable Service is in operation:

Bolivia, So. America.	Formosa via London.
Borneo (Dutch), via	Japan via London.
London.	Nauru Island.
Chili, So. America.	Peru, So. America. *
Cyprus.	Tripoli.

* Except Wireless Stations.

It should be noted that Deferred Cable Service is now in force to Amazon River Stations in Brazil.

Offices should note especially that senders of Deferred Cables must in every case write before the address and pay for as one word the letters LCF, LCO or LCD, as in the nature of a declaration that the communication is in the French language or the language of country of origin or destination as the case may be.

Trans-Atlantic Wireless Service.

Instructions on Page 862 of the Tariff Book to the effect that the amount prepaid for replies to Marconigrams must be expressed in terms of full cable rates should, effective April 1st, be changed to read:

"The same provision for prepaid replies to trans-Atlantic wireless messages may be made as for prepaid replies to cablegrams but in the case of wireless trans-Atlantic messages the amount for the prepaid reply must be expressed in terms of the full wireless rate instead of the full cable rate."

Upon receipt of a Marconigram to which a reply has been prepaid the delivery clerk will from April 1st write under the message, before delivery, the words:

"Reply to the value of paid for" and will arrive at the amount expressed as prepaid by calculating the tolls at full Marconi rates on the number of words in the RP indication.

The attention of offices is drawn to the fact that in future trans-Atlantic wireless messages should be prefixed "MARCONI" instead of "RADIO" and the instructions on page 862 of the Tariff Book should be corrected accordingly.

Wireless messages to and from Steamers will continue to be prefixed "RADIO."

Wireless Messages to and from Steamers.

(See also Page T 45).

Effective May 1st, 1914, radio messages on official U. S. Government business shall be checked paid; the indication "Govt." shall be inserted immediately before the address and shall be counted and charged for. Such messages are as a rule routed via the following U. S. Government radio stations:—

Charleston, S. C.	Eureka, Calif.
Jupiter, Flo.	Point Arguello, Calif.
St. Augustine, Flo.	San Diego, Calif.
Pensacola, Flo.	Cape Blanco, Oreg.
Key West, Flo.	North Head, Wash.
	Tatoosh, Wash.

and when official messages are so routed by senders and are addressed to U. S. Government vessels the wireless service is free, the only charge to be made being the Government rates for our service from points of origin to coastal stations as given on pages XII, XIII and XIV of the Tariff Book.

When official Government messages are sent via other stations to other than Government vessels the wireless rates quoted on pages 867, 868 and 869, in addition to the Postmaster General's rate above referred to for our service apply.

Pursuant to the International Radiotelegraphic Convention, which by proclamation of the President of the United States became effective on September 1st, the provisions of the Cable Rules relating to repetitions, acknowledgments of receipts and prepaid replies as printed on page 815 of the Tariff Book are applicable to the wireless service to and from ships at sea,—and notations to that effect should be made on page 866 of the Tariff Book, canceling the reference printed thereon in regard to the inadmissibility of prepaid replies.

The amounts prepaid for replies to messages addressed to ships-at-sea should be expressed in dollars and cents instead of in words at full rates, and a minimum of ten words must be charged for in every

case. In these important respects the practice differs from the method of expressing and dealing with RP charges in cablegrams and trans-ocean wireless messages, but in all other respects the general instructions in reference to such charges printed on pages 815 and 816 of the Tariff Book should be carefully followed, except that of course form 7 instead of form 67 should be used in reporting the messages. In no case should RP charges be refunded save on the authority of the United States Manager. The foregoing of course applies equally to messages received from ships-at-sea, the RP indication in which will be understood as referring to amounts prepaid and not to the number of words paid for.

It should also be noted that the preamble "EXPRESS", when the same appears immediately before the address in such message, conveys the information that any published special delivery or other terminal charges have been prepaid by the sender. Similarly the preamble "PR" signifies that delivery is to be by registered mail from the terminal telegraph office and that all post-office charges have been prepaid.

The attention of offices is drawn to the fact that by agreement between the administrations operating coastal wireless stations, reports of non-delivery and other similar service correspondence need not necessarily be exchanged through the coastal station via which the original message was routed, but may be exchanged through any other coastal station which may be in nearer range at the time that the occasion for such correspondence arises.

Effective July 1st, '13, the wireless rate to and from steamers on the Great Lakes was reduced from 10 to 5 cents per word with the usual 10 word minimum. This will make following corrections necessary on page 869 of the Tariff Book.

"For Coastwise vessels" from Buffalo, N. Y., Cleveland and Ashtabula, Ohio, Detroit, Mich., 5, instead of 10.; Benton Harbor, Ludington, Grand Haven, Frankfort and Mackinac Isl., Mich., Chicago, Ill., Milwaukee and Manitowoc, Wis., Calumet Mich., and Sault Ste. Marie, Ont., 5, instead of 10.; Manistique, Mich., 5, instead of 12c.; Duluth, Minn., 5, instead of 10c. per word.

The rate for wireless transmission Duluth to Grand Marais, Minn., has been increased from 5 to 10 cents per word, restoring the 15 cent wireless rate shown in Tariff Book, for Lake Steamers via Grand Marais.

Manistique, Mich., is now a Western Union Check direct office and wireless rate for coastwise vessels (Great Lakes) shown on page 869 of Tariff Book is now 5, instead of 12 cents per word.

Effective at once the wireless word rates shown on pages 867, 868 and 869 of the Tariff Book will be further reduced to the following figures:

Siasconsett, Mass. For Coastwise vessels ..	.15
Key West, Fla. For Trans-Ocean vessels18
" " " " Coastwise vessels14
Eureka, Cal. For Trans-Ocean vessels	.14
Tatoosh, I., Wash., " " " "	.15
North Head, Wash., " " " "	.14
Cape Blanco, Ore. " " " "	.16
Pt. Arguello, Cal. " " " "	.14
San Diego, Cal. ... " " " "	.14

Effective November 1st, the wireless rate on messages to and from coastwise ships at sea exchanged through Astoria, East San Pedro, Eureka, Friday Harbor, Marshfield, San Francisco, San Luis Obispo and Seattle coastal stations was reduced 5c. per word, making the wireless rate on messages to coastwise vessels only exchanged through any of the stations named 5c. less than the word rates published opposite such stations at the top of columns on pages 868 and 869 of the Tariff Book.

Through misunderstanding the notice published in the October Journal extended the above reduction to the Cape Blanco, North Head, Point Arguello, San Diego, Tatoosh Island and Victoria stations. The wireless rates to and from coastwise vessels exchanged through those stations are reduced, but only to the following figures:

Cape Blanco	10c.
Victoria	} 08c.
North Head	
Point Arguello	
San Diego	
	09c.

Wireless rates via all Pacific Coastal stations to Government vessels are 2c. per word higher in each case than rates quoted above.

Effective November 1st the following changes were made in the land-line word rates on ships' messages.

Between offices in Washington and coastal stations in Oregon, rate increased from 3 to 4c. per word.

Between offices in Oregon and coastal stations in Washington, rate reduced from 5 to 4c. per word.

Between offices in Oregon and coastal stations in the same state, rate reduced from 5 to 3c. per word.

Between offices in California and coastal stations in Oregon, rate reduced from 6 to 5c. per word.

Between offices in California and coastal stations in the same state, rate reduced from 4 to 3c. per word.

The New London wireless station has been reopened for service at rates shown on page 869 of Tariff Book.

The wireless connection via Fort Morgan, Ala. given in third column, page 868 of Tariff Book should be erased.

The wireless connection via Sayville, N. Y., has been discontinued and the rates via Sayville given in first and second columns on page 867 of the Tariff Book are therefore canceled.

Effective January 1, 1914, South Wellfleet, Mass., will be discontinued as a wireless station for steamships in the Boston service and the Boston station will be used instead. The third column on page 867 of the Tariff Book should be corrected accordingly.

The high power station at South Wellfleet will be continued as formerly at rates shown in fourth column, page 867 of the Tariff Book.

J. C. WILLEVER,
United States Manager.

Dead Head Message Reports. Revised Rule 79.

A monthly report of Dead Head messages shall be prepared on Form 38-A. One entry shall be made monthly for each Railroad, Express or other transportation company separately, showing name of company (or name of sender, if not a business message) number of sent D. H. messages and total tolls. Messages sent D. H. in answer to received D. H. messages shall be entered on one line as "Answers".

The original sent D. H. messages shall show the place of origin, the reason why D. H. and the tolls. The original sent D. H. messages, and copies of messages received D. H. from G. N. W. points, and the Form 38-A shall be forwarded with the monthly report.

Complimentary Stamp Franks With Monetary Values.

Commencing March 1st, 1914, the Complimentary Stamp Franks issued by this Company will have printed thereon the value in cents, and the value of stamps affixed to each message should equal or exceed the tolls.

In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

E. Y. GALLAHER,
Comptroller.

Foreign Transfer Service.

Money Transfer Rule XII-3 is hereby modified as follows:

Sender's name required.

In transfers to Great Britain, Ireland, the Channel Islands and Belgium, the name of the sender shall be given. (Examples XIV-1 and 2).

In Transfers to other foreign countries, the name of the sender may be omitted, if desired, EXCEPT that when the payee is an ambassador, consul, bank, steamship agent, or firm accustomed to receiving a large number of remittances, the sender's name is necessary for the information of the payee, in order that the amount may be properly credited.

Charges for Money Transfers to Canada.

The correct charges for Money Transfers payable in Canada are shown in Rule III-2.

Managers are cautioned against accepting transfers for Canada at the reduced rates (Rule III-1) which are applicable to business between offices in the United States only.

Money Transfer Rule XII-I.

The second paragraph of Money Transfer Rule XII-1, relating to special Foreign Transfers, should be corrected to read as follows:

"The word 'Special' shall be inserted directly after the name of the paying station in every message directing the payment of \$100. or over and shall be included in the check, but not charged for."

Example:

Tragent,

New York.

Pay William Henry Justice 45 Regent St. London
Specialfrom Frederick Hunter.

(Count all words).

Ck. 16 Free.

Money Transfer Drafts.

There is sometimes objection, on the part of payees, to the practice of placing the name of the depositor upon the draft issued in payment of a money transfer. This practice should, therefore, be discontinued, the space provided for the name on the transfer draft being left blank, unless for any reason the payee should request that the name be added.

HENRY G. BATES,
Manager Special Services.

Complimentary Franks and Half Rate Franks.

CONTRACT DEPARTMENT, June 20, 1914.

AMENDED NOTICE to the Western Union offices in Nebraska, New Hampshire, Ohio, South Dakota, Wisconsin, California, Illinois, Indiana, Missouri, Montana, New York, Pennsylvania, and Texas.

Under the laws of the States of Nebraska, New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the law of the State of California you will not accept intra-state messages in that State under Half Rate Franks. Holders of such franks legally entitled to reduced rate service may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Illinois, affecting municipalities adopting commission form of government, it will not be legal to and you will not accept at such places intra-state messages in that State under Complimentary Franks, nor intra-state messages under Half Rate Franks. The following places have adopted commission government to date:—

Braceville	Harrisburg
Carbondale	Jacksonville
Cairo	Kewanee
Catlin	Marseilles
Clinton	Murphysboro
Decatur	Moline
Dixon	Naperville
Elgin	Pekin
Forest Park	Rock Island
Hillsboro	Rochelle
Hamilton	Springfield
Harvey	Spring Valley

Waukegan

Under the law of the State of Indiana it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company, nor intra-state messages under Half Rate Franks.

Under the law of the State of Missouri it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Montana it will not be legal to and you will not accept intra-state messages under Complimentary Franks; nor intra-state messages under Half Rate Franks.

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Pennsylvania it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of Officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells Fargo & Company.

G. W. E. ATKINS,
Vice-President.

Telegraph and Telephone Life Ins. Assn.

This Association was founded in 1867, at the Western Union Telegraph Company's main office, New York, with a membership of 125. Since then there has been disbursed to the beneficiaries (Principally widows and orphans) of its deceased members nearly One Million, Eight hundred thousand dollars, and the charter members still surviving have each paid but 569 assessments, an average of \$12.30 yearly for \$1,000.00 insurance.

The assessment calls are based on age at entry as per following schedule and are not subject to change.

Age	Full Grade	Half Grade
18 to 30,	\$1.00	\$0.50
30 to 35.	\$1.25	\$0.63
35 to 40.	\$1.50	\$0.75
40 to 45.	\$2.00	\$1.00

The number of calls issued in any one year depends on the number of death claims filed, and averages about fifteen.

All engaged in telegraph or telephone service in good health, between ages of 18 and 45 are eligible for membership and no person of more than 45 can be admitted.

Reserve fund \$344,000, securely and profitably invested, yielding a generous income which is used to lower the mortality cost.

Send for application forms to M. J. O'Leary, Secretary, P. O. Box 510, New York City.

TARIFF BUREAU.

WESTERN UNION TELEGRAPH CO.
NEW YORK, JUNE 20, 1914.

Places marked in the Tariff Book as "Summer" or "Winter" offices are not to be considered as open until notice to that effect is published in the JOURNAL.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the Tariff Book of July 1913, "Changes" are printed in "Italics"; "New offices" in "Roman" type.

When the status of an office as shown in the Tariff Book is changed, it is entered in the Journal, in italics, in correct and latest form. See, for example, *Howards, Ala.*; or the change is indicated in a briefer way: See *Blountstown, Fla.* (The Journal entry is "**** *Blountstown*. Add † and (L).") which indicates that the foot note on Tariff Book page showing Blountstown applies to Blountstown and that Night Letter and Day Letter rates apply over "Other" line beyond Marianna).

Changes published for the first time in each issue will be indicated by the prefix "+."

See Special Notices at end of this circular.

WIRELESS.

Note 5, and the paragraph following, on page 842 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and the town of Bluefields, in Nicaragua, may be reached by wireless service from Colon (Rep. of Panama) at rate of 21c. per word in addition to the cable rate to Colon.

Note 6. Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 21c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 3, page 866 of Tariff Book should be corrected to read as follows:

"In accepting Wireless Companies' franks for messages via Siasconsett, Mass., the amount covered by the wireless frank is 23c. per word. Via Hatteras, N. C. and Grand Island, La., 10c. per word. Friday Harbor, Wash., 20c. per word for Trans-ocean vessels and 10c. per word for Coastwise vessels. Cape Ray, N. F. and Grand Marais, Minn., 10c. per word, FOR VESSELS TO WHICH THOSE RATES APPLY.

Foot note on page 868 of Tariff Book should be corrected to read as follows:

† The wireless rate for coastwise vessels of the Booth, Lampport & Holt, Quebec, Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. to New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 824 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

Effective at once rate from Arizona to Commercial Pacific cable stations should be reduced by five cents per word, making it same as from California (except San Francisco and Oakland) Idaho, Nevada, etc. Pages 825 and 826 of the Tariff Book should be corrected accordingly.

DUTCH EAST INDIES.

Rate to Dutch East Indies, including Java and all other Islands, is now 98c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column all rates 20c. less.

HAWAIIAN ISLANDS.

Foot note on page 825 of the Tariff Book is hereby canceled and following substituted therefor:

Note: Other islands (Hawaii, Maui, Kauai and Molokai) 15c. per word more than rate to Honolulu.

Following is a list of offices in these islands:

Eleele	Kohala
Halawa	Koloa
Hamakua	Lahaina
Hana	Laupahoehoe
Hanalei	Lihue
Hilo	Mahukona
Holualoa	Makawao
Honokaa	Makaweli
Kaanapali	Makena
Kahului	Nawiliwili
Kailua	Paia
Kalauao	Port Allen
Kalaupapa	Pukoo
Kamalo	Puuhehene
Kapaa	Spreckelsville
Kaunakakai	Volcano House
Kawaihae	Waikapu
Kealahou	Wailuku
Kealia	Wiamea, Hawaii
Kekaha	Waimea, Kauai
Kilauea	Waiobinu

Applicants for registration in Hawaiian Territory of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

PHILIPPINE ISLANDS.

Effective January 1, 1914, rates to Philippine Islands via Commercial Pacific Cable will be revised as follows:

Luzon:

Manila—no change.

Other offices—no change.

JOURNAL OF THE TELEGRAPH.

Panay:
Iloilo—no change.
Other offices—Increased by 9c. per word.

Negros:
Bacolod—no change.
Other offices—Increased by 9c. per word.

Cebu:
Cebu—no change.
Other offices—Increased by 9c. per word.

All other islands and offices—Increased by 9c. per word.

The foregoing corrects rates shown in
page 826 of the Tariff Book.

Straits Settlements Via Eastern or Indo:
Malacca
Malay States (except Kelantan)
Penang
Singapore
Kelantan

Pages 831 to 835 of the Tariff Book should be corrected in accordance with the foregoing.

DUTCH EAST INDIES.

Wireless communication has been established from Sitoebondo, Java to Amboina, (Amboina Island) and Keopang, (Timor Island.) Rate same as to other Dutch East Indies. Messages accepted only at senders risk.

WEST INDIES.

CUBA.

Telegraph offices have been opened at the following places in Cuba:

Town	PROVINCE
Amarillas,	Matanzas,
Cabezas,	Matanzas.
Mata,	Santa Clara.
Melena del Sur.	Havana.
Quinta.	Santa Clara.
San Felipe.	Havana.

GUADALOUPE, ETC.

Effective February 1st the rates to Guadeloupe, Martinique, Marie Galante and Les Saintes were reduced 5c. per word less than rates shown on page 826 of the Tariff Book.

SAN DOMINGO,

The establishment of a new route to San Domingo via Wireless from Ponce, P. R., permits of the acceptance of messages for San Domingo at a reduction of 52 cents per word in the tariff. The dependability of this route having been established, it will be considered our normal route via which all messages to San Domingo will transit in future unless otherwise marked by the senders. Page 838 of the Tariff Book should be corrected so as to show the following tariffs:

From W. U. and G. N. W. offices in the U. S. east of the Miss. River, including St. Louis, Mo., and Minneapolis, Minn., to San Domingo—85 cents per word.

From W. U. offices in the U. S. west of the Miss. River, except St. Louis, Mo., and Minneapolis, Minn., and from W. U. offices in B. C. and from G. N. W. offices in Manitoba to San Domingo—85 cents per word.

From W. U. and G. N. W. offices in N. B., N. S., Ontario and Quebec to San Domingo—85 cents per word.

Messages marked "Via Hayti" will be accepted at the rates in force via that route; viz.: 20 cents per word higher than the rate via Ponce and Wireless.

SOUTH AMERICA.

BRAZIL.

Effective Apr. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book at \$1.11 from La. and Tex. and \$1.15 from other states and provinces) will be \$1.00 from La. and Tex. and \$1.12 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.45 from La. and Tex. and \$1.45 from other states and provinces) will be \$1.32 from La. and Tex. and \$1.36 from other states and provinces.

Wireless communication has been established with following places in Brazil.

Cruzeiro de Sul.	Senna Madureira.
Porto Velho.	Tarauaca.
Rio Branco.	Napury.

	Via Belem	Via Manaus
Rates per word:		
From La. and Texas...	1.30	1.61
From other States and Provinces	1.34	1.65

Messages for these places accepted only at senders risk and must be marked "Wireless Belem" or "Wireless Manaus," which indication shall be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

FRENCH GUIANA.

Effective June 1 rate to French Guiana was reduced by 7 cents per word. Tariff Book entry, page 838, should be corrected as follows:

	1st.	2nd.	3rd.
	Col.	Col.	Col.
French Guiana	1.31	1.30	1.36

PERU.

Wireless telegraph station has been opened at Itaya in Peru. Rate same as o Iquitos shown in page 841 of Tariff book.

Effective at once rate to Itaya, Iquitos, Iasisea, Orellana and Requena in Peru increased by 5c. per word. Sixth column, page 841 of Tariff Book should be corrected accordingly.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Columbia "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Counter clerks must exercise great care in accepting messages addressed to passengers en route on trains. A full and sufficient address should be obtained in every case, and when possible should give the following information:

- (a) The name of the addressee;
- (b) The name of the Railroad and the train number;
- (c) The car and berth number, if known, in the case of passengers traveling on sleeping cars;
- (d) The name of the points between which the addressee is traveling;

(e) The time the train is due at the place where delivery is to be made;

(f) The name of the place to which the message is to be checked and to which the message is to be delivered to the addressee or turned over to the conductor of the train.

Below are examples of complete train message addresses:

(1) John Jones,
N. Y. C. Train three enroute
New York to Chicago.
Due Cleveland 10.35 P. M.
Cleveland, Ohio.

(2) John Jones,
N. Y. C. Train fifteen, lower
10, car 5, enroute New York
to Chicago.
Due Cleveland 3.25 A. M.
Cleveland, Ohio.

MONEY TRANSFER SERVICE.

The following changes and additions supplement the list of Money Transfer offices:

Telegraphy & Train Operation

by retired railway officer.

All graduates placed in R. R. Telegraph service direct. Expenses earned. Opportunities unexcelled.

PELNAR SCHOOL OF TELEGRAPHY,

MADISON, WIS.

WE ARE PARCEL-POST NEIGHBORS

The best bug cords 50 cents each. Old sending machines repaired; nickle-plating; safety razor blades sharpened 30 cents per dozen. We sell and repair everything electrical and mechanical. Manufacturing, experimental and die work a specialty. Tell us your wants.

BENTON MANUFACTURING CO., Not Inc.,
656 West 55th Street Chicago, Ills.

We will allow you 50 cts. for it, in exchange, for the only perfect fountain pen made.

Send it to us with \$2.00 and we will send you a pen that will be a source of never ending usefulness and comfort to you,—a pen that will do your bidding if you but guide it aright over the writing sheet.

LAUGHLIN

AUTOMATIC—NON-LEAKABLE

SELF STARTING PEN

FILLING

10 Days' Free Trial

You don't have to fuss and shake a Laughlin to start the ink—*It's a Self Starter.* You don't have to fill the Laughlin, *it's a Self Filler.* You don't have to clean the Laughlin, *it's a Self Cleaner.*

You don't have to monkey with dangerous, awkward or unsightly locks, extensions, or so-called Safety devices—*There are none.*

You can't forget to seal a Laughlin against leaking, it seals itself air-tight *Automatically.*

You can't lose your cap from a Laughlin—it secures itself *Automatically.*

You can't break your cap or holder on a Laughlin—*They are non-breakable.*

Holder and cap of scientific reinforced construction throughout. *See illustration.*

You don't have to wait until a Laughlin is ready. It is ready to write when you are; the air-tight leak-proof construction keeps pen and feed "primed", insuring a free uniform flow of ink instantly—even though not previously used for a year.

It performs these functions with no more hindrance or interruption to your thoughts or writing inspiration than your breathing.

These results—or your money back.

These features are peculiar only to this patented construction.

If you have no discarded back number dropper filler to send us in exchange, this pen will be promptly forwarded upon receipt of

DUNDUPLEX—The Master Key

The possession of the worlds best transmitter is none too good for any one who loves good Morse. Hence, in the choice of a key do not consider the claims of any that must acknowledge a "superior".

The Dunduplex has no equal—it is in a class all its own. With its purchase goes the assurance that you own the world's only two-movement key. The only key that carries two weights without tiring the arm.

Price (including handsome metal carrying case) \$12.00

THE WESTERN UNION TELEGRAPH COMPANY

NEWCOMB CARLTON WILLIAM H. BAKER, A. R. BREWER
President. Secretary. Treasurer.

195 BROADWAY, NEW YORK CITY.

Regarding Amended Rule 1.

In order that there may be no misunderstanding concerning the proper practice under the amended Rule 1, published in the Journal of the Telegraph of June 20th, 1914, and again published in this issue, the following should be carefully noted:

The foundation of the rule is that every person filing a message with this company stands on the same footing. It makes no difference whether he appears to be an employe of another telegraph company or any other individual.

Keep the following distinction clearly in mind:

This company alone has the right to determine how a message filed with it shall be checked and dated. ("Date" as used in this notice includes the place from" and the day of the month).

The person filing a message has the right to determine how the address, text and signature of the message shall read.

Therefore:

Any check marks appearing on a message before it is filed with this company should be disregarded. The message should be checked by this company in accordance with its rules.

If a message is tendered bearing a date not in conformity with Rule 1, the person filing the message should be advised that such date will be disregarded. If he then fails to date the message properly, it should nevertheless be accepted, but the improper date should be disregarded and the employe of this company receiving the message should date it in accordance with Rule 1.

Assume, for example, that a representative of another telegraph company offers to file at

our office at Chicago a message dated Philadelphia and destined to an exclusive Western Union point. He should be told that the Philadelphia date will be disregarded and that the message will be dated Chicago. If he files the message without eliminating the Philadelphia date and placing on it the proper Chicago date, the receiving clerk will nevertheless accept the message and will date it Chicago, and the Philadelphia date will be disregarded. In the same way, if the message as offered should bear the dating "Philadelphia, Pa., via Chicago, Ill.", the person offering it should be advised that the date "Philadelphia, Pa., via Chicago, Ill." will be disregarded and that the message will be dated Chicago, and the receiving clerk should proceed as above. If, after being told that improper dates will be disregarded and that the message (in the examples cited) will be dated Chicago, the person offering the message declines to file it, that is his affair. As far as this company is concerned, it stands ready to receive it and to transmit it with the proper date as prescribed by Rule 1.

The person filing a message may, if he desires, indicate in the text that the message originally came from some other point than the one at which it is filed with this company. This is not a requirement. It rests wholly with him whether he wants to do so or not. Whether he does so or not, the message should be accepted as finally filed by him and counted and charged for in accordance with our rules. No employe of this company shall add anything to, or take anything from, the text of any message offered to this company for transmission.

If a person filing a message with this company desires to write additional words after the signature, to be transmitted, it is his privilege to do so, and such extra words should be counted and charged for in accordance with our rules.

Extra words in the address should also be counted and charged for in accordance with our rules.

All the foregoing applies to messages filed by representatives of another telegraph company as well as to all other messages.

B. BROOKS.
Vice-President.

Amended Rule 1.

Messages to be on Message Forms and Dated from the Place where Filed with this Company.

Each message for transmission shall be written upon the form provided by the company for that purpose, or shall be attached to such form by the sender, or by the person presenting the message as the sender's agent, so as to leave the printed heading in full view above the message.

Every message handed in for transmission at an office or agency of this company shall show as its point of origin the name of the city or town where such office or agency is located, and shall show the date when it is filed with this company.

A message telephoned by the sender to this company for transmission shall show as its point of origin the name of the city or town from which it is telephoned.

A message originating at a point on a connecting telegraph line at which there is no Western Union office and transferred to the lines of this company at the transfer point designated in the Tariff Book of this company, shall show as its point of origin and as its date the name of the city or town where, and the date when, it was originally filed with the connecting company and need not show the name of the place where or the date when it is filed with this company.

No message received by this company for transmission shall bear a point of origin or date otherwise than in accordance with the foregoing.

Note: For instructions governing the forwarding of messages see Rule 8.

Amended Rule 8.**Forwarding of Messages.**

In case a person, having received a message **over the lines of this company**, requests the same to be forwarded to another place; or if a person leave town before the arrival of an expected message and it be received **over the lines of this company** and forwarded to him,—in each of these instances the message as forwarded will show, in addition to the name of the place from which it is forwarded and the date, the name of the place and state from which it was originally sent and the word "via", and the name of the place and state from which it was originally sent and the word "via" will be counted and charged for. For example, if the following message were originally sent **over lines of this company** from New York to Troy, N. Y., and forwarded from Troy to Buffalo, it would be checked and dated thus:

"13 paid 3 extra
New York, N. Y.,
Via Troy, N. Y., Oct. 24

John Brown,

Buffalo, N. Y.

Meet me next Monday at ten o'clock in the forenoon.

H. Smith."

In this message the words "New York, N. Y." and "via" will be forwarded as a part of the message and charged for.

If the message to be forwarded is a back-date message, the original date will be shown in figures, counted and charged for. For example (assuming the same message as above, but as a back-date message):

"15 paid 5 extra
New York, N. Y. 23
Via Troy, N. Y., Oct. 24

John Brown,

Buffalo, N. Y.

Meet me next Monday at ten o'clock in the forenoon.

H. Smith,"

In this message the words "New York, N. Y. 23" and "via", five words, will be forwarded as a part of the message, and charged for.

When a message, which has been received **over the lines of this company** and which is to be forwarded, is a "received collect" message, the forwarding office will check it so that the tariff from the forwarding office to destination, and the tariff from the originating office to the forwarding office, shall appear separately and as a double check.

Illustration: Suppose the tariff from New York to Troy to be 25 and 2, and from Troy to Buffalo 35 and 2, and a ten-word message has been sent "collect" by New York to Troy, which the latter office is to forward to Buffalo; Troy should check the message (counting three extra words): "14 collect 41 and 25, three extra." The "41" represents the tolls for thirteen words from Troy to Buffalo and "25" represents the tolls for ten words from New York to Troy. If the message be a back-date message, Troy should check the message: "15 collect 43 and 25, four extra", or "16 collect 45 and 25, five extra", according to whether the figures indicating the back-date consist of one or two numerals.

All service messages relating to forwarded messages carrying a via should be addressed to the via point and not to the originating point.

Addition to Instructions in Tariff Book.

Effective at once, the following is inserted immediately preceding paragraph 7, page IV, of the Tariff Book:

The points at which messages originating at "other" line telegraph offices should be transferred to this company are shown in the Tariff Book immediately after the names of the "other" line points.

For example:

* Brilliant 25-2 Montgomery.

This indicates that Montgomery is the proper place of transfer for messages originating at Brilliant.

When a message destined to an exclusive Western Union, International Ocean or Great North Western point is filed with another telegraph company at a point where the Western Union, the International Ocean or the Great North Western Company has an office or agency, the proper place of transfer is the point of origin.

Rules 121 and 123.

Effective at once, Rules 121 and 123 are revised as follows and Form S1, Press Report, is abolished.

Rule 121—Revised.

Reporting Business.

The tolls on all press specials or queries sent or received at press rates, except such as are described in Rule 123, shall be included with other receipts and checks in the Check Report, Form 7.

A daily record shall be kept of the amount of "This Line Press Tolls" so included, and at the end of the month an entry shall be made below the *grand total*, at the foot of the check report, Column "A" of the total "Press", which deducted from the *grand total* will show the "Telegraph Tolls, This Line" which should also be noted. The total of these two items when footed will equal the *grand total* of column A, Form 7.

Enter on the Monthly Report, Form 4R, or other form provided on line 1, the "Telegraph Tolls, This Line" and on line 19 the total "Press". See Rule 78.

Rule 123—Revised.

Unchecked Business.

Unchecked business is regular circuit matter sent from a common distributing point to four or more receiving stations, for and on account of a press association, arranged by order of Superintendents and should not be included in Form 7 nor reported in any way except when special instructions are received from the Accounting Department.

Rule 71.

Effective May 1st, 1914, Rule 71 is amended as follows:

All revenue accruing from "Paid Here" full rate cablegrams, deferred rate cablegrams, cable letters, week end letters, press cablegrams, deferred press cablegrams and trans-oceanic wireless messages, including charges to cover prepaid replies, and the tolls on messages answering cablegrams carrying prepaid replies, shall be accounted for in one total as "Cable Tolls" on monthly report, Form 4 (or similar report provided). The use of Form 67 is discontinued.

Credit shall be taken under "Cable Refunds" on Form 4, for the tolls on a cablegram sent in answer to one received bearing the indication "RP", not

exceeding the maximum number of words designated in the "RP". Enclose with reports, copies of such answers to "RP" cablegrams as vouchers, with the amount of tolls endorsed thereon. These instructions partly revise Cable Rule 24.

Amounts refunded in accordance with cable rules shall be taken credit for as "Cable Refunds" on the Form 4 and the amounts shall be supported by properly approved vouchers. See Cable Rule 27 in the Tariff Book.

Managers shall use great care to see that the amounts reported are correct, in order to avoid subsequent adjustment. The Cable messages shall be filed separately in such a manner that a complete detailed report can be furnished promptly if requested.

Rule 75.

Rule 75 is amended as follows:

"The amount entered on Form 4-A or Form 4 as 'Paid Other Lines' shall represent:

- (a) Actual disbursements in payment of 'other line' tolls (including special delivery charges) on messages delivered and payments of extra words on forwarded messages, supported by properly receipted vouchers.
- (b) 'Other line' tolls on forwarded messages supported by copies of messages. See Rule 8."

Rule 100.

The attention of managers is directed to the importance of strict compliance with Rule 100, in connection with subpoenas calling for the production of messages in court. Several instances have recently come to light where messages which should have been presented in open court were instead turned over to court attendants.

Government Messages.

The published Government rates shall be applied only to official business of the Government, and all telegrams for which Government rate is claimed, should be endorsed "Official Business" by the sender on sent paid business and by the addressee on received collect business.

The United States Attorney General has ruled that "for personal telegrams where the rates are not payable out of public moneys, the regular public rates should apply, and settlement to the Telegraph Company should be made on this basis. To do otherwise would be in conflict with the regulations of the Interstate Commerce Commission, prohibiting preferential or discriminatory practices."

B. BROOKS,

Vice-President.

Week End Letter Service Chili and Peru.

Effective September 1st, 1913, the Week End Letter Service now in effect with Argentine Republic was extended to Chili and Peru (Except Wireless Stations) at the same rates and under the same regulations governing that service to Argentine shown on pages 858 and 859 of the Tariff Book.

Week End Letters for Argentine, Chili and Peru filed up to midnight Saturday will hereafter be due for delivery on Monday morning instead of Tuesday morning.

Deferred Cable Service.

The following have been added to list of places shown on page 861 of Tariff Book to which Deferred Cable Service is in operation:

Bolivia, So. America.	Formosa via London.
Borneo (Dutch), via London.	Japan via London.
	Nauru Island.
Chili, So. America.	Peru, So. America. *
Cyprus.	Tripoli.

* Except Wireless Stations.

It should be noted that Deferred Cable Service is now in force to Amazon River Stations in Brazil.

Offices should note especially that senders of Deferred Cables must in every case write before the address and pay for as one word the letters LCF, LCO or LCD, as in the nature of a declaration that the communication is in the French language or the language of country of origin or destination as the case may be.

Trans-Atlantic Wireless Service.

Instructions on page 862 of the Tariff Book to the effect that the amount prepaid for replies to Marconigrams must be expressed in terms of full cable rates should, effective April 1st, be changed to read:

"The same provision for prepaid replies to trans-Atlantic wireless messages may be made as for prepaid replies to cablegrams but in the case of wireless trans-Atlantic messages the amount for the prepaid reply must be expressed in terms of the full wireless rate instead of the full cable rate."

Upon receipt of a Marconigram to which a reply has been prepaid the delivery clerk will from April 1st write under the message, before delivery, the words:

"Reply to the value of paid for" and will arrive at the amount expressed as prepaid by calculating the tolls at full Marconi rates on the number of words in the RP indication.

The attention of offices is drawn to the fact that in future trans-Atlantic wireless messages should be

prefixed "MARCONI" instead of "RADIO" and the instructions on page 862 of the Tariff Book should be corrected accordingly.

Wireless messages to and from Steamers will continue to be prefixed "RADIO."

Wireless Messages to and from Steamers.

(See also Page T 4).

Effective May 1st, 1914, radio messages on official U. S. Government business shall be checked paid; the indication "Govt." shall be inserted immediately before the address and shall be counted and charged for. Such messages are as a rule routed via the following U. S. Government radio stations:—

Charleston, S. C.	Eureka, Calif.
Jupiter, Flo.	Point Arguello, Calif.
St. Augustine, Flo.	San Diego, Calif.
Pensacola, Flo.	Cape Blanco, Oreg.
Key West, Flo.	North Head, Wash.
	Tatoosh, Wash.

and when official messages are so routed by senders and are addressed to U. S. Government vessels the wireless service is free, the only charge to be made being the Government rates for our service from points of origin to coastal stations as given on pages XII, XIII and XIV of the Tariff Book.

When official Government messages are sent via other stations to other than Government vessels the wireless rates quoted on pages 867, 868 and 869, in addition to the Postmaster General's rate above referred to for our service apply.

Pursuant to the International Radiotelegraphic Convention, which by proclamation of the President of the United States became effective on September 1st, the provisions of the Cable Rules relating to repetitions, acknowledgments of receipts and prepaid replies as printed on page 815 of the Tariff Book are applicable to the wireless service to and from ships at sea,—and notations to that effect should be made on page 866 of the Tariff Book, canceling the reference printed thereon in regard to the inadmissibility of prepaid replies.

The amounts prepaid for replies to messages addressed to ships-at-sea should be expressed in dollars and cents instead of in words at full rates, and a minimum of ten words must be charged for in every case. In these important respects the practice differs from the method of expressing and dealing with RP charges in cablegrams and trans-ocean wireless messages, but in all other respects the general instructions in reference to such charges printed on pages 815 and 816 of the Tariff Book should be carefully followed, except that of course Form 7 instead of Form 67 should be used in reporting the messages. In no case should RP charges be refunded save on the authority of the United States Manager. The fore-

going of course applies equally to messages received from ships-at-sea, the RP indication in which will be understood as referring to amounts prepaid and not to the number of words paid for.

It should also be noted that the preamble "EX-PRESS", when the same appears immediately before the address in such message, conveys the information that any published special delivery or other terminal charges have been prepaid by the sender. Similarly the preamble "PR" signifies that delivery is to be by registered mail from the terminal telegraph office and that all post-office charges have been prepaid.

The attention of offices is drawn to the fact that by agreement between the administrations operating coastal wireless stations, reports of non-delivery and other similar service correspondence need not necessarily be exchanged through the coastal station via which the original message was routed, but may be exchanged through any other coastal station which may be in nearer range at the time that the occasion for such correspondence arises.

Effective July 1st, 1913, the wireless rate to and from steamers on the Great Lakes was reduced from 10 to 5 cents per word with the usual 10 word minimum. This will make following corrections necessary on page 869 of the Tariff Book.

"For-Coastwise vessels" from Buffalo, N. Y., Cleveland and Ashtabula, Ohio, Detroit, Mich., 5, instead of 10.; Benton Harbor, Ludington, Grand Haven, Frankfort and Mackinac Isl., Mich., Chicago, Ill., Milwaukee and Manitowoc, Wis., Calumet, Mich., and Sault Ste. Marie, Ont., 5, instead of 10.; Manistique, Mich., 5, instead of 12c.; Duluth, Minn., 5, instead of 10c. per word.

The rate for wireless transmission Duluth to Grand Marais, Minn., has been increased from 5 to 10 cents per word, restoring the 15 cent wireless rate shown in Tariff Book, for Lake Steamers via Grand Marais.

Manistique, Mich., is now a Western Union Check direct office and wireless rate for coastwise vessels (Great Lakes) shown on page 869 of Tariff Book is now 5, instead of 12 cents per word.

Effective at once the wireless word rates shown on pages 867, 868 and 869 of the Tariff Book will be further reduced to the following figures:

Siasconsett, Mass. For Coastwise vessels ..	.15
Key West, Fla. For Trans-Ocean vessels ..	.18
" " " " Coastwise vessels14
Eureka, Cal. For Trans-Ocean vessels	.14
Tatoosh I., Wash. " " " "	.15
North Head, Wash. " " " "	.14
Cape Blanco, Ore. " " " "	.16
Pt. Arguello, Cal. " " " "	.14
San Diego, Cal. ... " " " "	.14

Effective November 1st, the wireless rate on messages to and from coastwise ships at sea exchanged through Astoria, East San Pedro, Eureka, Friday Harbor, Marshfield, San Francisco, San Luis Obispo and Seattle coastal stations was reduced 5c. per word, making the wireless rate on messages to coastwise vessels only exchanged through any of the stations named 5c. less than the word rates published opposite such stations at the top of columns on pages 868 and 869 of the Tariff Book.

Through misunderstanding the notice published in the October Journal extended the above reduction to the Cape Blanco, North Head, Point Arguello, San Diego, Tatoosh Island and Victoria stations. The wireless rates to and from coastwise vessels exchanged through those stations are reduced, but only to the following figures:

Cape Blanco	10c.
Victoria	} 08c.
North Head	
Point Arguello	
San Diego	09c.

Wireless rates via all Pacific Coastal stations to Government vessels are 2c. per word higher in each case than rates quoted above.

Effective November 1st the following changes were made in the land-line word rates on ship's messages.

Between offices in Washington and coastal stations in Oregon, rate increased from 3 to 4c. per word.

Between offices in Oregon and coastal stations in Washington, rate reduced from 5 to 4c. per word.

Between offices in Oregon and coastal stations in the same state, rate reduced from 5 to 3c. per word.

Between offices in California and coastal stations in Oregon, rate reduced from 6 to 5c. per word.

Between offices in California and coastal stations in the same state, rate reduced from 4 to 3c. per word.

The New London wireless station has been reopened for service at rates shown on page 869 of Tariff Book.

The wireless connection via Fort Morgan, Ala., given in third column, page 868 of Tariff Book should be erased.

The wireless connection via Sayville, N. Y., has been discontinued and the rates via Sayville given in first and second column on page 867 of the Tariff Book are therefore canceled.

Effective January 1, 1914, South Wellfleet, Mass., will be discontinued as a wireless station for steamships in the Boston service and the Boston station

will be used instead. The third column on page 867 of the Tariff Book should be corrected accordingly.

The high power station at South Wellfleet will be continued as formerly at rates shown in fourth column, page 867 of the Tariff Book.

J. C. WILLEVER,
United States Manager.

Accepting and Rating D. H. Messages.

1. Receiving Clerks shall be careful to write correct franks numbers immediately after the check in messages and shall be certain, before checking a message "D. H.", that it is, (a) properly covered by a D. H. Frank Card or D. H. Stamps, or, (b) properly approved in writing under Tariff Book Rule 24 for employe's messages, or (c) correctly checked "D. H. Answer to D. H." in reply to a received D. H. Message.

2. The D. H. Franks are of two general classes, viz., Business Frank Cards and Complimentary Frank Stamps and Cards, as follows:

- (a) The Business Frank Cards are generally issued to officers and agents of railroads and are restricted to messages relating to business of the respective carriers with which they are connected.

The term D. H. is used in connection with these franks and the messages are also sometimes referred to by employes as "Free", but it should be distinctly understood that these terms are used merely for convenience in checking or accounting as the messages transmitted thereunder are actually charged by the Auditor against the accounts of the respective carriers and thereafter paid for in cash or its equivalent.

- (b) Complimentary Frank Stamps are issued to officers, or to officers and members of their families, of common carriers and cover messages of a family or social character. The Stamps are numbered and bear the designating letters, A, B and C. Each stamp has the monetary value printed thereon and stamps should be attached to each message sufficient to cover the total tolls. In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

- (c) Personal Complimentary frank cards are issued to officers or officers and members of their families, of common carriers, and cover messages of a personal social character and are not good for personal business messages. They bear the designating letter "F".

3. "Dead Head Answer" messages need not be accompanied by copies of messages to which they are answers, provided receivers are satisfied that messages so tendered are answers to received D. H. messages.

4. Dead Head Franks should not be confused with Identification Cards, Half-Rate Franks, Government Rate Cards or Collect Cards. Messages filed under any of these four kinds of Cards shall *not* be checked "D. H."

5. Receiving Clerks shall note in the upper right hand corner of message blank, above the space provided for "check," the amount of "This Line" tolls thereon computed at day message rates, unless the frank is specially endorsed good for night messages, day or night letters, in which case tolls at the respective rates shall be noted. Connecting line tolls if paid, shall be noted immediately after the word "Paid" in the check.

6. Messages to points on the lines of the International Ocean Telegraph Company, shall be rated at through rates from point of origin to point of destination, if the sender holds Western Union Frank endorsed good for message to I. O. T. points, or both Western Union and I. O. T. franks.

7. Messages to points on the line of the Great North Western Telegraph Company of Canada accepted from holders of both Western Union and G. N. W. franks, shall be rated at *one-half* of the amount of the through tolls which, in the case of messages checked D. H. over both lines, represents the Western Union proportion of the tolls. This amount (only one-half) shall be noted on the message.

8. Messages to I. O. T. and G. N. W. points accepted from parties holding Western Union franks only, or I. O. T. or G. N. W. franks only, shall be rated in accordance with Tariff Book Rules 133, 134, 138 and 139.

9. The same care should be used in rating Dead Head messages as is used in rating paid messages.

10. Half size pictures of the various franks and cards were distributed with the October 1913 Journal of the Telegraph and should be in the possession of every office for reference.

Revised Rule 79.

Dead Head Message Reports.

A monthly report of Dead Head messages shall be prepared on Form 38-A. One entry shall be made monthly for each Railroad, Express or other trans-

transportation company separately, showing name of company (or name of sender, if not a business message) number of sent D. H. messages and total tolls. Messages sent D. H. in answer to received D. H. messages shall be entered on one line as "Answers."

The original sent D. H. messages shall show the place of origin, the reason why D. H. and the tolls. The original sent D. H. messages, and copies of messages received D. H. from G. N. W. points, and the Form 38-A shall be forwarded with the monthly report.

Complimentary Stamp Franks With Monetary Values.

Commencing March 1st, 1914, the Complimentary Stamp Franks issued by this Company will have entered thereon the value in cents, and the value stamps affixed to each message should equal or exceed the tolls.

In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

E. Y. GALLAHER,
Comptroller.

Foreign Transfer Service.

Money Transfer Rule XII-3 is hereby modified as follows:

Sender's name required.

In Transfers to Great Britain, Ireland, the Channel Islands and Belgium, the name of the sender shall be given. (Examples XIV-1 and 2).

In Transfers to other foreign countries, the name of the sender may be omitted, if desired, EXCEPT when the payee is an ambassador, consul, bank, steamship agent, or firm accustomed to receiving a large number of remittances, the sender's name is necessary for the information of the payee, in order that the amount may be properly credited.

Charges for Money Transfers to Canada.

The correct charges for Money Transfers payable to Canada are shown in Rule III-2.

Managers are cautioned against accepting transfers to Canada at the reduced rates (Rule III-1) which are applicable to business between offices in the United States only.

Money Transfer Rule XII-I.

The second paragraph of Money Transfer Rule XII-1, relating to special Foreign Transfers, should be corrected to read as follows:

"The word 'Special' shall be inserted directly after the name of the paying station in every message directing the payment of \$100. or over and shall be included in the check, but not charged for."

Example:

Tragent,
New York.
Pay William Henry Justice 45 Regent St. London
Special from Frederick Hunter.
(Count all words).
Ck. 16 Free.

Money Transfer Drafts.

There is sometimes objection, on the part of payees, to the practice of placing the name of the depositor upon the draft issued in payment of a money transfer. This practice should, therefore, be discontinued, the space provided for the name on the transfer draft being left blank, unless for any reason the payee should request that the name be added.

HENRY G. BATES,
Manager Special Services.

Franks.

CONTRACT DEPARTMENT, July 14, 1914.

Complimentary Frank No. C153 should be taken up if presented and returned to this office for cancellation.

Complimentary Franks and Half Rate Franks.

CONTRACT DEPARTMENT, June 20, 1914.

AMENDED NOTICE to the Western Union offices in Nebraska, New Hampshire, Ohio, South Dakota, Wisconsin, California, Illinois, Indiana, Missouri, Montana, New York, Pennsylvania, and Texas.

Under the laws of the States of Nebraska, New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the law of the State of California you will not accept intra-state messages in that State under Half Rate Franks. Holders of such franks legally

entitled to reduced rate service may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Illinois, affecting municipalities adopting commission form of government, it will not be legal to and you will not accept at such places intra-state messages in that State under Complimentary Franks, nor intra-state messages under Half Rate Franks. The following places have adopted commission government to date:—

Braceville	Harrisburg
Carbondale	Jacksonville
Cairo	Kewanee
Catlin	Marseilles
Clinton	Murphysboro
Decatur	Moline
Dixon	Naperville
Elgin	Pekin
Forest Park	Rock Island
Hillsboro	Rochelle
Hamilton	Springfield
Harvey	Spring Valley

Waukegan

Under the law of the State of Indiana it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company, nor intra-state messages under Half Rate Franks.

Under the law of the State of Missouri it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Montana it will not be legal to and you will not accept intra-state messages under Complimentary Franks; nor intra-state messages under Half Rate Franks.

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Pennsylvania it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of Officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks

held by officials and their families of Express Companies, except those issued on account of Wells Fargo & Company.

G. W. E. ATKINS,
Vice-President

Telegraph and Telephone Life Ins. Assn.

This Association was founded in 1867, at the Western Union Telegraph Company's main office, New York, with a membership of 125. Since then there has been disbursed to the beneficiaries (principally widows and orphans) of its deceased members nearly One Million, Eight hundred thousand dollars, and the charter members still surviving have each paid but 569 assessments, an average of \$12.30 yearly for \$1,000.00 insurance.

The insurance is now offered in two grades, Full Grade \$1,000 and Half Grade \$500.00, benefit; with the small initiation fee of \$2.00 for each grade, from which \$1.00 is allowed towards the cost of medical examination, and there is no further charge thereafter for new certificates or other incidental expenses.

The assessment calls are based on age at entry as per following schedule and are not subject to change.

Age	Full Grade	Half Grade
18 to 30.	\$1.00	\$0.50
30 to 35.	\$1.25	\$0.63
35 to 40.	\$1.50	\$0.75
40 to 45.	\$2.00	\$1.00

The number of calls issued in any one year depends on the number of death claims filed, and averages about fifteen.

All engaged in telegraph or telephone service in good health, between ages of 18 and 45 are eligible for membership and no person of more than 45 can be admitted.

Membership once acquired cannot be affected by change of occupation or residence and certificates are incontestible for any cause whatever after one year's membership.

The Association has been endorsed by the employing Companies; and is under the supervision of and subject to periodical examination by the Insurance Department of the State of New York, who certified at a recent examination that:

"The affairs of the Association are in a most prosperous condition, claims are paid promptly and in full and the expenses of management are confined to office and other incidental expenses attending collection of assessments."

Reserve fund \$344,000, securely and profitably invested, yielding a generous income which is used to lower the mortality cost.

No more advantageous insurance can be had elsewhere, and as every one needs insurance, why delay

Send for application forms to M. J. O'Leary, Secretary, P. O. Box 510, New York City.

TARIFF BUREAU.

WESTERN UNION TELEGRAPH CO.
NEW YORK, July 20, 1914.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the Tariff Book of July 1913, and Tariff Book of June 20th; "Changes" printed in "Italics"; "New offices" in "Roman" type.

The new Tariff Book, No. 59, will not be issued until about November 15th.

In this issue of the Journal contain only the changes and additions made since the June issue.

To ascertain the correct present rates of Western Union offices, consult the Tariff Book of July, 1913, the Tariff Book of the Telegraph of June, 1914, and this Journal.

Complete lists of changes in and additions to Sheet "O" No. 4, Rates, and List of Money Transfer offices, are shown on pages 3 to 9 inclusive.

WIRELESS.

Note 5, and the paragraph following, on page 842 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and the town of Bluefields, in Nicaragua, may be reached by wireless service from Colon (Rep. of Panama) at rate of 21c per word in addition to the cable rate to Colon.

Places printed in Roman type are New Offices.
 Places printed in Italics are changes in the Tariff Book.
 The sign (+) indicates changes published for the first time in this issue.

Note 6. ^a Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 21c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 3, page 866 of Tariff Book should be corrected to read as follows:

"In accepting Wireless Companies' franks for messages via Siasconsett, Mass., the amount covered by the wireless frank is 23c. per word. Via Hatteras, N. C. and Grand Island, La., 10c. per word. Friday Harbor, Wash., 20c. per word for Trans-ocean vessels and 10c. per word for Coastwise vessels. Cape Ray, N. F. and Grand Mafais, Minn., 10c. per word, FOR VESSELS TO WHICH THOSE RATES APPLY."

Foot note on page 868 of Tariff Book should be corrected to read as follows: The wireless rate for coastwise vessels of the Booth, Lamport & Holt, Quebec, Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 324 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

Effective at once rate from Arizona to Commercial Pacific cable stations should be reduced by five cents per word, making it same as from California (except San Francisco and Oakland) Idaho, Nevada, etc. Pages 825 and 826 of the Tariff Book should be corrected accordingly.

DUTCH EAST INDIES.

Rate to Dutch East Indies, including Java and all other Islands, is now 98c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column, all rates 20c. less.

HAWAIIAN ISLANDS.

Foot note on page 825 of the Tariff Book is hereby canceled and following substituted therefor:

Note: Other islands (Hawaii, Maui, Kauai and Molokai) 15c. per word more than rate to Honolulu.

Following is a list of offices in these islands:

Eleele	Kohala
Halawa	Koloa
Hamakuapoko	Lahaina
Hana	Laupahoehoe
Hanalei	Lihue
Hilo	Mahukona
Holualoa	Makawao
Honokaa	Makaweli
Kaanapali	Makena
Kahului	Nawiliwili
Kailua	Paia
Kalauao	Port Allen
Kalaupapa	Pukoo
Kamalo	Puuhene
Kapaa	Spreckelsville
Kaunakakai	Volcano House
Kawaihae	Waikapu
Kealahou	Wailuku
Kealia	Wiamea, Hawaii
Kekaha	Wiamea, Kauai
Kilauea	Waiohini

Applicants for registration in Hawaiian Territory of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

PHILIPPINE ISLANDS.

Effective January 1, 1914, rates to Philippine Islands, via Commercial Pacific Cable will be revised as follows:

Luzon:	
Manila—no change.	
Other offices—no change.	
Panay:	
Iloilo—no change.	
Other offices—Increased by 9c. per word.	
Negros:	
Bacalod—no change.	
Other offices—Increased by 9c. per word.	
Cebu:	
Cebu—no change.	
Other offices—Increased by 9c. per word.	
All other islands and offices—Increased by 9c. per word.	
The foregoing corrects rates shown in page 826 of the Tariff Book.	

ATLANTIC CABLES.

The following changes and additions beyond London are now in force.

Singapore69
Kelantan72

Pages 831 to 835 of the Tariff Book should be corrected in accordance with the foregoing.

DUTCH EAST INDIES.

Wireless communication has been established from Sitobondo, Java to Amboina, (Amboina Island) and Keopang, (Timor Island.) Rate same as to other Dutch East Indies. Messages accepted only at senders risk.

WEST INDIES.

CUBA.

Telegraph offices have been opened at the following places in Cuba:

TOWN	PROVINCE
Amarillas,	Matanzas.
Cabezas,	Matanzas.
Mata,	Santa Clara.
Melena del Sur.	Havana.
Quinta.	Santa Clara.
San Felipe.	Havana.

GUADALOUPE, ETC.

Effective February 1st the rates to Guadeloupe, Martinique, Marie Galante and Les Saintes were reduced 5c. per word less than rates shown on page 838 of the Tariff Book.

SAN DOMINGO,

The establishment of a new route to San Domingo via Wireless from Ponce, P. R., permits of the acceptance of mes-

sages for San Domingo at a reduction of 52 cents per word in the tariff. The dependability of this route having been established, it will be considered our normal route via which all messages to San Domingo will transit in future unless otherwise marked by the senders. Page 838 of the Tariff Book should be corrected so as to show the following tariffs:

From W. U. and G. N. W. offices in the U. S. east of the Miss. River, including St. Louis, Mo., and Minneapolis, Minn., to San Domingo—30 cents per word.

From W. U. offices in the U. S. west of the Miss. River, except St. Louis, Mo., and Minneapolis, Minn., and from W. U. offices in B. C. and from G. N. W. offices in Manitoba, to San Domingo—85 cents per word.

From W. U. and G. N. W. offices in N. B., N. S., Ontario and Quebec, to San Domingo—85 cents per word.

Messages marked "Via Hayti" will be accepted at the rates in force via that route; viz.: 20 cents per word higher than the rate via Ponce and Wireless.

SOUTH AMERICA.

BRAZIL.

Effective Apr. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book as \$1.11 from La. and Tex. and \$1.15 from other states and provinces) will be \$1.08 from La. and Tex. and \$1.12 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.41 from La. and Tex. and \$1.45 from other states and provinces) will be \$1.32 from La. and Tex. and \$1.36 from other states and provinces.

Wireless communication has been established with following places in Brazil.

Cruzeiro de Sul.	Senna Madureira.
Porto Velho.	Tarauaca.
Rio Branco.	Xapury.

	Via Belem	Via Manaus
Rates per word:		
From La. and Texas...	1.30	1.61
From other States and Provinces	1.34	1.65

Messages for these places accepted only at senders risk and must be marked "Wireless Belem" or "Wireless Manaus," which indication shall be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

FRENCH GUIANA.

Effective June 1 rate to French Guiana was reduced by 7 cents per word. Tariff Book entry, page 838, should be corrected as follows:

	1st.	2nd.	3rd.
	Col.	Col.	Col.
French Guiana	1.31	1.36	1.36

PERU.

Wireless telegraph station has been opened at Itaya in Peru. Rate same as to Iquitos shown in page 841 of Tariff Book.

Effective at once rate to Iquitos, Masisea, Orellana and Requena in Peru shown in sixth column, page 841 of Tariff Book is restored.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Columbia "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book or JOURNAL, which, together, furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line delivery, or telephone charges, which should be provided for when messages are accepted.

Counter clerks must exercise great care in accepting messages addressed to passengers en route on trains. A full and sufficient address should be obtained in every case, and when possible should give the following information:

- (a) The name of the addressee;
- (b) The name of the Railroad and the train number;
- (c) The car and berth number, if known, in the case of passengers traveling on sleeping cars;
- (d) The name of the points between which the addressee is traveling;
- (e) The time the train is due at the place where delivery is to be made;
- (f) The name of the place to which the message is to be checked and to which the message is to be delivered to the addressee or turned over to the conductor of the train.

Below are examples of complete train message addresses:

- (1) John Jones,
N. Y. C. Train three enroute
New York to Chicago.
Due Cleveland 10.35 P. M.
Cleveland, Ohio.
- (2) John Jones,
N. Y. C. Train fifteen, lower
10, car 5, enroute New York
to Chicago.
Due Cleveland 3.25 A. M.
Cleveland, Ohio.

WM. J. DEALY, Sec'y 195 Broadway, New York

DON'T THROW AWAY YOUR OLD "LEAKY", "SMEARY" FOUNTAIN PEN

We will allow you 50 cents for it, in exchange, for the only perfect fountain pen made.

Send it to us, with \$2.00 and we will send you a pen that will be a source of never ending usefulness and comfort to you,—a pen that will do your bidding if you but guide it aright over the writing sheet.

LAUGHLIN

AUTOMATIC—NON-LEAKABLE

SELF STARTING FILLING PEN

10 Days' Free Trial

You don't have to fuss and shake a Laughlin to start the ink—It's a Self Start.

You don't have to fill the Laughlin, it's a Self Filler.

You don't have to clean the Laughlin, it's a Self Cleaner.

You don't have to monkey with dangerous, awkward or unsightly locks, extensions, or so-called Safety devices—There are none.

You can't forget to seal a Laughlin against leaking, it seals itself air-tight automatically.

You can't lose your cap from a Laughlin—it secures itself automatically.

You can't break your cap or holder on a Laughlin—They are non-breakable.

Holder and cap of scientific reinforced construction throughout. See illustration.

You don't have to wait until a Laughlin is ready. It is ready to write when you are; the air-tight leak-proof construction keeps pen and feed "primed", insuring a free uniform flow of ink instantly—even though not previously used for a year.

It performs these functions with no more hindrance or interruption to your thoughts or writing inspiration than your breathing.

These results—or your money back.

These features are peculiar only to this patented construction.

If you have no discarded back number dropper filler to send us in exchange, this pen will be promptly forwarded upon receipt of

The Dunn Cushion Shock Absorber Protects the Nerves.

American telegraphers of to-day are commencing to realize that on the wig-wag type of sending machine, the constant pounding of the vibrator against a metal stop-screw, in order to start it in motion, and the laborious effort necessary to keep it in motion after it is started, are just as wearing on the nerves as was the metal-to-metal contact on the old Morse key, which has left thousands of brilliant operators without a "grip."

The Dunn Shock Absorber protects the "grip" by eliminating all metal-to-metal contact, with the aid of a rubber cushion stop, that absorbs the jolts, thus preventing any possible injury to the nerves. It also provides a featherweight touch that lessens the work, and is not a drag on the operator's energy, thereby lengthening his life.

The new single lever Dunduplex is equipped with this wonderful little device, which adds another feature for the protection of health, and the lessening of labor of telegraphers, making the Dunduplex the world's greatest sending machine.

JOURNAL OF THE TELEGRAPH.

VOL. XLVI.

NEW YORK, AUGUST 20, 1914.

WHOLE NO. 734.

The new Tariff Book, No. 59, will not be issued until about September 15th.

This issue of the Journal contains only the changes and additions made since the June Journal.

To ascertain the present status of Western Union offices and "other" line points, consult the Tariff Book of July, 1913, the Journal of the Telegraph of June 20th, 1914, and this Journal.

Complete lists of changes in, and additions to Sheet "O" No. 4, Cable rates, and List of Money Transfer offices are shown in pages 6 to 12 inclusive.

JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY BY

THE WESTERN UNION TELEGRAPH COMPANY

NEWCOMB CARLTON WILLIAM H. BAKER, A. R. BREWER
President. Secretary. Treasurer.

195 BROADWAY, NEW YORK CITY.

Regarding Amended Rule 1.

In order that there may be no misunderstanding concerning the proper practice under the amended Rule 1, published in the Journal of the Telegraph of June 20th, 1914, and again published in this issue, the following should be carefully noted:

The foundation of the rule is that every person filing a message with this company stands on the same footing. It makes no difference whether he happens to be an employe of another telegraph company or any other individual.

Keep the following distinction clearly in mind:

This company alone has the right to determine how a message filed with it shall be checked and dated. ("Date" as used in this notice includes the "place from" and the day of the month).

The person filing a message has the right to determine how the address, text and signature of the message shall read.

Therefore:

Any check marks appearing on a message before it is filed with this company should be disregarded. The message should be checked by this company in accordance with its rules.

If a message is tendered bearing a date not in conformity with Rule 1, the person filing the message should be advised that such date will be disregarded. If he then fails to date the message properly, it should nevertheless be accepted, but the improper date should be disregarded and the employe of this company receiving the message should date it in accordance with Rule 1.

Assume, for example, that a representative of another telegraph company offers to file at

our office at Chicago a message dated Philadelphia and destined to an exclusive Western Union point. He should be told that the Philadelphia date will be disregarded and that the message will be dated Chicago. If he files the message without eliminating the Philadelphia date and placing on it the proper Chicago date, the receiving clerk will nevertheless accept the message and will date it Chicago, and the Philadelphia date will be disregarded. In the same way, if the message as offered should bear the dating "Philadelphia, Pa., via Chicago, Ill.", the person offering it should be advised that the date "Philadelphia, Pa., via Chicago, Ill." will be disregarded and that the message will be dated Chicago, and the receiving clerk should proceed as above. If, after being told that improper dates will be disregarded and that the message (in the examples cited) will be dated Chicago, the person offering the message declines to file it, that is his affair. As far as this company is concerned, it stands ready to receive it and to transmit it with the proper date as prescribed by Rule 1.

The person filing a message may, if he desires, indicate in the text that the message originally came from some other point than the one at which it is filed with this company. This is not a requirement. It rests wholly with him whether he wants to do so or not. Whether he does so or not, the message should be accepted as finally filed by him and counted and charged for in accordance with our rules. No employe of this company shall add anything to, or take anything from, the text of any message offered to this company for transmission.

If a person filing a message with this company desires to write additional words after the signature, to be transmitted, it is his privilege to do so, and such extra words should be counted and charged for in accordance with our rules.

Extra words in the address should also be counted and charged for in accordance with our rules.

All the foregoing applies to messages filed by representatives of another telegraph company as well as to all other messages.

B. BROOKS,
Vice-President.

Amended Rule 1.**Messages to be on Message Forms and Dated from the Place where Filed with this Company.**

Each message for transmission shall be written upon the form provided by the company for that purpose, or shall be attached to such form by the sender, or by the person presenting the message as the sender's agent, so as to leave the printed heading in full view above the message.

Every message handed in for transmission at an office or agency of this company shall show as its point of origin the name of the city or town where such office or agency is located, and shall show the date when it is filed with this company.

A message telephoned by the sender to this company for transmission shall show as its point of origin the name of the city or town from which it is telephoned.

A message originating at a point on a connecting telegraph line at which there is no Western Union office and transferred to the lines of this company at the transfer point designated in the Tariff Book of this company, shall show as its point of origin and as its date the name of the city or town where, and the date when, it was originally filed with the connecting company and need not show the name of the place where or the date when it is filed with this company.

No message received by this company for transmission shall bear a point of origin or date otherwise than in accordance with the foregoing.

Note: For instructions governing the forwarding of messages see Rule 8.

Amended Rule 8.**Forwarding of Messages.**

In case a person, having received a message **over the lines of this company**, requests the same to be forwarded to another place; or if a person leave town before the arrival of an expected message and it be received **over the lines of this company** and forwarded to him,—in each of these instances the message as forwarded will show, in addition to the name of the place from which it is forwarded and the date, the name of the place and state from which it was originally sent and the word "via", and the name of the place and state from which it was originally sent and the word "via" will be counted and charged for. For example, if the following message were originally sent **over lines of this company** from New York to Troy, N. Y., and forwarded from Troy to Buffalo, it would be checked and dated thus:

"13 paid 3 extra

New York, N. Y.,

Via Troy, N. Y., Oct. 24

John Brown,

Buffalo, N. Y.

Meet me next Monday at ten o'clock in the forenoon.

H. Smith."

In this message the words "New York, N. Y." and "via" will be forwarded as a part of the message and charged for.

If the message to be forwarded is a back-date message, the original date will be shown in figures, counted and charged for. For example, (assuming the same message as above, but as a back-date message).

"15 paid 5 extra

New York, N. Y. 23

Via Troy, N. Y., Oct. 24

John Brown,

Buffalo, N. Y.

Meet me next Monday at ten o'clock in the forenoon.

H. Smith."

In this message the words "New York, N. Y., 23" and "via", five words, will be forwarded as a part of the message, and charged for.

When a message, which has been received over the lines of this company and which is to be forwarded, is a "received collect" message, the forwarding office will check it so that the tariff from the forwarding office to destination, and the tariff from the originating office to the forwarding office, shall appear separately and as a double check.

Illustration: Suppose the tariff from New York to Troy to be 25 and 2, and from Troy to Buffalo 35 and 2, and a ten-word message has been sent "collect" by New York to Troy, which the latter office is to forward to Buffalo; Troy should check the message (counting three extra words): "14 collect 41 and 25, three extra." The "41" represents the tolls for thirteen words from Troy to Buffalo and "25" represents the tolls for ten words from New York to Troy. If the message be a back-date message, Troy should check the message: "15 collect 43 and 25, four extra", or "16 collect 45 and 25, five extra", according to whether the figures indicating the back-date consist of one or two numerals.

All service messages relating to forwarded messages carrying a via should be addressed to the via point and not to the originating point.

Addition to Instructions in Tariff Book.

Effective at once, the following is inserted immediately preceding paragraph 7, page IV, of the Tariff Book.

The points at which messages originating at "other" line telegraph offices should be transferred to this company are shown in the Tariff Book immediately after the names of the "other" line points.

For example:

* Brilliant 25-2 Montgomery.

This indicates that Montgomery is the proper place of transfer for messages originating at Brilliant.

When a message destined to an exclusive Western Union, International Ocean or Great North Western point is filed with another telegraph company at a point where the Western Union, the International Ocean or the Great North Western Company has an office or agency, the proper place of transfer is the point of origin.

Rules 121 and 123.

Effective at once, Rules 121 and 123 are revised as follows and Form 81, Press Report, is abolished.

Rule 121—Revised. Reporting Business.

The tolls on all press specials or queries sent or received at press rates, except such as are described in Rule 123, shall be included with other receipts and checks in the Check Report, Form 7.

A daily record shall be kept of the amount of "This Line Press Tolls" so included, and at the end of the month an entry shall be made below the *grand total*, at the foot of the check report, Column "A" of the total "Press", which deducted from the *grand total* will show the "Telegraph Tolls, This Line" which should also be noted. The total of these two items when footed will equal the *grand total* of column A, Form 7.

Enter on the Monthly Report, Form 4R, or other form provided on line 1, the "Telegraph Tolls, This Line" and on line 19 the total "Press". See Rule 78.

Rule 123—Revised. Unchecked Business.

Unchecked business is regular circuit matter sent from a common distributing point to four or more receiving stations, for and on account of a press association, arranged by order of Superintendents and should not be included in Form 7 nor reported in any way except when special instructions are received from the Accounting Department.

Rule 71.

Effective May 1st, 1914, Rule 71 is amended as follows:

All revenue accruing from "Paid Here" full rate cablegrams, deferred rate cablegrams, cable letters, week end letters, press cablegrams, deferred press cablegrams and trans-oceanic wireless messages, including charges to cover prepaid replies, and the tolls on messages answering cablegrams carrying prepaid replies, shall be accounted for in one total as "Cable Tolls" on monthly report, Form 4 (or similar report provided). The use of Form 67 is discontinued.

Credit shall be taken under "Cable Refunds" on Form 4, for the tolls on a cablegram sent in answer to one received bearing the indication "RP", not

exceeding the maximum number of words designated in the "RP". Enclose with reports, copies of such answers to "RP" cablegrams as vouchers, with the amount of tolls endorsed thereon. These instructions partly revise Cable Rule 24.

Amounts refunded in accordance with cable rules shall be taken credit for as "Cable Refunds" on the Form 4 and the amounts shall be supported by properly approved vouchers. See Cable Rule 27 in the Tariff Book.

Managers shall use great care to see that the amounts reported are correct, in order to avoid subsequent adjustment. The Cable messages shall be filed separately in such a manner that a complete detailed report can be furnished promptly if requested.

Rule 75.

Rule 75 is amended as follows:

"The amount entered on Form 4-A or Form 4 as 'Paid Other Lines' shall represent:

- (a) Actual disbursements in payment of 'other line' tolls (including special delivery charges) on messages delivered *and payments of extra words on forwarded messages*, supported by properly receipted vouchers.
- (b) 'Other line' tolls on forwarded messages supported by copies of messages. See Rule 8."

Rule 100.

The attention of managers is directed to the importance of strict compliance with Rule 100, in connection with subpoenas calling for the production of messages in court. Several instances have recently come to light where messages which should have been presented in open court were instead turned over to court attendants.

Rule 36.

Effective July 1st, 1914, the following paragraph is added to Rule 36:

"If the service message asking for a duplicate is signed by a branch office, or by an employee, the duplicated message in addition to the word 'Duplicate' after the check, shall carry as a part of the address, before the destination, the word, 'care' followed by the name of the branch office or employee requesting the duplicate."

It is no longer necessary to send a service message with a duplicate.

Money Transfer Messages.

The following will be inserted as Rule 25-A in the Tariff Book, and should be particularly noted by

those offices which are not supplied with the Rules for Money Transfer Service:

Messages necessary in the transaction of the company's money transfer service, filed by regular transfer agents, or filed by banks authorized to act for the company and addressed to other banks or to transfer agents and relating only to the payment of Western Union money transfers, shall be checked and sent "free." No entry of these messages shall be made in Free Message Report, Form 38, or in Check Report, Form 7.

Insufficient Addresses.

Insufficient addresses endanger the prompt delivery of messages, with possible serious consequences to our patrons, and burden the company with needless expense in service messages and clerical labor.

The attention of all managers is again directed to Note, Rule 2:

"The importance of the address cannot be overestimated. When the address given seems insufficient, a better one should be requested."

Senders should in every case be asked to give the addressee's street address or, if that is not available, such information as can be concisely inserted in the address and will aid in insuring prompt delivery of the message.

Government Messages.

The published Government rates shall be applied only to official business of the Government, and all telegrams for which Government rate is claimed, should be endorsed "Official Business" by the sender on sent paid business and by the addressee on received collect business.

The United States Attorney General has ruled that "for personal telegrams where the rates are not payable out of public moneys, the regular public rates should apply, and settlement to the Telegraph Company should be made on this basis. To do otherwise would be in conflict with the regulations of the Interstate Commerce Commission, prohibiting preferential or discriminatory practices."

B. BROOKS,
Vice-President.

Week End Letter Service Chili and Peru.

Effective September 1st, 1913, the Week End Letter Service now in effect with Argentine Republic was extended to Chili and Peru (Except Wireless Stations) at the same rates and under the same regulations governing that service to Argentine shown on pages 858 and 859 of the Tariff Book.

Week End Letters for Argentine, Chili and Peru filed up to midnight Saturday will hereafter be due for delivery on Monday morning instead of Tuesday morning.

Deferred Cable Service.

The following have been added to list of places shown on page 861 of Tariff Book to which Deferred Cable Service is in operation:

Bolivia, So. America.	Formosa via London.
Borneo (Dutch), via London.	Japan via London.
Chili, So. America.	Nauru Island.
Cyprus.	Peru, So. America. *
	Tripoli.

* Except Wireless Stations.

It should be noted that Deferred Cable Service is now in force to Amazon River Stations in Brazil.

Offices should note especially that senders of Deferred Cables must in every case write before the address and pay for as one word the letters LCF, LCO or LCD, as in the nature of a declaration that the communication is in the French language or the language of country of origin or destination as the case may be.

Trans-Atlantic Wireless Service.

Instructions on page 862 of the Tariff Book to the effect that the amount prepaid for replies to Marconigrams must be expressed in terms of full cable rates should, effective April 1st, be changed to read:

"The same provision for prepaid replies to trans-Atlantic wireless messages may be made as for prepaid replies to cablegrams, but in the case of wireless trans-Atlantic messages the amount for the prepaid reply must be expressed in terms of the full wireless rate instead of the full cable rate.

Upon receipt of a Marconigram to which a reply has been prepaid the delivery clerk will from April 1st write under the message, before delivery, the words:

"Reply to the value of paid for" and will arrive at the amount expressed as prepaid by calculating the tolls at full Marcon rates on the number of words in the RP indication.

The attention of offices is drawn to the fact that in future trans-Atlantic wireless messages should be prefixed "MARCONI" instead of "RADIO" and the instructions on page 862 of the Tariff Book should be corrected accordingly.

Wireless messages to and from Steamers will continue to be prefixed "RADIO."

Wireless Messages to and from Steamers.

(See also Page T 7).

Effective May 1st, 1914, radio messages on official U. S. Government business shall be checked paid; the indication "Govt." shall be inserted immediately before the address and shall be counted and charged

for. Such messages are as a rule routed via the following U. S. Government radio stations:—

Charleston, S. C.	Eureka, Calif.
Jupiter, Flo.	Point Arguello, Calif.
St. Augustine, Flo.	San Diego, Calif.
Pensacola, Flo.	Cape Blanco, Oreg.
Key West, Flo.	North Head, Wash.
	Tatoosh, Wash.

and when official messages are so routed by senders and are addressed to U. S. Government vessels the wireless service is free, the only charge to be made being the Government rates for our service from points of origin to coastal stations as given on pages XII, XIII and XIV of the Tariff Book.

When official Government messages are sent via other stations to other than Government vessels the wireless rates quoted on pages 867, 868 and 869, in addition to the Postmaster General's rate above referred to for our service apply.

Pursuant to the International Radiotelegraphic Convention, which by proclamation of the President of the United States became effective on September 1st, the provisions of the Cable Rules relating to repetitions, acknowledgments of receipts and prepaid replies as printed on page 815 of the Tariff Book are applicable to the wireless service to and from ships at sea,—and notations to that effect should be made on page 866 of the Tariff Book, canceling the reference printed thereon in regard to the inadmissibility of prepaid replies.

The amounts prepaid for replies to messages addressed to ships-at-sea should be expressed in dollars and cents instead of in words at full rates, and a minimum of ten words must be charged for in every case. In these important respects the practice differs from the method of expressing and dealing with RP charges in cablegrams and trans-ocean wireless messages, but in all other respects the general instructions in reference to such charges printed on pages 815 and 816 of the Tariff Book should be carefully followed, except that of course Form 7 instead of Form 67 should be used in reporting the messages. In no case should RP charges be refunded save on the authority of the United States Manager. The foregoing of course applies equally to messages received from ships-at-sea, the RP indication in which will be understood as referring to amounts prepaid and not to the number of words paid for.

It should also be noted that the preamble "EX-PRESS", when the same appears immediately before the address in such message, conveys the information that any published special delivery or other terminal charges have been prepaid by the sender. Similarly the preamble "PR" signifies that delivery is to be by registered mail from the terminal telegraph office and that all post-office charges have been prepaid.

The attention of offices is drawn to the fact that by agreement between the administrations operating coastal wireless stations, reports of non-delivery and other similar service correspondence need not necessarily be exchanged through the coastal station via which the original message was routed, but may be exchanged through any other coastal station which may be in nearer range at the time that the occasion for such correspondence arises.

Effective July 1st, 1913, the wireless rate to and from steamers on the Great Lakes was reduced from 10 to 5 cents per word with the usual 10 word minimum. This will make following corrections necessary on page 869 of the Tariff Book.

"For Coastwise vessels" from Buffalo, N. Y., Cleveland and Ashtabula, Ohio, Detroit, Mich., 5, instead of 10.; Benton Harbor, Ludington, Grand Haven, Frankfort and Mackinac Isl., Mich, Chicago, Ill., Milwaukee and Manitowoc, Wis., Calumet, Mich., and Sault Ste. Marie, Ont., 5, instead of 10.; Manistique, Mich., 5, instead of 12c.; Duluth, Minn., 5, instead of 10c. per word.

The rate for wireless transmission Duluth to Grand Marais, Minn., has been increased from 5 to 10 cents per word, restoring the 15 cent wireless rate shown in Tariff Book, for Lake Steamers via Grand Marais.

Manistique, Mich., is now a Western Union Check direct office and wireless rate for coastwise vessels (Great Lakes) shown on page 869 of Tariff Book is now 5, instead of 12 cents per word.

Effective at once the wireless word rates shown on pages 867, 868 and 869 of the Tariff Book will be further reduced to the following figures:

Siasconsett, Mass. For Coastwise vessels ..	.15
Key West, Fla. For Trans-Ocean vessels18
" " " " Coastwise vessels14
Eureka, Cal. For Trans-Ocean vessels	.14
Tatoosh I., Wash. " " " "	.15
North Head, Wash. " " " "	.14
Cape Blanco, Ore. " " " "	.16
Pt. Arguello, Cal. " " " "	.14
San Diego, Cal. .. " " " "	.14

Effective November 1st, the wireless rate on messages to and from coastwise ships at sea exchanged through Astoria, East San Pedro, Eureka, Friday Harbor, Marshfield, San Francisco, San Luis Obispo and Seattle coastal stations was reduced 5c. per word, making the wireless rate on messages to coastwise vessels only exchanged through any of the stations named 5c. less than the word rates published opposite such stations at the top of columns on pages 868 and 869 of the Tariff Book.

Through misunderstanding the notice published in the October Journal extended the above reduction to the Cape Blanco, North Head, Point Arguello, San Diego, Tatoosh Island and Victoria stations. The wireless rates to and from coastwise vessels exchanged through those stations are reduced, but only to the following figures:

Cape Blanco		10c.
Victoria	}	
North Head		
Point Arguello		
San Diego		09c.
		08c.

Wireless rates via all Pacific Coastal stations to Government vessels are 2c. per word higher in each case than rates quoted above.

Effective November 1st the following changes were made in the land-line word rates on ship's messages.

Between offices in Washington and coastal stations in Oregon, rate increased from 3 to 4c. per word.

Between offices in Oregon and coastal stations in Washington, rate reduced from 5 to 4c. per word.

Between offices in Oregon and coastal stations in the same state, rate reduced from 5 to 3c. per word.

Between offices in California and coastal stations in Oregon, rate reduced from 6 to 5c. per word.

Between offices in California and coastal stations in the same state, rate reduced from 4 to 3c. per word.

The New London wireless station has been reopened for service at rates shown on page 869 of Tariff Book.

The wireless connection via Fort Morgan, Ala. given in third column, page 868 of Tariff Book should be erased.

The wireless connection via Sayville, N. Y., has been discontinued and the rates via Sayville given in first and second column on page 867 of the Tariff Book are therefore canceled.

Effective January 1, 1914, South Wellfleet, Mass., will be discontinued as a wireless station for steamships in the Boston service and the Boston station will be used instead. The third column on page 867 of the Tariff Book should be corrected accordingly.

The high power station at South Wellfleet will be continued as formerly at rates shown in fourth column, page 867 of the Tariff Book.

J. C. WILLEVER,
United States Manager.

Accepting and Rating D. H. Messages.

1. Receiving Clerks shall be careful to write correct franks numbers immediately after the check in messages and shall be certain, before checking a message "D.H.", that it is, (a) properly covered by a D. H. Frank Card or D. H. Stamps, or, (b) properly approved in writing under Tariff Book Rule 24 for employe's messages, or (c) correctly checked "D. H. Answer to D. H." in reply to a received D. H. Message.

2. The D. H. Franks are of two general classes, viz., Business Frank Cards and Complimentary Frank Stamps and Cards, as follows:

- (a) The Business Frank Cards are generally issued to officers and agents of railroads and are restricted to messages relating to business of the respective carriers with which they are connected.

The term D. H. is used in connection with these franks and the messages are also sometimes referred to by employes as "Free", but it should be distinctly understood that these terms are used merely for convenience in checking or accounting as the messages transmitted thereunder are actually charged by the Auditor against the accounts of the respective carriers and thereafter paid for in cash or its equivalent.

- (b) Complimentary Frank Stamps are issued to officers, or to officers and members of their families, of common carriers and cover messages of a family or social character. The Stamps are numbered and bear the designating letters, A, B and C. Each stamp has the monetary value printed thereon and stamps should be attached to each message sufficient to cover the total tolls. In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

- (c) Personal complimentary frank cards are issued to officers or officers and members of their families of common carriers, and cover messages of a personal social character and are not good for personal business messages. They bear the designating letter "P".

3. "Dead Head Answer" messages need not be accompanied by copies of messages to which they are answers, provided receivers are satisfied that messages so tendered are answers to received D. H. messages.

4. Dead Head Franks should not be confused with Identification Cards, Half-Rate Franks, Government Rate Cards or Collect Cards. Messages filed under any of these four kinds of cards shall *not* be checked "D. H."

5. Receiving Clerks shall note in the upper right hand corner of message blank, above the space provided for "check," the amount of "This Line" tolls thereon computed at day message rates, unless the frank is specially endorsed good for night messages, day or night letters, in which case tolls at the respective rates shall be noted. Connecting line tolls if paid, shall be noted immediately after the word "Paid" in the check.

6. Messages to points on the lines of the International Ocean Telegraph Company, shall be rated at through rates from point of origin to point of destination, if the sender holds Western Union Frank endorsed good for message to I. O. T. points, or both Western Union and I. O. T. franks.

7. Messages to points on the line of the Great North Western Telegraph Company of Canada accepted from holders of both Western Union and G. N. W. franks, shall be rated at *one-half* of the amount of the through tolls which, in the case of messages checked D. H. over both lines, represents the Western Union proportion of the tolls. This amount (only one-half) shall be noted on the message.

8. Messages to I. O. T. and G. N. W. points accepted from parties holding Western Union franks only, or I. O. T. or G. N. W. franks only, shall be rated in accordance with Tariff Book Rules 133, 134, 138 and 139.

9. The same care should be used in rating Dead Head messages as is used in rating paid messages.

10. Half size pictures of the various franks and cards were distributed with the October 1913 Journal of the Telegraph and should be in the possession of every office for reference.

Revised Rule 79.

Dead Head Message Reports.

A monthly report of Dead Head messages shall be prepared on Form 38-A. One entry shall be made monthly for each Railroad, Express or other transportation company separately, showing name of company (or name of sender, if not a business message) number of sent D. H. messages and total tolls. Messages sent D. H. in answer to received D. H. messages shall be entered on one line as "Answers."

The original sent D. H. messages shall show the place of origin, the reason why D. H. and the tolls. The original sent D. H. messages, and copies of messages received D. H. from G. N. W. points, and the Form 38-A shall be forwarded with the monthly report.

Complimentary Stamp Franks With Monetary Values.

Commencing March 1st, 1914, the Complimentary Stamp Franks issued by this Company will have printed thereon the value in cents, and the value of stamps affixed to each message should equal or exceed the tolls.

In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

E. Y. GALLAHER,
Comptroller.

Foreign Transfer Service.

Money Transfer Rule XII-3 is hereby modified as follows:

Sender's name required.

In Transfers to Great Britain, Ireland, the Channel Islands and Belgium, the name of the sender shall be given. (Examples XIV-1 and 2).

In Transfers to other foreign countries, the name of the sender may be omitted, if desired, EXCEPT that when the payee is an ambassador, consul, bank, steamship agent, or firm accustomed to receiving a large number of remittances, the sender's name is necessary for the information of the payee, in order that the amount may be properly credited.

Charges for Money Transfers to Canada.

The correct charges for Money Transfers payable in Canada are shown in Rule III-2.

Managers are cautioned against accepting transfers for Canada at the reduced rates (Rule III-1) which are applicable to business between offices in the United States only.

Money Transfer Rule XII-I.

The second paragraph of Money Transfer Rule XII-1, relating to special Foreign Transfers, should be corrected to read as follows:

"The word 'Special' shall be inserted directly after the name of the paying station in every message directing the payment of \$100. or over and shall be included in the check, but not charged for."

Example:

Tragent,

New York.

Pay William Henry Justice 45 Regent St. London
Special from Frederick Hunter.

(Count all words).

Ck. 16 Free.

Money Transfer Drafts.

There is sometimes objection, on the part of payees, to the practice of placing the name of the depositor upon the draft issued in payment of a money transfer. This practice should, therefore, be discontinued, the space provided for the name on the transfer draft being left blank, unless for any reason the payee should request that the name be added.

HENRY G. BATES,
Manager Special Services.

Franks.

CONTRACT DEPARTMENT, August 18th, 1914.

The following Franks should be taken up if presented, and returned to this office for cancellation:

Business Franks.

No. 6502, issued on account of Louisiana Ry & Navigation Company.

No. 7917, issued on account of Macon, Dublin & Savannah Railroad Company.

Complimentary Frank.

No. C153.

Complimentary Franks and Half Rate Franks.

CONTRACT DEPARTMENT, June 20, 1914.

AMENDED NOTICE to the Western Union offices in Nebraska, New Hampshire Ohio, South Dakota, Wisconsin, California, Illinois, Indiana, Missouri, Montana, New York, Pennsylvania, and Texas.

Under the laws of the States of Nebraska, New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the law of the State of California you will not accept intra-state messages in that State under Half Rate Franks. Holders of such franks legally entitled to reduced rate service may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Illinois, affecting municipalities adopting commission form of government, it will not be legal to and you will not accept at such places intra-state messages in that State under Complimentary Franks, nor intra-state messages under Half Rate Franks. The following places

have adopted commission government to date:—

Braceville	Harrisburg
Carbondale	Jacksonville
Cairo	Kewanee
Catlin	Marseilles
Clinton	Murphysboro
Decatur	Moline
Dixon	Naperville
Elgin	Pekin
Forest Park	Rock Island
Hillsboro	Rochelle
Hamilton	Springfield
Harvey	Spring Valley
	Waukegan

Under the law of the State of Indiana it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company, nor intra-state messages under Half Rate Franks.

Under the law of the State of Missouri it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Montana it will not be legal to and you will not accept intra-state messages under Complimentary Franks; nor intra-state messages under Half Rate Franks.

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Pennsylvania it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells Fargo & Company.

G. W. E. ATKINS,
Vice-President.

TREASURER'S OFFICE.

Revised Instructions Regarding Bankruptcies,
Receiverships, Assignments, Etc.

Bankruptcies.

When the debtor to the Company avails of the National Bankruptcy laws and a Referee has been appointed, the Manager shall send to the Superintendent the name and address of the Referee and an itemized statement of the amount due from the Bankrupt provided the amount is enough to warrant filing a claim. If the papers are in proper form the Superintendent will forward to the Treasurer with recommendation and the Treasurer will file claim and send credit slip authorizing the office to take credit for the amount. As the Treasurer takes the accounts on his books all dividends should be sent to him, and when by error dividends are sent to the local office by Referees or others, they should be forwarded to the Treasurer.

Receiverships.

These are usually cases of insolvency where Receivers are appointed by State or Local Courts and should be distinguished from certain Bankruptcy cases in which temporary Receivers are appointed, pending the selection of Referees. The procedure will be as above described with the names and addresses of Receivers substituted for those of Referees. In Receiverships, itemized statements should be sent in duplicate.

Assignments.

In these, Assignees are appointed to represent the debtors and creditors. The procedure will be as first above outlined, with the substitution of Assignees for Referees. Itemized statements should be sent in duplicate.

Trusteeships.

These are where Trustees are appointed by agreement between debtors and creditors to save the expense of Bankruptcy or Receivership proceedings. The procedure shall be as first above outlined with the substitution of Trustees for Referees. Itemized statements should be sent in duplicate.

Propositions.

Propositions are sometimes made for settlement of such accounts as those above described on a compromise basis. Such propositions if favorably considered, should be promptly forwarded to the Superintendent and by him to the Treasurer with recommendation.

Small Claims.

It is usually not worth while to send in a claim for less than \$2.00 as the dividends are seldom enough to pay postage, etc. Claims for less than \$2.00 should therefore be handled in the manner provided for Uncollected Accounts unless the Manager has reason to believe that the dividends will more than pay the charges. In many cases even when the debts are larger than \$2.00 the assets are not enough to pay

postage. In these cases the Superintendent may direct the Manager to handle the accounts as other uncollectible accounts are handled.

A. R. BREWER,

Treasurer.

Approved,

B. BROOKS, Vice-President.

Telegraph and Telephone Life Ins. Assn.

This Association was founded in 1867, at the Western Union Telegraph Company's main office, New York, with a membership of 125. Since then there has been disbursed to the beneficiaries (principally widows and orphans) of its deceased members nearly One Million, Eight hundred thousand dollars, and the charter members still surviving have each paid but 569 assessments, an average of \$12.30 yearly for \$1,000.00 insurance.

The insurance is now offered in two grades, Full Grade \$1,000 and Half Grade \$500.00, benefit; with the small initiation fee of \$2.00 for each grade, from which \$1.00 is allowed towards the cost of medical examination, and there is no further charge thereafter for new certificates or other incidental expenses.

The assessment calls are based on age at entry as per following schedule and are not subject to change.

Age	Full Grade	Half Grade
18 to 30.	\$1.00	\$0.50
30 to 35.	\$1.25	\$0.63
35 to 40.	\$1.50	\$0.75
40 to 45.	\$2.00	\$1.00

The number of calls issued in any one year depends on the number of death claims filed, and averages about fifteen.

All engaged in telegraph or telephone service in good health, between ages of 18 and 45 are eligible for membership and no person of more than 45 can be admitted.

Membership once acquired cannot be affected by change of occupation or residence and certificates are incontestible for any cause whatever after one years membership.

The Association has been endorsed by the employing Companies; and is under the supervision of, and subject to periodical examination by the Insurance Department of the State of New York, who certified at a recent examination that:

"The affairs of the Association are in a most prosperous condition, claims are paid promptly and in full and the expenses of management are confined to office and other incidental expenses attending collection of assessments."

Reserve fund \$344,000, securely and profitably invested, yielding a generous income which is used to lower the mortality cost.

No more advantageous insurance can be had elsewhere, and as every one needs insurance, why delay.

Send for application forms to M. J. O'Leary, Secretary, P. O. Box 510, New York City.

TARIFF BUREAU.

WESTERN UNION TELEGRAPH CO.
NEW YORK, August 20, 1914.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the Tariff Book of July 1913, and Journal of June 20th., "Changes" are printed in "Italics"; "New offices" in "Roman" type.

The new Tariff Book, No. 59, will not be issued until about September 15th.

This issue of the Journal contains only the changes and additions made since the June Journal.

To ascertain the correct present status of Western Union offices and "other" line points, consult the Tariff Book of July, 1913, the Journal of the Telegraph of June 20th., 1914, and this Journal.

Complete lists of changes in and additions to Sheet "O" No. 4, Cable Rates, and List of Money Transfer offices, are shown on pages 6 to 12 inclusive.

WIRELESS.

Note 5, and the paragraph following, on page 842 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and the town of Bluefields, in Nicaragua, may be reached by wireless service from Colon (Rep. of Panama) at rate of 21c. per word in addition to the cable rate to Colon.

Note 6. Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 21c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 3, page 866 of Tariff Book should be corrected to read as follows:

"In accepting *Wireless Companies'* franks for messages via *Siasconsett, Mass.*, the amount covered by the wireless frank is 23c. per word. Via *Hatteras, N. C.* and *Grand Island, La.*, 10c. per word. *Friday Harbor, Wash.*, 20c. per word for *Trans-ocean vessels* and 10c. per word for *Coastwise vessels*. *Cape Ray, N. F.* and *Grand Marais, Minn.*, 10c. per word, FOR VESSELS TO WHICH THOSE RATES APPLY.

Foot note on page 868 of Tariff Book should be corrected to read as follows: † The wireless rate for coastwise vessels of the Booth, Lamport & Holt, Quebec, Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. to New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 824 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

Effective at once rate from Arizona to Commercial Pacific cable stations should be reduced by five cents per word, making it same as from California (except San Francisco and Oakland) Idaho, Nevada, etc. Pages 825 and 826 of the Tariff Book should be corrected accordingly.

DUTCH EAST INDIES.

Rate to Dutch East Indies, including Java and all other Islands, is now 98c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column all rates 20c. less.

HAWAIIAN ISLANDS.

Foot note on page 825 of the Tariff Book is hereby canceled and following substituted therefor:

Note: Other islands (Hawaii, Maui, Kauai and Molokai) 15c. per word more than rate to Honolulu.

Following is a list of offices in these islands:

Eleele	Kohala
Halawa	Koloa
Hamakuapoko	Lahaina
Hana	Laupahoehoe
Hanalei	Lihue
Hilo	Mahukona
Holualoa	Makawao
Honokaa	Makaweli
Kaanapali	Makena
Kahului	Nawiliwili
Kailua	Paia
Kalauao	Port Allen
Kalaupapa	Pukoo
Kamalo	Puuhene
Kapaa	Spreckelsville
Kaunakakai	Volcano House
Kawaihae	Waikapu
Kealahakua	Wailuku
Kealia	Wiamea, Hawaii
Kekaha	Waimea, Kauai
Kilauea	Waiohinu

Applicants for registration in Hawaiian Territory of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

PHILIPPINE ISLANDS.

Effective January 1, 1914, rates to Philippine Islands via Commercial Pacific Cable will be revised as follows:

Luzon:

Manila—no change.
 Other offices—no change.

Panay:

Iloilo—no change.
 Other offices—Increased by 9c. per word.

Negros:

Bacalod—no change.
 Other offices—Increased by 9c. per word.

Cebu:

Cebu—no change.
 Other offices—Increased by 9c. per word.

All other islands and offices—Increased by 9c. per word.

The foregoing corrects rates shown in page 826 of the Tariff Book.

ATLANTIC CABLES.

The following changes and additions beyond London are now in force.

AFRICA.

Word rate beyond London.

Belgian Congo:

All offices except Katanga, via Banana	.67
Katanga, via Broken Hill	.76
Other offices via Libreville	1.16
Other offices via Noqui	1.41
Fernando Po Island	1.29

Pages 831 to 835 of the Tariff Book should be corrected in accordance with the foregoing.

DUTCH EAST INDIES.

Wireless communication has been established from Sitoebondo, Java to Amboina, (Amboina Island) and Keopang, (Timor Island.) Rate same as to other Dutch East Indies. Messages accepted only at senders risk.

WEST INDIES.

CUBA.

Telegraph offices have been opened at the following places in Cuba:

TOWN	PROVINCE
Amarillas,	Matanzas,
Cabezas,	Matanzas.
Mata,	Santa Clara.
Melena del Sur.	Havana.
Quinta.	Santa Clara.
San Felipe.	Havana.

GUADALOUPE, ETC.

Effective February 1st the rates to Guadeloupe, Martinique, Marie Galante and Les Saintes were reduced 5c. per word less than rates shown on page 838 of the Tariff Book.

SAN DOMINGO,

The establishment of a new route to San Domingo via Wireless from Ponce, P. R., permits of the acceptance of messages for San Domingo at a reduction of 52 cents per word in the tariff. The dependability of this route having been established, it will be considered our normal route via which all messages to San Domingo will transit in future unless otherwise marked by the senders. Page 938 of the Tariff Book should be corrected so as to show the following tariffs:

From W. U. and G. N. W. offices in the U. S. east of the Miss. River, including St. Louis, Mo., and Minneapolis, Minn., to San Domingo—80 cents per word.

From W. U. offices in the U. S. west of the Miss. River, except St. Louis, Mo., and Minneapolis, Minn., and from W. U. offices in B. C. and from G. N. W. offices in Manitoba, to San Domingo—85 cents per word.

From W. U. and G. N. W. offices in N. B., N. S., Ontario and Quebec, to San Domingo—85 cents per word.

Messages marked "Via Hayti" will be accepted at the rates in force via that route; viz.: 20 cents per word higher than the rate via Ponce and Wireless.

SOUTH AMERICA.

BRAZIL.

Effective Apr. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book as \$1.11 from La. and Tex. and \$1.15 from other states and provinces) will be \$1.08 from La. and Tex. and \$1.12 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.41 from La. and Tex. and \$1.45 from other states and provinces) will be \$1.32 from La. and Tex. and \$1.36 from other states and provinces.

Wireless communication has been established with following places in Brazil.

Cruzeiro de Sul.	Senna Madurciria.
Porto Velho.	Tarauaca.
Rio Branco.	Napury.

	Via	Via
Rates per word:	Belem	Manaos
From La, and Texas...	1.30	1.61
From other States and Provinces	1.34	1.65

Messages for these places accepted only at senders risk and must be marked "Wireless Belem" or "Wireless Manaos," which indication shall be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

FRENCH GUIANA.

Effective June 1 rate to French Guiana was reduced by 7 cents per word. Tariff Book entry, page 838, should be corrected as follows:

	1st.	2nd.	3rd.
	Col.	Col.	Col.
French Guiana	1.31	1.36	1.36

PERU.

Wireless telegraph station has been opened at Itaya in Peru. Rate same as to Iquitos shown in page 841 of Tariff Book.

Effective at once rate to Iquitos, Masisea, Orellana and Requena in Peru shown in sixth column, page 841 of Tariff Book is restored.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Columbia "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book or JOURNAL, which, together, furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line delivery, or telephone charges, which should be provided for when messages are accepted.

Counter clerks must exercise great care in accepting messages addressed to passengers en route on trains. A full

and sufficient address should be obtained in every case, and when possible should give the following information:

- (a) The name of the addressee;
- (b) The name of the Railroad and the train number;
- (c) The car and berth number, if known, in the case of passengers traveling on sleeping cars;
- (d) The name of the points between which the addressee is traveling;
- (e) The time the train is due at the place where delivery is to be made;
- (f) The name of the place to which the message is to be checked and to which the message is to be delivered to the addressee or turned over to the conductor of the train.

Below are examples of complete train message addresses:

- (1) John Jones,
N. Y. C. Train three enroute
New York to Chicago.
Due Cleveland 10.35 P. M.
Cleveland, Ohio.
- (2) John Jones,
N. Y. C. Train fifteen, lower
10, car 5, enroute New York
to Chicago.
Due Cleveland 3.25 A. M.
Cleveland, Ohio.

MONEY TRANSFER SERVICE.

The following changes and additions supplement the list of Money Transfer offices:

The Dunduplex Wins a Fair and Honest Victory

In the United States District Court, on August 13, 1914, Judge Lacombe

Denied a Motion to Enjoin Dunduplex Transmitters

This motion had been made by J. E. Albright, general sales agent of Mecograph and Vibroplex transmitters.

DUNDUPLEX TRANSMITTERS have made a phenomenal hit—both in this country and abroad—because the **DUNDUPLEX** is the first sending machine ever invented that can be operated by a vertical, as well as a horizontal movement.

The new **Rubber Cushion Shock Absorber** on the Model "D", single lever machine, appeals to every operator as the only preventive of nervous strain that has, as yet, been embodied in a telegraph key.

We take this opportunity to thank American telegraphers for the kind support they have always given the **DUNDUPLEX** and desire to assure them that the **DUNDUPLEX** will still maintain its reputation of being **THE BEST TELEGRAPH TRANSMITTING KEY ON THE MARKET.**

DON'T THROW AWAY YOUR OLD "LEAKY", "SMEARY" FOUNTAIN PEN

We will allow you 50 cents for it, in exchange, for the only perfect fountain pen made.

Send it to us with \$2.00 and we will send you a pen that will be a source of never ending usefulness and comfort to you,—a pen that will do your bidding if you but guide it aright over the writing sheet

LAUGHLIN

AUTOMATIC—NON-LEAKABLE

SELF STARTING PEN

10 Days' Free Trial

You don't have to fuss and shake a Laughlin to start the ink—It's a *Self Starter*.

You don't have to fill the Laughlin, it's a *Self Filler*.

You don't have to clean the Laughlin, it's a *Self Cleaner*.

You don't have to monkey with dangerous, awkward or unsightly locks, extensions, or so-called Safety devices—There are none.

You can't forget to seal a Laughlin against leaking, it seals itself air-tight *Automatically*.

You can't lose your cap from a Laughlin—it secures itself *Automatically*.

You can't break your cap or holder on a Laughlin—They are *non-breakable*.

Holder and cap of scientific reinforced construction throughout. See illustration.

You don't have to wait until a Laughlin is ready. It is ready to write when you are; the air-tight leak-proof construction keeps pen and feed "primed", insuring a free uniform flow of ink instantly—even though not previously used for a year.

It performs these functions with no more hindrance or interruption to your thoughts or writing inspiration than your breathing.

These results—or your money back.

These features are peculiar only to this patented construction.

If you have no discarded back number dropper filler to send us in exchange, this pen will be promptly forwarded upon receipt of

Price \$2.50

Salesmen, also Selling Agents, wanted to solicit the trade on this widely advertised writing wonder.

J. H. BUNNELL & CO., Inc. THE TELEGRAPH INSTRUMENT MAKERS
20 PARK PLACE : : : NEW YORK

8 1914

JOURNAL OF THE TELEGRAPH

VOL. XLVI.

NEW YORK, SEPTEMBER 20, 1914.

WHOLE NO. 735.

The new Tariff Book, No. 59, will be issued soon.

This issue of the Journal contains only the changes and additions made since the June Journal.

To ascertain the present status of Western Union offices and "other" line points, consult the Tariff Book of July, 1913, the Journal of the Telegraph of June 20th, 1914, and this Journal.

Complete lists of changes in, and additions to Sheet "O" No. 4, Cable rates, and List of Money Transfer Offices are shown in pages 6 to 12 inclusive.

JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY BY

THE WESTERN UNION TELEGRAPH COMPANY

NEWCOMB CARLTON WILLIAM H. BAKER, A. R. BREWER
President. Secretary. Treasurer.

195 BROADWAY, NEW YORK CITY.

Regarding Amended Rule 1.

In order that there may be no misunderstanding concerning the proper practice under the amended Rule 1, published in the Journal of the Telegraph of June 20th, 1914, and again published in this issue, the following should be carefully noted:

The foundation of the rule is that every person filing a message with this company stands on the same footing. It makes no difference whether he happens to be an employe of another telegraph company or any other individual.

Keep the following distinction clearly in mind:

This company alone has the right to determine how a message filed with it shall be checked and dated. ("Date" as used in this notice includes the "place from" and the day of the month).

The person filing a message has the right to determine how the address, text and signature of the message shall read.

Therefore:

Any check marks appearing on a message before it is filed with this company should be disregarded. The message should be checked by this company in accordance with its rules.

If a message is tendered bearing a date not in conformity with Rule 1, the person filing the message should be advised that such date will be disregarded. If he then fails to date the message properly, it should nevertheless be accepted, but the improper date should be disregarded and the employe of this company receiving the message should date it in accordance with Rule 1.

Assume, for example, that a representative of another telegraph company offers to file at our office at Chicago a message dated Philadelphia and destined to an exclusive Western Union point. He should be told that the Philadelphia date will be disregarded and that the message will be dated Chicago. If he files the message without eliminating the Philadelphia date and placing on it the proper Chicago date, the receiving clerk will nevertheless accept the message and will date it Chicago, and the Philadelphia date will be disregarded. In the same way, if the message as offered should bear the dating "Philadelphia, Pa., via Chicago, Ill.", the person offering it should be advised that the date "Philadelphia, Pa., via Chicago, Ill." will be disregarded and that the message will be dated Chicago, and the receiving clerk should proceed as above. If, after being told that improper dates will be disregarded and that the message (in the examples cited) will be dated Chicago, the person offering the message declines to file it, that is his affair. As far as this company is concerned, it stands ready to receive it and to transmit it with the proper date as prescribed by Rule 1.

The person filing the message may, if he desires, indicate in the text that the message originally came from some other point than the one at which it is filed with this company. This is not a requirement. It rests wholly with him whether he wants to do so or not. Whether he does so or not, the message should be accepted as finally filed by him and counted and charged for in accordance with our rules. No employe of this company shall add anything to, or take anything from, the text of any message offered to this company for transmission.

If a person filing a message with this company desires to write additional words after the signature, to be transmitted, it is his privilege to do so, and such extra words should be counted and charged for in accordance with our rules.

Extra words in the address should also be counted and charged for in accordance with our rules.

All the foregoing applies to messages filed by representatives of another telegraph company as well as to all other messages.

Amended Rule 1.

Messages to be on Message Forms and Dated from the Place where Filed with this Company.

Each message for transmission shall be written upon the form provided by the company for that purpose, or shall be attached to such form by the sender, or by the person presenting the message as the sender's agent, so as to leave the printed heading in full view above the message.

Every message handed in for transmission at an office or agency of this company shall show as its point of origin the name of the city or town where such office or agency is located, and shall show the date when it is filed with this company.

A message telephoned by the sender to this company for transmission shall show as its point of origin the name of the city or town from which it is telephoned.

A message originating at a point on a connecting telegraph line at which there is no Western Union office and transferred to the lines of this company at the transfer point designated in the Tariff Book of this company, shall show as its point of origin and as its date the name of the city or town where, and the date when, it was originally filed with the connecting company and need not show the name of the place where or the date when it is filed with this company.

No message received by this company for transmission shall bear a point of origin or date otherwise than in accordance with the foregoing.

Note: For instructions governing the forwarding of messages see Rule 8.

Amended Rule 8.**Forwarding of Messages.**

In case a person, having received a message **over the lines of this company**, requests the same to be forwarded to another place; or if a person leave town before the arrival of an expected message and it be received **over the lines of this company** and forwarded to him,—in each of these instances the message as forwarded will show, in addition to the name of the place from which it is forwarded and the date, the name of the place and state from which it was originally sent and the word "via", and the name of the place and state from which it was originally sent and the word "via" will be counted and charged for. For example, if the following message were originally sent **over lines of this company** from New York to Troy, N. Y., and forwarded from Troy to Buffalo, it would be checked and dated thus:

"13 paid 3 extra
New York, N. Y.,

Via Troy, N. Y., Oct. 24

John Brown,

Buffalo, N. Y.

Meet me next Monday at ten o'clock in the forenoon.

H. Smith."

In this message the words "New York, N. Y." and "via" will be forwarded as a part of the message and charged for.

If the message to be forwarded is a back-date message, the original date will be shown in figures, counted and charged for. For example, (assuming the same message as above, but as a back-date message).

"15 paid 5 extra

New York, N. Y. 23

Via Troy, N. Y., Oct. 24

John Brown,

Buffalo, N. Y.

Meet me next Monday at ten o'clock in the forenoon.

H. Smith."

In this message the words "New York, N. Y., 23" and "via", five words, will be forwarded as a part of the message, and charged for.

When a message, which has been received over the lines of this company and which is to be forwarded, is a "received collect" message, the forwarding office will check it so that the tariff from the forwarding office to destination, and the tariff from the originating office to the forwarding office, shall appear separately and as a double check.

Illustration: Suppose the tariff from New York to Troy to be 25 and 2, and from Troy to Buffalo 35 and 2, and a ten-word message has been sent "collect" by New York to Troy, which the latter office is to forward to Buffalo; Troy should check the message (counting three extra words): "14 collect 41 and 25, three extra." The "41" represents the tolls for thirteen words from Troy to Buffalo and "25" represents the tolls for ten words from New York to Troy. If the message be a back-date message, Troy should check the message: "15 collect 43 and 25, four extra", or "16 collect 45 and 25, five extra", according to whether the figures indicating the back-date consist of one or two numerals.

All service messages relating to forwarded messages carrying a via should be addressed to the via point and not to the originating point.

Addition to Instructions in Tariff Book.

Effective at once, the following is inserted immediately preceding paragraph 7, page IV, of the Tariff Book.

The points at which messages originating at "other" line telegraph offices should be transferred to this company are shown in the Tariff Book immediately after the names of the "other" line points.

For example:

* Brilliant. 25-2 Montgomery.

This indicates that Montgomery is the proper place of transfer for messages originating at Brilliant.

When a message destined to an exclusive Western Union, International Ocean or Great North Western point is filed with another telegraph company at a point where the Western Union, the International Ocean or the Great North Western Company has an office or agency, the proper place of transfer is the point of origin.

Rules 121 and 123.

Effective at once, Rules 121 and 123 are revised as follows and Form 81, Press Report, is abolished.

Rule 121—Revised. Reporting Business.

The tolls on all press specials or queries sent or received at press rates, except such as are described in Rule 123, shall be included with other receipts and checks in the Check Report, Form 7.

A daily record shall be kept of the amount of "This Line Press Tolls" so included, and at the end of the month an entry shall be made below the *grand total*, at the foot of the check report, Column "A" of the total "Press", which deducted from the *grand total* will show the "Telegraph Tolls, This Line" which should also be noted. The total of these two items when footed will equal the *grand total* of Column A, Form 7.

Enter on the Monthly Report, Form 4R, or other form provided on line 1, the "Telegraph Tolls, This Line" and on line 19 the total "Press". See Rule 78.

Rule 123—Revised. Unchecked Business.

Unchecked business is regular circuit matter sent from a common distributing point to four or more receiving stations, for and on account of a press association, arranged by order of Superintendents and should not be included in Form 7 nor reported in any way except when special instructions are received from the Accounting Department.

Rule 71.

Effective May 1st, 1914, Rule 71 is amended as follows:

All revenue accruing from "Paid Here" full rate cablegrams, deferred rate cablegrams, cable letters, week end letters, press cablegrams, deferred press cablegrams and trans-oceanic wireless messages, including charges to cover prepaid replies, and the tolls on messages answering cablegrams carrying prepaid replies, shall be accounted for in one total as "Cable Tolls" on monthly report, Form 4 (or similar report provided). The use of Form 67 is discontinued.

Credit shall be taken under "Cable Refunds" on Form 4, for the tolls on a cablegram sent in answer to one received bearing the indication "RP", not

exceeding the maximum number of words designated in the "RP". Enclose with reports, copies of such answers to "RP" cablegrams as vouchers, with the amount of tolls endorsed thereon. These instructions partly revise Cable Rule 24.

Amounts refunded in accordance with cable rules shall be taken credit for as "Cable Refunds" on the Form 4 and the amounts shall be supported by properly approved vouchers. See Cable Rule 27 in the Tariff Book.

Managers shall use great care to see that the amounts reported are correct, in order to avoid subsequent adjustment. The Cable messages shall be filed separately in such a manner that a complete detailed report can be furnished promptly if requested.

Rule 75.

Rule 75 is amended as follows:

"The amount entered on Form 4-A or Form 4 as 'Paid Other Lines' shall represent:

- (a) Actual disbursements in payment of 'other line' tolls (including special delivery charges) on messages delivered *and payments of extra words on forwarded messages*, supported by properly receipted vouchers.
- (b) 'Other line' tolls on forwarded messages supported by copies of messages. See Rule 8."

Rule 100.

The attention of managers is directed to the importance of strict compliance with Rule 100, in connection with subpoenas calling for the production of messages in court. Several instances have recently come to light where messages which should have been presented in open court were instead turned over to court attendants.

Rule 36.

Effective July 1st, 1914, the following paragraph is added to Rule 36:

"If the service message asking for a duplicate is signed by a branch office, or by an employee, the duplicated message in addition to the word, 'Duplicate' after the check, shall carry as a part of the address, before the destination, the word, 'care' followed by the name of the branch office or employee requesting the duplicate."

It is no longer necessary to send a service message with a duplicate.

Money Transfer Messages.

The following will be inserted as Rule 25-A in the Tariff Book, and should be particularly noted by

those offices which are not supplied with the Rules for Money Transfer Service:

Messages necessary in the transaction of the company's money transfer service, filed by regular transfer agents, or filed by banks authorized to act for the company and addressed to other banks or to transfer agents and relating only to the payment of Western Union money transfers, shall be checked and sent "free." No entry of these messages shall be made in Free Message Report, Form 38, or in Check Report, Form 7.

Insufficient Addresses.

Insufficient addresses endanger the prompt delivery of messages, with possible serious consequences to our patrons, and burden the company with needless expense in service messages and clerical labor.

The attention of all managers is again directed to Note, Rule 2:

"The importance of the address cannot be overestimated. When the address given seems insufficient, a better one should be requested."

Senders should in every case be asked to give the addressee's street address or, if that is not available, such information as can be concisely inserted in the address and will aid in insuring prompt delivery of the message.

Government Messages.

The published Government rates shall be applied only to official business of the Government, and all telegrams for which Government rate is claimed, should be endorsed "Official Business" by the sender on sent paid business and by the addressee on received collect business.

The United States Attorney General has ruled that "for personal telegrams where the rates are not payable out of public moneys, the regular public rates should apply, and settlement to the Telegraph Company should be made on this basis. To do otherwise would be in conflict with the regulations of the Interstate Commerce Commission, prohibiting preferential or discriminatory practices."

Week End Letter Service Chili and Peru.

Effective September 1st, 1913, the Week End Letter Service now in effect with Argentine Republic was extended to Chili and Peru (Except Wireless Stations) at the same rates and under the same regulations governing that service to Argentine shown on pages 858 and 859 of the Tariff Book.

Week End Letters for Argentine, Chili and Peru filed up to midnight Saturday will hereafter be due for delivery on Monday morning instead of Tuesday morning.

Deferred Cable Service.

The following have been added to list of places shown on page 861 of Tariff Book to which Deferred Cable Service is in operation.

Bolivia, So. America.	Formosa via London.
Borneo (Dutch), via	Japan via London.
London.	Nauru Island.
Chili, So. America.	Peru, So. America. *
Cyprus.	Tripoli.

* Except Wireless Stations.

It should be noted that Deferred Cable Service is now in force to Amazon River Stations in Brazil.

Offices should note especially that senders of Deferred Cables must in every case write before the address and pay for as one word the letters LCF, LCO or LCD, as in the nature of a declaration that the communication is in the French language or the language of country of origin or destination as the case may be.

Trans-Atlantic Wireless Service.

Instructions on page 862 of the Tariff Book to the effect that the amount prepaid for replies to Marconigrams must be expressed in terms of full cable rates should, effective April 1st, be changed to read:

"The same provision for prepaid replies to trans-Atlantic wireless messages may be made as for prepaid replies to cablegrams, but in the case of wireless trans-Atlantic messages the amount for the prepaid reply must be expressed in terms of the full wireless rate instead of the full cable rate.

Upon receipt of a Marconigram to which a reply has been prepaid the delivery clerk will from April 1st write under the message, before delivery, the words:

"Reply to the value of paid for" and will arrive at the amount expressed as prepaid by calculating the tolls at full Marconigram rates on the number of words in the RP indication.

The attention of offices is drawn to the fact that in future trans-Atlantic wireless messages should be prefixed "MARCONI" instead of "RADIO" and the instructions on page 862 of the Tariff Book should be corrected accordingly.

Wireless messages to and from Steamers will continue to be prefixed "RADIO."

Wireless Messages to and from Steamers.

(See also Page T 8).

Effective May 1st, 1914, radio messages on official U. S. Government business shall be checked paid; the indication "Govt." shall be inserted immediately before the address and shall be counted and charged

for. Such messages are as a rule routed via the following U. S. Government radio stations:—

Charleston, S. C.	Eureka, Calif.
Jupiter, Flo.	Point Arguello, Calif.
St. Augustine, Flo.	San Diego, Calif.
Pensacola, Flo.	Cape Blanco, Oreg.
Key West, Flo.	North Head, Wash.

Tatoosh, Wash.

and when official messages are so routed by senders and are addressed to U. S. Government vessels the wireless service is free, the only charge to be made being the Government rates for our service from points of origin to coastal stations as given on pages XII, XIII and XIV of the Tariff Book.

When official Government messages are sent via other stations to other than Government vessels the wireless rates quoted on pages 867, 868 and 869, in addition to the Postmaster General's rate above referred to for our service apply.

Pursuant to the International Radiotelegraphic Convention, which by proclamation of the President of the United States became effective on September 1st, the provisions of the Cable Rules relating to repetitions, acknowledgments of receipts and prepaid replies as printed on page 815 of the Tariff Book are applicable to the wireless service to and from ships at sea,—and notations to that effect should be made on page 866 of the Tariff Book, canceling the reference printed thereon in regard to the inadmissibility of prepaid replies.

The amounts prepaid for replies to messages addressed to ships-at-sea should be expressed in dollars and cents instead of in words at full rates, and a minimum of ten words must be charged for in every case. In these important respects the practice differs from the method of expressing and dealing with RP charges in cablegrams and trans-ocean wireless messages, but in all other respects the general instructions in reference to such charges printed on pages 815 and 816 of the Tariff Book should be carefully followed, except that of course Form 7 instead of Form 67 should be used in reporting the messages. In no case should RP charges be refunded save on the authority of the Manager of the Cable Bureau. The foregoing of course applies equally to messages received from ships-at-sea, the RP indication in which will be understood as referring to amounts prepaid and not to the number of words paid for.

It should also be noted that the preamble "EXPRESS", when the same appears immediately before the address in such message, conveys the information that any published special delivery or other terminal charges have been prepaid by the sender. Similarly the preamble "PR" signifies that delivery is to be by registered mail from the terminal telegraph office and that all post-office charges have been prepaid.

The attention of offices is drawn to the fact that by agreement between the administrations operating coastal wireless stations, reports of non-delivery and other similar service correspondence need not necessarily be exchanged through the coastal station via which the original message was routed, but may be exchanged through any other coastal station which may be in nearer range at the time that the occasion for such correspondence arises.

Effective July 1st, 1913, the wireless rate to and from steamers on the Great Lakes was reduced from 10 to 5 cents per word with the usual 10 word minimum. This will make following corrections necessary on page 869 of the Tariff Book.

"For Coastwise vessels" from Buffalo, N. Y., Cleveland and Ashtabula, Ohio, Detroit, Mich., 5, instead of 10.; Benton Harbor, Ludington, Grand Haven, Frankfort and Mackinac Isl., Mich., Chicago, Ill., Milwaukee and Manitowoc, Wis., Calumet, Mich., and Sault Ste. Marie, Ont., 5, instead of 10.; Manistique, Mich., 5, instead of 12c.; Duluth, Minn., 5, instead of 10c. per word.

The rate for wireless transmission Duluth to Grand Marais, Minn., has been increased from 5 to 10 cents per word, restoring the 15 cent wireless rate shown in Tariff Book, for Lake Steamers via Grand Marais.

Manistique, Mich., is now a Western Union check direct office and wireless rate for coastwise vessels (Great Lakes) shown on page 869 of Tariff Book is now 5, instead of 12 cents per word.

Effective at once the wireless word rates shown on pages 867, 868 and 869 of the Tariff Book will be further reduced to the following figures:

Siasconsett, Mass. For Coastwise vessels ..	.15
Key West, Fla, For Trans-Ocean vessels18
“ “ “ “ Coastwise vessels14
Eureka, Cal. For Trans-Ocean vessels	.14
Tatoosh I., Wash. “ “ “ “	.15
North Head, Wash. “ “ “ “	.14
Cape Blanco, Ore. “ “ “ “	.16
Pt. Arguello, Cal. “ “ “ “	.14
San Diego, Cal. .. “ “ “ “	.14

Effective November 1st, the wireless rate on messages to and from coastwise ships at sea exchanged through Astoria, East San Pedro, Eureka, Friday Harbor, Marshfield, San Francisco, San Luis Obispo and Seattle coastal stations was reduced 5c. per word, making the wireless rate on messages to coastwise vessels only exchanged through any of the stations named 5c. less than the word rates published opposite such stations at the top of columns on pages 868 and 869 of the Tariff Book.

Through misunderstanding the notice published in the October Journal extended the above reduction to the Cape Blanco, North Head, Point Arguello, San Diego, Tatoosh Island and Victoria stations. The wireless rates to and from coastwise vessels exchanged through those stations are reduced, but only to the following figures:

Cape Blanco		10c.
Victoria	}	
North Head		
Point Arguello		08c.
San Diego		09c.

Wireless rates via all Pacific Coastal stations to Government vessels are 2c. per word higher in each case than rates quoted above.

Effective November 1st the following changes were made in the land-line word rates on ship's messages.

Between offices in Washington and coastal stations in Oregon, rate increased from 3 to 4c. per word.

Between offices in Oregon and coastal stations in Washington, rate reduced from 5 to 4c. per word.

Between Offices in Oregon and coastal stations in the same state, rate reduced from 5 to 3c. per word.

Between offices in California and coastal stations in Oregon, rate reduced from 6 to 5c. per word.

Between offices in California and coastal stations in the same state, rate reduced from 4 to 3c. per word.

The New London wireless station has been reopened for service at rates shown on page 869 of Tariff Book.

The wireless connection via Fort Morgan, Ala., given in third column, page 868 of Tariff Book should be erased.

The wireless connection via Sayville, N. Y., has been discontinued and the rates via Sayville given in first and second column on page 867 of the Tariff Book are therefore canceled.

Effective January 1, 1914, South Wellfleet, Mass., will be discontinued as a wireless station for steamships in the Boston service and the Boston station will be used instead. The third column on page 867 of the Tariff Book should be corrected accordingly.

The high power station at South Wellfleet will be continued as formerly at rates shown in fourth column, page 867 of the Tariff Book.

J. C. WILLEVER,
Commercial General Manager.

Complimentary Stamp Franks With Monetary Values.

Commencing March 1st, 1914, the Complimentary Stamp Franks issued by this Company will have printed thereon the value in cents, and the value of stamps affixed to each message should equal or exceed the tolls.

In certain cases, such as on trains, where messages are offered, and the tolls cannot then be determined, the messages may be accepted with stamps affixed in estimated amounts. If the value of the stamps does not equal the correct amount of tolls, a note shall be affixed to the message in forwarding such messages with the Monthly Dead Head Message Report, Form 38, and the Auditor will secure additional stamps from the sender if necessary.

E. Y. GALLAHER,
Comptroller.

Foreign Transfer Service.

Money Transfer Rule XII-3 is hereby modified as follows:

Sender's name required.

In Transfers to Great Britain, Ireland, the Channel Islands and Belgium, the name of the sender shall be given. (Examples XIV-1 and 2).

In Transfers to other foreign countries, the name of the sender may be omitted, if desired, EXCEPT that when the payee is an ambassador, consul, bank, steamship agent, or firm accustomed to receiving a large number of remittances, the sender's name is necessary for the information of the payee, in order that the amount may be properly credited.

Charges for Money Transfers to Canada.

The correct charges for Money Transfers payable in Canada are shown in Rule III-2.

Managers are cautioned against accepting transfers for Canada at the reduced rates (Rule III-1) which are applicable to business between offices in the United States only.

Money Transfer Rule XII-I.

The second paragraph of Money Transfer Rule XII-1, relating to special Foreign Transfers, should be corrected to read as follows:

"The word 'Special' shall be inserted directly after the name of the paying station in every message directing the payment of \$100. or over and shall be included in the check, but not charged for."

Example:

Tragent,
New York.
Pay William Henry Justice 45 Regent St. London
Special from Frederick Hunter.
(Count all words).
Ck. 16 Free.

Money Transfer Drafts.

There is sometimes objection, on the part of payees, to the practice of placing the name of the depositor upon the draft issued in payment of a money transfer. This practice should, therefore, be discontinued, the space provided for the name on the transfer draft being left blank, unless for any reason the payee should request that the name be added.

Franks.

CONTRACT DEPARTMENT, September 16th, 1914.

The following Franks should be taken up if presented, and returned to this office for cancellation:

Business Franks

No. 6502, issued on account of Louisiana Ry. and Navigation Company.

No. 15466, issued on account of Pere Marquette Railroad Company.

Complimentary Franks.

Nos. B283 and C153.

Complimentary Franks and Half Rate Franks.

CONTRACT DEPARTMENT, June 20, 1914.

AMENDED NOTICE to the Western Union offices in Nebraska, New Hampshire, Ohio, South Dakota, Wisconsin, California, Illinois, Indiana, Missouri, Montana, New York, Pennsylvania, and Texas.

Under the laws of the States of Nebraska, New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the law of the State of California you will not accept intra-state messages in that State under Half Rate Franks. Holders of such franks legally entitled to reduced rate service may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Illinois, affecting municipalities adopting commission form of government, it will not be legal to and you will not accept at such places intra-state messages in that State under Complimentary Franks, nor intra-state messages under Half Rate Franks. The following places have adopted commission government to date:—

Braceville	Decatur
Carbondale	Dixon
Cairo	Elgin
Catlin	Forest Park
Clinton	Hillsboro

Hamilton	Moline
Harvey	Naperville
Harrisburg	Pekin
Jacksonville	Rock Island
Kewanee	Rochelle
Marseilles	Springfield
Murphysboro	Spring Valley
	Waukegan

Under the law of the State of Indiana it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company, nor intra-state messages under Half Rate Franks.

Under the law of the State of Missouri it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Montana it will not be legal to and you will not accept intra-state messages under Complimentary Franks; nor intra-state messages under Half Rate Franks.

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Pennsylvania it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells Fargo & Company.

G. W. E. ATKINS,
Vice-President.

TREASURER'S OFFICE.

Revised Instructions Regarding Bankruptcies, Receiverships, Assignments, Etc. Bankruptcies.

When the debtor to the Company avails of the National Bankruptcy laws and a Referee has been appointed, the Manager shall send to the Superin-

tendent the name and address of the Referee and an itemized statement of the amount due from the Bankrupt provided the amount is enough to warrant filing a claim. If the papers are in proper form the Superintendent will forward to the Treasurer with recommendation and the Treasurer will file claim and send credit slip authorizing the office to take credit for the amount. As the Treasurer takes the accounts on his books all dividends should be sent to him, and when by error dividends are sent to the local office by Referees or others, they should be forwarded to the Treasurer.

Receiverships.

These are usually cases of insolvency where Receivers are appointed by State or Local Courts and should be distinguished from certain Bankruptcy cases in which temporary Receivers are appointed, pending the selection of Referees. The procedure will be as above described with the names and addresses of Receivers substituted for those of Referees. In Receiverships, itemized statements should be sent in duplicate.

Assignments.

In these, Assignees are appointed to represent the debtors and creditors. The procedure will be as first above outlined, with the substitution of Assignees for Referees. Itemized statements should be sent in duplicate.

Trusteeships.

These are where Trustees are appointed by agreement between debtors and creditors to save the expense of Bankruptcy or Receivership proceedings. The procedure shall be as first above outlined with the substitution of Trustees for Referees. Itemized statements should be sent in duplicate.

Propositions.

Propositions are sometimes made for settlement of such accounts as those above described on a compromise basis. Such propositions if favorably considered, should be promptly forwarded to the Superintendent and by him to the Treasurer with recommendation.

Small Claims.

It is usually not worth while to send in a claim for less than \$2.00 as the dividends are seldom enough to pay postage, etc. Claims for less than \$2.00 should therefore be handled in the manner provided for Uncollected Accounts unless the Manager has reason to believe that the dividends will more than pay the charges. In many cases even when the debts are larger than \$2.00 the assets are not enough to pay postage. In these cases the Superintendent may direct the Manager to handle the accounts as other uncollectible accounts are handled.

A. R. BREWER,
Treasurer.

Telegraph and Telephone Life Ins. Assn.

This Association was founded in 1867, at the Western Union Telegraph Company's main office, New York, with a membership of 125. Since then there has been disbursed to the beneficiaries (principally widows and orphans) of its deceased members nearly One Million, Eight hundred thousand dollars, and the charter members still surviving have each paid but 569 assessments, an average of \$12.30 yearly for \$1,000.00 insurance.

The insurance is now offered in two grades, Full Grade \$1,000 and Half Grade \$500.00, benefit; with the small initiation fee of \$2.00 for each grade, from which \$1.00 is allowed towards the cost of medical examination, and there is no further charge thereafter for new certificates or other incidental expenses.

The assessment calls are based on age at entry as per following schedule and are not subject to change.

Age	Full Grade	Half Grade
18 to 30.	\$1.00	\$0.50
30 to 35.	\$1.25	\$0.63
35 to 40.	\$1.50	\$0.75
40 to 45.	\$2.00	\$1.00

The number of calls issued in any one year depends on the number of death claims filed, and averages about fifteen.

All engaged in telegraph or telephone service in good health, between ages of 18 and 45 are eligible for membership and no person of more than 45 can be admitted.

Membership once acquired cannot be affected by change of occupation or residence and certificates are incontestible for any cause whatever after one years membership.

The Association has been endorsed by the employing Companies; and is under the supervision of, and subject to periodical examination by the Insurance Department of the State of New York, who certified at a recent examination that:

"The affairs of the Association are in a most prosperous condition, claims are paid promptly and in full and the expenses of management are confined to office and other incidental expenses attending collection of assessments."

Reserve fund \$344,000, securely and profitably invested, yielding a generous income which is used to lower the mortality cost.

No more advantageous insurance can be had elsewhere, and as every one needs insurance, why delay.

Send for application forms to M. J. O'Leary, Secretary, P. O. Box 510, New York City.

TARIFF BUREAU.

WESTERN UNION TELEGRAPH CO.
NEW YORK, September 20, 1914.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the *Tariff Book of July 1913*, and *Journal of June 20th.*, "Changes" are printed in "Italics"; "New offices" in "Roman" type.

The new *Tariff Book*, No. 59, will be issued soon.

This issue of the *Journal* contains only the changes and additions made since the *June Journal*.

To ascertain the correct present status of Western Union offices and "other" line points, consult the *Tariff Book of July, 1913*, the *Journal of the Telegraph of June 20th., 1914*, and this *Journal*.

Complete lists of changes in and additions to Sheet "O" No. 4, Cable Rates, and List of Money Transfer offices, are shown on pages 7 to 14 inclusive.

WIRELESS.

Note 5, and the paragraph following, on page 842 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and the town of Bluefields, in Nicaragua may be reached by wireless service from Colon (Rep. of Panama) at rate of 20c. per word in addition to the cable rate to Colon.

Note 6. Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 20c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 2, page 866 of Tariff Book should be corrected to read as follows:

"In accepting Wireless Communications franks for messages via Siasconsett, Mass., the amount covered by the wireless franks is 23c. per word. Via Hatteras, N. C. and Grand Island, La., 10c. per word. Friday Harbor, Wash., 20c. per word for Trans-ocean vessels and 10c. per word for Coastwise vessels. Cape Ray, N. F. and Grand Marais, Minn., 10c. per word, for VESSELS TO WHICH THOSE RATES APPLY."

Foot note on page 868 of Tariff Book should be corrected to read as follows:

† The wireless rate for coastwise vessels of the Booth, Lamport & Holt, Quebec

Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. to New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 824 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

Effective at once rate from Arizona to Commercial Pacific cable stations should be reduced by five cents per word, making it same as from California (except San Francisco and Oakland) Idaho, Nevada, etc. Pages 825 and 826 of the Tariff Book should be corrected accordingly.

DUTCH EAST INDIES.

Rate to Dutch East Indies, including Java and all other Islands, is now 98c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column all rates 20c. less.

HAWAIIAN ISLANDS.

Foot note on page 825 of the Tariff Book is hereby canceled and following substituted therefor:

Note: Other islands (Hawaii, Maui, Kauai and Molokai) 15c. per word more than rate to Honolulu.

Following is a list of offices in these islands:

Eleele	Kohala
Halawa	Koloa
Hamakua	Lahaina
Hana	Laupahoehoe
Hanalei	Lihue
Hilo	Mahukona
Holualoa	Makawao
Honokaa	Makaweli
Kaanapali	Makena
Kahului	Nawiliwili
Kailua	Paia
Kalauao	Port Allen
Kalaupapa	Pukoo
Kamalo	Puuhene
Kapaa	Spreckelsville
Kaunakakai	Volcano House
Kawaihae	Waikapu
Kealahou	Wailuku
Kealia	Wiamea, Hawaii
Kekaha	Waimea, Kauai
Kilauea	Waiohinu

Applicants for registration in Hawaiian Territory of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

PHILIPPINE ISLANDS.

Effective January 1, 1914, rates to Philippine Islands via Commercial Pacific Cable will be revised as follows:

Luzon:
Manila—no change.
Other offices—no change.

Panay:
Iloilo—no change.
Other offices—Increased by 9c. per word.

Negros:
Bacolod—no change.
Other offices—Increased by 9c. per word.

Cebu:
Cebu—no change.
Other offices—Increased by 9c. per word.

All other islands and offices—Increased by 9c. per word.
The foregoing corrects rates shown in page 826 of the Tariff Book.

Pages 831 to 835 of the Tariff Book should be corrected in accordance with the foregoing.

DUTCH EAST INDIES.

Wireless communication has been established from Sitoebondo, Java to Amboina, (Amboina Island) and Keopang, (Timor Island.) Rate same as to other Dutch East Indies. Messages accepted only at senders risk.

WEST INDIES.

CUBA.

Telegraph offices have been opened at the following places in Cuba:

Town	Province
Amarillas,	Matanzas,
Arroyo Naranjo,	Havana,
Cabezas,	Matanzas.
Mata,	Santa Clara.
Melena del Sur.	Havana.
Quinta.	Santa Clara.
San Felipe.	Havana.

GUADALOUPE, ETC.

Effective February 1st the rates to Guadeloupe, Martinique, Marie Galante and Les Saintes were reduced 5c. per word less than rates shown on page 838 of the Tariff Book.

SAN DOMINGO.

The establishment of a new route to San Domingo via Wireless from Ponce, P. R., permits of the acceptance of messages for San Domingo at a reduction of 52 cents per word in the tariff. The dependability of this route having been established, it will be considered our normal

route via which all messages to San Domingo will transit in future unless otherwise marked by the senders. Page 338 of the Tariff Book should be corrected so as to show the following tariffs:

From W. U. and G. N. W. offices in the U. S. east of the Miss. River, including St. Louis, Mo., and Minneapolis, Minn., to San Domingo—80 cents per word.

From W. U. offices in the U. S. west of the Miss. River, except St. Louis, Mo., and Minneapolis, Minn., and from W. U. offices in B. C. and from G. N. W. offices in Manitoba, to San Domingo—85 cents per word.

From W. U. and G. N. W. offices in N. B., N. S., Ontario and Quebec, to San Domingo—85 cents per word.

Messages marked "Via Hayti" will be accepted at the rates in force via that route; viz.: 20 cents per word higher than the rate via Ponce and Wireless.

SOUTH AMERICA.

BRAZIL.

Effective Apr. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book as \$1.11 from La. and Tex. and \$1.15 from other states and provinces) will be \$1.08 from La. and Tex. and \$1.12 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.41 from La. and Tex. and \$1.45 from other states and provinces) will be \$1.32 from La. and Tex. and \$1.36 from other states and provinces.

Wireless communication has been established with following places in Brazil.

Cruzeiro de Sul.	Senna Madureira.
Porto Velho.	Tarauaca.
Rio Branco.	Napury.

Rates per word:	Belem	Manaos
From La. and Texas...	1.30	1.61
From other States and Provinces	1.34	1.65

Messages for these places accepted only at senders risk and must be marked "Wireless Belem" or "Wireless Manaos," which indication shall be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

FRENCH GUIANA.

Effective June 1 rate to French Guiana was reduced by 7 cents per word. Tariff Book entry, page 838, should be corrected as follows:

	1st.	2nd.	3rd.
	Col.	Col.	Col.
French Guiana	1.31	1.36	1.36

PERU.

Wireless telegraph station has been opened at Itaya in Peru. Rate same as to Iquitos shown in page 841 of Tariff Book.

Effective at once rate to Iquitos, Masisea, Orellana and Requena in Peru shown in sixth column, page 841 of Tariff Book is restored.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Columbia "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book or JOURNAL, which, together, furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line delivery, or telephone charges, which should be provided for when messages are accepted.

MONEY TRANSFER SERVICE.

SPECIAL NOTICES.

Transfers to be paid at Western Union Transfer offices will be accepted by the Postal Telegraph Cable Co., of Texas.

Orders from the offices of the Texas Postal will pass through the Texas Company's Agent at Dallas, and will be signed "T. P. M. T. A." Western Union Transfer Agents will report the payment of such transfers as under the name of the originating office and not under Dallas, unless the transfer originated at Dallas.

Service messages in reference to Money Orders from the Texas Postal will be protected by the words in Cipher "B" Sheet used with the Texas Postal Agent at Dallas.

Following is a list of the Texas Postal offices: Fort Smith, Helena, Hot Springs, Little Rock, Pine Bluff, Texarkana, in Arkansas. Alexandria, Crowley, Lake Charles, Monroe, Morgan City, Shreveport, in Louisiana. Ardmore, Chickasha, McAlester, Muskogee, Oklahoma City, Tulsa, in Oklahoma. Austin, Beaumont, Dallas, Denison, Fort Worth, Galveston, Houston, Marshall, Orange, Paris, Port Arthur, San Antonio, Sherman, Taylor, Texarkana, Waco, in Texas. Joplin, in Missouri.

JOURNAL OF THE TELEGRAPH.

Telegraphy & Train Operation

by retired railway officer.

All graduates placed in R. R. Telegraph service direct. Expenses earned. Opportunities unexcelled

PELNAH SCHOOL OF TELEGRAPHY,

MADISON, WIS.

WE ARE PARCEL-POST NEIGHBORS

The best bug cords 50 cents each. Old sending machines repaired; nickel-plating; safety razor blades sharpened 20 cents per dozen. We sell and repair everything electrical and mechanical. Manufacturing, experimental and die work a specialty. Tell us your wants.

BENTON MANUFACTURING CO., Not Inc.,
 656 West 55th Street Chicago, Ills.

DON'T THROW AWAY YOUR OLD "LEAKY," "SMEARY" FOUNTAIN PEN
 We will allow you 50 cents for it, in exchange, for the only perfect fountain pen made.

Send it to us with \$2.00 and we will send you a pen that will be a source of never ending usefulness and comfort to you,—a pen that will do your bidding if you but guide it aright over the writing sheet

LAUGHLIN

**AUTOMATIC—NON-LEAKABLE
 SELF-STARTING PEN**

10 Days' Free Trial

You don't have to fuss and shake a Laughlin to start the ink—*It's a Self Starter.*
 You don't have to fill the Laughlin, *it's a Self Filler.*
 You don't have to clean the Laughlin, *it's a Self Cleaner.*

You don't have to monkey with dangerous, awkward or unsightly locks, extensions, or so-called Safety devices—*There are none.*

You can't forget to seal a Laughlin against leaking, it seals itself air-tight *Automatically.*

You can't lose your cap or holder on a Laughlin—*They are non-breakable.*

You can't break your cap or holder on a Laughlin—*They are non-breakable.*

Holder and cap of scientific reinforced construction throughout. *See illustration.*

You don't have to wait until a Laughlin is ready. It is ready to write when you are; the air-tight leak-proof construction keeps pen and feed "primed", insuring a free uniform flow of ink instantly—even though not previously used for a year.

It performs these functions with no more hindrance or interruption to your thoughts or writing inspiration than your breathing. *These results—or your money back.*

These features are peculiar only to this patented construction.

If you have no discarded back number dropper filler to send us in exchange, this pen will be promptly forwarded upon receipt of

Price \$2.50

Salesmen, also Selling Agents, wanted to solicit the trade on this widely advertised writing wonder.

**Manifold Ruling Pen . . \$1.00
 Real Agate Point Stylus \$1.00**

The Dunduplex Wins a Fair and Honest Victory

In the United States District Court, on August 13, 1914, Judge Lacombe

Denied a Motion to Enjoin Dunduplex Transmitters

HERE IS YOUR OPPORTUNITY.

IT WILL COST YOU NOTHING.

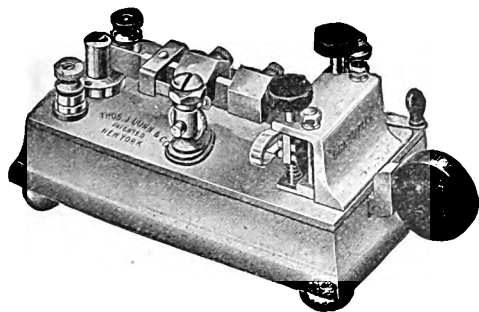

\$5.00 and we will ship you the new Model "D" Dunduplex for personal examination.

Balance payable if satisfied. You risk nothing. Test this wonderful transmitter yourself, and be convinced that it is the best sending machine ever produced.

Model "D" is equipped with the new **Dunn Cushion Device**, for the protection of your nerves and health. After you try this one feature you'll never want to go back to the old-fashioned wig-wags again.

THOS. J. DUNN & CO.

No. 1 BROADWAY -- NEW YORK

MARCONI OPERATORS SEE THE WORLD

The Radio (Wireless) operator finds his work congenial, entertaining, instructive and intensely interesting. He is, in fact, an officer of the ship. Our school is recognized as a Marconi Wireless Training School by the Marconi Wireless Telegraph Company of America. We have a contract with the latter Company whereby our graduates are to receive preference for positions on the Great Lakes and Gulf Divisions over applicants from all other schools or sources, not excluding their own schools on the Atlantic and Pacific Coasts. Our graduates have an equal opportunity of securing employment on the Coasts Divisions with graduates from their own schools. The course of instruction obtainable in our Radio Department is the most thorough and comprehensive given anywhere. Graduates have no difficulty in obtaining U. S. Government first-grade licenses. Tuition reasonable—special rates offered to Morse operators. Living expenses very low. Opportunity to earn same. We also teach practically and thoroughly Morse or Wire, Railway and Commercial Telegraphy, and Railway Accounting (Station Agency). Largest School. Annual enrollment exceeds 600. Established 40 years. Investment exceeds \$25,000.00. Send for large illustrated catalog.

DODGE'S TELEGRAPH, RAILWAY ACCOUNTING & RADIO (WIRELESS) INSTITUTE. 4th Street, Valparaiso, Indiana.

See the World and Get Paid for Doing It.

Announcing the NEW MODEL-VIBROPLEX No. 4

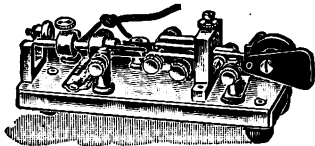

Small enough to carry in the pocket.

An achievement in sending machine construction.

In announcing the new model—VIBROPLEX No. 4—we point out that this small model embodies every feature that has made the Famous Martin Vibroplex the most efficient sending machine manufactured.

VIBROPLEX No. 4

A Model of Beauty and Efficiency.

The Number 4 is less than half the size of the Old-Style Single Lever, and weighs only two and one-half pounds.

Handsomely finished in nickel plate with an attractive base of blue enamel. . . \$10.00

Nickel-Plated Base 12.00

A marvel of speed, smoothness of action, and ease of manipulation. Made especially to meet the demands of that large army of telegraph operators who desire a small, light-weight but efficient sending machine. The same sending possibilities, the same carrying qualities that characterize the work of the Martin Vibroplex, together with the same strength and durability, are found in the Vibroplex No. 4.

Old-Style Japanned Base (Single Lever)	\$10.00	Double Lever, Japanned Base	\$10.00
Nickel Plated Base	12.00	Nickel Plated Base	12.00
Model X, Japanned Base.	12.00	Mecograph No. 3	9.00
Nickel Plated Base	14.00	Mecograph Premier	10.00

WARNING! We warn all intending purchasers of Sending Machines not to be misled by advertisements of Thos. J. Dunn & Co., concerning the action of the judge before whom motion for preliminary injunction, pending a trial upon the merits, was recently made by us. The court merely declared that "the question whether the defendant's (Dunn's) structures are infringements may be decided more satisfactorily at final (hearing) than on affidavits." The suit involves but one of the patents owned and controlled by us and will be pushed to final hearing. We hold the Dunn machines to be infringements of several of our other patents on which additional suits will also be prosecuted.

TELE.

JOURNAL OF THE TELEGRAPH.

VOL. XLVI.

NEW YORK, OCTOBER 20, 1914.

WHOLE NO. 736.

The new Tariff Book, No. 59, will be issued soon.

This issue of the Journal contains only the changes and additions made since the June Journal.

To ascertain the present status of Western Union offices and "other" line points, consult the Tariff Book of July, 1913, the Journal of the Telegraph of June 20th, 1914, and this Journal.

Complete lists of changes in, and additions to Sheet "O" No. 4, Cable rates, and List of Money Transfer offices are shown in pages 10 to 18 inclusive.

JOURNAL OF THE TELEGRAPH.

PUBLISHED MONTHLY BY

THE WESTERN UNION TELEGRAPH COMPANY

NEWCOMB CARLTON
President.

WILLIAM H. BAKER,
Secretary.

A. R. BREWER
Treasurer.

195 BROADWAY, NEW YORK CITY.

Regarding Amended Rule 1.

In order that there may be no misunderstanding concerning the proper practice under the amended Rule 1, published in the Journal of the Telegraph of June 20th, 1914, and again published in this issue, the following should be carefully noted:

The foundation of the rule is that every person filing a message with this company stands on the same footing. It makes no difference whether he happens to be an employe of another telegraph company or any other individual.

Keep the following distinction clearly in mind:

This company alone has the right to determine how a message filed with it shall be checked and dated. ("Date" as used in this notice includes the "place from" and the day of the month).

The person filing a message has the right to determine how the address, text and signature of the message shall read.

Therefore:

Any check marks appearing on a message before it is filed with this company should be disregarded. The message should be checked by this company in accordance with its rules.

If a message is tendered bearing a date not in conformity with Rule 1, the person filing the message should be advised that such date will be disregarded. If he then fails to date the message properly, it should nevertheless be accepted, but the improper date should be disregarded and the employe of this company receiving the message should date it in accordance with Rule 1.

Assume, for example, that a representative of another telegraph company offers to file at our office at Chicago a message dated Philadelphia and destined to an exclusive Western Union point. He should be told that the Philadelphia date will be disregarded and that the message will be dated Chicago. If he files the message without eliminating the Philadelphia date and placing on it the proper Chicago date, the receiving clerk will nevertheless accept the message and will date it Chicago, and the Philadelphia date will be disregarded. In the same way, if the message as offered should bear the dating "Philadelphia, Pa., via Chicago, Ill.", the person offering it should be advised that the date "Philadelphia, Pa., via Chicago, Ill." will be disregarded and that the message will be dated Chicago, and the receiving clerk should proceed as above. If, after being told that improper dates will be disregarded and that the message (in the examples cited) will be dated Chicago, the person offering the message declines to file it, that is his affair. As far as this company is concerned, it stands ready to receive it and to transmit it with the proper date as prescribed by Rule 1.

The person filing the message may, if he desires, indicate in the text that the message originally came from some other point than the one at which it is filed with this company. This is not a requirement. It rests wholly with him whether he wants to do so or not. Whether he does so or not, the message should be accepted as finally filed by him and counted and charged for in accordance with our rules. No employe of this company shall add anything to, or take anything from, the text of any message offered to this company for transmission.

If a person filing a message with this company desires to write additional words after the signature, to be transmitted, it is his privilege to do so, and such extra words should be counted and charged for in accordance with our rules.

Extra words in the address should also be counted and charged for in accordance with our rules.

All the foregoing applies to messages filed by representatives of another telegraph company as well as to all other messages.

Amended Rule 1.

Messages to be on Message Forms and Dated from the Place where Filed with this Company.

Each message for transmission shall be written upon the form provided by the company for that purpose, or shall be attached to such form by the sender, or by the person presenting the message as the sender's agent, so as to leave the printed heading in full view above the message.

Every message handed in for transmission at an office or agency of this company shall show as its point of origin the name of the city or town where such office or agency is located, and shall show the date when it is filed with this company.

A message telephoned by the sender to this company for transmission shall show as its point of origin the name of the city or town from which it is telephoned.

A message originating at a point on a connecting telegraph line at which there is no Western Union office and transferred to the lines of this company at the transfer point designated in the Tariff Book of this company, shall show as its point of origin and as its date the name of the city or town where, and the date when, it was originally filed with the connecting company and need not show the name of the place where or the date when it is filed with this company.

No message received by this company for transmission shall bear a point of origin or date otherwise than in accordance with the foregoing.

Note: For instructions governing the forwarding of messages see Rule 8.

Amended Rule 8.**Forwarding of Messages.**

In case a person, having received a message over the lines of this company, requests the same to be forwarded to another place; or if a person leave town before the arrival of an expected message and it be received over the lines of this company and forwarded to him,—in each of these instances the message as forwarded will show, in addition to the name of the place from which it is forwarded and the date, the name of the place and state from which it was originally sent and the word "via", and the name of the place and state from which it was originally sent and the word "via" will be counted and charged for. For example, if the following message were originally sent over lines of this company from New York to Troy, N. Y., and forwarded from Troy to Buffalo, it would be checked and dated thus:

"13 paid 3 extra
New York, N. Y.,
Via Troy, N. Y., Oct. 24

John Brown,

Buffalo, N. Y.

Meet me next Monday at ten o'clock in the forenoon.

H. Smith."

In this message the words "New York, N. Y." and "via" will be forwarded as a part of the message and charged for.

If the message to be forwarded is a back-date message, the original date will be shown in figures, counted and charged for. For example, (assuming the same message as above, but as a back-date message).

"15 paid 5 extra
New York, N. Y. 23
Via Troy, N. Y., Oct. 24

John Brown,

Buffalo, N. Y.

Meet me next Monday at ten o'clock in the forenoon.

H. Smith."

In this message the words "New York, N. Y., 23" and "via", five words, will be forwarded as a part of the message, and charged for.

When a message, which has been received over the lines of this company and which is to be forwarded, is a "received collect" message, the forwarding office will check it so that the tariff from the forwarding office to destination, and the tariff from the originating office to the forwarding office, shall appear separately and as a double check.

Illustration: Suppose the tariff from New York to Troy to be 25 and 2, and from Troy to Buffalo 35 and 2, and a ten-word message has been sent "collect" by New York to Troy, which the latter office is to forward to Buffalo; Troy should check the message (counting three extra words): "14 collect 41 and 25, three extra." The "41" represents the tolls for thirteen words from Troy to Buffalo and "25" represents the tolls for ten words from New York to Troy. If the message be a back-date message, Troy should check the message: "15 collect 43 and 25, four extra", or "16 collect 45 and 25, five extra", according to whether the figures indicating the back-date consist of one or two numerals.

All service messages relating to forwarded messages carrying a via should be addressed to the via point and not to the originating point.

Addition to Instructions in Tariff Book.

Effective at once, the following is inserted immediately preceding paragraph 7, page IV, of the Tariff Book.

The points at which messages originating at "other" line telegraph offices should be transferred to this company are shown in the Tariff Book immediately after the names of the "other" line points.

For example:

* Brilliant. 25-2 Montgomery.

This indicates that Montgomery is the proper place of transfer for messages originating at Brilliant.

When a message destined to an exclusive Western Union, International Ocean or Great North Western point is filed with another telegraph company at a point where the Western Union, the International Ocean or the Great North Western Company has an office or agency, the proper place of transfer is the point of origin.

Rules 121 and 123.

Effective at once, Rules 121 and 123 are revised as follows and Form 81, Press Report, is abolished.

Rule 121—Revised. Reporting Business.

The tolls on all press specials or queries sent or received at press rates, except such as are described in Rule 123, shall be included with other receipts and checks in the Check Report, Form 7.

A daily record shall be kept of the amount of "This Line Press Tolls" so included, and at the end of the month an entry shall be made below the *grand total*, at the foot of the check report Column "A" of the total "Press", which deducted from the *grand total* will show the "Telegraph Tolls, This Line" which should also be noted. The total of these two items when footed will equal the *grand total* of Column A, Form 7.

Enter on the Monthly Report, Form 4R, or other form provided on line 1, the "Telegraph Tolls, This Line" and on line 19 the total "Press". See Rule 78.

Rule 123—Revised. Unchecked Business.

Unchecked business is regular circuit matter sent from a common distributing point to four or more receiving stations, for and on account of a press association, arranged by order of Superintendents and should not be included in Form 7 nor reported in any way except when special instructions are received from the Accounting Department.

Rule 71.

Effective May 1st, 1914, Rule 71 is amended as follows:

All revenue accruing from "Paid Here" full rate cablegrams, deferred rate cablegrams, cable letters, week end letters, press cablegrams, deferred press cablegrams and trans-oceanic wireless messages, including charges to cover prepaid replies, and the tolls on messages answering cablegrams carrying prepaid replies, shall be accounted for in one total as "Cable Tolls" on monthly report, Form 4 (or similar report provided). The use of Form 67 is discontinued.

Credit shall be taken under "Cable Refunds" on Form 4, for the tolls on a cablegram sent in answer to one received bearing the indication "RP", not

exceeding the maximum number of words designated in the "RP". Enclose with reports, copies of such answers to "RP" cablegrams as vouchers, with the amount of tolls endorsed thereon. These instructions partly revise Cable Rule 24.

Amounts refunded in accordance with cable rules shall be taken credit for as "Cable Refunds" on the Form 4 and the amounts shall be supported by properly approved vouchers. See Cable Rule 27 in the Tariff Book.

Managers shall use great care to see that the amounts reported are correct, in order to avoid subsequent adjustment. The Cable messages shall be filed separately in such a manner that a complete detailed report can be furnished promptly if requested.

Rule 75.

Rule 75 is amended as follows:

"The amount entered on Form 4-A or Form 4 as 'Paid Other Lines' shall represent:

- (a) Actual disbursements in payment of 'other line' tolls (including special delivery charges) on messages delivered and payments of *extra words on forwarded messages*, supported by properly receipted vouchers.
- (b) 'Other line' tolls on forwarded messages supported by copies of messages. See Rule 8."

Rule 100.

The attention of managers is directed to the importance of strict compliance with Rule 100, in connection with subpoenas calling for the production of messages in court. Several instances have recently come to light where messages which should have been presented in open court were instead turned over to court attendants.

Rule 36.

Effective July 1st, 1914, the following paragraph is added to Rule 36:

"If the service message asking for a duplicate is signed by a branch office, or by an employee, the duplicated message in addition to the word 'Duplicate' after the check, shall carry as a part of the address, before the destination, the word 'care' followed by the name of the branch office or employee requesting the duplicate."

It is no longer necessary to send a service message with a duplicate.

Money Transfer Messages.

The following will be inserted as Rule 25-A in the Tariff Book, and should be particularly noted by

those offices which are not supplied with the Rules for Money Transfer Service:

Messages necessary in the transaction of the company's money transfer service, filed by regular transfer agents, or filed by banks authorized to act for the company and addressed to other banks or to transfer agents and relating only to the payment of Western Union money transfers, shall be checked and sent "free." No entry of these messages shall be made in Free Message Report, Form 38, or in Check Report, Form 7.

Insufficient Addresses.

Insufficient addresses endanger the prompt delivery of messages, with possible serious consequences to our patrons, and burden the company with needless expense in service messages and clerical labor.

The attention of all managers is again directed to Note, Rule 2:

"The importance of the address cannot be overestimated. When the address given seems insufficient, a better one should be requested."

Senders should in every case be asked to give the addressee's street address or, if that is not available, such information as can be concisely inserted in the address and will aid in insuring prompt delivery of the message.

Government Messages.

The published Government rates shall be applied only to official business of the Government, and all telegrams for which Government rate is claimed, should be endorsed "Official Business" by the sender on sent paid business and by the addressee on received collect business.

The United States Attorney General has ruled that "for personal telegrams where the rates are not payable out of public moneys, the regular public rates should apply, and settlement to the Telegraph Company should be made on this basis. To do otherwise would be in conflict with the regulations of the Interstate Commerce Commission, prohibiting preferential or discriminatory practices."

Week End Letter Service Chili and Peru.

Effective September 1st, 1913, the Week End Letter Service now in effect with Argentine Republic was extended to Chili and Peru (Except Wireless Stations) at the same rates and under the same regulations governing that service to Argentine shown on pages 858 and 859 of the Tariff Book.

Week End Letters for Argentine, Chili and Peru filed up to midnight Saturday will hereafter be due for delivery on Monday morning instead of Tuesday morning.

Deferred Cable Service.

The following have been added to list of places shown on page 861 of Tariff Book to which Deferred Cable Service is in operation.

Bolivia, So. America.	Formosa via London.
Borneo (Dutch), via	Japan via London.
London.	Nauru Island.
Chili, So. America.	Peru, So. America. *
Cyprus.	Tripoli.

* Except Wireless Stations.

It should be noted that Deferred Cable Service is now in force to Amazon River Stations in Brazil.

Offices should note especially that senders of Deferred Cables must in every case write before the address and pay for as one word the letters LCF, LCO or LCD, as in the nature of a declaration that the communication is in the French language or the language of country of origin or destination as the case may be.

Trans-Atlantic Wireless Service.

Instructions on page 862 of the Tariff Book to the effect that the amount prepaid for replies to Marconigrams must be expressed in terms of full cable rates should, effective April 1st, be changed to read:

"The same provision for prepaid replies to trans-Atlantic wireless messages may be made as for prepaid replies to cablegrams, but in the case of wireless trans-Atlantic messages the amount for the prepaid reply must be expressed in terms of the full wireless rate instead of the full cable rate.

Upon receipt of a Marconigram to which a reply has been prepaid the delivery clerk will from April 1st write under the message, before delivery, the words:

"Reply to the value of paid for" and will arrive at the amount expressed as prepaid by calculating the tolls at full Marconi rates on the number of words in the RP indication.

The attention of offices is drawn to the fact that in future trans-Atlantic wireless messages should be prefixed "MARCONI" instead of "RADIO" and the instructions on page 862 of the Tariff Book should be corrected accordingly.

Wireless messages to and from Steamers will continue to be prefixed "RADIO."

Wireless Messages to and from Steamers.

(See also Page T 12).

Effective May 1st, 1914, radio messages on official U. S. Government business shall be checked paid; the indication "Govt." shall be inserted immediately before the address and shall be counted and charged

for. Such messages are as a rule routed via the following U. S. Government radio stations:—

Charleston, S. C.	Eureka, Calif.
Jupiter, Flo.	Point Arguello, Calif.
St. Augustine, Flo.	San Diego, Calif.
Pensacola, Flo.	Cape Blanco, Oreg.
Key West, Flo.	North Head, Wash.

Tatoosh, Wash.

and when official messages are so routed by senders and are addressed to U. S. Government vessels the wireless service is free, the only charge to be made being the Government rates for our service from points of origin to coastal stations as given on pages XII, XIII and XIV of the Tariff Book.

When official Government messages are sent via other stations to other than Government vessels the wireless rates quoted on pages 867, 868 and 869, in addition to the Postmaster General's rate above referred to for our service apply.

Pursuant to the International Radiotelegraphic Convention, which by proclamation of the President of the United States became effective on September 1st, the provisions of the Cable Rules relating to repetitions, acknowledgments of receipts and prepaid replies as printed on page 815 of the Tariff Book are applicable to the wireless service to and from ships at sea,—and notations to that effect should be made on page 866 of the Tariff Book, canceling the reference printed thereon in regard to the inadmissibility of prepaid replies.

The amounts prepaid for replies to messages addressed to ships-at-sea should be expressed in dollars and cents instead of in words at full rates, and a minimum of ten words must be charged for in every case. In these important respects the practice differs from the method of expressing and dealing with RP charges in cablegrams and trans-ocean wireless messages, but in all other respects the general instructions in reference to such charges printed on pages 815 and 816 of the Tariff Book should be carefully followed, except that of course Form 7 instead of Form 67 should be used in reporting the messages. In no case should RP charges be refunded save on the authority of the Manager of the Cable Bureau. The foregoing of course applies equally to messages received from ships-at-sea, the RP indication in which will be understood as referring to amounts prepaid and not to the number of words paid for.

It should also be noted that the preamble "EX-PRESS", when the same appears immediately before the address in such message, conveys the information that any published special delivery or other terminal charges have been prepaid by the sender. Similarly the preamble "PR" signifies that delivery is to be by registered mail from the terminal telegraph office and that all post-office charges have been prepaid.

The attention of offices is drawn to the fact that by agreement between the administrations operating coastal wireless stations, reports of non-delivery and other similar service correspondence need not necessarily be exchanged through the coastal station via which the original message was routed, but may be exchanged through any other coastal station which may be in nearer range at the time that the occasion for such correspondence arises.

Effective July 1st, 1913, the wireless rate to and from steamers on the Great Lakes was reduced from 10 to 5 cents per word with the usual 10 word minimum. This will make following corrections necessary on page 869 of the Tariff Book.

"For Coastwise vessels" from Buffalo, N. Y., Cleveland and Ashtabula, Ohio, Detroit, Mich., 5, instead of 10.; Benton Harbor, Ludington, Grand Haven, Frankfort and Mackinac Isl., Mich., Chicago, Ill., Milwaukee and Manitowoc, Wis., Calumet, Mich., and Sault Ste. Marie, Ont., 5, instead of 10.; Manistique, Mich., 5, instead of 12c.; Duluth, Minn., 5, instead of 10c. per word.

The rate for wireless transmission Duluth to Grand Marais, Minn., has been increased from 5 to 10 cents per word, restoring the 15 cent wireless rate shown in Tariff Book, for Lake Steamers via Grand Marais.

Manistique, Mich., is now a Western Union check direct office and wireless rate for coastwise vessels (Great Lakes) shown on page 869 of Tariff Book is now 5, instead of 12 cents per word.

Effective at once the wireless word rates shown on pages 867, 868 and 869 of the Tariff Book will be further reduced to the following figures:

Siasconset, Mass. For Coastwise vessels ..	.15
Key West, Fla., For Trans-Ocean vessels ..	.18
" " " " Coastwise vessels14
Eureka, Cal. For Trans-Ocean vessels	.14
Tatoosh I., Wash. " " " "	.15
North Head, Wash. " " " "	.14
Cape Blanco, Ore. " " " "	.16
Pt. Arguello, Cal. " " " "	.14
San Diego, Cal. ... " " " "	.14

Effective November 1st, the wireless rate on messages to and from coastwise ships at sea exchanged through Astoria, East San Pedro, Eureka, Friday Harbor, Marshfield, San Francisco, San Luis Obispo and Seattle coastal stations was reduced 5c. per word, making the wireless rate on messages to coastwise vessels only exchanged through any of the stations named 5c. less than the word rates published opposite such stations at the top of columns on pages 868 and 869 of the Tariff Book.

Through misunderstanding the notice published in the October Journal extended the above reduction to the Cape Blanco, North Head, Point Arguello, San Diego, Tatoosh Island and Victoria stations. The wireless rates to and from coastwise vessels exchanged through those stations are reduced, but only to the following figures:

Cape Blanco	}	10c.
Victoria		
North Head		08c.
Point Arguello		
San Diego		09c.

Wireless rates via all Pacific Coastal stations to Government vessels are 2c. per word higher in each case than rates quoted above.

Effective November 1st, the following changes were made in the land-line word rates on ship's messages.

Between offices in Washington and coastal stations in Oregon, rate increased from 3 to 4c. per word.

Between offices in Oregon and coastal stations in Washington, rate reduced from 5 to 4c. per word.

Between offices in Oregon and coastal stations in the same state, rate reduced from 5 to 3c. per word.

Between offices in California and coastal stations in Oregon, rate reduced from 6 to 5c. per word.

Between offices in California and coastal stations in the same state, rate reduced from 4 to 3c. per word.

Communication via Siasconset, Mass., wireless station is interrupted. Short distance messages may be sent via South Wellfleet at rate 20 cents per word for the wireless service.

The New London wireless station has been reopened for service at rates shown on page 869 of Tariff Book.

The wireless connection via Fort Morgan, Ala., given in third column, page 868 of Tariff Book, should be erased.

The wireless connection via Sayville, N. Y., has been discontinued and the rates via Sayville given in first and second column on page 867 of the Tariff Book are therefore canceled.

Effective January 1, 1914, South Wellfleet, Mass., will be discontinued as a wireless station for steamships in the Boston service and the Boston station will be used instead. The third column on page 867 of the Tariff Book should be corrected accordingly.

The high power station at South Wellfleet will be continued as formerly at rates shown in fourth column, page 867 of the Tariff Book.

J. C. WILLEVER,

Commercial General Manager.

Money Transfers for Alaska and Yukon.

Money Transfer Rules XV-2 and XV-5, governing transfers payable in Alaska and Yukon, should be changed to read as follows:

XV-2.

(A) Charges for Transfers

(Except to Chitina and Shushanna Junction).

The charges for Money Transfers to places in Alaska and Yukon (except Chitina and Shushanna Junction—See paragraph B.) are:

FIRST—PREMIUM.

A premium of 1 per cent., with a minimum of 25c., plus \$1.00 for each \$100.00 or fraction thereof; and in addition thereto:

SECOND—TELEGRAPH CHARGES.

Charge for one 15-word message to Seattle, Wash., plus one 10-word message from Seattle to paying office (Example XV-5, No. 1).

(B) Charges for Transfers to

Chitina and Shushanna Junction, Alaska.

The charges for Money Transfers to Chitina and Shushanna Junction are:

FIRST—PREMIUM.

A premium of 1 per cent., with a minimum of 25c., plus \$2.00 for each \$100.00 or fraction thereof; and in addition thereto:

SECOND—TELEGRAPH CHARGES.

To Chitina—Charge for one 15-word message to Seattle, Wash., and add \$3.40 for charges beyond Seattle.

To Shushanna Junction—Charge for one 15-word message to Seattle, Wash., and add \$3.90 for charges beyond Seattle. (Example XV-5, No. 3).

XV-5.

Examples.

NO. 1.

Transfer of \$50.00, Jamaica, N. Y., to Nome, Alaska. Message from Indirect Office to Transfer Agent.

Transfer Agent,

New York.

Pay Robert L. Baxter, Nome, Alaska (— — —) from John Brown, Jamaica, N. Y.

(Ck. 13 words).

The charges on the above to be paid at Jamaica, would be:

PREMIUM.

1 per cent. of \$50.00 = .50 + \$1.00 = \$1.50

TELEGRAPH TOLLS.

One 15-word message to Seattle ... \$1.35

One 10-word message Seattle to Nome 3.80 5.15

\$6.65

NO. 2.

Above Transfer—Message from Transfer Agent to Seattle.

Transfer Agent,
Seattle, Wash.

Pay Robert L. Baxter, Nome, Alaska (— — —) from John Brown, Jamaica, N. Y.
(Ck. 13 words).

NO. 3.

Transfer of \$50.00, Jamaica, N. Y. to Chitina, Alaska. Message from Indirect Office to Transfer Agent.

Transfer Agent,
New York, N. Y.

Pay John Doe, Chitina, Alaska (— — —) from Richard Roe, Jamaica, N. Y.
(Ck. 12 words).

The charges on the above transfer to be paid at Jamaica, would be:

PREMIUM.

1 per cent. of \$50.00 = .50 + \$2.00 = \$2.50

TELEGRAPH TOLLS.

One 15-word message to Seattle ...	\$1.35	
Charges Seattle to Chitina	3.40	4.75
		<hr/> \$7.25

Foreign Transfer Service.

Money Transfer Rule XII-3 is hereby modified as follows:

Sender's name required.

In Transfers to Great Britain, Ireland, the Channel Islands and Belgium, the name of the sender shall be given. (Examples XIV-1 and 2).

In Transfers to other foreign countries, the name of the sender may be omitted, if desired, EXCEPT that when the payee is an ambassador, consul, bank, steamship agent, or firm accustomed to receiving a large number of remittances, the sender's name is necessary for the information of the payee, in order that the amount may be properly credited.

Charges for Money Transfers to Canada.

The correct charges for Money Transfers payable in Canada are shown in Rule III-2.

Managers are cautioned against accepting transfers for Canada at the reduced rates (Rule III-1) which are applicable to business between offices in the United States only.

Money Transfer Rule XII-I.

The second paragraph of Money Transfer Rule XII-1, relating to special Foreign Transfers, should be corrected to read as follows:

"The word 'Special' shall be inserted directly after the name of the paying station in every message directing the payment of \$100. or over and shall be included in the check, but not charged for."

Example.

Tragent,
New York.

Pay William Henry Justice 45 Regent St. London
Special from Frederick Hunter.
(Count all words).

Ck. 16 Free.

Money Transfer Drafts.

There is sometimes objection, on the part of payees, to the practice of placing the name of the depositor upon the draft issued in payment of a money transfer. This practice should, therefore, be discontinued, the space provided for the name on the transfer draft being left blank, unless for any reason the payee should request that the name be added.

Franks.

CONTRACT DEPARTMENT, October 15th, 1914.

The following Franks should be taken up if presented, and returned to this office for cancellation:

Business Franks.

- No. 6502, issued on account of Louisiana Ry. and Navigation Company.
- No. 10663, issued on account of Yazoo and Mississippi Valley R. R. Co.
- No. 13818, issued on account of Cleve., Cinti., Chicago and St. Louis R. R. Co.
- No. 15466, issued on account of Pere Marquette Railroad Co.
- No. 18896, issued on account of Western Union Telegraph Co.
- No. 19665, issued on account of Gulf and Ship Island Railroad Co.

Complimentary Franks.

Nos. B283 and C153.

Complimentary Franks and Half Rate Franks.

CONTRACT DEPARTMENT, June 20, 1914.

AMENDED NOTICE to the Western Union offices in Nebraska, New Hampshire, Ohio, South Dakota, Wisconsin, California, Illinois, Indiana, Missouri, Montana, New York, Pennsylvania and Texas.

Under the laws of the States of Nebraska, New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service

of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the law of the State of California you will not accept intra-state messages in that State under Half Rate Franks. Holders of such franks legally entitled to reduced rate service may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Illinois, affecting municipalities adopting commission form of government, it will not be legal to and you will not accept at such places intra-state messages in that State under Complimentary Franks, nor intra-state messages under Half Rate Franks. The following places have adopted commission government to date:—

Braceville	Decatur
Carbondale	Dixon
Cairo	Elgin
Catlin	Forest Park
Clinton	Hillsboro
Hamilton	Moline
Harvey	Naperville
Harrisburg	Pekin
Jacksonville	Rock Island
Kewanee	Rochelle
Marseilles	Springfield
Murphysboro	Spring Valley

Waukegan

Under the law of the State of Indiana it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company, nor intra-state messages under Half Rate Franks.

Under the law of the State of Missouri it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Montana it will not be legal to and you will not accept intra-state messages under Complimentary Franks; nor intra-state messages under Half Rate Franks.

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Pennsylvania it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state

messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells Fargo & Company.

G. W. E. ATKINS,
Vice-President.

Telegraph and Telephone Life Ins. Assn.

This Association was founded in 1867, at the Western Union Telegraph Company's main office, New York, with a membership of 125. Since then there has been disbursed to the beneficiaries (principally widows and orphans) of its deceased members nearly One Million, Eight hundred thousand dollars, and the charter members still surviving have each paid but 569 assessments, an average of \$12.30 yearly for \$1,000.00 insurance.

The insurance is now offered in two grades, Full Grade \$1,000 and Half Grade \$500.00, benefit; with the small initiation fee of \$2.00 for each grade, from which \$1.00 is allowed towards the cost of medical examination, and there is no further charge thereafter for new certificates or other incidental expenses.

The assessment calls are based on age at entry as per following schedule and are not subject to change.

Age	Full Grade	Half Grade
18 to 30.	\$1.00	\$0.50
30 to 35.	\$1.25	\$0.63
35 to 40.	\$1.50	\$0.75
40 to 45.	\$2.00	\$1.00

The number of calls issued in any one year depends on the number of death claims filed, and averages about fifteen.

All engaged in telegraph or telephone service in good health, between ages of 18 and 45; are eligible for membership and no person of more than 45 can be admitted.

Membership once acquired cannot be affected by change of occupation or residence and certificates are incontestible for any cause whatever after one years membership.

Reserve fund \$344,000, securely and profitably invested, yielding a generous income which is used to lower the mortality cost.

No more advantageous insurance can be had elsewhere, and as every one needs insurance, why delay.

Send for application forms to M. J. O'Leary, Secretary, P. O. Box 510, New York City.

TARIFF BUREAU.

WESTERN UNION TELEGRAPH CO.
NEW YORK, October 20, 1914.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the Tariff Book of July 1913, and Journal of June 20th., "Changes" are printed in "Italics"; "New offices" in "Roman" type.

The new Tariff Book, No. 59, will be issued soon.

This issue of the Journal contains only the changes and additions made since the June Journal.

To ascertain the correct present status of Western Union offices and "other" line points, consult the Tariff Book of July, 1913, the Journal of the Telegraph of June 20th., 1914, and this Journal.

Complete lists of changes in and additions to Sheet "O" No. 4, Cable Rates, and List of Money Transfer offices, are shown on pages 10 to 18 inclusive.

WIRELESS.

Note 5, and the paragraph following, on page 812 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and the town of Bluefields, in Nicaragua, may be reached by wireless service from Colon (Rep. of Panama) at rate of 21c. per word in addition to the cable rate to Colon.

Note 6. Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 21c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 3, page 866 of Tariff Book should be corrected to read as follows:

"In accepting Wireless Companies' franks for messages via Siasconsett, Mass., the amount covered by the wireless frank is 23c. per word. Via Hatteras, N. C. and Grand Island, La., 10c. per word. Friday Harbor, Wash., 20c. per word for Trans-ocean vessels and 10c. per word for Coastwise vessels. Cape Ray, N. F. and Grand Marais, Minn., 10c. per word, FOR VLSSELS TO WHICH THOSE RATES APPLY.

Foot note on page 868 of Tariff Book should be corrected to read as follows:

‡ The wireless rate for coastwise vessels of the Booth, Lampport & Holt, Quebec, Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

HONOLULU, HAWAIIAN ISLANDS.

Messages for Honolulu, Hawaiian Islands, will hereafter be forwarded by wireless from San Francisco, unless otherwise routed by senders. Rate 25c. per word beyond San Francisco, or 10c. per word less than rates shown in ninth column, page 825 of Tariff Book.

Offices in Islands of Hawaii, Maui, Kauai and Molokai, 15c. per word more than rate to Honolulu.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. to New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 824 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

Effective at once rate from Arizona to Commercial Pacific cable stations should be reduced by five cents per word, making it same as from California (except San Francisco and Oakland) Idaho, Nevada, etc. Pages 825 and 826 of the Tariff Book should be corrected accordingly.

DUTCH EAST INDIES.

Rate to Dutch East Indies, including Java and all other Islands, is now 95c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column all rates 20c. less.

HAWAIIAN ISLANDS.

Foot note on page 825 of the Tariff Book is hereby canceled and following substituted therefor:

Note: Other islands (Hawaii, Maui, Kauai and Molokai) 15c. per word more than rate to Honolulu.

Applicants for registration in Hawaiian Territory of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

PHILIPPINE ISLANDS.

Effective January 1, 1914, rates to Philippine Islands via Commercial Pacific Cable will be revised as follows:

Luzon:

Manila—no change.

Other offices—no change.

Panay:

Iloilo—no change.

Other offices—Increased by 9c. per word.

Negros:

Bacalod—no change.

Other offices—Increased by 9c. per word.

Cebu:

Cebu—no change.

Other offices—Increased by 9c. per word.

All other islands and offices—Increased by 9c. per word.

The foregoing corrects rates shown in page 826 of the Tariff Book.

ATLANTIC CABLES.

DUTCH EAST INDIES.

Wireless communication has been established from Sitoebondo, Java to Amboina, (Amboina Island) and Keopang, (Timor Island.) Rate same as to other Dutch East Indies. Messages accepted only at senders risk.

WEST INDIES.

Following reduced rates to West Indies and South America shown on pages 837 and 838 of the Tariff Book were put in force October 1.

	1st. Col.	2nd. Col.	3rd. Col.
Antigua	36	41	36

CUBA.

Telegraph offices have been opened at the following places in Cuba:

TOWN	PROVINCE
Amarillas,	Matanzas,
Arroyo Naranjo,	Havana,
Cabezas,	Matanzas.
Mata,	Santa Clara.
Melena del Sur.	Havana.
Quinta,	Santa Clara.
San Felipe,	Havana.

GUADALOUPE, ETC.

Effective February 1st the rates to Guadeloupe, Martinique, Marie Galante and Les Saintes were reduced 5c. per word less than rates shown on page 838 of the Tariff Book.

SAN DOMINGO,

The establishment of a new route to San Domingo via Wireless from Ponce, P. R., permits of the acceptance of mes-

sages for San Domingo at a reduction of 52 cents per word in the tariff. The dependability of this route having been established, it will be considered our normal route via which all messages to San Domingo will transit in future unless otherwise marked by the senders. Page 838 of the Tariff Book should be corrected so as to show the following tariffs:

From W. U. and G. N. W. offices in the U. S. east of the Miss. River, including St. Louis, Mo., and Minneapolis, Minn., to San Domingo—80 cents per word.

From W. U. offices in the U. S. west of the Miss. River, except St. Louis, Mo., and Minneapolis, Minn., and from W. U. offices in B. C. and from G. N. W. offices in Manitoba, to San Domingo—85 cents per word.

From W. U. and G. N. W. offices in N. B., N. S., Ontario and Quebec, to San Domingo—85 cents per word.

Messages marked "Via Hayti" will be accepted at the rates in force via that route; viz.: 20 cents per word higher than the rate via Ponce and Wireless.

SOUTH AMERICA.

BRAZIL.

Effective Apr. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book as \$1.11 from La. and Tex. and \$1.15 from other states and provinces) will be \$1.08 from La. and Tex. and \$1.12 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.41 from La. and Tex. and \$1.45 from other states and provinces) will be \$1.32 from La. and Tex. and \$1.36 from other states and provinces.

Wireless communication has been established with following places in Brazil.

Cruzeiro de Sul.	Senna Madureira.
Porto Velho.	Tarauaca.
Rio Branco.	Xapury.

	Via	Via
Rates per word:	Belem	Manaos
From La. and Texas...	1.30	1.61
From other States and		
Provinces	1.34	1.65

Messages for these places accepted only at senders risk and must be marked "Wireless Belem" or "Wireless Manaos," which indication shall be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

FRENCH GUIANA.

Effective June 1 rate to French Guiana was reduced by 7 cents per word. Tariff

Book entry, page 838, should be corrected as follows:

	1st.	2nd.	3rd.
	Col	Col	Col
French Guiana	1.31	1.36	1.36

PERU.

Wireless telegraph station has been opened at Itaya in Peru. Rate same as to Iquitos shown in page 841 of Tariff Book.

Effective at once rate to Iquitos, Masisea, Orellana and Requena in Peru shown in sixth column, page 841 of Tariff Book is restored.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Columbia "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book or JOURNAL, which, together, furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line delivery, or telephone charges, which should be provided for when messages are accepted.

MONEY TRANSFER SERVICE.

SPECIAL NOTICES.

Transfers to be paid at Western Union Transfer offices will be accepted by the Postal Telegraph Cable Co., of Texas.

Orders from the offices of the Texas Postal will pass through the Postal Company's Agent at Dallas, and will be signed "T. P. M. T. A." Western Union Transfer Agents will report the payment of such transfers as under the name of the originating office and not under Dallas, unless the transfer originated at Dallas.

Service messages in reference to Money Orders from the Texas Postal will be protected by the words in Cipher "B" Sheet used with the Texas Postal Agent at Dallas.

Following is a list of the Texas Postal offices: Fort Smith, Helena, Hot Springs, Little Rock, Pine Bluff, Texarkana, in Arkansas. Alexandria, Crowley, Lake Charles, Monroe, Morgan City, Shreveport, in Louisiana. Ardmore,

Chickasha, McAlester, Muskogee, Oklahoma City, Tulsa, in Oklahoma. Austin, Beaumont, Dallas, Denison, Fort Worth, Galveston, Houston, Marshall, Orange, Paris, Port Arthur, San Antonio, Sherman, Taylor, Texarkana, Waco, in Texas. Joplin, in Missouri.

The following changes and additions supplement the list of Money Transfer offices:

DON'T THROW AWAY YOUR OLD "LEAKY", "SMEARY" FOUNTAIN PEN
We will allow you 50 cents for it in exchange, for the only perfect fountain pen made.
Send it to us with \$2.00 and we will send you a pen that will be a source of never ending usefulness and comfort to you,—a pen that will do your bidding if you but guide it aright over the writing sheet

LAUGHLIN AUTOMATIC—NON-LEAKABLE SELF STARTING FILLING PEN 10 Days' Free Trial

You don't have to fuss and shake a Laughlin to start the ink—*It's a Self Starter.*
You don't have to fill the Laughlin, *it's a Self Filler.*
You don't have to clean the Laughlin, *it's a Self Cleaner.*
You don't have to monkey with dangerous, awkward or unsightly locks, extensions, or so-called Safety devices—*There are none.*
You can't forget to seal a Laughlin against leaking, it seals itself air-tight automatically.

You can't lose your cap from a Laughlin—it secures itself automatically.
You can't break your cap or holder on a Laughlin—*They are non-breakable.*

Holder and cap of scientific reinforced construction throughout. *See illustration.*
You don't have to wait until a Laughlin is ready. It is ready to write when you are; the air-tight leak-proof construction keeps pen and feed "primed", insuring a free uniform flow of ink instantly—even though not previously used for a year.

It performs these functions with no more hindrance or interruption to your thoughts or writing inspiration than your breathing.
These results—or your money back.

These features are peculiar only to this patented construction.

If you have no discarded back number dropper filler to send us in exchange, this pen will be promptly forwarded upon receipt of

Price \$2.50

Salesmen, also Selling Agents, wanted to solicit the trade on this widely advertised writing wonder.

Telegraphy & Train Operation

by retired railway officer.

All graduates placed in R. R. Telegraph service direct. Expenses earned. Opportunities unexcelled

PELNAR SCHOOL OF TELEGRAPHY,
MADISON, WIS.

WE ARE PARCEL-POST NEIGHBORS

The best bug cords 50 cents each. Old sending machines repaired; nickle-plating; safety razor blades sharpened 30 cents per dozen. We sell and repair everything electrical and mechanical. Manufacturing, experimental and die work a specialty. Tell us your wants.

BENTON MANUFACTURING CO., Not Inc.,
656 West 55th Street Chicago, Ills.

MARCONI OPERATORS SEE THE WORLD

The Radio (Wireless)

operator finds his work congenial, entertaining, instructive and intensely interesting. He is, in fact, an officer of the ship. Our school is recognized as a Marconi Wireless Training School by the Marconi Wireless Telegraph Company of America. We have a contract with the latter Company whereby our graduates are to receive preference for positions on the Great Lakes and Gulf Divisions over applicants from all other schools or sources, not excluding their own schools on the Atlantic and Pacific Coasts. Our graduates have an equal opportunity of securing employment on the Coasts Divisions with graduates from their own schools. The course of instruction obtainable in our Radio Department is the most thorough and comprehensive given anywhere. Graduates have no difficulty in obtaining U. S. Government first-grade licenses. Tuition reasonable—special rates offered to Morse operators. Living expenses very low. Opportunity to earn same. We also teach practically and thoroughly Morse or Wire, Railway and Commercial Telegraphy, and Railway Accounting (Station Agency). Largest School. Annual enrollment exceeds 600. Established 40 years. Investment exceeds \$25,000.00. Send for large illustrated catalog.

JOURNAL OF THE TELEGRAPH.

VOL. XLVI.

NEW YORK, NOVEMBER 20, 1914.

WHOLE NO. 737.

To ascertain the present status of Western Union offices and "other" line points, consult the Tariff Book of July, 1913, the Journal of the Telegraph of June 20th, 1914, and this Journal.

Complimentary Franks and Half Rate Franks.

CONTRACT DEPARTMENT, November 19th, 1914.

AMENDED NOTICE to Western Union offices in California, Colorado, District of Columbia, Illinois, Indiana, Kansas, Louisiana, Massachusetts, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Texas, Vermont, Washington, West Virginia and Wisconsin.

Under the laws of the States of New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the laws of the States of California and Colorado you will not accept intra-state messages under Half Rate Franks. Holders of such Franks legally entitled to reduced rate service within those States may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the District of Columbia it will not be legal to and you will not accept messages between points in that District under either Complimentary or Half Rate Franks.

Under the laws of the States of Illinois and Montana it will not be legal to and you will not accept intra-state messages under either Complimentary or Half Rate Franks.

Under the laws of the States of Indiana and Nebraska it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company, nor intra-state messages under Half Rate Franks.

Under the laws of the States of Kansas, Louisiana, Massachusetts, Minnesota, Mississippi, Nevada, New Jersey, North Dakota, Oklahoma, Oregon, South Carolina, Vermont, Washington and West Virginia it will not be legal to and you will not accept intra-state messages under Half Rate Franks.

Under the laws of the States of Missouri and Penn-

sylvania it will not be legal to and you will not accept intra-state messages under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Rhode Island it will not be legal to and you will not accept intra-state messages under Half Rate Franks unless authorized by the Public Utility Commission.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells, Fargo & Company.

Franks.

CONTRACT DEPARTMENT, November 18th, 1914.

The following Franks should be taken up if presented, and returned to this office for cancellation:

Business Franks.

No. 6502, issued on account of Louisiana Ry. and Navigation Company.

No. 10663, issued on account of Yazoo & Mississippi Valley R. R. Co.

No. 13818, issued on account of Cleve., Cinti., Chicago and St. Louis R. R. Co.

No. 18896, issued on account of Western Union Telegraph Company.

No. 19665, issued on account of Gulf and Ship Island Railroad Co.

No. 19828, issued on account of Kansas City, Mexico & Orient Railway Co.

Complimentary Franks.

Nos. B283 and C153.

G. W. E. ATKINS,

Vice-President.

TARIFF BUREAU.

WESTERN UNION TELEGRAPH CO.
NEW YORK, November 20, 1914.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the Tariff Book of July 1913, and Journal of June 20th., "Changes" are printed in "Italics"; "New offices" in "Roman" type.

The new Tariff Book, No. 59, will be issued soon.

This issue of the Journal contains only the changes and additions made since the June Journal.

To ascertain the correct present status of Western Union offices and "other" line points, consult the Tariff Book of July, 1913, the Journal of the Telegraph of June 20th., 1914, and this Journal.

Complete lists of changes in and additions to Sheet "O" No. 4, Cable Rates, and List of Money Transfer offices, are shown on pages 13 to 21 inclusive.

WIRELESS.

Note 5, and the paragraph following, on page 842 of the Tariff Book have been amended to read as follows:

Note 5. Points in Costa Rica, and the town of Bluefields, in Nicaragua, may be reached by wireless service from Colon (Rep. of Panama) at rate of 21c.

per word in addition to the cable rate to Colon.

Note 6. Bocas, or Bocas del Toro, in the Rep. of Panama, is reached only by wireless beyond Colon at rate of 21c. per word beyond Colon. This added rate must always be collected unless the messages are to be mailed from Colon, in which case the prefix "Post" must be inserted in the address and counted and charged for.

Owing to recent reductions in wireless rates the last five lines of paragraph 3, page 866 of Tariff Book should be corrected to read as follows:

"In accepting Wireless Companies' franks for messages via Siasconsett, Mass., the amount covered by the wireless frank is 23c. per word. Via Hatteras, N. C. and Grand Island, La., 10c. per word, Friday Harbor, Wash., 20c. per word for Trans-ocean vessels and 10c. per word for Coastwise vessels. Cape Ray, N. F. and Grand Marais, Minn., 10c. per word, FOR VESSELS TO WHICH THOSE RATES APPLY.

Foot note on page 868 of Tariff Book should be corrected to read as follows:

‡ The wireless rate for coastwise vessels of the Booth, Lamport & Holt, Quebec, Royal Mail Steam Packet and United Fruit Co. lines, is 14c. per word, via all American Coast Stations with the exception of the Naval Station at Key West, Fla.

HONOLULU, HAWAIIAN ISLANDS.

Messages for Honolulu, Hawaiian Islands, will hereafter be forwarded by wireless from San Francisco, unless otherwise routed by senders. Rate 25c. per word beyond San Francisco, or 10c. per word less than rates shown in ninth column, page 825 of Tariff Book.

Offices in Islands of Hawaii, Maui, Kauai and Molokai, 15c. per word more than rate to Honolulu.

Owing to the United States Government censorship at Wireless Stations, code and cipher cannot at present be used via this route.

BRITISH PACIFIC CABLE.

Port Moresby in British New Guinea may be reached by wireless from Australia. Rate 4c. per word in addition to rate to Australia.

Rate Alabama, Arizona, Arkansas, etc. to New Zealand, should be 0.63, instead of \$1.63 per word as shown on page 824 of Tariff Book.

COMMERCIAL PACIFIC CABLE.

Effective at once rate from Arizona to Commercial Pacific cable stations should be reduced by five cents per word, making it same as from California (except San Francisco and Oakland) Idaho, Nevada, etc. Pages 825 and 826 of the Tariff Book should be corrected accordingly.

DUTCH EAST INDIES.

Rate to Dutch East Indies, including Java and all other Islands, is now 98c. per word beyond San Francisco.

This will reduce rates shown in fifth and sixth columns, page 825 of Tariff Book as follows: Fifth column all rates 10c. less. Sixth column all rates 20c. less.

HAWAIIAN ISLANDS.

Foot note on page 825 of the Tariff Book is hereby canceled and following substituted therefor:

Note: Other islands (Hawaii, Maui, Kauai and Molokai) 15c. per word more than rate to Honolulu.

Applicants for registration in Hawaiian Territory of code addresses for cablegrams should be informed that the persons to whom cablegrams are to be delivered must themselves arrange for the registration of their code addresses at their local telegraph offices.

PHILIPPINE ISLANDS.

Effective January 1, 1914, rates to Philippine Islands via Commercial Pacific Cable will be revised as follows:

Luzon:

Manila—no change.

Other offices—no change.

Panay:

Iloilo—no change.

Other offices—Increased by 9c. per word.

Negros:

Bacalod—no change.

Other offices—Increased by 9c. per word.

Cebu:

Cebu—no change.

Other offices—Increased by 9c. per word.

All other islands and offices—Increased by 9c. per word.

The foregoing corrects rates shown in page 826 of the Tariff Book.

Pages 831 to 835 of the Tariff Book should be corrected in accordance with the foregoing.

DUTCH EAST INDIES.

Wireless communication has been established from Sitoebond, Java to Amboina, (Amboina Island) and Keopang, (Timor Island.) Rate same as to other Dutch East Indies. Messages accepted only at sender's risk.

WEST INDIES.

Following reduced rates to West Indies and South America shown on pages 837 and 838 of the Tariff Book were put in force October 1.

	1st. Col.	2nd. Col.	3rd. Col.
Antigua	36	41	36
Barbadoes	36	41	36

CUBA.

Telegraph offices have been opened at the following places in Cuba:

TOWN	PROVINCE
Amarillas,	Matanzas,
Arroyo Naranjo,	Havana,
Cabezas,	Matanzas.
Mata,	Santa Clara.
Melena del Sur.	Havana.
Quinta.	Santa Clara.
San Felipe.	Havana.

GUADALOUPE, ETC.

Effective February 1st the rates to Guadeloupe, Martinique, Marie Galante and Les Saintes were reduced 5c. per word less than rates shown on page 838 of the Tariff Book.

SAN DOMINGO,

The establishment of a new route to San Domingo via Wireless from Ponce, P. R., permits of the acceptance of messages for San Domingo at a reduction of 52 cents per word in the tariff. The dependability of this route having been established, it will be considered our normal route via which all messages to San Domingo will transit in future unless otherwise marked by the senders. Page 838 of the Tariff Book should be corrected so as to show the following tariffs:

From W. U. and G. N. W. offices in the U. S. east of the Miss. River, including St. Louis, Mo., and Minneapolis, Minn., to San Domingo—80 cents per word.

From W. U. offices in the U. S. west of the Miss. River, except St. Louis, Mo., and Minneapolis, Minn., and from W. U. offices in B. C. and from G. N. W. offices in Manitoba, to San Domingo—85 cents per word.

From W. U. and G. N. W. offices in N. B., N. S., Ontario and Quebec, to San Domingo—85 cents per word.

Messages marked "Via Hayti" will be accepted at the rates in force via that route; viz.: 20 cents per word higher than the rate via Ponce and Wireless.

SOUTH AMERICA.

BRAZIL.

Effective Apr. 1st rate to Amazon River stations in First Zone (shown on pages 839 and 840 of Tariff Book as

\$1.11 from La. and Tex. and \$1.15 from other states and provinces) will be \$1.08 from La. and Tex. and \$1.12 from other states and provinces.

On same date rate to Amazon River stations in Second Zone (shown as \$1.41 from La. and Tex. and \$1.45 from other states and provinces) will be \$1.32 from La. and Tex. and \$1.36 from other states and provinces.

Wireless communication has been established with following places in Brazil.

Cruzeiro de Sul.	Senna Madureira.
Porto Velho.	Tarauca.
Rio Branco.	Xapury.

	Via Belem	Via Manaos
Rates per word:		
From La. and Texas...	1.30	1.61
From other States and Provinces	1.34	1.65

Messages for these places accepted only at senders risk and must be marked "Wireless Belem" or "Wireless Manaos," which indication shall be counted and charged for.

ECUADOR.

Messages for all places in Ecuador subject to Government censorship at Guayaquil.

FRENCH GUIANA.

Effective June 1 rates to French Guiana was reduced by 7 cents per word. Tariff Book entry, page 838, should be corrected as follows:

	1st. Col.	2nd. Col.	3rd. Col.
French Guiana	1.31	1.36	1.36

PERU.

Wireless telegraph station has been opened at Itaya in Peru. Rate same as to Iquitos shown in page 841 of Tariff Book.

Effective at once rate to Iquitos, Masisea, Orellana and Requena in Peru shown in sixth column, page 841 of Tariff Book is restored.

U. S. of COLOMBIA.

Effective September 1, rates to U. S. of Colombia. "Other offices", were increased by 10c. per word. The eleventh column, page 841 of Tariff Book should be corrected accordingly.

The rate to Buenaventura, U. S. of Colombia is unchanged.

SPECIAL NOTICES.

Managers are urged to use extreme caution in accepting and in checking messages addressed to places not named in Tariff Book or JOURNAL, which, together, furnish a complete list, as far as reported, of all Western Union offices and connections. To other places it should be understood there may be "other" line delivery, or telephone charges, which should be provided for when messages are accepted.

MONEY TRANSFER
SERVICE.

SPECIAL NOTICES.

Transfers to be paid at Western Union Transfer offices will be accepted by the Postal Telegraph Cable Co., of Texas.

Orders from the offices of the Texas Postal will pass through the Postal Company's Agent at Dallas, and will be signed "T. P. M. T. A." Western Union Transfer Agents will report the payment of such transfers as under the name of the originating office and not under Dallas, unless the transfer originated at Dallas.

Service messages in reference to Money Orders from the Texas Postal will be protected by the words in Cipher "B" Sheet used with the Texas Postal Agent at Dallas.

Following is a list of the Texas Postal offices: Fort Smith, Helena, Hot Springs, Little Rock, Pine Bluff, Texarkana, in Arkansas. Alexandria, Crowley, Lake Charles, Monroe, Morgan City, Shreveport, in Louisiana. Ardmore, Chickasha, McAlester, Muskogee, Oklahoma City, Tulsa, in Oklahoma. Austin, Beaumont, Dallas, Denison, Fort Worth, Galveston, Houston, Marshall, Orange, Paris, Port Arthur, San Antonio, Sherman, Taylor, Texarkana, Waco, in Texas. Joplin, in Missouri.

The following changes and additions supplement the list of Money Transfer offices:

Telegraph & Telephone Life Insurance Association

ESTABLISHED 1867

Membership
5550

Reserve Fund
\$344,000

Insurance in Force
\$5,000,000.00

The assessment calls are issued monthly, based on age at entry as per following schedule, and are not subject to change.

Age	Full Grade	Half Grade
18 to 30.	\$1.00	\$0.50
30 to 35.	\$1.25	\$0.63
35 to 40.	\$1.50	\$0.75
40 to 45.	\$2.00	\$1.00

All engaged in telegraph or telephone service in good health, between ages of 18 to 45; are eligible for membership. Initiation fee \$2.00. Certificates incontestible.

No more advantageous insurance can be had elsewhere, and as every one needs insurance, why delay.

Send for application forms to M. J. O'Leary, Secretary, P. O. Box 510, New York City.

ESTABLISHED 1857

PELNAH SCHOOL OF TELEGRAPHY,
MADISON, WIS.

WE ARE PARCEL-POST NEIGHBORS

The best bug cords 50 cents each. Old sending machines repaired; nickle-plating; safety razor blades sharpened 30 cents per dozen. We sell and repair everything electrical and mechanical. Manufacturing, experimental and die work a specialty. Tell us your wants.

BENTON MANUFACTURING CO., Not Inc.,
656 West 55th Street Chicago, Ills.

DON'T THROW AWAY YOUR OLD 'LEAKY', 'SMEARY' FOUNTAIN PEN

We will allow you 50 cents for it, in exchange, for the only perfect fountain pen made.

Send it to us with \$2.00 and we will send you a pen that will be a source of never ending usefulness and comfort to you,—a pen that will do your bidding if you but guide it aright over the writing sheet

LAUGHLIN

AUTOMATIC—NON-LEAKABLE
SELF STARTING PEN
FILLING PEN

10 Days' Free Trial

You don't have to fuss and shake a Laughlin to start the ink—*It's a Self Starter.*

You don't have to fill the Laughlin, *it's a Self Filler.*

You don't have to clean the Laughlin, *it's a Self Cleaner.*

You don't have to monkey with dangerous, awkward or unsightly locks, extensions, or so-called Safety devices—*There are none.*

You can't forget to seal a Laughlin against leaking, it seals itself air-tight automatically.

You can't lose your cap from a Laughlin—it secures itself automatically.

You can't break your cap or holder on a Laughlin—*They are non-breakable.*

Holder and cap of scientific reinforced construction throughout. *See illustration.*

You don't have to wait until a Laughlin is ready. It is ready to write when you are; the air-tight leak-proof construction keeps pen and feed "primed", insuring a free uniform flow of ink instantly—even though not previously used for a year.

It performs these functions with no more hindrance or interruption to your thoughts or writing inspiration than your breathing. *These results—or your money back.*

These features are peculiar only to this patented construction.

If you have no discarded back number dropper filler to send us in exchange, this pen will be promptly forwarded upon receipt of

Price \$2.50

Salesmen, also Selling Agents, wanted to solicit the trade on this widely advertised writing wonder.

MARCONI OPERATORS SEE THE WORLD

WIRELESS

The Radio (Wireless) operator finds his work congenial, entertaining, instructive and intensely interesting. He is, in fact, an officer of the ship. Our school is recognized as a Marconi Wireless Training School by the Marconi Wireless Telegraph Company of America. We have a contract with the latter Company whereby our graduates are to receive preference for positions on the Great Lakes and Gulf Divisions over applicants from all other schools or sources, not excluding their own schools on the Atlantic and Pacific Coasts. Our graduates have an equal opportunity of securing employment on the Coasts Divisions with graduates from their own schools.

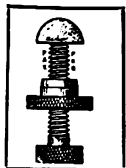

The course of instruction obtainable in our Radio Department is the most thorough and comprehensive given anywhere. Graduates have no difficulty in obtaining U. S. Government first-grade licenses. Tuition reasonable—special rates offered to Morse operators. Living expenses very low. Opportunity to earn same.

We also teach practically and thoroughly Morse or Wire, Railway and Commercial Telegraphy, and Railway Accounting (Station Agency). Largest School. Annual enrollment exceeds 600. Established 40 years. Investment exceeds \$25,000.00. Send for large illustrated catalog.

for Doing It.**

CLEAR THE DECKS OF WORRY.

That's what the **DUNN SHOCK ABSORBER** does. The operator that knows that his "grip" is protected, has more mental room for the day's work—and a higher efficiency. Telegraphers of to-day realize that on the wig-wag type of sending machine, the constant pounding of the vibrator against a metal stop-screw in order to start it in motion and the laborious effort necessary to keep it in motion after it is started, is just as wearing on the nerves as was the metal-to-metal contact on the old Morse key, which has left thousands of brilliant operators without a "grip."

The Dunn Shock Absorber protects the "grip" by eliminating all metal-to-metal contact, with the aid of a rubber cushion stop, that absorbs the jolts, thus preventing any possible injury to the nerves. It also provides a feather-weight touch that lightens the work, and is not a drag on the operator's energy, thereby lengthening his life.

SECURE THE PEACE OF MIND WHICH A PROTECTED "GRIP" GIVES.

Price 50 Cts. Write for Booklet.

The Most Economical Portable Electric Light Made.

LASTS LONGER THAN ANY FLASHLIGHT

When used with the Red Seal Dry Battery it will give about 20 hours of continuous, and from 40 to 50 hours of intermittent, service. If Red Seal Dry Batteries cannot be had any standard dry battery will answer. It is of universal application as there is no situation calling for the use of a candle, lamp, or lantern, which may not be more satisfactorily filled by the REDSEALITE, less the element of danger ever present with any open flame. The automobile or motor boat owner need not have an extra battery for it as the dry cells carried can be used. Use it instead of a match when looking in a dark room or closet. Use it in the barn, in the garage, in the cellar, when going to the well, when feeding stock after dark, etc., etc. It is always safe. No danger of fire from it.

The light is clear, bright and steady. It does not flicker. Unaffected by weather conditions. Rain or snow will not quench it. The strongest gale cannot blow it out. Absolutely reliable where a lantern would be valueless.

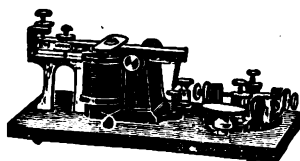

It is made of brass nickel-plated. A push of the finger on the sliding button connects the lamp in circuit. Another push disconnects it.

Its construction is so extremely simple that anyone, no matter how unfamiliar with things electrical, can attach it to a Red Seal Dry Battery which can be procured from any up-to-date dealer in electrical supplies, garage or hardware store.

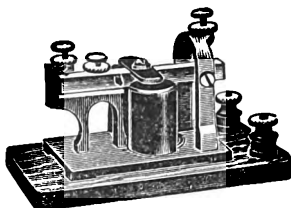

The REDSEALITE should be in every household, as everyone has need for it occasionally and many frequently.

List No.	Price
5235 REDSEALITE, complete with lamp, no battery	\$1.00
5337 REDSEALITE, complete with lamp and battery	1.25

Complimentary Franks and Half Rate Franks.

CONTRACT DEPARTMENT, November 19th, 1914.

AMENDED NOTICE to Western Union offices in California, Colorado, District of Columbia, Illinois, Indiana, Kansas, Louisiana, Massachusetts, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Texas, Vermont, Washington, West Virginia and Wisconsin.

Under the laws of the States of New Hampshire, Ohio, South Dakota and Wisconsin, it will not be legal to and you will not accept intra-state messages in those States under Complimentary Franks except those issued to persons in the service of the Western Union Company; nor intra-state messages under Half Rate Franks "Ordering Sleeping and Parlor Car accommodations."

Under the laws of the States of California and Colorado you will not accept intra-state messages under Half Rate Franks. Holders of such Franks legally entitled to reduced rate service within those States may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the District of Columbia it will not be legal to and you will not accept messages between points in that District under either Complimentary or Half Rate Franks.

Under the laws of the States of Illinois and Montana it will not be legal to and you will not accept intra-state messages under either Complimentary or Half Rate Franks.

Under the laws of the States of Indiana and Nebraska it will not be legal to and you will not accept intra-state messages under Complimentary Franks except those issued to persons in the service of the Western Union Company, nor intra-state messages under Half Rate Franks.

Under the laws of the States of Kansas, Louisiana, Massachusetts, Minnesota, Mississippi, Nevada, New Jersey, North Dakota, Oklahoma, Oregon, South Carolina, Vermont, Washington and West Virginia it

will not be legal to and you will not accept intra-state messages under Half Rate Franks.

Under the laws of the States of Missouri and Pennsylvania it will not be legal to and you will not accept intra-state messages under Complimentary Franks issued to members of families of officials of other companies than the Western Union; nor intra-state messages under Half Rate Franks. Holders of Half Rate Franks under written agreements with this Company may make claim to the Auditor for refund of amounts overpaid on intra-state messages.

Under the law of the State of New York it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials of Express Companies and Steamship Companies and by members of families of officials of other companies than the Western Union.

Under the law of the State of Rhode Island it will not be legal to and you will not accept intra-state messages under Half Rate Franks unless authorized by the Public Utility Commission.

Under the law of the State of Texas it will not be legal to and you will not accept intra-state messages in that State under Complimentary Franks held by officials and their families of Express Companies, except those issued on account of Wells, Fargo & Company.

Franks.

CONTRACT DEPARTMENT, November 18th, 1914.

The following Franks should be taken up if presented, and returned to this office for cancellation:

Business Franks.

No. 6502, issued on account of Louisiana Ry. and Navigation Company.

No. 10663, issued on account of Yazoo & Mississippi Valley R. R. Co.

No. 13818, issued on account of Cleve., Cinti., Chicago and St. Louis R. R. Co.

No. 18896, issued on account of Western Union Telegraph Company.

No. 19665, issued on account of Gulf and Ship Island Railroad Co.

No. 19828, issued on account of Kansas City, Mexico & Orient Railway Co.

Complimentary Franks.

Nos. B283 and C153.

G. W. E. ATKINS,
Vice-President

Dead Head Message Report, Form 38-A.

The 1915 business franks have been numbered so that the last two digits, or numerals, and the following letter, if any, indicate the contract account to which the Auditor will charge the telegraph tolls and it is, therefore, unnecessary to write out the name of the railroad or express company in preparing monthly Dead Head Message Report, Form 38-A.

Each dead head message filed under a card frank shall bear the frank number and each message filed under a stamp frank shall have the necessary stamps affixed. Commencing January 1, 1915, sort the dead head messages according to the last two digits, or numerals (and following letter, if any), of the frank number, making them up into packages (i.e., sort together into one package all messages bearing frank numbers ending in 12, another for all numbers ending in 92C. etc.) Then take each package and sort the messages according to the one or two numbers preceding the last two digits, for example: in package 12, arrange the messages under franks 812, 912, 1012, 1112, etc., in that order, still keeping the messages in package 12. Make one package of all dead head answers and another package of all complimentary stamp frank messages. On Form 38-A, under "Account," make an entry for each package, showing the last two digits (and suffix letters, if any) of the frank number, the total number of messages, and the aggregate tolls. Dead head messages filed without franks under special approved arrangements such

as those of Wells Fargo and Southern Express messengers, shall be entered under account names, as heretofore. Enter dead head answers, complimentary stamp messages and employees' messages, each package as one item, as heretofore.

The 1914 franks were not so numbered and if any 1914 messages are included in the January, 1915, Dead Head Message Report, they must be reported separately under full account name, as heretofore.

H. W. LADD,
Auditor.

Telegraph Company's Vigilance In Detecting Fraud.

D. A. Walderen, alias R. L. Newburn, alias J. W. Clark, a telegraph operator, was recently convicted of forging telegrams, and sentenced to two years' imprisonment. A bank which he attempted to defraud took the precaution to wire for confirmation of the payment which it was called on to make. The operator who handled the bank's message requesting verification and the ensuing telegraphic correspondence suspected that something was wrong and brought the matter to the attention of his superior. When circumstances developed which indicated that a telegraph employe was concerned in the attempt at fraud, the telegraph company took immediate energetic steps to discover the guilty person, and the arrest and conviction of Walderen followed.

TARIFF BUREAU.

WESTERN UNION TELEGRAPH CO.
NEW YORK, December 20, 1914.

The 1915 Tariff Book is now being distributed and should reach all offices by or before January 1st, 1915.

In the following columns may be found all changes in and additions to the list of "this" and "other" line stations shown in the new book except to Alberta, British Columbia, Manitoba, Ontario and Saskatchewan. Changes and additions in those provinces are shown in a special Supplement distributed with this Journal.

Complete list of changes in and additions to List of Money Transfer offices, is shown on pages 11 to 15 inclusive.

TO OFFICES HAVING SHEET

"O." No. 4.

A new "Sheet O" is now being prepared and will be issued to offices interested in the near future.

CABLES.

EUROPE, ASIA, ETC.

During interruption of normal routes to Bosna, Bulgaria, Montenegro, Roumania and Servia, messages for those countries may be forwarded via the following alternate routes and at rates named, in addition to rate to London.

Bosnia (secret language prohibited).	
" via Marseilles and Eastern15
" via Eastern28
Bulgaria and Eastern Roumelia (cipher prohibited)	
" via Marseilles and Eastern16
" via Eastern29
Montenegro (secret language prohibited).	
" via Marseilles and Eastern15
" via Eastern28
Roumania (secret language prohibited).	
" via Marseilles and Eastern15
" via Eastern28
Servia (secret language prohibited).	
" via Marseilles and Eastern15
" via Eastern28

FALKLAND ISLANDS.

Wireless communication has been established with the Falkland Islands from Cerritos, Uruguay. Rate 30c. per word added to rate to Uruguay. Messages must be in plain language.

SAMOA ISLANDS.

Wireless communication has been established between Suva, Fiji Islands and Tutuila Island in Samoan Group. Rate to Tutuila Island 17c. per word more than rate to Suva.

U. S. of COLOMBIA.

The rate to all places in U. S. of Colombia, except Buenaventura, has been reduced 5c. per word from figures shown in Tariff Book.

DEFERRED SERVICE.

Deferred telegrams may now be accepted for Port Moresby in British New Guinea and for Flinders Island in Australia. Rates same as for deferred telegrams to Australia, plus 4c. per word.

MONEY TRANSFER SERVICE.

SPECIAL NOTICES.

Transfers to be paid at Western Union Transfer offices will be accepted by the Postal Telegraph Cable Co., of Texas.

Orders from the offices of the Texas Postal will pass through the Postal Company's Agent at Dallas, and will be signed "T. P. M. T. A." Western Union Transfer Agents will report the payment of such transfers as under the name of the originating office and not under Dallas, unless the transfer originated at Dallas.

Service messages in reference to Money Orders from the Texas Postal will be protected by the words in Cipher "B" Sheet used with the Texas Postal Agent at Dallas.

Following is a list of the Texas Postal offices: Fort Smith, Helena, Hot Springs, Little Rock, Pine Bluff, Texarkana, in Arkansas. Alexandria, Crowley, Lake Charles, Monroe, Morgan City, Shreveport, in Louisiana. Ardmore, Chickasha, McAlester, Muskogee, Oklahoma City, Tulsa, in Oklahoma. Austin, Beaumont, Dallas, Denison, Fort Worth, Galveston, Houston, Marshall, Orange, Paris, Port Arthur, San Antonio, Sherman, Taylor, Texarkana, Waco, in Texas. Joplin, in Missouri.

The following changes and additions supplement the list of Money Transfer offices:

WE ARE PARCEL-POST NEIGHBORS

The best bug cords 50 cents each. Old sending machines repaired; nickle-plating; safety razor blades sharpened 30 cents per dozen. We sell and repair everything electrical and mechanical. Manufacturing, experimental and die work a specialty. Tell us your wants.

BENTON MANUFACTURING CO., Not Inc.,
656 West 55th Street Chicago, Ills.

MARCONI OPERATORS SEE THE WORLD

WIRELESS

The Radio (Wireless) operator finds his work congenial, entertaining, instructive and intensely interesting. He is, in fact, an officer of the ship. Our school is recognized as a Marconi Wireless Training School by the Marconi Wireless Telegraph Company of America. We have a contract with the latter Company whereby our graduates are to receive preference for positions on the Great Lakes and Gulf Divisions over applicants from all other schools or sources, not excluding their own schools on the Atlantic and Pacific Coasts. Our graduates have an equal opportunity of securing employment on the Coasts Divisions with graduates from their own schools. The course of instruction obtainable in our Radio Department is the most thorough and comprehensive given anywhere. Graduates have no difficulty in obtaining U. S. Government first-grade licenses. Tuition reasonable—special rates offered to Morse operators. Living expenses very low. Opportunity to earn same. We also teach practically and thoroughly Morse or Wire, Railway and Commercial Telegraphy, and Railway Accounting (Station Agency). Largest School. Annual enrollment exceeds 600. Established 40 years. Investment exceeds \$25,000.00. Send for large illustrated catalog.

DODGE'S TELEGRAPH, RAILWAY ACCOUNTING & RADIO (WIRELESS) INSTITUTE. 4th Street, Valparaiso, Indiana.

Circular describing our 5 different styles of Omnigraphs free. \$2.00 up.

THE NEW OMNIGRAPH DOT AND DASH SENDER Motor Key sends dot and dashes perfectly at any speed. Impossible to send a "split" dot. Price \$12.00.

OMNIGRAPH MFG. CO., DEPT. 1, 39 CORTLANDT STREET, NEW YORK, N. Y.

Bound according to sample.

The Most Economical Portable Electric Light Made. LASTS LONGER THAN ANY FLASHLIGHT

When used with the Red Seal Dry Battery it will give about 20 hours of continuous, and from 40 to 50 hours of intermittent, service. If Red Seal Dry Batteries cannot be had any standard dry battery will answer. It is of universal application as there is no situation calling for the use of a candle, lamp, or lantern, which may not be more satisfactorily filled by the REDSEALITE, less the element of danger ever present with any open flame. The automobile or motor boat owner need not have an extra battery for it as the dry cells carried can be used. Use it instead of a match when looking in a dark room or closet. Use it in the barn, in the garage, in the cellar, when going to the well, when feeding stock after dark, etc., etc. It is always safe. No danger of fire from it.

The light is clear, bright and steady. It does not flicker. Unaffected by weather conditions. Rain or snow will not quench it. The would be valueless.

It is made of brass nickel-plated. A push of the finger on the strongest gale cannot blow it out. Absolutely reliable where a lantern sliding button connects the lamp in circuit. Another push disconnects it.

Its construction is so extremely simple that anyone, no matter how unfamiliar with things electrical, can attach it to a Red Seal Dry Battery which can be procured from any up-to-date dealer in electrical supplies, garage or hardware store.

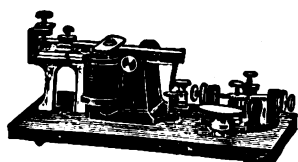

The REDSEALITE should be in every household, as everyone has need for it occasionally and many frequently.

List No.
